

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Authority, based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 and is exempt from State of California personal income taxes. In the further opinion of Bond Counsel, interest on the Bonds is not a specific preference item for purposes of the federal alternative minimum tax. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds. See “TAX MATTERS” herein.

\$170,120,000

CALIFORNIA HEALTH FACILITIES FINANCING AUTHORITY

Revenue Bonds

(STANFORD HEALTH CARE)

2020 Series A

Dated: Date of Delivery

Due: As set forth on inside cover hereof

The 2020 Series A Bonds (the “Bonds”) are being issued as fully registered bonds and initially will be registered in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York (“DTC”). DTC will act as securities depository for the Bonds. Purchases of beneficial interests in the Bonds will be made in book-entry only form (without physical certificates). For so long as DTC or its nominee, Cede & Co., is the registered owner of the Bonds, (i) payments of the principal of and interest on the Bonds will be made directly to Cede & Co. for payment to its participants for subsequent disbursement to the Beneficial Owners, and (ii) all notices, including any notice of redemption, shall be mailed only to Cede & Co. See APPENDIX E – “Book-Entry System” herein.

The Bonds will bear interest at a long-term interest rate from the date of their delivery until their maturity date, as set forth on the inside cover hereof. The Bonds will be issued in denominations of \$5,000 and any integral multiple thereof. A summary of the terms applicable to the Bonds is set forth herein and in APPENDIX C hereto.

Interest on the Bonds is payable on February 15 and August 15 of each year, commencing August 15, 2020.

The Bonds are subject to optional and special redemption prior to maturity under certain circumstances described herein.

The Bonds are limited obligations of the Authority, secured under the provisions of the Indenture and Loan Agreement, as described herein, and will be payable from Loan Repayments made by Stanford Health Care (the “Corporation”) under the Loan Agreement and from certain funds held under the Indenture. The obligation of the Corporation to make such payments is evidenced and secured by Obligation No. 42 issued under the Master Indenture, described herein, whereunder the Corporation and any future members of the Obligated Group (collectively, the “Obligated Group”) jointly and severally are obligated to make payments on Obligation No. 42 in an amount sufficient to pay the principal of and interest on the Bonds when due. Currently, the Corporation is the sole member of the Obligated Group.

THE BONDS SHALL NOT BE DEEMED TO CONSTITUTE A DEBT OR LIABILITY OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF OTHER THAN THE AUTHORITY OR A PLEDGE OF THE FAITH AND CREDIT OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF, BUT SHALL BE PAYABLE SOLELY FROM THE FUNDS THEREFOR PROVIDED. NEITHER THE STATE OF CALIFORNIA NOR THE AUTHORITY SHALL BE OBLIGATED TO PAY THE PRINCIPAL OF THE BONDS OR THE PREMIUM, IF ANY, OR THE INTEREST THEREON EXCEPT FROM THE FUNDS PROVIDED UNDER THE LOAN AGREEMENT AND THE OTHER ASSETS PLEDGED UNDER THE INDENTURE, AND NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF OR THE PREMIUM, IF ANY, OR THE INTEREST ON THE BONDS. THE ISSUANCE OF THE BONDS SHALL NOT DIRECTLY OR INDIRECTLY OR CONTINGENTLY OBLIGATE THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF TO LEVY OR TO PLEDGE ANY FORM OF TAXATION WHATSOEVER THEREFOR OR TO MAKE ANY APPROPRIATION FOR THEIR PAYMENT. THE AUTHORITY HAS NO TAXING POWER.

This cover page contains certain information for quick reference only. It is not intended to be a summary of the security or terms of the Bonds. Investors should read the entire Official Statement to obtain information essential to the making of an informed investment decision.

The Bonds are offered when, as and if received by the Underwriters, subject to prior sale, to the withdrawal or modification of the offer without notice, and to the approval of the validity of the Bonds and certain legal matters by Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Authority, the approval of certain matters for the Corporation by its counsel, Ropes & Gray LLP, San Francisco, California, for the Authority by its counsel, the Attorney General of the State of California, and for the Underwriters by their counsel, Norton Rose Fulbright US LLP, San Francisco, California. It is expected that the Bonds in book-entry form will be available for delivery through the facilities of DTC, on or about April 1, 2020.

This Official Statement does not constitute an offer to sell the Bonds or the solicitation of an offer to buy, nor shall there be any sale of the Bonds by any person in any state or other jurisdiction to any person to whom it is unlawful to make such offer, solicitation or sale in such state or jurisdiction. No dealer, broker, salesperson or any other person has been authorized to give any information or to make any representation, other than those contained in this Official Statement in connection with the offering of the Bonds and, if given or made, such information or representation must not be relied upon. The Underwriters have provided the following sentence for inclusion in this Official Statement: The Underwriters have reviewed the information in this Official Statement in accordance with and as part of their responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

The information set forth herein under the captions “THE AUTHORITY” and “ABSENCE OF MATERIAL LITIGATION—The Authority” has been furnished by the Authority. The Authority does not warrant the accuracy of the statements contained herein relating to the Corporation nor does it directly or indirectly guarantee, endorse or warrant (1) the creditworthiness or credit standing of the Corporation, (2) the sufficiency of the security for the Bonds or (3) the value or investment quality of the Bonds. The Authority makes no representations or warranties whatsoever with respect to any information contained therein except for the information under the sections entitled “THE AUTHORITY” and “ABSENCE OF MATERIAL LITIGATION—The Authority.”

The information relating to DTC and the book-entry system set forth herein under the caption “THE BONDS—General” and in Appendix E hereto has been furnished by DTC. Such information is believed to be reliable but is not guaranteed as to accuracy or completeness and is not to be construed as a representation by the Authority, the Corporation or the Underwriters. All other information set forth herein has been obtained from the Corporation and other sources (other than the Authority) that are believed to be reliable, but such information is not guaranteed as to accuracy or completeness and is not to be construed as a representation by the Authority or the Underwriters. The information and expressions of opinion herein are subject to change without notice, and neither the delivery of this Official Statement, nor any sale of the Bonds made hereunder, shall create under any circumstances any indication that there has been no change in the affairs of the Authority, DTC or the Corporation since the date hereof. This Official Statement is being provided to prospective investors in connection with the issuance of securities referred to herein and may not be used, in whole or in part, for any other purpose.

IN CONNECTION WITH THE OFFERING OF THE BONDS, THE UNDERWRITERS MAY OVER ALLOT OR EFFECT TRANSACTIONS THAT STABILIZE OR MAINTAIN THE MARKET PRICE OF THE BONDS OFFERED HEREBY AT LEVELS ABOVE THAT WHICH OTHERWISE MIGHT PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS IN THIS OFFICIAL STATEMENT

Certain statements included or incorporated by reference in this Official Statement constitute “forward-looking statements.” Such statements generally are identifiable by the terminology used, such as “plan,” “expect,” “estimate,” “budget” or other similar words. Such forward-looking statements include but are not limited to certain statements under the captions “THE PLAN OF FINANCE” and “BONDHOLDERS’ RISKS” in the forepart of this Official Statement and the statements contained under the caption “Management’s Discussion and Analysis of Recent Financial Performance” in APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION.”

The achievement of certain results or other expectations contained in such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements described to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The Corporation does not plan to issue any updates or revisions to those forward-looking statements if or when its expectations or events, conditions or circumstances on which such statements are based occur.

OFFICIAL STATEMENT

\$170,120,000
CALIFORNIA HEALTH FACILITIES FINANCING AUTHORITY
Revenue Bonds
(STANFORD HEALTH CARE)
2020 Series A

INTRODUCTORY STATEMENT

The following introductory statement is subject in all respects to the more complete information set forth in this Official Statement. The descriptions and summaries of various documents hereinafter set forth do not purport to be comprehensive or definitive and are qualified in their entirety by reference to each document. All capitalized terms used in this Official Statement and not otherwise defined herein or in Appendix C have the same meaning as in the Master Indenture or the Indenture (each as defined below). See APPENDIX C – “SUMMARY OF PRINCIPAL DOCUMENTS—DEFINITIONS OF CERTAIN TERMS.”

Purpose of this Official Statement

This Official Statement, including the cover page and the appendices hereto, is provided to furnish information in connection with the sale and delivery of \$170,120,000 aggregate principal amount of California Health Facilities Financing Authority Revenue Bonds (Stanford Health Care), 2020 Series A (the “Bonds”).

The Bonds will be issued pursuant to and secured by an Indenture, dated as of April 1, 2020 (the “Indenture”), between the California Health Facilities Financing Authority (the “Authority”) and The Bank of New York Mellon Trust Company, N.A., as trustee (the “Trustee”). The Authority will lend the proceeds of the Bonds to Stanford Health Care, a California nonprofit public benefit corporation (the “Corporation”) pursuant to a Loan Agreement, dated as of April 1, 2020 (the “Loan Agreement”), between the Authority and the Corporation.

Stanford Health Care

The Corporation operates Stanford Hospital, a tertiary, quaternary and specialty teaching hospital (the “Hospital”), and the Stanford University clinics (the “Clinics”), which include primary, specialty and sub-specialty clinics, in which the medical faculty of the Stanford University School of Medicine provide clinical services. The Corporation serves as the principal teaching affiliate of the Stanford University School of Medicine with respect to providing primary and specialty health services to adults and operates its facilities to provide the clinical settings through which the Stanford University School of Medicine educates medical and graduate students, trains residents and clinical fellows, supports faculty clinicians and conducts medical and biological sciences research. The principal facilities of the Hospital and the Clinics are located on the campus of Stanford University adjacent to its School of Medicine and elsewhere in Palo Alto, California and in other communities in the San Francisco Bay Area.

For additional information concerning the Corporation, its facilities and operations, including certain financial and statistical data, see APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE.”

The Corporation is solely responsible for the payment of principal of and interest on the Bonds. Neither Stanford University nor any legal entity other than the Corporation is obligated to make any such payments. Stanford University and the Corporation are not co-guarantors of the debt of each other, and each is separately rated by the rating agencies.

Plan of Finance

The issuance of the Bonds is a component of the Corporation’s financing plan, which involves the issuance of \$470,120,000 total aggregate principal amount of bonds for the benefit of the Corporation. Such bonds will consist

of the Bonds to be issued by the Authority as described in this Official Statement and \$300,000,000 total aggregate principal amount of taxable bonds (the “Taxable Bonds”) that the Corporation expects to issue concurrently with the issuance of the Bonds.

The proceeds of the Bonds will be used to finance certain costs of the Project (as defined herein) and to refund certain outstanding revenue bonds previously issued by the Authority for the benefit of the Corporation. Costs of issuance related to the Bonds, including underwriters’ compensation, will be paid by the Corporation.

The proceeds of the Taxable Bonds are expected to be used for general corporate purposes of the Corporation. The issuance of the Bonds is not contingent on the issuance of the Taxable Bonds.

See “THE PLAN OF FINANCE” and “ESTIMATED SOURCES AND USES OF FUNDS” herein.

Security for the Bonds

The Bonds are limited obligations of the Authority secured under the provisions of the Indenture, and will be payable solely from payments (the “Loan Repayments”) made by the Corporation under the Loan Agreement, from payments made by the Corporation on Obligation No. 42 (hereinafter defined), and from certain funds held under the Indenture. All capitalized terms used in this Official Statement and not otherwise defined in this Official Statement shall have the meanings assigned to such terms in the Indenture or the Master Indenture, as applicable. See APPENDIX C – “SUMMARY OF PRINCIPAL DOCUMENTS—DEFINITIONS OF CERTAIN TERMS.”

The obligation of the Corporation under the Loan Agreement with respect to the Bonds will be further evidenced and secured by an obligation (“Obligation No. 42”) to be issued under the Amended and Restated Master Indenture of Trust, dated as of June 1, 2011 and effective as of June 16, 2011 (the “Amended and Restated Master Indenture of Trust”), between the Corporation, formerly known as Stanford Hospital and Clinics, and The Bank of New York Mellon Trust Company, N.A., as master trustee (the “Master Trustee”), as supplemented by the Supplemental Master Indenture for Obligation No. 42, dated as of April 1, 2020 (“Supplement No. 42”), between the Corporation and the Master Trustee. The Amended and Restated Master Indenture of Trust amended and restated the Master Indenture of Trust, dated as of December 1, 1990 (the “Original Master Indenture”), between the Corporation, then known as Stanford University Hospital, and First Interstate Bank, LTD., predecessor trustee to BNY Western Trust Company predecessor-in-interest to The Bank of New York Mellon Trust Company, N.A. formerly known as The Bank of New York Trust Company, N.A., as Master Trustee. The Amended and Restated Master Indenture of Trust, as supplemented and amended from time to time pursuant to its terms, including as supplemented by Supplement No. 42, is herein referred to as the “Master Indenture.”

The obligations of the Corporation with respect to the Taxable Bonds will be evidenced by an Obligation issued by the Corporation under the Master Indenture which will rank on a parity with all Obligations issued under the Master Indenture, including Obligation No. 42. Obligation No. 42, the Obligation relating to the Taxable Bonds, the outstanding Obligations relating to other indebtedness and obligations of the Corporation (as described below), and any other Obligations issued in the future under the Master Indenture (each an “Obligation” and collectively, the “Obligations”), will be secured by security interests in (i) the Gross Revenues of each Member of the Obligated Group and (ii) the moneys on deposit from time to time in the Gross Revenue Fund established under the Master Indenture. Currently, the Corporation is the only Member of the Obligated Group created pursuant to the Master Indenture. See “SECURITY AND SOURCE OF PAYMENT FOR THE BONDS” herein.

Notwithstanding the effectiveness of the Amended and Restated Master Indenture of Trust, provisions therein providing for certain actions to be taken upon the direction of the Holders of a majority in aggregate principal amount of Outstanding Obligations, rather than upon the direction of the Holders of twenty-five percent (25%) of Outstanding Obligations as provided in the Original Master Indenture, will not go into effect until the Corporation secures the consent of the Holders of 100% in aggregate principal amount of Obligations Outstanding. See APPENDIX C – “SUMMARY OF PRINCIPAL DOCUMENTS—MASTER INDENTURE—Defaults and Remedies—Events of Default, Acceleration; Annulment of Acceleration,” and “—Additional Remedies and Enforcement of Remedies” for a summary of such provisions. By purchasing the Bonds offered hereunder, the purchasers and Beneficial Owners will be deemed to have consented to amendment of each such direction of holder provision set forth in the Amended and Restated Master Indenture of Trust.

In connection with the issuance of the Bonds, and pursuant to the terms of the Master Indenture, the Corporation proposes to amend and restate the Master Indenture. The form of the proposed Second Amended and Restated Master Indenture of Trust is included as Appendix G hereto. For additional information concerning the proposed Second Amended and Restated Master Indenture of Trust, see “SECURITY AND SOURCE OF PAYMENT FOR THE BONDS—The Master Indenture—Proposed Amendment and Restatement of the Master Indenture.” By purchasing the Bonds offered hereunder, the Holders and Beneficial Owners of the Bonds will be deemed to have consented to the Second Amended and Restated Master Indenture of Trust.

No reserve fund is being established in connection with the Bonds.

Additional Indebtedness

No bonds other than the Bonds may be issued under the Indenture. However, as described below under “SECURITY AND SOURCE OF PAYMENT FOR THE BONDS,” the Corporation is permitted to incur additional indebtedness under the Master Indenture, subject to the financial tests and limitations set forth therein and described in Appendix C attached hereto. See APPENDIX C – “SUMMARY OF PRINCIPAL DOCUMENTS—MASTER INDENTURE—Covenants—Limitations on Indebtedness.”

For a description of certain events that are expected to require the incurrence of additional indebtedness of the Corporation, see “SERVICES, FACILITIES AND OPERATIONS—Master Plan and Additional Capital Needs” in APPENDIX A attached hereto.

Bondholders’ Risks

There are risks associated with the purchase of the Bonds. See “BONDHOLDERS’ RISKS” for a discussion of certain of these risks.

Availability of Documents

Copies of the Amended and Restated Master Indenture of Trust, Supplement No. 42, the Indenture, the Loan Agreement, Obligation No. 42 and the Continuing Disclosure Agreement, each as executed and delivered, may be examined or obtained at the expense of the person requesting the same at the corporate offices of the Corporation or at the designated corporate trust office of the Trustee.

THE AUTHORITY

General

The Authority is a public instrumentality of the State of California (the “State”) organized and existing under and by virtue of the California Health Facilities Financing Authority Act, constituting Part 7.2 of Division 3 of Title 2 of the California Government Code (the “Act”). The intent of the State legislature in enacting the Act was to provide financing to health facilities and to pass along to the consuming public all or part of any savings realized by a participating health institution (as defined in the Act) as a result of tax-exempt financing. Pursuant to the Act, the Authority is authorized to issue its revenue bonds for the purpose of financing (including reimbursing expenditures made or refinancing indebtedness incurred for such purpose) the construction, expansion, remodeling, renovation, furnishing, equipping or acquisition of health facilities operated by participating health institutions. The State Treasurer is authorized under the Act to sell such revenue bonds on behalf of the Authority.

Organization and Membership

The Act provides that the Authority shall consist of nine members, including the State Treasurer, who shall serve as Chairperson, the State Controller, the Director of Finance and two members appointed by each of the State Senate Rules Committee, the Speaker of the State Assembly and the Governor of the State. The Chairperson of the Authority appoints the Executive Director.

Outstanding Indebtedness of the Authority

As of December 31, 2019, the Authority had issued obligations aggregating \$42,974,352,017 in original principal amount and had outstanding obligations in the aggregate principal amount of \$17,760,247,327.

THE BONDS

The following is a summary of certain provisions of the Bonds. Reference is made to the Bonds for the complete text thereof and to the Indenture for all of the provisions relating to the Bonds. The discussion herein is qualified by such reference.

General

The Bonds are being issued pursuant to the Indenture in the aggregate principal amount set forth on the cover of this Official Statement. The Bonds will be delivered in fully registered form without coupons. The Bonds will be dated the date of delivery and will be payable as to principal, subject to the redemption provisions set forth herein, on the date and in the amount as set forth on the inside cover page hereof. The Bonds will bear interest at the long-term interest rate set forth on the inside cover page hereof until their maturity date.

The Bonds will be transferable and exchangeable as set forth in the Indenture and, when issued, will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York (“DTC”). DTC will act as securities depository for the Bonds. Ownership interests in the Bonds may be purchased in book-entry form only, in denominations of \$5,000 or any integral multiple thereof. See “THE BONDS—Book-Entry System.”

The Bonds will bear interest at the rate per annum set forth on the inside cover page hereof, computed on the basis of a 360-day year consisting of twelve 30-day months, payable semiannually on February 15 and August 15 of each year (each, an “Interest Payment Date”), commencing August 15, 2020, to the person whose name appears on the bond registration books of the Trustee as the Holder thereof as of the close of business on the Record Date (which will be the first day of the calendar month, whether or not a Business Day, in which an Interest Payment Date occurs) for each Interest Payment Date (except with respect to interest in default, for which a special record date shall be established). So long as Cede & Co. is the registered owner of the Bonds, principal of and interest on the Bonds are payable by wire transfer by the Trustee to Cede & Co., as nominee for DTC, which, in turn, will remit such amounts to DTC Participants (as defined herein) for subsequent disbursement to the Beneficial Owners. See APPENDIX E – “BOOK-ENTRY SYSTEM.”

If the book-entry system for the Bonds is ever discontinued, payment of interest on the Bonds will be made by check mailed on each Interest Payment Date to each Holder as of the Record Date for such Interest Payment Date at its address as it appears on the bond registration books maintained by the Trustee; provided, however, that the Holder of at least one million dollars (\$1,000,000) in aggregate principal amount of Bonds may be paid by wire transfer to an account within the United States upon written request filed with the Trustee on or before the Record Date for the applicable Interest Payment Date. Payment of the principal or Redemption Price of Bonds will be payable upon presentation and surrender of the Bonds at the corporate trust office of the Trustee.

Redemption

Optional Redemption. The Bonds are subject to redemption prior to their stated maturity, at the option of the Authority (which option shall be exercised upon Request of the Corporation delivered to the Trustee not less than 25 days prior to the date fixed for such redemption, or such shorter period as is acceptable to the Trustee), in whole or in part (and if in part, in such amounts as may be specified by the Corporation and in Authorized Denominations) on any date on or after August 15, 2030, at a redemption price equal to 100% of the principal amount of Bonds called for redemption, plus accrued interest, if any, to the date fixed for redemption.

Special Redemption. The Bonds are subject to redemption prior to their stated maturity, at the option of the Authority (which option shall be exercised upon Request of the Corporation delivered to the Trustee not less than 25

days prior to the date fixed for such redemption, or such shorter period as is acceptable to the Trustee), in whole or in part (and, if in part, in such amounts as may be specified by the Corporation and in Authorized Denominations), on any date specified by the Corporation, from hazard insurance or condemnation proceeds received with respect to the facilities of any of the Members and deposited in the Redemption Fund, at the principal amount thereof, plus accrued interest to the date fixed for redemption, without premium.

Sinking Account Redemption. The Bonds are not subject to redemption from sinking account installment payments.

Selection of Bonds for Redemption. Whenever provision is made in the Indenture for the redemption of less than all of the Bonds, except as otherwise provided in the Indenture, the Trustee shall select the Bonds to be redeemed from all Bonds subject to redemption or such given portion thereof equal to a multiple of Authorized Denominations not previously called for redemption.

Notice of Redemption. Notice of redemption shall be given by the Trustee by first class mail, postage prepaid, not less than 20 days, nor more than 60 days prior to the redemption date, to the respective Holders of any the Bonds designated for redemption at their addresses appearing on the bond registration books of the Trustee. Each notice of redemption shall be dated, shall identify the Bonds to be redeemed, shall state (i) the date of issue of the Bonds, (ii) the maturity date of the Bonds being redeemed; (iii) the redemption date, (iv) the Redemption Price, (v) the place or places where the Bonds being redeemed shall be surrendered for payment of the Redemption Price (including the name and appropriate address or addresses of the Trustee), and (vi) the CUSIP number, if any, and, in the case of the Bonds to be redeemed in part only, the respective portions of the principal amount thereof to be redeemed. Such notice shall also state that on the redemption date there will become due and payable on each of said Bonds the Redemption Price thereof or of said specified portion of the principal amount thereof in the case of a Bond to be redeemed in part only, together with interest accrued thereon to the redemption date, and that from and after such redemption date, interest thereon shall cease to accrue, and shall require that such Bonds be then surrendered at the address or addresses of the Trustee specified in the redemption notice.

Failure by the Trustee to mail notice of redemption pursuant to the Indenture to any one or more of the respective Holders of any Bonds designated for redemption shall not affect the validity or sufficiency of the proceedings for redemption with respect to the Holders to whom such notice was mailed. Failure by the Trustee to mail notice of redemption to the Authority or the Master Trustee shall not affect the validity or sufficiency of the proceedings for redemption.

With respect to any notice of optional redemption of the Bonds, unless, upon the giving of such notice, such Bonds shall be deemed to have been paid pursuant to the provisions of the Indenture, such notice shall state that such redemption shall be conditional upon the receipt by the Trustee on or prior to the date fixed for such redemption of amounts sufficient to pay the principal of and interest on, such Bonds to be redeemed, and that if such amounts shall not have been so received said notice shall be of no force and effect and the Authority shall not be required to redeem such Bonds and such failure to redeem such Bonds shall not constitute an Event of Default. In the event that such notice of redemption contains such a condition and such amounts are not so received, the redemption shall not be made and the Trustee shall within a reasonable time thereafter give notice to the Holders to the effect that such amounts were not so received and such redemption was not made, such notice to be given by the Trustee in the same manner and to the same parties, as notice of such redemption was given pursuant to the provisions of the Indenture. Such notice may also state other conditions to the optional redemption and if any other conditions are so stated, shall state that if such conditions shall not have been satisfied on or prior to the date fixed for redemption, said notice shall be of no force and effect and the Authority shall not be required to redeem such Bonds and such failure to redeem such Bonds shall not constitute an Event of Default. In the event that such notice of optional redemption contains any such additional condition or conditions and such condition or conditions shall not have been satisfied on or prior to the date fixed for redemption, the redemption shall not be made and the Trustee shall within a reasonable time thereafter give notice to the Holders to the effect that such condition or conditions were not met and such redemption was not made, such notice to be given to the Trustee in the same manner and to the same parties as notice of such redemption was given pursuant to the provisions of the Indenture.

Any notice given pursuant to the provisions of the Indenture described under this caption may be rescinded by written notice given to the Trustee by the Corporation no later than 4 Business Days prior to the date specified for

redemption. The Trustee shall give notice of such rescission as soon thereafter as practicable in the same manner, and to the same parties, as notice of such redemption was given pursuant to the Indenture.

Effect of Redemption. Notice of redemption having been duly given as aforesaid, and moneys for payment of the Redemption Price of, together with interest accrued to the date fixed for redemption on, the Bonds (or portions thereof) so called for redemption being held by the Trustee, on the date fixed for redemption designated in such notice, the Bonds (or portions thereof) so called for redemption shall become due and payable at the Redemption Price specified in such notice and interest accrued thereon to the date fixed for redemption, interest on the Bonds so called for redemption shall cease to accrue, said the Bonds (or portions thereof) shall cease to be entitled to any benefit or security under the Indenture, and the Holders of said the Bonds shall have no rights in respect thereof except to receive payment of said Redemption Price and accrued interest to the date fixed for redemption from funds held by the Trustee for such payment.

All the Bonds redeemed pursuant to the provisions of the Indenture shall be cancelled upon surrender thereof.

Mandatory Purchase In Lieu of Redemption

Each Holder or Beneficial Owner, by purchase and acceptance of any Bond, irrevocably grants to the Corporation the option to purchase such Bond, at any time such Bond is subject to optional redemption as provided in the Indenture, at a purchase price equal to the Redemption Price then applicable to such Bond. In order to exercise such option, the Corporation shall deliver to the Trustee and the Authority a Favorable Opinion of Bond Counsel to the effect that such purchase, will not, in and of itself cause the interest on the Bonds to be included in gross income, and the Corporation shall direct the Trustee to provide notice of mandatory purchase, such notice to be provided, as and to the extent applicable, in accordance with the provisions of the Indenture described above under the caption "Notice of Redemption." On the date fixed for purchase of any Bond in lieu of redemption, the Corporation shall pay the purchase price of such Bond to the Trustee in immediately available funds and the Trustee shall pay the same to the Holders of the Bonds being purchased against delivery thereof. No purchase of any Bond in lieu of redemption shall operate to extinguish the indebtedness evidenced by such Bond. No Holder or Beneficial Owner may elect to retain a Bond subject to mandatory purchase in lieu of redemption.

Book-Entry System

The Bonds will be issued in book-entry form. DTC will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee). One fully-registered Bond will be issued for each maturity of the Bonds in the total aggregate principal amount of each such maturity and will be deposited with DTC. See APPENDIX E – "BOOK-ENTRY SYSTEM."

The Corporation and the Authority cannot and do not give any assurances that DTC will distribute to DTC Participants (as such term is defined in Appendix E) or that DTC Participants or others will distribute to the Beneficial Owners payments of principal of and interest on the Bonds or any redemption or other notices or that they will do so on a timely basis or will serve and act in the manner described in this Official Statement. Neither the Corporation nor the Authority is responsible or liable for the failure of DTC or any DTC Participant or DTC Indirect Participant (as such term is defined in Appendix E) to make any payments or give any notice to a Beneficial Owner with respect to the Bonds or any error or delay relating thereto.

Notice to Bondholders

All notices to Bondholders required by the Indenture will be deemed to have been sufficiently given or served for all purposes under the Indenture by being delivered by first-class mail, by overnight delivery or by Electronic Notice.

SECURITY AND SOURCE OF PAYMENT FOR THE BONDS

General

The Bonds are limited obligations of the Authority, payable solely from the Revenues pledged under the Indenture for such payment. Revenues consist primarily of Loan Repayments made by the Corporation pursuant to the Loan Agreement in amounts sufficient to pay the principal of and interest on the Bonds, when such become due. The Authority will assign its right, title, and interest in the Loan Agreement (except for any deposits to the Rebate Fund, the right to receive any administrative fees and expenses to the extent payable to the Authority, the right of the Authority to be reimbursed or indemnified pursuant thereto and the right to receive certain notices and opinions, to give consents or approvals and to make inspections) and in Obligation No. 42 to the Trustee. The obligation of the Corporation to make the Loan Repayments will be evidenced and secured by Obligation No. 42. See “—The Master Indenture” below.

No reserve fund is being established in connection with the Bonds.

The Master Indenture

Joint and Several Obligations. Currently, the Corporation is the sole Member of the Obligated Group. Under the Master Indenture, the Corporation, as Obligated Group Representative, may incur, for itself and on behalf of the other Members of the Obligated Group, Indebtedness, which may be evidenced and secured by Obligations issued under the Master Indenture. All Members of the Obligated Group are jointly and severally liable with respect to the payment of each Obligation issued under the Master Indenture.

Obligation No. 42 is being issued by the Corporation under and pursuant to the Master Indenture on a parity with all other Obligations issued or to be issued thereunder. See “Outstanding Obligations Under the Master Indenture” below. All Members of the Obligated Group are required to make payments on Obligation No. 42 in amounts sufficient to pay the principal of and interest on the Bonds when due. For a discussion of entry into or withdrawal from the Obligated Group, see APPENDIX C – “SUMMARY OF PRINCIPAL DOCUMENTS—MASTER INDENTURE—Covenants—Withdrawal from Obligated Group.”

Outstanding Obligations Under the Master Indenture. Upon the issuance of the Bonds and the Taxable Bonds (if issued) and the redemption of the Prior Bonds (defined below), Obligations outstanding under the Master Indenture will secure (i) \$2,246,350,000 in aggregate principal amount of indebtedness related to tax-exempt revenue and taxable bonds issued for the benefit of the Corporation; (ii) the Corporation’s obligations to make regularly scheduled payments and, in limited circumstances, settlement payments, under certain existing interest rate swap agreements; and (iii) the Corporation’s obligations to make payments, under certain circumstances, to the financial institutions which have purchased certain revenue bonds issued for the benefit of the Corporation in prior direct placement transactions. For a discussion of the interest rate swap agreements that the Corporation has entered into, see APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION—Interest Rate Swap Arrangements.”

Security for Obligations. All Obligations issued and outstanding under the Master Indenture, including Obligation No. 42, which evidences and secures the Corporation’s obligations under the Loan Agreement, are secured by security interests in (i) the Gross Revenues of each Member of the Obligated Group and (ii) the moneys and investments on deposit from time to time in the Gross Revenue Fund created under the Master Indenture and held by the Master Trustee. For a description of the limitations on the enforceability of the Master Indenture, see “SECURITY AND SOURCE OF PAYMENT FOR THE BONDS—Security and Enforceability—Risks Related to Master Indenture Financings; Fraudulent Transfer or Conveyance Statutes” herein.

Security Interest in Gross Revenues. Pursuant to the Master Indenture, the Corporation and each of the other Members of the Obligated Group, if any, grants a security interest in its Gross Revenues. The security interest in Gross Revenues has been perfected to the extent the same may be perfected by filing under the California Commercial Code. The California Commercial Code does not permit perfection by filing with respect to certain items

included in Gross Revenues. Under certain circumstances, the security interest in Gross Revenues may be subordinated to the interests of creditors other than the Holders of Obligations.

The Gross Revenue Fund; Security Interest Therein. Under the Master Indenture, the Corporation and each of the other Members of the Obligated Group, if any, are required to deposit daily all of the cash proceeds of the Gross Revenues with a depository bank or banks (collectively, a “Depository Bank”). Subject to the provisions of the Master Indenture permitting the moneys in the Gross Revenue Fund to be used as provided therein, the Corporation and each of the other Members of the Obligated Group, if any, grants a security interest in the Gross Revenue Fund to the Master Trustee. With certain exceptions, a security interest in the moneys in the Gross Revenue Fund may be perfected only if the moneys are held by the Master Trustee or its agent. The Corporation, the Master Trustee and each Depository Bank are required to execute and have executed account control agreements (each, an “Account Control Agreement”) to create this agency relationship. See APPENDIX C – “SUMMARY OF PRINCIPAL DOCUMENTS—MASTER INDENTURE—Covenants—Gross Revenue Fund.”

Additional Indebtedness. The Corporation and each of the other Members of the Obligated Group, if any, are permitted under the Master Indenture to incur additional Indebtedness, either unsecured or secured by Permitted Liens, subject to the financial tests and limitations contained in the Master Indenture. Additional Indebtedness need not be evidenced by Obligations issued under the Master Indenture. However, only Indebtedness represented by Obligations will be secured by the security interests in Gross Revenues and the Gross Revenue Fund on a parity with other Obligations. For a description of the financial tests and limits on additional indebtedness in the Master Indenture. See APPENDIX C – “SUMMARY OF PRINCIPAL DOCUMENTS—MASTER INDENTURE—Covenants—Limitations on Indebtedness.”

Other Master Indenture Covenants. In addition to the security and other provisions described above, the Master Indenture contains provisions, covenants and restrictions related to debt coverage, mergers, consolidations, sales and conveyances, dispositions of assets and other matters. See APPENDIX C – “SUMMARY OF PRINCIPAL DOCUMENTS—MASTER INDENTURE—Covenants.”

Limitations on Enforceability. There are circumstances under which it is possible that the Master Indenture would not be enforced by courts, especially as to future Members of the Obligated Group. Also there are a number of circumstances under which the security interests, especially the security interest in Gross Revenues, may not be enforced or may be subordinated to the claims of others. See “Security and Enforceability —Risks Related to Master Indenture Financings; Fraudulent Transfer or Conveyance Statutes,” “—Enforceability of the Loan Agreement” and “—Enforceability of Security Interests” herein.

Replacement of Obligation No. 42. Obligation No. 42 will be surrendered by the Trustee and delivered to the Master Trustee for cancellation upon the terms and conditions set forth in the Indenture, which include receipt by the Trustee of: (a) a Request of the Corporation requesting such surrender and delivery and stating that the Corporation has become a member of an obligated group (herein referred to as the “New Group”) under a master indenture (other than the Master Indenture) (herein referred to as the “Replacement Master Indenture”), that no Event of Default exists or shall be caused thereby and that an obligation is being issued to the Trustee under the Replacement Master Indenture; (b) a properly executed obligation (the “Replacement Obligation”) issued under the Replacement Master Indenture and registered in the name of the Trustee with the same tenor and effect as Obligation No. 42 (in a principal amount equal to the then-Outstanding principal amount of Bonds), authenticated by the master trustee under the Replacement Master Indenture; (c) an Opinion of Counsel to the Corporation to the effect that the Replacement Obligation has been validly issued under the Replacement Master Indenture and constitutes a valid and binding obligation of the Corporation and each of the other members of the New Group; (d) a Favorable Opinion of Bond Counsel; (e) a certified copy of the Replacement Master Indenture; (f) an Officer’s Certificate relating to debt service coverage or evidence of certain ratings information; and (g) a certificate of the Master Trustee to the effect that Obligation No. 42 has been cancelled. For the specific requirements of the Indenture relating to the replacement of Obligation No. 42, see APPENDIX C – “SUMMARY OF PRINCIPAL DOCUMENTS—INDENTURE—Replacement of Obligation No. 42.”

Proposed Amendment and Restatement of the Master Indenture. In connection with the issuance of the Bonds, and pursuant to the terms of the Master Indenture, the Corporation proposes to amend and restate the Master Indenture. The form of the proposed Second Amended and Restated Master Indenture of Trust is included as

Appendix G hereto. The Second Amended and Restated Master Indenture of Trust will not go into effect until the Corporation secures the consent of the Holders of a majority in aggregate principal amount of Obligations Outstanding.

Changes being made in the proposed Second Amended and Restated Master Indenture of Trust include, but are not limited to, the following: (a) replacing the pledge of Gross Revenues with a pledge of gross receivables; (b) increasing the percentage of Liens on Property permitted from 25% of Total Value to 30% of Total Value; (c) changing the basis for calculation of the Debt Service Coverage Ratio from Maximum Annual Debt Service to Annual Debt Service and actions to be taken with respect to noncompliance; (d) modifying the definition of Annual Debt Service and of Income Available for Debt Service; (e) eliminating limitations on Additional Indebtedness and on dispositions of assets; and (f) eliminating certain limitations (i) on merger, consolidation, sale of all or substantially all assets of the Obligated Group and (ii) on entrance into and (except for the Corporation) withdrawal from the Obligated Group. The foregoing description of the changes being made in the proposed Second Amended and Restated Master Indenture of Trust is provided for quick reference only, and is not intended to be a summary of the complete terms of Second Amended and Restated Master Indenture of Trust. The Second Amended and Restated Master Indenture of Trust should be read in its entirety for essential information relating to the changes included in the proposed Second Amended and Restated Master Indenture of Trust.

For the full and complete text of the proposed Second Amended and Restated Master Indenture of Trust, see APPENDIX G – “FORM OF SECOND AMENDED AND RESTATED MASTER INDENTURE OF TRUST.”

By purchasing the Bonds offered hereunder, the Holders and Beneficial Owners of the Bonds will be deemed to have consented to the Second Amended and Restated Master Indenture of Trust.

Security and Enforceability

Bankruptcy. In the event of bankruptcy of the Corporation, the rights and remedies of the Bondholders are subject to various provisions of the federal Bankruptcy Code. If the Corporation were to file a petition in bankruptcy, payments made by the Corporation during the 90 day (or perhaps one-year) period immediately preceding the filing of such petition may be avoidable as preferential transfers to the extent such payments allow the recipients thereof to receive more than they would have received in the event of such entity’s liquidation. Security interests and other liens granted to a trustee, including the Trustee and the Master Trustee, and perfected during such preference period also may be avoided as preferential transfers to the extent such security interest or other lien secures obligations that arose prior to the date of such perfection. Such a bankruptcy filing would operate as an automatic stay of the commencement or continuation of any judicial or other proceeding against the Corporation and its property and as an automatic stay of any act or proceeding to enforce a lien upon or to otherwise exercise control over such property, as well as various other actions to enforce, maintain or enhance the rights of a trustee. If the bankruptcy court so ordered, the property of the Corporation, including accounts receivable and proceeds thereof, could be used for the financial rehabilitation of the Corporation despite any security interest of a trustee therein. The rights of the Trustee to enforce its security interests and other liens could be delayed during the pendency of the rehabilitation proceeding.

The Corporation could file a plan for the adjustment of its debts in any such proceeding, which could include provisions modifying or altering the rights of creditors generally or any class of them, secured or unsecured. The plan, when confirmed by a court, binds all creditors who had notice or knowledge of the plan and, with certain exceptions, discharges all claims against the debtor to the extent provided for in the plan. No plan may be confirmed unless certain conditions are met, among which are conditions that the plan be feasible and that it shall have been accepted by each class of claims impaired thereunder. Each class of claims has accepted the plan if at least two-thirds in dollar amount and more than one-half in number of the class cast votes in its favor. Even if the plan is not so accepted, it may be confirmed if the court finds that the plan is fair and equitable with respect to each class of non-accepting creditors impaired thereunder and does not discriminate unfairly.

In addition, the obligations of the Corporation under the Loan Agreement are not secured by a lien on or security interest in any assets or revenues of the Corporation, other than the lien on Gross Revenues and in the funds on deposit in the Gross Revenue Fund as described herein under “SECURITY AND SOURCE OF PAYMENT FOR THE BONDS” securing all Obligations issued under the Master Indenture. Except with respect to such lien on Gross Revenues, in the event of a bankruptcy of the Corporation, Bondholders would be unsecured creditors and would be in an inferior position to any secured creditors and on a parity with all other unsecured creditors.

In the event of bankruptcy of the Corporation, there is no assurance that certain covenants, including tax covenants, contained in the Loan Agreement or other documents would survive. Accordingly, a bankruptcy trustee could take action that would adversely affect the exclusion of interest on the Bonds from gross income for federal income tax purposes.

Risks Related to Master Indenture Financings; Fraudulent Transfer or Conveyance Statutes. On the date of issuance of the Bonds, the Corporation will be the only Member of the Obligated Group, and, consequently, the risks described below in this section would not apply. However, should other institutions join the Obligated Group in the future, the risks described below would be relevant.

The state of insolvency, fraudulent transfer or conveyance and bankruptcy laws relating to the enforceability of obligations of one corporation in favor of the creditors of another, or the obligation of one member of an obligated group to make debt service payments on behalf of another member or the ability of a corporate parent to compel its affiliates or subsidiaries to make such payments is unsettled. The ability of the Master Trustee or the Corporation to compel one Member of the Obligated Group to make payment on behalf of another Member could be subject to challenge if such Member would, by make such payment, be rendered insolvent. In particular, such efforts by the Master Trustee or the Corporation may not be enforced under the Federal Bankruptcy Code or applicable state fraudulent transfer or conveyance statutes if the obligation to pay is incurred without “fair consideration” or “reasonably equivalent value” to the obligor-Member and if the incurrence of the obligation renders the Member insolvent. The standards for determining the fairness of consideration and the manner of determining insolvency are matters of judicial discretion based upon subjective standards and may vary under the Federal Bankruptcy Code and other statutes that may be applicable.

In addition a court could determine, in the event of a bankruptcy of a Member, that payments made on Obligation No. 42 by a bankrupt Member could constitute payments to or for the benefit of an insider, within the meaning of Section 547(b) of the Federal Bankruptcy Code, which payments, if made within one year of the filing of the bankruptcy petition, might be recoverable by the bankruptcy court from the owners of the Bonds.

If a court were to find that a Member did not receive fair consideration or reasonably equivalent value for the incurrence of the indebtedness evidenced by Obligation No. 42 and such Member: (i) was insolvent; (ii) was rendered insolvent by such incurrence; (iii) was engaged in a business activity for which its remaining assets were unreasonably small; or (iv) intended (or believed) to incur, assume or issue, debt beyond its ability to pay, a court could determine to invalidate, the indebtedness represented by Obligation No. 42.

Enforceability of the Loan Agreement. The legal right and practical ability of the Trustee to enforce rights and remedies under the Loan Agreement may be limited by laws relating to bankruptcy, insolvency, reorganization, fraudulent conveyance or moratorium and by other similar laws affecting creditors’ rights. In addition, enforcement of such rights and remedies will depend upon the exercise of various remedies specified by such documents, which, in many instances, may require judicial actions that are subject to discretion and delay, that otherwise may not be readily available or that may be limited by certain legal principles.

There exists common law authority and authority under certain statutes for the ability of the courts to terminate the existence of a nonprofit corporation or undertake supervision of its affairs on various grounds, including a finding that such corporation has insufficient assets to carry out its stated charitable purposes. Such court action may arise on the court’s own motion or pursuant to a petition of the State or such other persons who have interests different from those of the general public, pursuant to the common law and statutory power to enforce charitable trusts and to see to the application of their funds to their intended charitable uses.

The various legal opinions delivered concurrently with the issuance of the Bonds are qualified as to the enforceability of the various legal instruments by limitations imposed by state and federal laws, rulings, policy and decisions affecting remedies and by bankruptcy, reorganization or other laws of general application affecting the enforcement of creditors’ rights or the enforceability of certain remedies or document provisions.

Enforceability of Security Interests. The security interest in Gross Revenues will be perfected to the extent, and only to the extent, that such security interest may be perfected under the California Commercial Code. The foregoing grant of a security interest may be subordinated to the interest and claims of others in several instances.

Some examples of cases of subordination of prior interests and claims are (i) statutory liens, (ii) rights arising in favor of the United States of America or any agency thereof, (iii) present or future prohibitions against assignment in any federal statutes or regulations, (iv) constructive trusts, equitable liens or other rights impressed or conferred by any state or federal court in the exercise of its equitable jurisdiction, and (v) federal or state bankruptcy laws that may affect the enforceability of the Master Indenture or grant of a security interest in Gross Revenues. In addition, it may not be possible to perfect a security interest in any manner whatsoever in certain types of Gross Revenues (*e.g.*, gifts, donations, certain insurance proceeds, Medicare and Medi-Cal payments) prior to actual receipt by the Corporation for deposit in the Gross Revenue Fund. To the extent that funds of the Obligated Group are not on deposit in the Gross Revenue Fund, the owners of Obligations, including Obligation No. 42, have no security interest in such funds.

Limited Liability of the Authority

THE BONDS SHALL NOT BE DEEMED TO CONSTITUTE A DEBT OR LIABILITY OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF, OTHER THAN THE AUTHORITY, OR A PLEDGE OF THE FAITH AND CREDIT OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF, BUT SHALL BE PAYABLE SOLELY FROM THE FUNDS THEREFOR PROVIDED. NEITHER THE STATE OF CALIFORNIA NOR THE AUTHORITY SHALL BE OBLIGATED TO PAY THE PRINCIPAL OF THE BONDS OR THE PREMIUM, IF ANY, OR THE INTEREST THEREON, EXCEPT FROM THE FUNDS PROVIDED UNDER THE LOAN AGREEMENT, OBLIGATION NO. 42 AND THE OTHER ASSETS PLEDGED UNDER THE INDENTURE, AND NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF THE BONDS OR THE PREMIUM, IF ANY, OR THE INTEREST ON THE BONDS. THE ISSUANCE OF THE BONDS SHALL NOT DIRECTLY OR INDIRECTLY OR CONTINGENTLY OBLIGATE THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF TO LEVY OR TO PLEDGE ANY FORM OF TAXATION WHATEVER THEREFOR OR TO MAKE ANY APPROPRIATION FOR THEIR PAYMENT. THE AUTHORITY HAS NO TAXING POWER.

THE PLAN OF FINANCE

The Bonds

The Corporation anticipates the issuance of the Bonds in a total aggregate principal amount of \$170,120,000 for the purposes of (i) financing, through reimbursement of prior Corporation expenditures, certain costs related to the Corporation's hospital replacement project (the "Project"), and (ii) refunding \$60,000,000 in aggregate principal amount of the California Health Facilities Financing Authority Variable Rate Revenue Bonds (Stanford Hospital and Clinics), 2012 Series C (the "Prior Bonds"), all of which are currently outstanding. The Corporation will pay all costs of issuance related to the Bonds, including underwriters' compensation, from its internal funds.

The Refunding Plan

On the date of delivery of the Bonds, a portion of the proceeds of the Bonds will be transferred to the trustee for the Prior Bonds for application, together with other funds provided by the Corporation, to the redemption of the Prior Bonds on April 21, 2020.

The Taxable Bonds

The proceeds of the Taxable Bonds are expected to be used for general corporate purposes of the Corporation. The issuance of the Bonds is not contingent on the issuance of the Taxable Bonds.

ESTIMATED SOURCES AND USES OF FUNDS

The following table sets forth the estimated sources and uses of funds related to the Bonds (with all amounts rounded to the nearest whole dollar).

	<u>The Bonds</u>
<i>Estimated Sources of Funds</i>	
Par Amount	\$170,120,000
Original Issue Premium	19,885,327
Equity Contribution	<u>2,051,276</u>
Total	<u><u>\$192,056,603</u></u>
<i>Estimated Uses of Funds</i>	
Project	\$130,005,327
Refunding of Prior Bonds	60,000,000
Costs of Issuance ⁽¹⁾	<u>2,051,276</u>
Total	<u><u>\$192,056,603</u></u>

⁽¹⁾ The Corporation will pay the costs of issuance, including underwriters' compensation, from an equity contribution.

[Remainder of Page Intentionally Left Blank]

DEBT SERVICE REQUIREMENTS

The following table sets forth, for each of the Corporation's fiscal years ending August 31, the amounts required to be paid by the Corporation for payment of the principal, whether by payment at maturity or upon sinking account installment redemption, and interest on the Bonds. The table also sets forth debt service on the Taxable Bonds, assuming their issuance, and on all bonds previously issued for the benefit of the Corporation that will be outstanding after the issuance of the Bonds and the Taxable Bonds.

Year Ending August 31	The Bonds		Total Debt Service on Bonds	Total Debt Service on Taxable Bonds	Total Debt Service on Other Outstanding Bonds ⁽¹⁾	Total Debt Service ⁽¹⁾	Aggregate Debt Service per Master Indenture ⁽¹⁾⁽²⁾
	Principal	Interest

Total	\$170,120,000	\$206,676,898	\$376,796,898	\$402,996,167	\$3,452,810,112	\$4,232,603,177	\$4,052,982,789

(1) Assumes interest on all variable rate bonds is payable at the assumed rate of 2.00% to maturity; excludes swap cash flows; excludes debt service on Prior Bonds to be refunded with proceeds of the Bonds.

(2) Pursuant to the terms of the Master Indenture, reflects smoothed debt service on Balloon Indebtedness; assumes the Bonds, the Taxable Bonds, and the Corporation's Series 2018 taxable bonds have level debt service over 30 years.

CONTINUING DISCLOSURE

Because the Bonds are limited obligations of the Authority, payable solely from amounts received from the Corporation and future Members of the Obligated Group, if any, financial or operating data concerning the Authority

is not material to an evaluation of the offering of the Bonds or to any decision to purchase, hold or sell the Bonds. Accordingly, the Authority has not provided any such information. The Corporation, on behalf of the Obligated Group, has undertaken all responsibilities for any continuing disclosure to Holders of the Bonds, as described below, and the Authority has no liability to the Holders of the Bonds or any other person with respect to Rule 15c2-12 promulgated by the Securities and Exchange Commission (the “Rule”).

In connection with the issuance of the Bonds, the Corporation, on behalf of the Obligated Group, will enter into a continuing disclosure agreement (the “Continuing Disclosure Agreement”) with The Bank of New York Mellon Trust Company, N.A., acting as dissemination agent. Pursuant to the Continuing Disclosure Agreement, the Corporation, for the benefit of Holders and Beneficial Owners of the Bonds, will agree to provide for dissemination: (i) certain financial information and operating data relating to the Obligated Group by not later than 150 days following the end of the Corporation’s fiscal year (which currently is August 31) (the “Annual Report”), commencing with the report for the 2020 Fiscal Year (due January 28, 2021), and (ii) notices of the occurrence of certain enumerated events, as required by the Rule. The Annual Report and the notices of material events will be filed by the Corporation, in readable PDF or other acceptable electronic form, with the Electronic Municipal Market Access system (“EMMA”) of the Municipal Securities Rulemaking Board (the “MSRB”). See APPENDIX F – “FORM OF CONTINUING DISCLOSURE AGREEMENT” for the specific nature of the information to be contained in the Annual Report and the notices of material events. These covenants have been made in order to assist the Underwriters in complying with the Rule.

The Corporation additionally has covenanted that it will file with EMMA, not later than 60 days after the end of each fiscal quarter (except the fourth fiscal quarter), certain unaudited financial information for the Obligated Group for such fiscal quarter prepared by the Corporation. See APPENDIX F – “FORM OF CONTINUING DISCLOSURE AGREEMENT.”

All required information with respect to the outstanding bonds issued for the benefit of the Corporation has been provided to the MSRB in accordance with the Rule. With respect to a November 2016 quarterly report, the filing was not posted by the dissemination agent within the timeframe required under the related continuing disclosure agreements. For the 2016 Annual Report and the quarterly reports for the fiscal years 2016 and 2017, the Corporation made subsequent corrections to certain short stay outpatient days information.

BONDHOLDERS’ RISKS

The purchase of the Bonds involves investment risks that are discussed throughout this Official Statement. Prospective purchasers of the Bonds should evaluate all of the information presented in this Official Statement. This section on Bondholders’ Risks focuses primarily on the general risks associated with hospital or health system operations, whereas Appendix A describes the Corporation specifically. These should be read together.

General

Except as noted under “SECURITY AND SOURCE OF PAYMENT FOR THE BONDS,” the Bonds are payable from Loan Repayments made pursuant to the Loan Agreement and from funds provided under Obligation No. 42 and the Indenture. **No representation or assurance can be made that revenues will be realized by the Corporation in amounts sufficient to make the Loan Repayments and hence the debt service on the Bonds.**

The Corporation is subject to a wide variety of federal and state regulatory actions and legislative and policy changes by those governmental and private agencies that administer Medicare, Medicaid and other payors and is subject to actions by, among others, the National Labor Relations Board, The Joint Commission, the Centers for Medicare & Medicaid Services (“CMS”) of the U.S. Department of Health and Human Services (“DHHS”), the Attorney General of the State, and other federal, state and local government agencies. The future financial condition of the Obligated Group could be adversely affected by, among other things, changes in the method, timing and amount of payments to the Obligated Group by governmental and nongovernmental payors, the financial viability of these payors, increased competition from other health care entities, the costs associated with responding to governmental audits, inquiries and investigations, demand for health care, other forms of care or treatment, changes in the methods by which employers purchase health care for employees, capability of management, changes in the structure of how

health care is delivered and paid for (*e.g.*, accountable care organizations (“ACOs”), value based purchasing, bundled payments and other health reform payment mechanisms, including one or more variants of a “single-payor” system), future changes in the economy, demographic changes, availability of physicians, nurses and other health care professionals, and malpractice claims and other litigation. These factors and others may adversely affect payment by the Corporation and any future Member of the Obligated Group under the Loan Agreement and Obligation No. 42 and, consequently, on the Bonds. In addition, the tax-exempt status of the Corporation and any future Member of the Obligated Group, and, therefore, of the Bonds, could be adversely affected by, among other things, an adverse determination by a governmental entity, noncompliance with governmental regulations or legislative changes, including changes resulting from current health care reform legislation or initiatives. See “—Health Care Reform” and “—Tax-Exempt Status and Other Tax Matters” below.

Significant Risk Areas Summarized

Certain of the primary risks associated with the operations of hospitals and health systems similar to those operated by the Corporation are briefly summarized in general terms below and are explained in greater detail in subsequent sections. The occurrence of one or more of these risks could have a material adverse effect on the financial condition and results of operations of the Corporation or any future Member of the Obligated Group and, in turn, the ability of the Obligated Group to make payments under the Loan Agreement and Obligation No. 42.

Turmoil in U.S. Economy. In recent weeks, the COVID-19 virus outbreak has resulted in volatility in the U.S. and global financial markets, and significant realized and unrealized losses in investment portfolios. Financial results, generally, and liquidity, in particular, may be materially diminished. There can be no guarantee that a secondary market will develop for the Bonds; therefore, potential purchasers of the Bonds may not be able to resell the Bonds so purchased or may experience large fluctuations in the market price of the Bonds. In addition, many businesses, and, in some cases, entire industries, have been adversely impacted by disruptions in operations, supply chain delays or cessation, and redeployment of personnel resources, among other challenges. Such impacts may lead to business failures. In addition, governmental response measures may include unexpected and severe restrictions on business operations or new requirements for businesses, such as mandating paid sick leave, that affect the entire U.S. economy. Access to capital markets may be hindered and increased costs of borrowing may occur as a result. Given the uncertainty regarding the outbreak, the full range of its consequences cannot be predicted at this time. See also “Business Relationships and Other Business Matters—Infectious Disease Outbreak” herein.

Federal Health Care Reform and Deficit Reduction. The Patient Protection and Affordable Care Act, as enacted in 2010 and as subsequently amended (the “ACA”), impacts almost all aspects of hospital and provider operations and health care delivery, and has changed and is changing how health care services are covered, delivered, and reimbursed. These changes have resulted, and will continue to result, in new payment models with the risk of lower reimbursement from Medicare, utilization changes, increased government enforcement and the necessity for health care providers to assess, and potentially alter, their business strategy and practices, among other consequences. It is unclear whether efforts to repeal, replace or amend the legislation will continue, and how lawsuits challenging its provisions will be resolved. Uncertainties regarding implementation of the ACA create unpredictability for the strategic and business planning efforts of health care providers, which in itself creates risk. Requirements for state “health information exchanges” could fundamentally alter the health insurance market by giving the health information exchanges a rate-setting role, negatively impacting hospital and other health care providers.

In recent years, federal policymakers have undertaken various efforts to reduce federal spending on entitlement programs, including Medicare and Medicaid. Additional attempts to curb federal entitlement program spending are likely, and federal deficit reduction efforts would likely curb federal Medicare and Medicaid spending further to the detriment of hospitals, physicians and other health care providers. From time to time, there may be legislative or judicial efforts to repeal or substantially modify provisions of the ACA. See “—Health Care Reform” below.

The Bipartisan Budget Act of 2019 increased the budget caps imposed by the Budget Control Act of 2011 (the “Budget Control Act”) for fiscal years 2020 and 2021 and authorized \$150 billion in increased non-defense discretionary spending over the next two years. Management of the Corporation is unable to predict what impact any future failure to increase the federal debt limit may have on the operations, results of operations or financial condition of the Corporation; that impact could, however, be material and adverse. Additionally, the market price or

marketability of the Bonds in the secondary market may be materially adversely impacted by any failure of Congress to increase the federal debt limit.

Tax Reform. Tax legislation, administrative actions taken by tax authorities, or court decisions, whether at the federal or state level, may adversely affect the tax-exempt status of interest on the Bonds under federal or state law or otherwise prevent beneficial owners of the Bonds from realizing the full current benefit of the tax status of such interest. In addition, such legislation or actions (whether currently proposed, proposed in the future, or enacted) and such decisions could affect the market price or marketability of the Bonds. In particular, federal tax reform legislation that was signed into law in 2017 significantly changed the income tax rates for individuals and corporations, repealed the alternative minimum tax for corporations, and significantly modified the alternative minimum tax for individuals for tax years beginning after December 31, 2017.

Rate Pressure from Insurers and Purchasers. Certain health care markets, including many communities in California, are strongly impacted by large health insurers and, in some cases, by major purchasers of health services. In those areas, health insurers may have significant influence over the rates, utilization and competition of hospitals and other health care providers. Rate pressure imposed by health insurers or other major purchasers, including managed care payers, may have a material adverse impact on health care providers, particularly if major purchasers put increasing pressure on payers to restrain rate increases. Business failures by health insurers also could have a material adverse impact on contracted hospitals and other health care providers in the form of payment shortfalls or delay, and/or continuing obligations to care for managed care patients without receiving payment. In addition, disputes with non-contracted payers may result in an inability to collect billed charges from these payers.

Medicare. Inpatient hospitals rely to a high degree on payment from the federal Medicare program, and future payment changes are predicted. Recent, as well as future, changes in the underlying law and regulations, as well as in payment policy and timing, create uncertainty and could have a material adverse impact on hospitals' payment streams from Medicare. With health care and hospital spending reported to be increasing faster than the rate of general inflation, Congress and CMS may take action in the future to decrease or change Medicare outlays for hospitals and physicians.

General Economic Conditions, Bad Debt, Indigent Care and Investment Performance. Health care providers are economically influenced by the environment in which they operate. Any national economic difficulties may constrain corporate and personal spending, limit the availability of credit and increase the national debt and federal and certain state government deficits. To the extent that unemployment rates are high, employers reduce their workforces and their budgets for employee health care coverage, or private and public insurers seek to reduce payments to health care providers or curb utilization of health care services, health care providers may experience decreases in insured patient volume and reductions in payments for services. In addition, to the extent that state, county or city governments are unable to provide a safety net of medical services, pressure is applied to local health care providers to increase free care. Furthermore, economic downturns and lower funding of federal Medicare and state Medicaid and other state health care programs may increase the number of patients who are unable to pay for some or all of their medical and hospital services. These conditions may give rise to increases in health care providers' uncollectible accounts, or "bad debt," uninsured discount and charity care and, consequently, to reductions in operating income. Declines in investment portfolio values may reduce or eliminate non-operating revenues. Investment losses (even if unrealized) may trigger debt covenant violations and may jeopardize hospitals' economic security. Losses in pension and other postretirement benefit funds may result in increased funding requirements for hospitals and health systems. Potential failure of lenders, insurers or vendors may negatively impact the results of operations and the overall financial condition of health care providers. Philanthropic support may also decrease or be delayed. These factors may have a material adverse impact on hospitals and health care providers. For a discussion of these risks with regard to the Corporation, in particular the Corporation's recent results of operations and statement of financial position and performance of the Corporation's investments, see APPENDIX A – "INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION."

Interest Rate Swaps and Hedge Risk. Interest rate swaps have experienced, from time to time, negative trading patterns, causing many to cease to function effectively to hedge interest rate exposure. Some swap counterparties have ceased to exist and others have suffered repeated downgrading and negative market perception. Further, certain swap arrangements may not be terminable except upon the payment of termination fees by the borrowing party, which may be substantial in amount. In the interim, negative mark-to-market valuation of certain

swap arrangements must be recorded on a borrower's balance sheet. These factors may have a material adverse impact on hospitals and health systems involved in such financial arrangements. For a discussion of the interest rate swap agreements that the Corporation has entered into, see APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION—Interest Rate Swap Arrangements.”

Nonprofit Health Care Environment. The significant tax benefits received by nonprofit, tax-exempt hospitals have increasingly caused the business practices of such hospitals to be subject to scrutiny by public officials and the press, and to political and legal challenges of the ongoing qualification of such organizations for tax-exempt status. Multiple governmental authorities, including Congress, the Internal Revenue Service (the “IRS”), state attorneys general, and state legislatures have held hearings and carried out audits regarding the conduct of tax-exempt organizations, including tax-exempt hospitals. Citizen organizations, such as labor unions and patient advocates, have also focused public attention on the activities of tax-exempt hospitals and health systems and raised questions about their practices. The IRS imposes certain reporting requirements on hospitals and health systems, including through Schedule H, Schedule J and Schedule K of the IRS Form 990 (“Form 990”). Proposals to increase the regulatory requirements for nonprofit hospitals’ retention of tax-exempt status, such as by establishing a minimum level of charity care, have also been introduced repeatedly in Congress. These challenges and examinations, and any resulting legislation, regulations, judgments or penalties, could materially change the operating environment for nonprofit providers and have a material adverse effect on the Corporation. Significant changes in the obligations of nonprofit, tax-exempt hospitals and challenges to or loss of the tax-exempt status of nonprofit hospitals generally, or the Corporation in particular, could have a material adverse effect on the Corporation. See “—Tax-Exempt Status and Other Tax Matters—Maintenance of Tax-Exempt Status of Interest on the Bonds” below.

Capital Needs vs. Capital Capacity. Hospital and other health care operations are capital intensive. Regulation, technology and expectations of physicians and patients require constant and often significant capital investment. In California, seismic safety standards mandated by the State may require that many hospital facilities be substantially modified, replaced or closed. Nearly all hospitals in California are affected. Additionally, currently compliant hospitals may face future changes in seismic standards. Estimated construction costs are substantial and actual costs of compliance may exceed estimates. Total capital needs may exceed capital capacity. Additionally, the technology needs of hospitals also present significant capital needs, including acquisition and implementation of electronic health records technology. Furthermore, capital capacity of hospitals and health systems may be reduced as a result of credit market dislocations.

Construction Risks. Construction projects are subject to a variety of risks, including but not limited to delays in issuance of required building permits or other necessary approvals or permits, including environmental approvals, strikes, shortages of materials and labor, and adverse weather conditions. Such events could delay occupancy. Cost overruns may occur due to change orders, delays in the construction schedule, scarcity of building materials and labor and other factors. Cost overruns could cause the costs to exceed available funds. See APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SERVICES, FACILITIES AND OPERATIONS—Master Plan and Additional Capital Needs.”

Government “Fraud” Enforcement. “Fraud” in government funded health care programs is of significant concern to the federal government and state regulatory agencies overseeing health care programs, and is one of the federal government’s prime law enforcement priorities. The federal government and, to a lesser degree, state governments impose a wide variety of extraordinarily complex and technical requirements intended to prevent over-utilization based on economic inducements, misallocation of expenses, overcharging and other forms of “fraud” in the Medicare and Medicaid programs, as well as other state and federally-funded health care programs. This body of regulation impacts a broad spectrum of hospital and other health care provider commercial activity, including licensing, billing, accounting, recordkeeping, medical staff oversight, medical necessity determinations, quality assurance, physician contracting and recruiting, cost allocation, clinical trials, discounts and other functions and transactions.

Violations and alleged violations may be deliberate, but also frequently occur in circumstances where management is unaware of the conduct in question, as a result of mistake, or where the individual participants do not know that their conduct is in violation of law. Violations may occur and be prosecuted in circumstances that do not have the traditional elements of fraud, and enforcement actions may extend to conduct that occurred in the past.

Violations may carry significant sanctions. The government periodically conducts widespread investigations covering categories of services or certain accounting, coding or billing practices.

Violations and Sanctions. The government and/or private “whistleblowers” often pursue aggressive investigative and enforcement actions. The government has a wide array of administrative, civil, criminal, monetary and other penalties, including suspending essential hospital and other health care provider payments from the Medicare or Medicaid programs, or exclusion from those programs. Aggressive investigation tactics, negative publicity and threatened penalties can be, and often are, used to force settlements, payment of fines and compliance with prospective restrictions that may have a materially adverse impact on hospital and other health care provider operations, financial condition, results of operations and reputation. Multi-million dollar fines and settlements for alleged intentional misconduct, fraud or false claims are not uncommon in the health care industry. These risks are generally uninsured. Government enforcement and private whistleblower suits may continue to increase in the hospital and health care sector. Many large hospital and other health care provider systems are likely to be adversely impacted by actions or claims of this kind.

State Medicaid Programs. State Medicaid programs, known as Medi-Cal in California, are an important payor source for many hospitals and are likely to become a proportionately larger source of revenue in those states that have chosen to expand Medicaid to significant numbers of uninsured Americans. These programs often pay hospitals and physicians at levels that may be below the actual cost of the care provided. As Medicaid programs are partially funded by states, the often precarious financial condition of states may result in lower funding levels and/or payment delays in the future. These could have a material adverse impact on hospitals and other health care providers.

Personnel Shortage. From time to time, shortages of physicians and nursing and other technical personnel occur, which may impact hospitals and health care systems. Various studies have predicted that physician and nurse shortages will become more acute over time, as practitioners retire and patient volume exceeds the growth in new professionals. As reimbursement amounts are reduced to health care facilities and organizations that employ or contract with physicians, nurses and other health care professionals, pressure to control and possibly reduce wage and benefit costs may further strain the supply of those professionals. In California, regulation of nurse staff ratios can intensify the potential shortage of nursing personnel. In addition, shortages of other professional and technical staff such as pharmacists, therapists, laboratory technicians, billing coders and others may occur or worsen. Hospital operations, patient and physician satisfaction, financial condition and future growth could be negatively affected by physician and nursing and other technical personnel shortages, resulting in material adverse impact to hospitals and health care systems.

Technical and Clinical Developments. New clinical techniques and technology, as well as new pharmaceutical and genetic developments and products, may alter the course of medical diagnosis and treatment in ways that are currently unanticipated, and that may dramatically change medical and hospital care. These developments could result in higher health care costs, significant capital investments, reductions in patient populations, lower utilization of hospital service and/or new sources of competition for hospitals.

Costs and Restrictions from Governmental Regulation. Nearly every aspect of hospital operations and health care delivery is regulated, in some cases by multiple agencies of government. The level and complexity of regulation and compliance audits appear to be increasing, imposing greater operational limitations, higher staffing and training requirements, enforcement and liability risks, and significant and sometimes unanticipated costs.

Proliferation of Competition. Hospitals increasingly face competition from specialty providers of care and ambulatory care facilities. This competition may cause hospitals to lose essential inpatient or outpatient market share. Competition may be focused on services or payor classifications where hospitals realize their highest margins, thus negatively affecting programs that are economically important to hospitals. Specialty hospitals may treat only profitable classifications of patients, leaving full-service hospitals with higher acuity and/or lower paying patient populations. These new sources of competition may have a material adverse impact on hospitals, particularly where a group of a hospital’s principal physician admitters may curtail their use of a hospital service in favor of a competitor’s facilities.

Increasing Consumer Choice. Hospitals and other health care providers face increased pressure to be transparent and provide information about cost and quality of services, which may lead to a loss of business as

consumers and others make choices about where to receive health care services based upon publicly available information.

Labor Costs and Disruption. The delivery of health care services is labor intensive. Labor costs, including salary, benefits and other liabilities associated with the workforce, have significant impact on hospital and health care provider operations and financial condition. Hospital and health care employees are increasingly organized in collective bargaining units and may be involved in work actions of various kinds, including work stoppages and strikes. Overall costs of the hospital workforce are high, and turnover is high. Pressure to recruit, train and retain qualified employees is expected to accelerate. These factors may materially increase hospital costs of operation. At the same time, health care organizations will be under increasing pressure to reduce the cost of delivering care to patients, including the cost of salary and benefits, in order to compete in a transparent price market. Workforce disruption may negatively impact hospital revenues and reputation. See APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—EMPLOYEES.”

Pension and Benefit Funding. As large employers, hospitals and health care providers may incur significant expenses to fund pension and benefit plans for employees and former employees, and to fund required workers’ compensation benefits. Plans are often underfunded or may become underfunded, and funding obligations, in some cases, may be erratic or unanticipated and may require significant commitments of available cash needed for other purposes.

Organizations that are controlled by or under common control with other entities may be jointly and severally liable for the defined benefit pension plan obligations of these entities, by virtue of the “controlled group” rules under the Internal Revenue Code of 1986, as amended (the “Code”) and the Employee Retirement Income Security Act of 1974, as amended. To the extent that a plan sponsor is unable to or does not meet the plan’s minimum funding standards or if there are unfunded liabilities upon plan termination, members of the controlled group are jointly and severally liable, and any excise tax applicable to the unpaid required minimum funding contributions can be levied against the controlled group. The rules permit the Pension Benefit Guaranty Corporation (“PBGC”), the federal agency charged with insuring and monitoring defined benefit plans, to impose a lien on the controlled group if required minimum funding contributions and unpaid amounts total more than \$1 million. The PBGC also has the authority to recover from the members of the plan sponsor’s controlled group amounts that the PBGC pays, or assumes the obligation to pay, to plan participants and beneficiaries in connection with a termination of an underfunded plan. The PBGC may also attach a lien to the assets of the plan sponsor’s controlled group members to secure its claims for recovery.

The Corporation sponsors a defined benefit pension plan, which is frozen to new participants, and has other pension-related obligations with respect to its workforce. The Corporation is also a member of a controlled group that sponsors two additional defined benefit plans. See APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION—Management’s Discussion and Analysis of Recent Financial Performance—Pension Funding Requirements.”

Medical Liability Litigation and Insurance. Medical liability litigation is subject to public policy determinations and legal and procedural rules that may be altered from time to time, with the result that the frequency and cost of such litigation, and resultant liabilities or insurance costs, may increase in the future. Hospitals and health care providers may be affected by negative financial and liability impacts on physicians. Costs of insurance, including self-insurance, may increase dramatically.

Class Actions. Hospitals and health systems have long been subject to a wide variety of litigation risks, including liability for care outcomes, employer liability, property and premises liability, and peer review litigation with physicians, among others. In recent years, consumer class action litigation has emerged as a potentially significant source of litigation liability for hospitals and health systems. These class action suits have most recently focused on hospital billing and collections practices, and they may be used for a variety of currently unanticipated causes of action. Since the subject matter of class action suits may involve uninsured risks, and since such actions often involve alleged large classes of plaintiffs, they may have material adverse consequences on hospitals and health systems in the future.

Facility Damage. Hospitals and health care providers are highly dependent on the condition and functionality of their physical facilities. Damage from earthquakes, floods, fires, other natural causes, deliberate acts of destruction, or various facilities system failures may have a material adverse impact on operations, financial conditions and results of operations.

Federal Budget Cuts

The Budget Control Act mandates significant reductions in federal spending for fiscal years 2012–2021, including a reduction of two percent on all Medicare payments during this period. Subsequent legislation enacted by Congress extended these reductions through 2029. There is a substantial risk that Congress could act to extend or increase these across-the-board reductions. The proposed 2021 federal budget calls for a \$920 billion reduction in Medicaid spending and a \$756 billion reduction in Medicare spending over the next decade. It is impossible to predict what portion, if any, of these proposed federal health care spending reductions will be included in a Congressionally approved budget. See “—Patient Service Revenues” below.

Because Congress may make changes to the budget in the future, it is impossible to predict the impact any spending cuts may have upon health care providers, including the Corporation. Similarly, it is impossible to predict whether any automatic reductions to Medicare may be triggered in lieu of other spending cuts that may be proposed by Congress. If and to the extent Medicare and/or Medicaid spending is reduced under either scenario, this may have a material adverse effect upon the financial condition of the Corporation. Ultimately, these reductions or alternatives could have a disproportionate impact on health care providers and could have an adverse effect on the financial condition of the Corporation, which could be material.

Health Care Reform

The discussion herein describes risks associated with certain existing federal and state laws, regulations, rules, and governmental administrative policies and determinations to which the Corporation and the health care industry are subject. While these are regularly subject to change, many of the existing provisions were enacted by or promulgated pursuant to the ACA, to which opposition has been expressed by President Trump and the Secretary of DHHS, as well as Republican leaders of Congress. Additionally, in December 2018, a Texas federal district court judge, in the case of *Texas v. Azar*, declared the ACA unconstitutional, reasoning that the individual mandate tax penalty was essential to and not severable from the remainder of the ACA. The case was appealed to the United States Court of Appeals for the Fifth Circuit and, on December 18, 2019, that court affirmed the district court’s decision but remanded the case to the district court for further consideration of the severability issue and to provide additional analysis of current provisions of the ACA. The U.S. Supreme Court has agreed to hear the matter, but will not do so until its Fall 2020 term, and a decision is not expected before the November 2020 elections. The ACA will remain law while the case proceeds; however, uncertainty remains as to whether any or all of the ACA could be struck down, which creates operational risk for the health care industry. It is not possible to predict with any certainty whether or when the ACA or any specific provision or implementing measure will be repealed, withdrawn or modified in any significant respect, but a unified administration and majority in both chambers of Congress could enact legislation, withdraw, modify or promulgate rules, regulations and policies, or make determinations affecting the health care industry, including the Corporation, any of which individually or collectively could have a material adverse effect on the operations, financial condition and financial performance of the Corporation.

There can be no assurances that any existing health care laws and regulations will remain in their current form. Further, there can be no assurances that any potential changes to the laws and regulations governing health care would not have a material adverse financial or operational impact on the Corporation. Therefore, the following discussion should be read with the understanding that significant changes could occur in 2020 and beyond in many of the statutory and regulatory matters discussed.

Federal Health Care Reform. As a result of the ACA, substantial changes have occurred and are anticipated to continue to occur in the United States health care system. Generally, the ACA affects the delivery of health care services, the financing of health care costs, reimbursement of health care providers and the legal obligations of health insurers, providers, employers and consumers. Because of the complexity of the ACA generally, additional legislation may be considered and enacted over time. The ACA has also required, and will continue to require, the promulgation of substantial regulations with significant effects on the health care industry. Thus, the health care industry has been

and continues to be the subject of significant new statutory and regulatory requirements and, consequently, to structural and operational changes and challenges for a substantial period of time. The full ramifications of the ACA may also become apparent only over additional time and through later regulatory and judicial interpretations. Portions of the ACA have already been limited and nullified as a result of legislative amendments and judicial interpretations, while others have been upheld after being challenged, and future executive or legislative actions and legal challenges may further change its impact. The uncertainties regarding the implementation and continued effect of the ACA create unpredictability for the strategic and business planning efforts of health care providers, which in itself constitutes a risk.

President Trump and certain Congressional leaders previously included a repeal of all or a portion of the ACA, and the 115th Congress introduced several bills to repeal and replace the ACA. The repeal effort had focused on individual and employer mandates, exchanges, insurance industry regulations, Medicaid expansion, and the taxes to pay for these elements of the ACA. A repeal could result in additional pressure on Medicaid and Medicare funding and could have the effect of reducing the availability of health insurance and Medicaid coverage to individuals who were previously insured, resulting in greater numbers of uninsured individuals, and could otherwise materially adversely affect the Corporation. While no full repeal bills have passed both chambers of Congress, the Tax Cuts and Jobs Act eliminated the tax penalty associated with a key provision of the ACA known as the “individual mandate” beginning January 1, 2019. It is not possible to predict all effects of the elimination of the individual mandate penalty.

In addition to the legislative changes discussed above, ACA implementation and the ACA insurance exchange markets can be significantly affected by executive branch actions. In relevant part, President Trump has already taken executive action requiring all federal agencies with authorities and responsibilities under the ACA to “exercise all authority and discretion available to them to waive, defer, grant exemptions from, or delay” parts of the ACA that place “a fiscal burden . . . or a cost, fee, tax, penalty, or regulatory burden” on states, individuals, health care providers or certain others. Administrative agencies have also taken actions, including: (i) eliminating cost-sharing reduction payments to insurers that would otherwise offset deductibles and other out-of-pocket expenses for health plan enrollees at or below 250 percent of the federal poverty level; (ii) relaxing requirements for state innovation waivers that could reduce enrollment in the individual and small group markets and lead to additional enrollment in short-term, limited duration insurance and association health plans (“AHPs”); and (iii) the issuance of a final rule by the Departments of Labor, Treasury, and Health and Human Services that would incentivize the use of health reimbursement accounts by employers to permit employees to purchase health insurance in the individual market.

In June 2018, the Department of Labor published a final rule enabling the formation of AHPs. The final rule is intended to expand access to group health coverage by permitting businesses, sole proprietors and self-employed workers to form associations to sponsor AHPs based on common geography, industry or trade, if certain criteria are met; however, the final rule also eliminates certain requirements for a health plan under the ACA. In March 2019, a federal district court judge invalidated and remanded the final rule to the Department of Labor. The government has appealed this decision. It is unclear how the increased federal oversight of state health care or the development of AHPs may affect future state oversight or affect the Corporation.

It remains unclear at this time what portions of the ACA may remain, or what any replacement or alternative programs may be created by any future legislation. Any such future repeal or replacement may have significant impact on the reimbursement for health care services generally, and may create reimbursement for alternative health care services competing with the services offered by the Corporation. Accordingly, there can be no assurance that the adoption of any future federal or state health care reform legislation will not have a negative financial impact on the Corporation, including its ability to compete with alternative health care services funded by such potential legislation, or for the Corporation to receive payment for services.

While the future health care landscape remains relatively unclear following the 2016 presidential election and the 2018 congressional elections, the changes in the health care industry brought about by the ACA thus far may have both positive and negative effects, directly and indirectly, on the nation’s hospitals and other health care providers, including the Corporation. For example, under the ACA, the projected increase in the numbers of individuals with health care insurance occurring as a consequence of Medicaid expansion, creation of health insurance exchanges, subsidies for insurance purchase and the penalty on certain individuals who do not purchase insurance could result in lower levels of bad debt and increased utilization or profitable shifts in utilization patterns for hospitals. However, these benefits may be offset to the extent that Medicaid expansion, which is optional on a state-by-state

basis, is either not pursued or results in a shifting of significant numbers of commercially-insured individuals to Medicaid or other government programs, or other health insurance options on exchanges are limited or unaffordable, or as a result of the cost containment measures and pilot programs that the ACA requires. A negative impact to the hospital industry overall will likely result from currently scheduled substantial cumulative reductions in Medicare payments. Currently, the ACA's cost-cutting provisions to the Medicare program include reductions to or elimination of Medicare reimbursement for certain patient readmissions and hospital-acquired conditions. Industry experts also expect that private insurers and payors may follow with similar actions.

Beginning in 2014, the ACA created state "health insurance exchanges" in which health insurance can be purchased by certain groups and segments of the population, expanded the availability of subsidies and tax credits for premium payments by some consumers and employers, and required that certain terms and conditions be included by commercial insurers in contracts with providers. In addition, the ACA imposed many new obligations on states related to health insurance. It is unclear how the increased federal oversight of state health care may affect future state oversight or affect the Corporation. The health insurance exchanges may have positive impact for hospitals by increasing the availability of health insurance to individuals who were previously uninsured. Conversely, employers or individuals may shift their purchase of health insurance to new plans offered through the exchanges, which may or may not reimburse providers at rates equivalent to rates the providers currently receive. The exchanges could alter the health insurance markets in ways that cannot be predicted, and exchanges might, directly or indirectly, take on a rate-setting function that could negatively impact providers. Because the exchanges are still relatively new, the effects of these changes upon the financial condition of any third party payor that offers health insurance, rates paid by third-party payors to providers and, thus, the revenues of the Corporation, and upon the operations, results of operations and financial condition of the Corporation cannot be predicted. Legislative proposals to repeal or replace the ACA published to date have focused largely on reorganizing the health exchange system created under the ACA and reorganizing the individual, corporate and public funding obligations associated with health coverage enrollment.

High-deductible insurance plans have become more common in recent years, and the ACA has encouraged the increase in high-deductible insurance plans as the health care exchanges include a variety of plans, several of which offer lower monthly premiums in return for higher deductibles. Many plans offered on the exchanges have high deductibles. High-deductible plans may contribute to lower inpatient volumes as patients may forgo or choose less expensive medical treatment to avoid having to pay the costs of the high deductibles. There is also a potential concern that some patients with high-deductible plans will not be able to pay their medical bills as they may not be able to cover their high deductible. Employers have implemented a variety of strategies to offset high deductibles under these plans, including offering supplemental voluntary insurance products, such as per-diem hospitalization, critical illness or cancer insurance policies and/or enabling employees to contribute to health savings accounts.

The ACA affects some health care organizations differently from others, depending, in part, on how each organization has adapted to the legislation's emphasis on directing more federal health care dollars to integrated provider organizations and providers with demonstrable achievements in quality care. The ACA authorized a value-based purchasing system for hospitals under which a percentage of payments are contingent on satisfaction of specified performance measures related to common and high-cost medical conditions, such as cardiac, surgical and pneumonia care. The ACA has also established a mechanism by which the government develops and tests various demonstration programs and pilot projects and other voluntary and mandatory programs to evaluate and encourage new provider delivery models and payment structures, including ACOs, and bundled provider payments.

With respect to charity care, the ACA contains many features from previous tax-exempt reform proposals, including a set of sweeping changes applicable to charitable hospitals exempt under Section 501(c)(3) of the Code. The ACA: (i) imposes new eligibility requirements for 501(c)(3) hospitals, coupled with an excise tax for failures to meet certain of those requirements; (ii) requires mandatory IRS review of the hospitals' entitlement to exemption; (iii) sets forth new reporting requirements, including information related to community health needs assessments and audited financial statements; (iv) requires hospitals to adopt and publicize a financial assistance policy, limit charges to patients who qualify for financial assistance to the amounts generally billed to insured patients and prohibits the use of gross charges, and control the billing and collection processes; and (v) imposes further reporting requirements on the Secretary of the Treasury regarding charity care levels. Failure to satisfy these conditions may result in the imposition of fines and the loss of tax-exempt status.

California Health Care Reform. The State has enacted several laws intended to implement the ACA within the required federal timeframes. Among the steps taken to date to implement or advance the ACA, the State established a state health insurance exchange which operates under a brand name, “Covered California;” the State approved expansion of Medi-Cal coverage, effective in January 2014, to include adults with incomes up to 138% of the federal poverty level who are under age 65, not pregnant and not otherwise currently eligible for Medi-Cal; and legislation was enacted prohibiting insurers from denying health coverage based on preexisting conditions. The State also expanded Medi-Cal coverage to any qualifying individual who is under 19 years of age, regardless of immigration status. Legislation signed in 2019 will extend health care benefits to individuals 19 to 25 years of age, regardless of their immigration status, increase eligibility for subsidies to purchase health plans through Covered California, and implement a state version of the individual mandate. In addition, the State is also running a dual-eligibles pilot program with federal funding, called the “Cal MediConnect Program.”

The implementation of health care reform extended coverage under Medi-Cal to an additional 3.8 million Californians by the end of 2018 and added new services such as treatment for substance abuse and mental health. While management cannot predict the effect of these changes to the Medicaid program on operations, results from operations or the financial condition of the Obligated Group, historically Medicaid has reimbursed at rates below the actual cost of care. Therefore, increases in the overall proportion of Medicaid patients poses a financial risk to the Corporation. The State expanded Medi-Cal under the ACA, and it is uncertain to what extent the adverse reimbursement effects of increased Medi-Cal volume may be mitigated by a reduction in the volume of services that otherwise would have been provided as uncompensated care. Furthermore, there can be no assurance that legislation will not be adopted that would materially alter federal financing to the states in support of the Medicaid program, and there can be no assurance that any such legislation will not materially adversely affect the Corporation. Furthermore, attempts to balance or reduce the federal budget, along with balanced-budget requirements in the State, will likely negatively impact Medicaid funding. Payments made to health care providers are subject to change, including changes in the methods for calculating payments, the amount of payments and the types of services that will be covered. Coverage of persons under Medicaid could also be reduced.

Nonprofit Health Care Environment

The tax-exempt status afforded nonprofit health care organizations is the subject of increasing regulatory and legislative threats. As a nonprofit tax-exempt organization, the Corporation is subject to federal, state and local laws, regulations, rulings and court decisions relating to its organization and operation, including its operation for charitable purposes. At the same time, the Corporation conducts large-scale complex business transactions and is a major employer in its geographic area. There can often be a tension between the rules designed to regulate a wide range of charitable organizations and the day-to-day operations of a complex health care organization. Hospitals or other health care providers may be forced to forgo otherwise favorable opportunities for certain joint ventures, recruitment and other arrangements in order to maintain their tax-exempt status.

The operations and practices of nonprofit, tax-exempt hospitals are routinely challenged or criticized for inconsistency or inadequate compliance with the regulatory requirements for, and societal expectations of, nonprofit tax-exempt organizations. These challenges, in some cases, are broader than concerns about compliance with federal and state statutes and regulations, such as Medicare and Medicaid compliance, and instead in many cases are examinations of core business practices of the health care organizations. A common theme of these challenges is whether nonprofit hospitals may not confer community benefits that exceed or equal the benefit received from their tax-exempt status. Areas that have come under examination have included pricing practices, billing and collection practices, charitable care, methods of providing and reporting community benefit, executive compensation, exemption of property from real property taxation, private use of facilities financed with tax-exempt bonds and others. These challenges and questions have come from a variety of sources, including state attorneys general, the IRS, local and state tax authorities, labor unions, Congress, state legislatures and patients, and in a variety of forums, including hearings, audits and litigation. The challenges and examinations, and any resulting legislation, regulations, judgments or penalties, could have a material adverse effect on the Corporation.

Congressional Hearings. A number of House and Senate Committees, including the House Committee on Energy and Commerce, the House Committee on Ways and Means and the Senate Committee on Finance, have conducted hearings and/or investigations into issues related to nonprofit tax-exempt health care organizations. These hearings and investigations have included a nationwide investigation of hospital

billing and collection practices, charity care and community benefit and prices charged to uninsured patients and possible reforms to the nonprofit sector. These hearings and investigations may result in new legislation.

Nonprofit Legislation. Legislative proposals that could have an adverse effect on the Corporation include: (i) any changes in the taxation of nonprofit corporations or in the scope of their exemption from income or property taxes; (ii) limitations on the amount or availability of tax-exempt financing for corporations recognized as tax-exempt under Section 501(c)(3) of the Code; (iii) regulatory limitations affecting the Corporation's ability to undertake capital projects or develop new services; (iv) a requirement that nonprofit health care institutions pay real property tax and sales tax on the same basis as for-profit entities; (v) mandates to provide certain levels of free or substantially reduced care that must be provided to low income uninsured and underinsured populations; and (vi) placing ceilings on executive compensation.

Tax-Exempt Bond Examinations. IRS officials have indicated that resources will be invested in audits of tax-exempt bonds in the charitable organization sector with specific review of private use. Bonds issued for the benefit of the Corporation have been audited in the past. Schedule K of Form 990 requires tax-exempt organizations to report on the investment and use of tax-exempt bond proceeds to address IRS concerns regarding compliance with arbitrage rebate requirements and the private use of bond-financed facilities.

IRS Examination of Compensation Practices and Community Benefit. The IRS has been historically concerned about executive compensation practices of tax-exempt hospitals. In 2004, the IRS began a compliance program to measure compliance by tax-exempt organizations with requirements that they not pay excessive compensation and benefits to their officers and other insiders. In 2009, the IRS issued its Hospital Compliance Project Final Report (the "IRS Final Report") that examined tax-exempt organizations' practices and procedures with regard to compensation and benefits paid to their officers and other defined "insiders." The IRS Final Report indicated that the IRS will continue to heavily scrutinize executive compensation arrangements, practices and procedures of tax-exempt hospitals and other tax-exempt organizations and, in certain circumstances, may conduct further investigations or impose fines on tax-exempt organizations.

The IRS has also undertaken a community benefit initiative directed at hospitals. The IRS Final Report determined that the reporting of community benefit by nonprofit hospitals varied widely, both as to types of programs and expenditures classified as community benefit and the measurement of community benefits. IRS Form 990 requires detailed disclosure of compensation practices, corporate governance, loans to management and others, joint ventures and other types of transactions, political campaign activities, and other areas the IRS deems to be a compliance risk. The Form 990 also requires the disclosure of information on community benefit as well as reporting of information related to tax-exempt bonds, including compliance with the arbitrage rules and rules limiting private-use of bond-financed facilities, including compliance with the safe harbor guidance in connection with management contracts and research contracts. The Form 990 is intended to provide enhanced transparency as to the operations of exempt organizations. See "—Tax-Exempt Status and Other Tax Matters" below.

Revisions to Form 990, Schedule H. As described below in "—Tax-Exempt Status and Other Tax Matters," the ACA contains new requirements for tax-exempt hospitals through Section 501(r) of the Code. Schedule H of Form 990, which hospitals must use to report their community benefit activities, has been revised to require details on how a hospital determines eligibility for free or discounted care (if the federal poverty guidelines are not used). Consistent with Section 501(r) of the Code, Schedule H now requires hospitals to describe billing and collection practices permitted under the hospital facility's policies, as well as information about the hospital's emergency medical care policy, financial assistance policy, and community health needs assessments. Hospitals must complete all of Schedule H, including lines that relate to community health needs assessments.

IRS Scrutiny of Employee Classification. The IRS is aggressively pursuing businesses, including nonprofit tax-exempt organizations, that misclassify their employees as independent contractors. A number of employers incorrectly treat their workers (or a class or group of workers) as independent contractors or other nonemployees to reduce their employment tax withholding burden. An IRS audit of employee

classification can result in employment tax liability for the employers, as well as interest and penalties on the amounts owed. Whether a worker is performing services as an employee or as an independent contractor depends on facts and circumstances and generally is determined under various common law tests, such as whether the service recipient has the right to direct and control the worker regarding how he or she performs the services. The IRS is offering a Voluntary Classification Settlement program that provides partial relief from federal employment taxes owed for employers that agree to prospectively treat workers as employees and not independent contractors.

The risk associated with employee misclassification may be compounded by the implementation of California Assembly Bill 5 (“AB 5”) that became effective January 1, 2020. Under AB 5, a workforce member would be presumed to be an employee unless it is demonstrated that: (i) the person is free from the control and direction of an employer in connection with the performance of the work, both under the contract for the performance of the work and in fact; (ii) the person performs work that is outside the usual course of the employer’s business; and (iii) the person is customarily engaged in an independently established trade, occupation, or business of the same nature as that involved in the work performed. The law exempts certain occupations, including physicians and certain professionals, but is expected to apply to health care professionals, health aides, and other workers, such as those necessary for the operations of the Corporation. Management cannot predict the impact of AB 5. To the extent that this legislation results in the increasing classification of Corporation workforce members as employees, the legislation may have a material adverse impact on the Corporation.

Litigation Relating to Billing and Collection Practices. Lawsuits have been filed in both federal and state courts alleging, among other things, that hospitals have failed to fulfill their obligations to provide charity care to uninsured patients and have overcharged uninsured patients. Some of these cases have since been dismissed by the courts and some hospitals and health systems have entered into substantial settlements. Cases are pending in various courts around the country and others could be filed. Some hospitals and health systems have entered into substantial settlements.

California Attorney General. California nonprofit public benefit corporations, including the Corporation, are subject to oversight and examination by the State Attorney General to ensure that their charitable purposes are being carried out, that their fundraising and investment activities comply with State law and that the terms of charitable gifts are followed.

California Auditor Investigation of Exempt Status of Nonprofit Hospitals. In August 2011, California’s Joint Legislative Audit Committee directed the California Bureau of State Audits to investigate whether the State’s nonprofit hospitals are providing enough charity care and community benefit to justify their tax-exempt status. A report was issued in August 2012 that summarized the findings and recommended that the California Legislature (i) amend state law to include requirements with respect to the amount of community benefits a hospital provides, (ii) define a standard methodology for calculating the community benefits a hospital delivers, and (iii) amend state law to allow assessment of a penalty against hospitals that are not in compliance with submitting community benefit plans to the Office of Statewide Health Planning and Development (“OSHPD”). A law was enacted in 2019 allowing assessment of a penalty against hospitals that do not comply with requirements to submit community benefit plans to OSHPD. See “—Tax-Exempt Status and Other Tax Matters” below.

Financial Assistance and Charity Care. The IRS has issued final regulations interpreting the requirements of Section 501(r) of the Code which focus on community benefit initiatives of hospitals. As discussed herein, Form 990 includes Schedule H, which hospitals and health systems must use to report their community benefit activities, including the cost of providing charity care and other tax-exemption related information. California law requires hospitals to maintain written policies about discount payment and charity care and provide copies of such policies to patients and OSHPD. California law also requires hospitals to follow specific billing and collection procedures and communicate proactively through the entire cycle of care to patients on the options available to them within the policies. The Corporation has adopted and maintains such policies.

Indigent Care. Tax-exempt health care providers often treat large numbers of indigent patients who are unable to pay in full for their medical care. Typically, urban, inner-city hospitals and other health care providers may treat significant numbers of indigents. These hospitals and health care providers may be susceptible to economic and political changes that could increase the number of indigents or their responsibility for caring for this population. General economic conditions may affect the number of employed individuals who have health coverage and the ability of those individuals to pay for their health care. Similarly, changes in governmental policy, which may result in coverage exclusions under local, county, state and federal health care programs (including Medicare and Medicaid) may increase the frequency and severity of indigent treatment by such hospitals and other providers. It also is possible that future legislation could require that tax-exempt hospitals and other providers maintain minimum levels of indigent care as a condition to federal tax exemption or exemption from certain state or local taxes.

Challenges to Real Property Tax Exemptions. The real property tax exemptions afforded to certain nonprofit health care providers by state and local taxing authorities have been challenged in certain circumstances on the assertion that the health care providers were not engaged in sufficient charitable activities. These challenges have been based on a variety of grounds, including allegations of aggressive billing and collection practices, excessive financial margins, and operations that closely resemble for-profit businesses.

The foregoing are some examples of the challenges and examinations facing nonprofit health care organizations. They are indicative of a greater scrutiny of the billing, collection and other business practices of these organizations and may indicate an increasingly difficult operating environment for health care organizations, including the Corporation. The challenges and examinations, and any resulting legislation, regulations, judgments, or penalties, could have a material adverse effect on hospitals and health care providers, including the Corporation, and, in turn, its ability to make payments under the Loan Agreement and Obligation No. 42.

Patient Service Revenues

Net patient service revenues realized by the Corporation are derived from a variety of sources. A substantial portion of the net patient service revenues of the Corporation is derived from third-party payors which pay for the services provided to covered patients. These third-party payors include the federal Medicare program, the Medi-Cal program and private health plans and insurers, including health maintenance organizations and preferred provider organizations. Many of those programs make payments to the Corporation in amounts that may not reflect the Corporation's direct and indirect costs of providing services to patients.

The financial performance of the Corporation has been and could be in the future adversely affected by the financial position, the insolvency of, the bankruptcy of or other delays in receipt of payments from third-party payors that provide coverage for services to its patients.

Health care providers have been and continue to be affected significantly by changes made in the last several years in federal and state health care laws and regulations, particularly those pertaining to Medicare and Medicaid. The purpose of much of this statutory and regulatory activity has been to reduce the rate of increase in health care costs, particularly costs paid under the Medicare and Medicaid programs.

The Medicare Program. Medicare is the federal health insurance system under which hospitals and other providers are paid for services provided to eligible elderly and disabled persons. Medicare provides certain health care benefits to beneficiaries who are 65 years of age or older, blind, disabled or qualify for the End Stage Renal Disease Program. Medicare Part A covers inpatient hospital services, skilled nursing care, hospice and some home health care, and Medicare Part B covers physician services, outpatient hospital services, diagnostic tests, outpatient therapy and some supplies. Medicare is administered by CMS, which delegates to the states the process for certifying hospitals to which CMS will make payment. In order to achieve and maintain Medicare certification, hospitals must meet CMS's "conditions of participation" on an ongoing basis, as determined by each state in which they operate and The Joint Commission or other officially sanctioned accrediting organization. The requirements for Medicare certification are subject to change, and, therefore, it may be necessary for hospitals to effect changes from time to time in their facilities, equipment, operations, personnel, billing, policies and services.

As the U.S. population ages, more people will become eligible for the Medicare program. In addition, there are numerous policy proposals, such as “Medicare for All” or “Medicare for More,” that, if implemented, would have the effect of increasing the number of persons eligible for participation in the Medicare program and transition them away from commercial insurance plans that typically reimburse hospitals at rates higher than Medicare. Current projections indicate that demographic changes and continuation of current cost trends will exert significant and negative forces on the overall federal budget. The Medicare program reimburses hospitals based on a fixed schedule of rates based on categories of treatments or conditions. These rates change over time and there is no assurance that these rates will cover the actual costs of providing services to Medicare patients. Further, it is anticipated there will be reductions in rates paid to Medicare managed care plans that may ultimately be passed on to providers.

The ACA institutes multiple mechanisms for reducing costs to the Medicare program and thus reimbursement to hospitals, while also promoting new and innovative health care delivery models, including the following:

Market Basket Reductions. Generally, Medicare payment rates to hospitals are adjusted annually based on a “market basket” of estimated cost increases. In recent years, market basket adjustments for inpatient hospital care have averaged approximately 2-4% annually. CMS has implemented a positive market basket adjustment of 3% for fiscal year 2020.

Value-Based Purchasing. Beginning in federal fiscal year 2013, Medicare inpatient payments to hospitals have included value-based incentive payments made to hospitals that meet certain performance standards during a fiscal year. The program is funded through the reduction of all hospital inpatient care payments by 2%. This reduction is then returned to hospitals as incentive payments earned based on their ability to meet or exceed certain quality standards.

Market Productivity Adjustments. Since federal fiscal year 2012, the ACA has provided for “market basket” adjustments based on overall national economic productivity statistics calculated by the Bureau of Labor Statistics. CMS has implemented a negative productivity adjustment of 0.4% for fiscal year 2020.

Hospital Acquired Conditions. Medicare inpatient payments to hospitals that are in the top quartile nationally for frequency of certain “hospital-acquired conditions” identified by CMS are reduced by 1% of what would otherwise be payable to each hospital for the applicable federal fiscal year.

Readmission Rate Penalty. Medicare inpatient payments to those hospitals with excess readmissions compared to the national average for specified conditions are reduced based on the dollar value of that hospital’s percentage of excess preventable Medicare readmissions within 30 days of discharge, for certain medical conditions. The current maximum penalty is 3%. CMS expanded the patient conditions for which this penalty is assessed beginning in federal fiscal year 2017.

DSH Payments. Pursuant to the ACA, beginning in federal fiscal year 2014, hospitals receiving supplemental Medicare Disproportionate Share Hospital (“DSH”) payments (*i.e.*, those hospitals that care for a disproportionate share of low-income Medicare beneficiaries) were to have their Medicare DSH payments reduced by 75%, although a portion of this reduction potentially could be offset in whole or in part by new payments to each hospital based on the volume of uninsured and uncompensated care. Separately, Medicaid DSH allotments from the federal government to the states are scheduled to be reduced in the aggregate amount of \$44 billion during federal fiscal years 2020 through 2025. These ACA-initiated Medicaid DSH allotment reductions have been delayed and modified multiple times. See “— Disproportionate Share Payments” below.

Medicare Advantage. Since October 1, 2010, payments under the Medicare Advantage programs had been generally reduced, which may result in increased premiums or out-of-pocket costs to Medicare beneficiaries enrolled in Medicare Advantage plans. Those beneficiaries may terminate their participation in those plans and opt for the traditional Medicare fee-for-service program. The reduction in payments to Medicare Advantage programs may also lead to decreased payments to providers by managed care companies operating Medicare Advantage programs, depending on the contractual arrangement between the Medicare Advantage program and the provider. All or any of these outcomes could have a disproportionately negative

effect upon those providers with relatively high dependence upon Medicare Advantage program revenues. While CMS has increased Medicare Advantage payments by 2.53% in 2020, there can be no assurance that any such payment increases will continue into the future.

For information concerning the Medicare payments received by the Corporation for the fiscal years ended August 31, 2017, 2018 and 2019, see APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION—Sources of Revenue.”

Hospital Inpatient Reimbursement. A substantial portion of the Medicare revenues of the Corporation is anticipated to be derived from payments made for services rendered to Medicare beneficiaries under the Inpatient Prospective Payment System (“IPPS”). Under the IPPS, for each covered hospitalization, Medicare pays a predetermined base operating payment and a separate predetermined base payment for capital-related costs. Each hospitalization of a Medicare beneficiary is classified into one of several hundred diagnosis-related groups, or “DRGs.” The IPPS payment rate is not correlated to the hospital’s actual cost of treating a particular patient. It is a fixed sum, generally based on national DRG rates and a Hospital Wage Index intended to reflect geographic differences in the cost of labor. Several hospital characteristics are reflected in payment adjustments, including an indirect medical education adjustment, the disproportionate share adjustment to pay certain hospitals for a portion of the higher costs of treating a large proportion of poor patients and for indirect costs of operating in areas accessible to poor patients and outlier case adjustments (an additional payment for selected cases of unusually long stays or high costs). Therefore, the actual cost of care, including capital costs, may be more or less than the DRG rate. In addition, DRG rates are subject to adjustment by CMS, including reductions mandated by the ACA and the Budget Control Act, and are further subject to federal budget considerations. There is no guarantee that DRG rates, as they change from time to time, will cover actual costs of providing services to Medicare patients. For information regarding the impact of the ACA on payments to hospitals for inpatient services, see “—The Medicare Program” above.

In recent years, CMS has implemented a number of initiatives that may adversely affect Medicare payments to the Corporation, including reduced payment for certain cases in which a beneficiary acquires a complication or condition while in the hospital; an overall reduction in payment to fund bonus payments to some hospitals that satisfy CMS’s “value-based purchasing” criteria; and reduced payments to hospitals with readmission rates for patients with specified diagnoses that exceed the anticipated readmission rate.

Hospital Outpatient Reimbursement. Hospitals are generally paid for outpatient services provided to Medicare beneficiaries under the Outpatient Prospective Payment System (“Outpatient PPS”), which is based on established categories of treatments or conditions known as ambulatory payment classifications (“APC”). The actual cost of care, including capital costs, may be more or less than the reimbursements. Generally, the Outpatient PPS rates are adjusted annually based on estimated cost increases and other factors, including productivity and budget neutrality adjustments. These adjustments are typically positive, and often range from 0.5% to 2.5%. However, occasionally, because of statutory formulas and other legislative and administrative actions, these adjustments can be negative, and Medicare payments to hospitals can be reduced as a result. Moreover, Congress often takes action to specify payment update reductions, which can have the effect of constraining or reducing hospital payments. There is no guarantee that APC rates, as they change from time to time, will cover actual costs of providing services to Medicare patients.

In November 2019, CMS published a final rule under the Outpatient PPS requiring that each hospital location publish a yearly list of the hospital’s standard charges for items and services provided by the hospital. Under the rule, hospitals must make public discounted cash prices, payer-specific negotiated charges, and de-identified minimum and maximum negotiated charges for at least 300 shoppable services, 70 of which are specified by CMS and the remaining 230 selected by the hospital. Hospitals must display the required information prominently, in a consumer-friendly manner, and clearly identify the hospital location with which the standard charge information is associated on a publicly available website. A lawsuit has been filed by several hospital associations, health systems, and hospitals in the United States District Court for the District of Columbia (the “D.C. District Court”) challenging the legal authority of DHHS to implement the final rule. Management of the Corporation is unable to predict the ultimate outcome of this legal challenge and the type of relief that may be ordered by the court. Failure to comply with the above requirements may result in daily monetary penalties to the hospital. The deadline for compliance with the final rule is January 1, 2021. Publication of hospital standard charges as required may result in changes to consumer choice in a

manner that may negatively impact the Corporation. Accordingly, there can be no assurances that compliance with these requirements would not have a material adverse financial or operational impact on the Corporation.

Medicare Physician Payment. In April 2015, the Medicare and CHIP Reauthorization Act (“MACRA”) established the Quality Payment Program (“QPP”), which repealed the sustainable growth rate methodology for updates to the Medicare Physician Fee Schedule, changed the way that Medicare rewards clinicians for services, streamlined existing quality and value programs, and provided for bonus payments to physicians and other clinicians for participating in certain payment models. Furthermore, MACRA moved Medicare physician reimbursement from a fee-for-service to a pay-for-performance model that will continue to control the growth of physician payments based on clinical outcomes and quality reporting. In addition to the base payment methodology, physicians can earn merit-based payments based on factors including compliance with meaningful use of certified electronic health records technology and demonstration of quality-based medicine.

Beginning January 1, 2019, and through 2025, physician payment adjustments will occur through the Quality Payment Program’s two reimbursement tracks – the Merit-based Incentive Payment System (“MIPS”) or an Alternative Payment Model (“APM”). In calculating physician payment adjustments, MIPS streamlines existing quality and value programs, accounting for physician performance under the meaningful use of electronic health records incentive program, the value-based modifier, and physician quality reporting system. Payments to physicians participating in APMs similarly accounts for performance under such programs. Beginning January 1, 2026, and effective January 1 of each subsequent calendar year, physician payments will be increased 0.75% for physicians who adequately participate in APMs, and 0.25% for those in MIPS.

MIPS, which is the “default track” under the QPP, provides eligible clinicians with an adjustment to their Medicare Part B reimbursement based on performance in four categories: Quality, Promoting Interoperability, Improvement Activities and Cost. MIPS combines into a single program aspects of CMS’s prior quality and value programs, including the Physician Quality Reporting System, Medicare Electronic Health Records Incentive Program, and the Physician Value-Based Payment Modifier. 2017 was the first MIPS performance period and 2019 was the first year Part B payment adjustments have been applied for eligible clinicians.

“Advanced APMs” are APMs that use certified electronic health record technology, provide for payment for covered professional services based on quality measures comparable to those in the quality performance category under MIPS, and either require that participating APM entities bear risk for financial losses of more than a nominal amount under the APM or be a type of Medical Home Model. Eligible clinicians who meet threshold Medicare participation levels in their Advanced APMs may be entitled to a 5% bonus on Medicare Part B payments and are excluded from MIPS.

The QPP and other federal delivery reform initiatives evidence a rapid volume-value shift within Medicare and could present challenges for the Corporation. The new quality reporting programs may negatively impact the reimbursement amounts received for the cost of providing physician services.

The outcomes of these programs, including the likelihood of being revised or expanded or their effect on health care organizations revenues or financial performance cannot be predicted, and it remains unclear what effect this legislation will have on the Corporation. For example, these programs may encourage more physicians to retire, not accept Medicare (or only accept Medicare Advantage). Alternatively, or in addition to other externalities of the implementation of these programs, increased focus and performance scoring on resource use may impact utilization of health care resources. Furthermore, implementation of a quality payment system will likely require regular reporting to CMS and greater internal resources to monitor performance and prevent payment reductions.

Off-Campus Provider-Based Departments. The Budget Control Act created “site neutral” reimbursement for services to Medicare beneficiaries at certain off-campus provider locations beginning January 1, 2017. Services subject to the change will not be reimbursed under Medicare’s hospital outpatient prospective payment system (“OPPS”), but rather will be reimbursed under alternative payment systems (for example, at ambulatory surgery center rates). The exclusions apply to off-campus hospital departments that did not bill for services under the OPPS prior to November 2, 2015. Effective January 1, 2019, pursuant to the 2019 OPPS final rule, excepted (grandfathered) off-campus provider-based hospital departments were to be paid for clinic visit services at 70% of the OPPS rate, and in 2020, such services were to be paid at 40% of the OPPS rate.

On September 17, 2019, the D.C. District Court ruled that CMS exceeded its statutory authority to adjust payments for excepted off-campus provider-based hospital departments to 70% of the OPSS rate in the 2019 OPSS final rule. The D.C. District Court remanded the case back to CMS for determining appropriate remedies. In accordance with the instruction, on November 4, 2019, CMS implemented an update to rates for claims with a date of service of January 1, 2019 and thereafter. Beginning January 1, 2020, CMS will automatically reprocess claims originally paid at the reduced rate. However, CMS finalized a policy in the 2020 OPSS final rule that will implement the off-campus site-neutral clinic visit reimbursement rate to 40% of the OPSS rate beginning January 1, 2020. On January 13, 2020, the American Hospital Association and several hospitals filed a lawsuit in the D.C. District Court to invalidate the final rule that would lower payments to off-campus provider-based clinics. Management of the Corporation is unable to predict the ultimate outcome of this legal challenge and the type of relief that may be ordered by the court.

Other Medicare Service Payments. Medicare payment for skilled nursing services, psychiatric services, inpatient rehabilitation services, general outpatient services and home health services are based on regulatory formulas or pre-determined rates. There is no guarantee that these rates, as they may change from time to time, will be adequate to cover the actual cost of providing these services to Medicare patients.

Reimbursement of Hospital Capital Costs. Hospital capital costs apportioned to Medicare patient use (including depreciation and interest) are paid by Medicare on the basis of a standard federal rate (based upon average national costs of capital), subject to limited adjustments specific to the hospital. There can be no assurance that future capital-related payments will be sufficient to cover the actual capital-related costs of the Corporation's facilities applicable to Medicare patient stays or will provide flexibility for hospitals to meet changing capital needs.

Medical Education Payments. The Corporation, as the operator of a teaching hospital, has historically received direct and indirect medical education reimbursement through the Medicare program. Medicare currently pays for a portion of both direct and indirect graduate medical education ("GME") costs. These forms of additional payments are also vulnerable to reduction, modification or elimination. For example, the fiscal year 2017 federal budget proposed to reduce Medicare indirect GME payments by 10%.

Medicare Bad Debt Reimbursement. Under Medicare, the costs attributable to the deductible and coinsurance amounts which remain unpaid by the Medicare beneficiary can be added to the Medicare share of allowable costs as cost reports are filed. Hospitals generally receive interim pass-through payments during the cost report year which were determined by the Medicare Administrative Contractor ("MAC") from the prior cost report filing. Bad debts must meet the following criteria to be allowable:

- the debt must be related to covered services and derived from deductible and coinsurance amounts;
- the provider must be able to establish that reasonable collection efforts were made;
- the debt was actually uncollectible when claimed as worthless; and
- sound business judgment established that there was no likelihood of recovery at any time in the future.

The amounts uncollectible from specific beneficiaries are to be charged off as bad debts in the accounting period in which the accounts are deemed to be uncollectible. In some cases, an amount previously written off as a bad debt and allocated to the program may be recovered in a subsequent accounting period. In these cases, the recoveries must be used to reduce the cost of beneficiary services for the period in which the collection is made. In determining reasonable costs for hospitals, the amount of bad debts otherwise treated as allowable costs is reduced by 35% of the total amount. Amounts incurred by a hospital as reimbursement for bad debts are subject to audit and recoupment by the MAC. Bad debt reimbursement has been a focus of MAC audit/recoupment efforts in the past.

Recovery Audit Contractor Program. CMS has implemented a Recovery Audit Contractor program on a nationwide basis pursuant to which CMS contracts with private contractors to conduct pre- and post-payment reviews to detect and correct improper payments in the fee-for-service Medicare program. The ACA expands the program's scope to include managed Medicare plans and Medicaid claims. CMS also contracts with Medicaid Integrity

Contractors (“MICs”) to perform post-payment audits of Medicaid claims and identify improper payments. These programs tend to result in retroactively reduced payment and higher administration costs to hospitals.

Medi-Cal Program. Medi-Cal is the Medicaid program in California. Medicaid is a program of medical assistance, funded jointly by the federal government and the states, for certain low-income individuals and their dependents. Under Medicaid, the federal government provides limited funding to states that have medical assistance programs that meet federal standards. The ACA provides significantly enhanced federal funding for states to expand their Medicaid program to virtually all non-elderly, non-disabled adults with incomes up to 138% of the federal poverty level. Attempts to balance or reduce the federal budget along with balanced-budget requirements in the State will likely negatively impact spending for Medicaid funding. Federal and state budget proposals contemplate significant cuts to Medicaid spending which will likely negatively impact provider reimbursement. Changes in the Medi-Cal program could materially and adversely affect the financial condition of the Corporation.

Medi-Cal reimburses inpatient services provided at general acute care hospitals, Medicare-designated critical access hospitals, and acute stays at long-term care hospitals, using DRGs. The DRG payment method is based on All-Patient Refined Diagnosis Related Groups (“APR-DRGs”), which is a proprietary classification system for clinical conditions that is currently licensed and in use by many state Medicaid programs. Under this payment method, the California Department of Health Care Services (“DHCS”) will reimburse hospitals a fixed amount for each inpatient admission based on the APR-DRG for that admission, which DHCS will assign based on the diagnoses, procedures, patient age and discharge status submitted on the hospital claim. Because the payment method is new and as DHCS and hospitals gain experience with the new method, DHCS intends to make adjustment in certain circumstances. Management does not believe that these changes have had any material impact on the financial condition of the Corporation.

A significant amount of legislation regarding Medi-Cal has been proposed. However, as it is not possible to predict the final form of any proposed legislation, management is unable to determine the impact that any current or future proposed legislation may have on the financial condition of the Corporation.

The ACA makes changes to Medicaid funding and substantially increases the potential number of Medicaid beneficiaries. To fund this expansion, the ACA provides that the federal government will fund 100% of the costs of this expansion from fiscal years 2014–2016, decreasing to 90% of the costs of this expansion in fiscal year 2020 and thereafter. In June 2012, the U.S. Supreme Court held that the federal government cannot withhold existing federal funds for states that refuse to expand Medicaid as required by the ACA. CMS has granted, and is expected to grant additional, section 1115 demonstration waivers providing for work and community engagement requirements for certain Medicaid eligible individuals. CMS has also released guidance to states interested in receiving their Medicaid funding through a block grant mechanism. It is anticipated this will lead to reductions in coverage, and likely increases in uncompensated care, in states where these demonstration waivers are granted.

While management of the Corporation cannot predict the effect of these changes to the Medi-Cal program on operations, results from operations or financial condition of the Corporation, historically Medi-Cal has reimbursed at rates below the cost of care. Therefore, increases in the overall proportion of Medi-Cal patients pose a financial risk to the Corporation. The State expanded Medi-Cal under the ACA, and it is uncertain to what extent the risk of lower reimbursement rates under Medi-Cal may be mitigated if the increased Medi-Cal utilization replaces previously uncompensated patients. Furthermore, there can be no assurance that legislation will not be adopted that would materially alter federal financing to the states in support of the Medicaid program, and there can be no assurance that any such legislation will not materially adversely affect the Corporation. See also “Health Care Reform” above.

On November 18, 2019, CMS published a Medicaid Fiscal Accountability Rule proposed rule that could impose significant changes on Medicaid supplemental payments and financing arrangements and limit the availability of certain supplemental payments. The proposed rule addresses policies relating to Medicaid financing, certified public expenditures, intergovernmental transfers, and health care related taxes. CMS cited to the rapid increase in the use of supplemental payments and stated that their intention is to strengthen the fiscal integrity of the Medicaid program and improve transparency in supplemental payment arrangements. The rule also proposes potentially burdensome detailed annual and quarterly reporting requirements relating to supplemental payments. If finalized as proposed, the proposed changes mark a significant departure from the Medicaid program’s historical approach to supplemental payments.

For information concerning the Medi-Cal payments received by the Corporation, for the fiscal years ended August 31, 2017, 2018 and 2019, see APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION—Sources of Revenue.”

Medicare and Medicaid Audits. Hospitals that participate in the Medicare and Medicaid programs are subject from time to time to audits and other investigations relating to various aspects of their operations and billing practices. Medicare and Medicaid participating hospitals are subject to audits and retroactive audit adjustments with respect to reimbursement under these programs. Medicare and Medicaid regulations also provide for withholding reimbursement payments in certain circumstances. New billing rules and reporting requirements for which there is no clear guidance from CMS or state Medicaid agencies could result in claims submissions being considered inaccurate. The penalties for violations may include an obligation to refund money to the Medicare or Medicaid program, payment of criminal or civil fines and, for serious or repeated violations, exclusion from participation in federal health care programs.

Audits may result in reduced reimbursement or repayment obligations related to past alleged overpayments and may also delay Medicare and/or Medicaid payments to health care providers pending resolution of the appeals process. The ACA explicitly gives DHHS the authority to suspend Medicare and Medicaid payments to a health care provider or supplier during a pending investigation of fraud. The ACA also amended certain provisions of the FCA (as defined herein) to include retention of overpayments as a violation. It also added provisions respecting the timing of the obligation to identify, report and reimburse overpayments.

Disproportionate Share Payments. The federal Medicare and the State Medi-Cal programs each provide additional payment for hospitals that serve a disproportionate share of certain low-income patients. The Corporation does not qualify as a disproportionate share hospital under the Medi-Cal program. The ACA substantially reduces Medicare and Medicaid payments to disproportionate share hospitals. There can be no assurance that payments to disproportionate share hospitals will not be further decreased or eliminated in the future.

California Hospital Provider Fee. In 2009, the California Legislature first enacted the Medi-Cal Hospital Provider Rate Stabilization Act and the Quality Assurance Fee Act, which imposed a “quality assurance fee” on California’s general acute care hospitals, except for public hospitals and certain exempt hospitals. The Medi-Cal quality assurance fee is an assessment that raises funds from hospitals for the State of California general fund; it is essentially a tax on hospitals to raise funds for provider payments. The proceeds are used to earn federal matching funds for Medi-Cal and to increase Medi-Cal payments to hospitals. Under this program, some California hospitals receive more funding in increased Medi-Cal payments than the quality assurance fees paid, while other California hospitals receive less money in Medi-Cal payments than the fees paid. The QAF program operated the same as the prior program. The California Medi-Cal Hospital Reimbursement Initiative, or Proposition 52, which passed in November 2016, extended the hospital fee program indefinitely and put protections in place to prevent diversion of funds from the program. For information concerning the impact of this program on the Corporation, see APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION—Management’s Discussion and Analysis of Recent Financial Performance.”

California State Budget. The State fiscal year 2019-20 budget, which took effect July 1, 2019, is expected to remain balanced for the foreseeable future. The 2019-20 budget provides \$23 billion from the General Fund for Medi-Cal local assistance expenditures, which exceeded 2018-19 spending levels. Notably, the 2019-20 budget also offers financial assistance for affordable access to health care to qualified individuals with incomes between 400 percent and 600 percent of the federal poverty level, while also increasing subsidies for individuals with incomes below 400 percent of the federal poverty level. Assistance is to be funded through a state individual mandate to obtain comprehensive health care coverage, and it is expected that subsidies will improve the overall risk pool in the individual market and reduce future premium increases. However, it is impossible to predict the impact of future financial challenges to the California economy, including threat of future recessions, changes in federal spending policy and other events that could result in budget deficits. It is also impossible to predict actions that the Governor, the State legislature or voters—via ballot initiative—may take in the future. It is reasonable to expect, however, that cost containment measures, including aggressive management of the State’s health care spending, will be pursued to keep the State’s budget in balance, which may have an adverse effect on the financial condition of the Corporation.

For example, the significant expansion to Medi-Cal will require additional program funding. Federal funding is available for some of this expansion, but it is conditioned on states maintaining specified beneficiary eligibility criteria and California has sought to limit program eligibility in recent years to reduce program costs. In May 2016, individuals under 19 years of age became eligible for full scope Medi-Cal benefits regardless of immigration status. This population was previously only eligible for restricted scope Medi-Cal, which only covers emergency medical conditions. This expansion will require additional program funding, and will be funded with State funds if federal participation is not available. While federal funding is available to facilitate Medicaid program expansion, this funding is expected to be temporary. The Medicaid program expansion and the expected longer-term loss of federal financial support to offset longer-term expansion-related costs may require the State to reduce provider reimbursement rates further.

Health Plans and Managed Care. Most private health insurance coverage is provided by various types of “managed care” plans, including health maintenance organizations (“HMOs”) and preferred provider organizations (“PPOs”) that generally use discounts and other economic incentives to reduce or limit the cost and utilization of health care services. Medicare and Medicaid also purchase health care using managed care options. Payments to health care organizations from managed care plans typically are lower than those received from traditional indemnity or commercial insurers.

In California, managed care plans have replaced indemnity insurance as the primary source of non-governmental payment for health care services, and health care organizations must be capable of attracting and maintaining managed care business, often on a regional basis. Regional coverage and aggressive pricing may be required. However, it is also essential that contracting health care organizations be able to provide the contracted services without significant operating losses, which may require multiple forms of cost containment.

Many HMOs and PPOs currently pay providers on a negotiated fee-for-service basis or, for institutional care, on a fixed rate per day of care, or a fixed rate per hospital stay, which, in each case, usually is discounted from the usual and customary charges for the care provided. As a result, the discounts offered to HMOs and PPOs may result in payment to a provider that is less than its actual cost. Additionally, the volume of patients directed to a provider may vary significantly from projections, and changes in the utilization may be dramatic and unexpected, thus jeopardizing the provider’s ability to manage this component of revenue and cost.

Some HMOs employ a “capitation” payment method under which health care organizations are paid a predetermined periodic rate for each enrollee in the HMO who is “assigned” or otherwise directed to receive care from a particular health care organization. The health care organization may assume financial risk for the cost and scope of institutional care given. If payment is insufficient to meet the health care organization’s actual costs of care, or if utilization by such enrollees materially exceeds projections, the financial condition of the health care organization could erode rapidly and significantly. In addition to this standard managed care risk sharing approach, private health insurance companies are increasingly adopting various additional risk sharing/cost containing measures, sometimes similar to those introduced by government payors. Commercial insurers are also adopting total cost of care and pay for performance strategies with providers. Providers may expect health care cost containment and its associated risk sharing to continue to increase in the coming years amongst all payors.

Often, managed care contracts are enforceable for a stated term, regardless of health care organization losses, and may require health care organizations to care for enrollees for a certain time period, regardless of whether the payor is able to pay the health care organization. Health care organizations from time to time have disputes with HMOs, PPOs and other managed care payors concerning payment and contract interpretation issues. Such disputes may result in mediation, arbitration or litigation.

There is no assurance that the Corporation will maintain particular insurance contracts, existing rates or obtain contracts from other third party payors in the future. Failure to maintain contracts could have the effect of reducing a health care organization’s net patient services revenues. Conversely, participation may result in lower net income if participating health care organizations are unable to adequately contain their costs. In part to reduce costs, health plans are increasingly implementing, and offering to purchasing employers, tiered provider networks, which involve classification of a plan’s network providers into different tiers based on care quality and cost. With tiered benefit designs, plan enrollees are generally encouraged, through incentives or reductions in copayments or

deductibles, to seek care from providers in the top tier. Classification of a hospital in a non-preferred or lower tier by a significant payer may result in a material loss of volume.

In addition to tiered provider networks, managed care plans are also implementing narrow provider networks in which only a select group of providers participate as in-network providers. Managed care plans often look at quality performance and cost in selecting providers to participate in their narrow networks. A provider's exclusion from a narrow network may result in a material loss of volume. Managed care plans may offer lower reimbursement for providers in their narrow network(s) in exchange for the prospect of gaining additional volume from being one of a select group of network providers. The reimbursement may be insufficient to cover a network provider's cost in providing the services. The new demands of dominant health plans and other shifts in the managed care industry may also reduce patient volume and revenue. Thus, managed care poses one of the most significant business risks (and opportunities) that health care organizations face.

In addition, the current trend of consolidation in the health insurance industry is likely to increase the leverage of commercial insurers when negotiating rates with health care providers. Large health insurers that assume dominant positions in local markets threaten to increase health insurer concentration, reduce competition and decrease choice. If the Corporation were to terminate its agreement with any of the major managed care payers or not agree to terms proposed by such payers, it could have a significant material adverse impact on the financial condition of the Corporation.

With implementation of the ACA, substantial numbers of individuals are choosing health insurance under the health insurance exchanges, increasing the number of individuals covered in the individual market. In 2019, 11.4 million individuals enrolled in exchange coverage nationwide. Individuals choosing their own coverage may become highly price sensitive, which could increase the number of enrollees in HMO plans and increase the use of capitation, making price negotiations with HMO and other insurance plans more difficult.

For information concerning the managed care payments received by the Corporation for the fiscal years ended August 31, 2017, 2018 and 2019, see APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION—Sources of Revenue.”

Negative Rankings Based on Clinical Outcomes, Cost, Quality, Patient Satisfaction and Other Performance Measures. Health plans, Medicare, Medicaid, employers, trade groups and other purchasers of health services, private standard-setting organizations and accrediting agencies increasingly are using statistical and other measures in efforts to characterize, publicize, compare, rank and change the quality, safety and cost of health care services provided by hospitals and providers. The ACA shifts payments from paying for volume to paying for value, based on various health outcome measures. Published rankings such as “score cards,” “pay for performance” and other financial and non-financial incentive programs are being introduced to affect the reputation and revenue of hospitals, the members of their medical staffs and other providers and to influence the behavior of consumers and providers such as the Corporation. Currently prevalent are measures of quality based on clinical outcomes of patient care, reduction in costs, patient satisfaction and investment in health information technology. Measures of performance set by others that characterize a hospital or a provider negatively may adversely affect its reputation and financial condition.

Enforcement Affecting Clinical Research. In addition to increasing enforcement of laws governing payment and reimbursement, the federal government has also stepped up enforcement of laws and regulations governing the conduct of clinical trials at hospitals. DHHS elevated and strengthened its Office for Human Research Protections, one of the agencies responsible for monitoring federally funded research. In addition, the National Institutes of Health (“NIH”) significantly increased the number of facility inspections that these agencies perform. The Food and Drug Administration (“FDA”) also has authority over the conduct of clinical trials performed in hospitals when these trials are conducted on behalf of sponsors seeking FDA approval to market the drug or device that is the subject of the research. Moreover, the Office of Inspector General (“OIG”) in its recent “Work Plans” has included several enforcement initiatives related to reimbursement for experimental drugs and devices (including kickback concerns) and has issued compliance program guidance directed at recipients of extramural research awards from the NIH and other agencies of the U.S. Public Health Service. Although the Corporation is not the direct recipient of such awards (instead, Stanford University School of Medicine is the recipient of research awards), the Corporation receives payments for health care items and services under many of these grants as a subcontractor. As such, the Corporation

is subject to complex and ambiguous coverage principles and rules governing billing for items or services it provides to patients participating in clinical trials funded by governmental agencies and private sponsors.

The enforcement powers of agencies with oversight of clinical research range from substantial fines and penalties to exclusion of researchers and suspension or termination of entire research programs. Billing of the Medicare program for experimental care provided to patients that is not eligible for Medicare reimbursement can subject the Corporation to sanctions as well as repayment obligations.

Regulatory Environment

“Fraud” and “False Claims.” Health care “fraud and abuse” laws have been enacted at the federal and state levels to broadly regulate the provision of services to government program beneficiaries and the methods and requirements for submitting claims for services rendered to the beneficiaries. Under these laws, hospitals and others can be penalized for a wide variety of conduct, including submitting claims for services that are not provided, billing in a manner that does not comply with government requirements or submitting inaccurate billing information, billing for services deemed to be medically unnecessary, or billings accompanied by an illegal inducement to utilize or refrain from utilizing a service or product.

Federal and state governments have a broad range of criminal, civil and administrative sanctions available to penalize and remediate health care fraud, including the exclusion of a hospital from participation in the Medicare/Medicaid programs, civil monetary penalties, requiring execution of corrective action plans, and suspension of Medicare/Medicaid payments. Fraud and abuse cases may be prosecuted by one or more government entities and/or private individuals, and more than one of the available sanctions may be, and often are, imposed for each violation. The ACA also authorizes the Secretary of DHHS to suspend payments to a provider pending an investigation or prosecution of a credible allegation of fraud against the provider.

Laws governing fraud and abuse may apply to a hospital and to nearly all individuals and entities with which a hospital does business. Fraud investigations, settlements, prosecutions and related publicity can have a material adverse effect on hospitals. See “Enforcement Activity,” below. Major elements of these often highly technical laws and regulations are generally summarized below.

False Claims Act. The federal False Claims Act (“FCA”) makes it illegal to knowingly submit or present a false, fictitious or fraudulent claim for payment or approval for payment for which the federal government provides, or reimburses at least some portion of the requested money or property. Because the term “knowingly” is defined broadly under the law to include not only actual knowledge but also deliberate ignorance or reckless disregard of the facts, the FCA can be used to punish a wide range of conduct. The ACA amended the FCA by expanding the number of activities that are subject to civil monetary penalties to include, among other things, failure to report and return identified overpayments within statutory limits. FCA investigations and cases have become common in the health care field and may cover a range of activity from submission of intentionally inflated billings, to highly technical billing infractions, to allegations of inadequate care. Penalties under the FCA are severe and may include damages equal to three times the amount of the alleged false claims, as well as substantial civil monetary penalties. As a result, violation or alleged violation of the FCA frequently results in settlements that require multi-million dollar payments and compliance agreements. In 2016, the Department of Justice (“DOJ”) issued a rule that more than doubled civil monetary penalties under the FCA. The penalty amounts are adjusted each year to reflect changes in the inflation rate. The increased penalty range significantly increases the potential financial exposure resulting from an FCA violation. As a result, violation or alleged violations of the FCA frequently result in settlements involving multi-million dollar payments and compliance agreements.

The FCA also permits individuals to initiate civil actions on behalf of the government in lawsuits called “qui tam” actions. Qui tam plaintiffs, or “whistleblowers,” can share in the damages recovered by the federal government or recover independently if the government does not participate. The FCA has become one of the federal government’s primary weapons against health care fraud and suspected fraud. FCA violations or alleged violations could lead to settlements, fines, exclusion or reputation damage that could have a material adverse impact on a hospital and other health care providers.

Some regulators and whistleblowers have asserted that claims submitted to governmental payers that do not comply fully with regulations or guidelines come within the scope of the FCA. In 2016, the U.S. Supreme Court in *Universal Health Services, Inc. v. United States ex rel. Escobar* held that the theory of “implied false certification” can be used as a basis for FCA liability when (1) a claim does more than merely request payment and makes specific representations about the nature of the goods or services provided and (2) the failure to disclose noncompliance with material statutory, regulatory or contractual provisions makes the representations “misleading half-truths.” The application of this new standard is evolving and could lead to an increase in FCA claims in the health care industry based on this theory of liability.

Under the ACA, the scope of the FCA has been expanded to include overpayments that are discovered by a health care provider but are not promptly refunded to the applicable federal health care program, even if the claims relating to the overpayment were initially submitted without any knowledge that they were false. The ACA requires that providers return identified overpayments within the later of 60 days of identification or the date any corresponding cost report is due or the overpayment becomes an “obligation” under the FCA. There was initially great uncertainty in the industry as to when an overpayment is technically “identified” and the ability of a provider to determine the total amount of an overpayment and satisfy its repayment obligation within the required time period. A 2016 CMS final rule clarified that an overpayment is considered to have been identified when either reasonable diligence is completed (including determination of the overpayment amount) or on the day the person received credible information of a potential overpayment (if the person failed to conduct reasonable diligence and the person in fact received an overpayment). That same final rule also established a six-year lookback period, meaning overpayments must be reported and returned only if a person identifies the overpayment within six years of the date the overpayment was received. This expansion of the FCA exposes hospitals and other health care providers to liability under the FCA for a considerably broader range of claims than in the past.

Anti-Kickback Law. The federal “Anti-Kickback Law” is a criminal statute that prohibits anyone from soliciting, receiving, offering or paying any remuneration, directly or indirectly, overtly or covertly, in cash or in kind, in return for a referral (or to induce a referral) for any item or service that is paid by any federal or state health care program. The Anti-Kickback Law potentially applies to many common health care transactions between persons and entities with which a hospital does business, including hospital-physician joint ventures, medical director agreements, physician recruitment agreements, physician office leases and other transactions. The ACA amended the Anti-Kickback Law to provide explicitly that a claim that includes items or services resulting from a violation of the Anti-Kickback Law constitutes a false or fraudulent claim for purposes of the FCA. Another amendment provides that an Anti-Kickback Law violation may be established without showing that an individual knew of the statute’s proscriptions or acted with specific intent to violate the Anti-Kickback Law, but only that the conduct was generally wrongful.

Violations may result in civil and criminal penalties. Criminal penalties include imprisonment and fines. Civil penalties include temporary or permanent exclusion from government health care programs and civil money penalties. The broad prohibitions of the Anti-Kickback Law may be implicated when hospitals and physicians conduct joint business activities, such as physician recruiting programs, physician referral services, hospital-physician service or management contracts, space or equipment rentals between hospitals and physicians, and other service and vendor relationships. Violations or alleged violations of the Anti-Kickback Law may result in settlements that require multi-million dollar payments and onerous corporate integrity agreements. Additionally, the IRS has taken the position that hospitals that are in violation of the Anti-Kickback Law may also be subject to revocation of their tax-exempt status. See “—Tax-Exempt Status and Other Tax Matters” below.

Stark Referral Law. The federal “Stark” statute (“Stark” or the “Stark Law”) prohibits the referral of Medicare patients for certain designated health services (including inpatient and outpatient hospital services, clinical laboratory services, and radiation and other imaging services) to entities with which the referring physician, or immediate family member, has a financial relationship unless that relationship fits within a Stark exception. It also prohibits a hospital furnishing the designated services from billing Medicare, or any other payor or individual for services performed pursuant to a prohibited referral. The government does not need to prove that the entity knew that the referral was prohibited to establish a Stark violation. If certain substantive and technical requirements of an applicable exception are not satisfied, many ordinary business practices and economically desirable arrangements between hospitals and physicians, which constitute “financial relationships” would fall within the meaning of the Stark

statute, thus triggering the prohibition on referrals and billing. Most providers of designated health services with physician relationships have some exposure to liability under the Stark statute.

Medicare may deny payment for all services performed based on a prohibited referral and a hospital that has billed for prohibited services may be obligated to notify and refund the amounts collected from the Medicare program. For example, if an office lease between a hospital and a large group of heart surgeons is found to violate Stark, the hospital could be obligated to repay CMS for the payments received from Medicare for all of the heart surgeries performed by all of the physicians in the group for the duration of the lease; a potentially significant amount. The government may also seek substantial civil monetary penalties, and in some cases, a hospital may be excluded from the Medicare and Medicaid programs. Potential repayments to CMS, settlements, fines or exclusion for a Stark Law violation or alleged violation could have a material adverse impact on a hospital and other health care providers. Increasingly, the federal government is prosecuting violations of the Stark Law under the FCA, based on the argument that claims resulting from an illegal referral arrangement are also false claims for FCA purposes. The federal government has attempted to recover the federal portion of Medicaid claims for services provided to patients referred to hospitals by physicians with whom they have prohibited financial relationships.

CMS has established a voluntary self-disclosure program under which hospitals and other entities may report Stark Law violations and seek a reduction in potential refund obligations. The limited publicly available information with respect to the self-disclosure program suggests that most voluntary self-disclosure submissions remain under consideration by CMS for an extended period of time, and that it is difficult to predict how CMS will react to any specific voluntary self-disclosure. The Corporation may make self-disclosures under this program as appropriate from time to time. Any submission pursuant to the self-disclosure program does not waive or limit the ability of the OIG or DOJ to seek or prosecute violations of the Stark Law or impose civil monetary penalties.

Although the Stark Law only applies to Medicare, a number of courts have recently interpreted the Stark Law as also applying to Medicaid.

State “Fraud” and “False Claims” Laws. Hospital providers in California also are subject to a variety of State laws related to false claims (similar to the FCA or that are generally applicable false claims laws), anti-kickback (similar to the federal Anti-Kickback Law or that are generally applicable anti-kickback or fraud laws), and physician referral (similar to Stark). These prohibitions while similar in public policy and scope to the federal laws have not in all instances been avidly enforced to date. However, in the future they could pose the possibility of material adverse impact for the same reasons as the federal statutes. See discussion under the subheadings “—False Claims Act,” “—Anti-Kickback Law” and “—Stark Referral Law” above. California also has an FCA-type law that applies to fraudulent claims presented to an insurance company, which thus goes beyond the scope of the FCA and California’s directly analogous statute, which are limited to fraudulent claims for which the federal or state government is required to pay or reimburse a portion or all of the claim. Under the California law, codified in Section 1871.7 of the California Insurance Code, a person who submits a fraudulent claim to an insurance company is subject to civil fines ranging from \$5,000 to \$10,000 per fraudulent claim, plus an additional assessment of up to three times the amount of each claim, and may be subject to criminal penalties under the California Penal Code as well. Similar to the FCA, actions under this Insurance Code section may be initiated by private parties.

Civil Monetary Penalties Law. The federal Civil Monetary Penalties Law (“CMPL”) provides for administrative sanctions against health care providers for a broad range of billing and other abuses. For example, penalties may be imposed for the knowing presentation of claims that are (i) incorrectly coded for payment; (ii) for services that are known to be medically unnecessary; (iii) for services furnished by an excluded party; or (iv) otherwise false. A hospital or health care provider that participates in arrangements known as “gainsharing” by paying a physician to limit or reduce services to Medicare fee-for-service beneficiaries also could be subject to CMPL penalties. Further, a hospital or health care provider that provides benefits to Medicare or Medicaid beneficiaries that such provider knows or should know are likely to induce the beneficiaries to choose the provider for their care could also be subject to CMPL penalties. Civil monetary penalties may also be assessed for (i) knowingly making or using a false record or statement material to a false or fraudulent claim for payment; (ii) failing to grant timely access for audits; and (iii) failing to report and return a known overpayment within statutory time limits. The ACA also amended the CMPL to establish various new grounds for exclusion and civil monetary penalties, as well as increased penalty thresholds for existing civil monetary penalties.

Health care providers may be found liable under the CMPL even when they did not have actual knowledge of the impropriety of their action. Knowingly undertaking the action is sufficient. Ignorance of the Medicare regulations is no defense. The imposition of civil money penalties on a health care provider could have a material adverse impact on the provider's financial condition.

OIG has established a voluntary self-disclosure program under which hospitals and other entities may report CMPL violations and seek a reduction in potential damages. It is difficult to predict how OIG will react to any specific voluntary self-disclosure but OIG has streamlined its internal process to reduce the average time a case is pending with OIG to less than 12 months from acceptance into the voluntary self-disclosure program. The Corporation may make self-disclosures under this program as appropriate from time to time. Any submission pursuant to the self-disclosure program does not waive or limit the ability of the OIG or DOJ to seek or prosecute violations of health care fraud and abuse laws or impose civil monetary penalties.

Antitrust. Antitrust liability may arise in a wide variety of circumstances, including medical staff privilege disputes, payor contracting, physician relations, joint ventures, merger, affiliation and acquisition activities, certain pricing or salary setting activities, as well as other areas of activity. Consolidation transactions among health care providers are an area in which investigation and enforcement activity by federal and state antitrust agencies is particularly frequent and vigorous. The application of the federal and state antitrust laws to health care is evolving (especially as the ACA is implemented), and therefore not always clear. Currently, the most common areas of potential liability are joint action among providers with respect to payor contracting, formation of integrated delivery systems, and medical staff credentialing disputes, and hospital mergers and acquisitions.

Violation of the antitrust laws could result in criminal and/or civil enforcement proceedings by federal and state agencies, as well as actions by private litigants. In certain actions, private litigants may be entitled to treble damages, and in others, governmental entities may be able to assess substantial monetary fines. Investigations and proceedings arising from the application of federal and state antitrust laws can require the dedication of substantial resources by affected providers and can delay or impede proposed transactions even if ultimately it is determined that no violation of applicable law would occur as a result of the proposed transaction.

HIPAA, HITECH, and Other Privacy and Security Requirements. The Health Insurance Portability and Accountability Act ("HIPAA"), along with other federal and various state statutes, addresses the confidentiality of individuals' health information. HIPAA's detailed privacy standards extend not only to patient medical records, but also to a variety of demographic, clinical and financial information held by "covered entities," *i.e.*, hospitals and other entities governed by HIPAA. HIPAA's privacy standards prohibit the use and disclosure of, and access to, "Protected Health Information" ("PHI"), a broadly defined term, unless expressly permitted under the provisions of the HIPAA statute and regulations or authorized by the patient. The HIPAA privacy standards also give individuals the rights to know how their PHI is being used or disclosed, to access and amend their PHI, and obtain information about certain disclosures of their PHI. They also obligate covered entities to provide Notices of Privacy Practices to individuals, which detail how the entities use and disclose PHI and how individuals can exercise their rights in respect of their PHI. These requirements often impose communication, operational, and accounting obligations that add costs and create potentially unanticipated sources of liability.

HIPAA contains security standards that require covered entities to implement certain administrative, physical, and technical security standards to protect the integrity, confidentiality and availability of electronic PHI. HIPAA also implemented transaction standards that dictate the use of standard transaction formats, code sets and standard identifiers in connection with certain electronic health care transactions between health plans and health care providers, including activities associated with the billing and collection of health care claims.

HIPAA imposes civil monetary and criminal penalties for violations of its privacy and security standards, and these civil penalties have now been increased through provisions in the Health Information Technology for Economic and Clinical Health Act (the "HITECH Act") and adjusted for inflation.

The HITECH Act also (i) granted enforcement authority of HIPAA to state attorneys general, (ii) extended the reach of HIPAA beyond "covered entities," (iii) imposed a breach notification requirement on HIPAA covered entities, (iv) limited certain uses and disclosures of PHI, and (v) restricted covered entities' permissible marketing communications.

The breach notification obligation, in particular, may expose covered entities such as hospitals to heightened liability. Under HITECH, in the event of a privacy breach, covered entities are required to notify affected individuals and the federal government. If more than 500 individuals are affected by the breach, (i) the covered entity must also notify the media and (ii) the federal government posts a description of the breach on its website and investigates the incident through the DHHS Office for Civil Rights (“OCR”), the administrative office that is tasked with enforcing HIPAA. The OCR may also investigate breaches involving fewer than 500 affected individuals.

Recent settlements of HIPAA breaches have reached the millions of dollars. Any breach of HIPAA, regardless of intent or scope, may result in penalties or settlement amounts that are material to a covered health care provider or health plan. In addition to the costs associated with any such penalties and settlements, covered entities may incur significant costs associated with investigating and handling potential privacy and security breaches.

Enforcement activity is expected to increase in future years in other respects as well. Criminal penalties may be enforced against persons who obtain or disclose personal health information without authorization. DHHS may also perform periodic audits of health care providers and group health plans to ensure that required policies under the HITECH Act are in place.

In 2013, DHHS comprehensively modified existing HIPAA regulations to implement the requirements of the HITECH Act. These modifications, known as the “HIPAA Omnibus Rule,” generally became effective in September 2013. Important aspects of the HIPAA Omnibus Rule, some of which are discussed above in the paragraphs discussing the HITECH Act, include, but are not limited to: (i) a new standard for what constitutes a breach of PHI, (ii) four levels of culpability with respect to civil monetary penalties assessed for HIPAA violations, (iii) direct liability of business associates for certain violations of HIPAA, (iv) modifications to the rules governing research, (v) stricter requirements regarding non-exempt marketing practices, (vi) modification and re-distribution of notices of privacy practices, (vii) expanded rights of individuals to receive electronic copies of their PHI, and (viii) stricter requirements regarding the protection of genetic information. Management believes the Corporation is in material compliance with the HIPAA Omnibus Rule, HIPAA regulations generally, and similar state laws, but due to the complexity of the rules and the nature of technological change and information security issues, no assurance can be given that a violation will not be found in a federal or state audit or enforcement proceeding. Any sanctions imposed as a result of a HIPAA or state privacy law violation could have a material effect on the financial condition of the Corporation.

Under HIPAA, covered entities must include certain required provisions in their contractual relationships with their business associates. Business associates are organizations that perform functions on behalf of covered entities, and that receive PHI from the covered entities in order to carry out those functions. Business associates are indirectly regulated by HIPAA through those contractual obligations. The HITECH Act and the final rules promulgated thereunder provide that all of the HIPAA security administrative, physical, and technical safeguards, as well as security policy, procedure and documentation requirements, now apply directly to all business associates. In addition, the HITECH Act makes certain privacy provisions directly applicable to business associates. These changes are significant because business associates are directly regulated by DHHS for those requirements, and as a result, will be subject to penalties imposed by DHHS and/or state attorneys general. Likewise, a covered entity may in certain circumstances be held liable for a breach by its business associate. Covered entities have had to review and amend their business associate agreements in recent years in order to comply with these changing rules, which can be costly and administratively burdensome.

In addition to HIPAA and HITECH, a number of other laws address the confidentiality of individual health information. These other laws may impose more stringent privacy requirements than HIPAA does. For instance, federal laws place additional confidentiality requirements on records pertaining to alcohol and substance abuse treatment at certain facilities. California and other states have adopted laws that afford greater protection to certain types of particularly sensitive health information, such as behavioral health records. California and many other states have also adopted broad data breach notification laws that extend to compromised medical and health insurance information. Together, all of these laws and regulations add compliance costs and create potentially unanticipated sources of legal liability for the Corporation.

Electronic Health Record Requirements. The HITECH Act also established programs under Medicare and Medicaid to provide for incentives and penalties related to the use of certified electronic health records. Hospitals and

physicians that do not satisfy the performance and reporting criteria for demonstrating the use of such technology will have their Medicare payments significantly reduced.

Security Breaches and Unauthorized Releases of Personal Information. State and local authorities are increasingly focused on the importance of protecting the confidentiality of individuals' personal information, including patient health information. Many states, including California, have enacted laws requiring businesses to notify individuals of security breaches that result in the unauthorized release of personal information. In some states, notification requirements may be triggered even where information has not been used or disclosed, but rather has been inappropriately accessed.

California medical privacy laws penalize the unlawful use or disclosure of, patients' medical information, as well as unauthorized access to such information, which the laws define as the inappropriate access, review, or viewing of patient medical information without the direct need to do so for purposes of diagnosis, treatment or other lawful use. Administrative penalties under these medical privacy laws may reach \$250,000 per violation or for each reported event.

State consumer protection laws may also provide the basis for legal action for privacy and security breaches and frequently, unlike HIPAA, authorize a private right of action. In particular, the public nature of security incidents exposes health organizations to increased risk of individual or class action lawsuits from patients or other affected persons, in addition to government enforcement and negative media attention. Failure to comply with restrictions on patient privacy or to maintain robust information security safeguards, including taking steps to ensure that contractors who have access to sensitive patient information maintain the confidentiality of such information, could consequently damage a hospital's reputation and materially adversely affect business operations.

In any hospital, there can be security incidents related to patient information, which stem from a variety of causes ranging from external or internal deliberate invasions by individuals or employees, to inadvertent loss or misdirection of paper or electronic records, to theft of hardware or software.

Exclusions from Medicare or Medicaid Participation. The government may exclude a health care provider from Medicare/Medicaid program participation that is convicted of a criminal offense relating to the delivery of any item or service reimbursed under Medicare or a state health care program, any criminal offense relating to patient neglect or abuse in connection with the delivery of health care, fraud against any federal, state or locally financed health care program or an offense relating to the illegal manufacture, distribution, prescription, or dispensing of a controlled substance. The government also may exclude individuals or entities under certain other circumstances, such as an unrelated conviction of fraud, or other financial misconduct relating either to the delivery of health care in general or to participation in a federal, state or local government program. Exclusion from the Medicare/Medicaid program means that a health care provider would be decertified from program participation and no program payments can be made. Any health care provider exclusion could be a materially adverse event, even within a large hospital system. In addition, exclusion of health care organization's employees or independent contractors or their employees under Medicare or Medicaid may be another source of potential liability for hospitals or health systems based on services provided by those excluded employees.

Administrative Enforcement. Administrative regulations may require less proof of a violation than do criminal laws, and, thus, health care providers may have a higher risk of imposition of monetary penalties as a result of administrative enforcement actions.

Compliance with Conditions of Participation. CMS, in its role of monitoring participating providers' compliance with conditions of participation in the Medicare program, may determine that a provider is not in compliance with its conditions of participation. In that event, a notice of termination of participation may be issued or other sanctions, such as suspension or requiring execution of potentially burdensome corrective action plans, potentially could be imposed.

EMTALA. The Emergency Medical Treatment and Active Labor Act ("EMTALA") is a federal civil statute that requires hospitals to treat or conduct a medical screening for emergency conditions and to stabilize a patient's emergency medical condition before releasing, discharging or transferring the patient. A hospital that violates EMTALA is subject to civil penalties and exclusion from the Medicare and Medicaid programs. Over the last few

years, the federal government has increased its enforcement of EMTALA. In addition, the hospital may be liable for any claim by an individual who has suffered harm as a result of a violation.

Licensing, Surveys, Investigations and Audits. Health facilities are subject to numerous legal, regulatory, professional and private licensing, certification and accreditation requirements. These include, but are not limited to, requirements of state licensing agencies and The Joint Commission. In certain cases, a hospital will be deemed to have met the Medicare Conditions of Participation (and eligible for Medicare payment) if it is accredited by The Joint Commission or another acceptable accrediting organization. However, at any time, CMS may still require a survey of a hospital by a state agency to determine whether the hospital actually meets the Conditions of Participation. Renewal and continuation of certain of these licenses, certifications and accreditations are based on inspections or other reviews generally conducted in the normal course of business of health facilities. Loss of, or limitations imposed on, hospital licenses or accreditations could reduce hospital utilization or revenues, or a hospital's ability to operate all or a portion of its facilities or to bill various third party payors. Certain states, including California, can levy penalties against hospitals that experience certain significant patient care events, including those that are classified as posing "immediate jeopardy" to patient health and safety. In California, the administrative penalty for such incidents is up to \$75,000 for the first incident, up to \$100,000 for the second, and up to \$125,000 for the third and every subsequent violation within three (3) years.

Environmental Laws and Regulations. Health facilities are subject to a wide variety of federal, state and local environmental and occupational health and safety laws and regulations. These include but are not limited to: air and water quality control requirements; waste management requirements; specific regulatory requirements applicable to asbestos and radioactive substances; requirements for providing notice to employees and members of the public about hazardous materials handled by or located at the health facilities; and requirements for training employees in the proper handling and management of hazardous materials and wastes.

Health facilities may be subject to requirements related to investigating and remedying hazardous substances located on their property, including such substances that may have migrated off the property. Typical hospital operations include the handling, use, storage, transportation, disposal and discharge of hazardous, infectious, toxic, radioactive, flammable and other hazardous materials, wastes, pollutants and contaminants. As such, hospital operations are particularly susceptible to the practical, financial and legal risks associated with the environmental laws and regulations. Such risks may result in damage to individuals, property or the environment; may interrupt operations and increase their cost; may result in legal liability, damages, injunctions or fines; and may result in investigations, administrative proceedings, civil litigation, criminal prosecution, penalties or other governmental agency actions; and may not be covered by insurance.

Enforcement Activity. Enforcement activity against health care providers has increased, and enforcement authorities have adopted aggressive approaches. In the current regulatory climate, it is anticipated that many hospitals and physician groups will be subject to an audit, investigation, or other enforcement action regarding the health care fraud laws mentioned above.

Enforcement authorities are often in a position to compel settlements by providers charged with or being investigated for false claims violations by withholding or threatening to withhold Medicare, Medicaid and similar payments or to recover higher damages, assessments or penalties by instituting criminal action. In addition, the cost of defending such an action, the time and management attention consumed, and the facts of a case may dictate settlement. Therefore, regardless of the merits of a particular case, a hospital could experience materially adverse settlement costs, as well as materially adverse costs associated with implementation of any settlement agreement. Prolonged and publicized investigations could be damaging to the reputation and business of a hospital, regardless of outcome.

Review of Outlier Payments. CMS is reviewing health care providers that are receiving large proportions of their Medicare revenues from outlier payments. Health care providers found to have obtained inappropriately high outlier payments will be subject to further investigation by the CMS Program Integrity Unit and potentially the OIG. Management of the Corporation does not believe that any potential review would materially adversely affect its results of operations.

Business Relationships and Other Business Matters

Integrated Delivery Systems. Hospitals and health care systems often own, control or have affiliations with physician groups and independent practice associations. Generally, the sponsoring health facility or health system is the primary capital and funding source for such alliances and may have an ongoing financial commitment to provide growth capital and support operating deficits. As separate operating units, integrated physician practices and medical foundations sometimes operate at a loss and require subsidies or other support from the related hospital or health system. In addition, integrated delivery systems present business challenges and risks. Inability to attract or retain participating physicians may negatively affect managed care, contracting and utilization. The technological and administrative infrastructure necessary both to develop and operate integrated delivery systems and to implement new payment arrangements in response to changes in Medicare and other payor reimbursement is costly. Hospitals may not achieve savings sufficient to offset the substantial costs of creating and maintaining this infrastructure.

These types of alliances are generally designed to respond to trends in the delivery of medicine to better integrate hospital and physician care, to increase physician availability to the community and/or to enhance the managed care capability of the affiliated hospitals and physicians. However, these goals may not be achieved, and an unsuccessful alliance may be costly and counterproductive to all of the above-stated goals.

These types of alliances are likely to become increasingly important to the success of hospitals in the future as a result of changes to the health care delivery and reimbursement systems that are intended to restrain the rate of increases of health care costs, encourage coordinated care, promote collective provider accountability and improve clinical outcomes. The ACA authorizes several alternative payment programs for Medicare that promote, reward or necessitate integration among hospitals, physicians and other providers.

Whether these programs will achieve their objectives and be expanded or mandated as conditions of Medicare participation cannot be predicted. However, Congress and CMS have clearly emphasized continuing the trend away from the fee-for-service reimbursement model, which began in the 1980s with the introduction of the prospective payment system for inpatient care, and toward an episode-based payment model that rewards use of evidence-based protocols, quality and satisfaction in patient outcomes, efficiency in using resources, and the ability to measure and report clinical performance. This shift is likely to favor integrated delivery systems, which may be better able than stand-alone providers to realize efficiencies, coordinate services across the continuum of patient care, track performance and monitor and control patient outcomes. Changes to the reimbursement methods and payment requirements of Medicare, which is the dominant purchaser of medical services, are likely to prompt equivalent changes in the commercial sector, because commercial payors frequently follow Medicare's lead in adopting payment policies.

While payment trends may stimulate the growth of integrated delivery systems, these systems carry with them the potential for legal or regulatory risks. Many of the risks discussed in “—Regulatory Environment” above, may be heightened in an integrated delivery system. The foregoing laws were not designed to accommodate coordinated action among hospitals, physicians and other health care providers to set standards, reduce costs and share savings, among other things. The ability of hospitals or health systems to conduct integrated physician operations may be altered or eliminated in the future by legal or regulatory interpretation or changes, or by health care fraud enforcement. In addition, participating physicians may seek their independence for a variety of reasons, thus putting the hospital or health system's investment at risk, and potentially reducing its managed care leverage and/or overall utilization. State law prohibitions, such as the bar on the corporate practice of medicine, or state law requirements, such as insurance laws regarding licensure and minimum financial reserve holdings of risk-bearing organizations, may also introduce complexity, risk and additional costs in organizing and operating integrated delivery systems. Tax-exempt hospitals and health systems also face the risk in affiliating with for-profit entities that the IRS will determine that compensation practices or business arrangements result in private benefit or private use or generate unrelated business income for the hospitals and health systems.

Health care providers, responding to health care reform and other industry pressures, are increasingly moving toward integrated delivery systems, managing the health of populations of individuals, patient-centered medical homes, bundled payments, and capitated insurance plans. These trends will require new infrastructures, including the appropriate mix of physician specialties, new administrative skills, close relationships between physicians and hospitals, insurance risk management, and new relationships between patients and providers. Provider organizations

may be unsuccessful in assembling successful integrated networks, may not achieve savings sufficient to offset the substantial costs of creating and maintaining the necessary infrastructures to support such developments, or otherwise could incur losses from assuming increased risk and could incur damage to reputations. Some health care organizations that traditionally operated hospitals may, directly or in partnership, take on actual insurance risk, market various health coverage products and access patients by way of unknown channels. Such new endeavors could adversely affect the financial and operating condition or reputation of an organization.

Physician Financial Relationships. In addition to the physician integration relationships referred to above, hospitals and health systems frequently have various additional business and financial relationships with physicians and physician groups. These are in addition to hospital physician contracts for individual services performed by physicians in hospitals. They potentially include: joint ventures to provide outpatient services; recruiting arrangements with individual physicians and/or physician groups; loans to physicians; medical office leases; equipment leases from or to physicians; and various forms of physician practice support or assistance. These and other financial relationships with physicians (including hospital physician contracts for individual services) may involve financial and legal compliance risks for the hospitals and health systems involved. From a compliance standpoint, these types of financial relationships may raise federal and state “anti-kickback” and federal and state “Stark” issues (see “—Regulatory Environment,” above), tax exemption issues (see “—Tax-Exempt Status and Other Tax Matters,” below), as well as other legal and regulatory risks, and these could have a material adverse impact on hospitals.

Accountable Care Organizations. The ACA established the Medicare Shared Savings Program (“MSSP”), which seeks to promote accountability and coordination of care through the creation of ACOs. The program allows hospitals, physicians and others to form ACOs and work together to invest in infrastructure and redesign integrated delivery processes to achieve high quality and efficient delivery of services. ACOs that achieve quality performance standards will be eligible to share in a portion of the amounts saved by the Medicare program. DHHS has significant discretion to determine key elements of the program, including what steps providers must take to be considered an ACO, how to decide if Medicare program savings have occurred, and what portion of such savings will be paid to ACOs.

To qualify as an ACO, organizations must agree to be accountable for the overall care of their Medicare beneficiaries, have adequate participation of primary care physicians, define processes to promote evidence-based medicine, report on quality and costs, and coordinate care. The ACO and MSSP final rules were published in 2011 and 2015, respectively; however, the regulations are complex and it remains unclear whether the qualification requirements will be a formidable barrier for providers.

In 2011, CMS, the Federal Trade Commission and DOJ jointly issued guidance regarding safe harbors for collaborative provider MSSP participation. There can be no assurance that such waivers or other regulations or guidance will sufficiently clarify the scope of permissible activity in all cases. Although the regulation provides for waivers of certain federal laws, there may remain regulatory risks for participating hospitals, as well as financial and operational risks. The applicable regulating bodies have published guidance for ACOs to follow in order to comply with the law, but the published guidance is complex.

In particular, because the federal ACO regulations do not preempt state law, California providers participating as a federal ACO must be organized and operated in compliance with California’s existing statutes and regulations. Numerous organizations have formed ACOs and been selected by CMS to participate in the MSSP. CMS is also developing and implementing more advanced ACO payment models, such as the Next Generation ACO Model, which require ACOs to assume greater risk for attributed beneficiaries. In December 2018, CMS published a final rule that, in general, requires ACO participants to take on additional risk associated with participation in MSSP. It remains unclear to what extent providers will pursue federal ACO status or whether the required investment would be warranted by increased payment. Nevertheless, it is anticipated that private insurers may seek to establish similar incentives for providers, while requiring less infrastructural and organizational change. Providers participating in MSSP and other ACO payment models developed by CMS may not be able to recoup their investments and may suffer further losses if they are not able to meet quality targets and sufficiently control the cost of care for their attributed beneficiaries. In addition, it is anticipated that private insurers may seek to establish similar incentives for providers, while requiring change in infrastructure and organization. The potential impacts of these initiatives and the regulation

for ACOs are unknown and continually evolving, but introduce greater risk and complexity to health care finance and operations.

Hospital Medical Staff. The primary relationship between a hospital and physicians who practice in it is through the hospital's organized medical staff. Medical staff bylaws, rules and policies establish the criteria and procedures by which a physician may have his or her privileges or membership curtailed, denied or revoked. Physicians who are denied medical staff membership or certain clinical privileges or who have such membership or privileges curtailed or revoked often file legal actions against hospitals and medical staffs. Such actions may include a wide variety of claims, some of which could result in substantial uninsured damages to a hospital. In addition, failure of the hospital governing body to adequately oversee the conduct of its medical staff may result in hospital liability to third parties.

Physician Supply. Sufficient community-based physician supply is important to hospitals and other health care facilities. CMS annually reviews overall physician reimbursement formulas for Medicare and Medicaid. Changes to physician compensation under these programs could lead to physicians ceasing to accept Medicare and/or Medicaid patients. Regional differences in reimbursement by commercial and governmental payors, along with variations in the costs of living, may cause physicians to avoid locating their practices in communities with low reimbursement or high living costs. Hospitals and health systems may be required to invest additional resources in recruiting and retaining physicians, or may be compelled to affiliate with, and provide support to, physicians in order to continue serving the growing population base and maintain market share. The physician-to-population ratio in certain parts of the State is below the national average, and the shortage of physicians could become a significant issue for hospitals and health care systems in the State. Difficulties in recruiting or retaining physicians may reduce the volume or range of clinical services that a hospital is capable of providing and may, consequently, decrease patient service revenues.

Section 340B Drug Pricing Program. Hospitals that participate (as "covered entities") in the prescription drug discount program established under Section 340B of the federal Public Health Service Act (the "340B Program") are able to purchase certain outpatient prescription drugs for their patients at a reduced cost. In recent years, the 340B Program has been the target of several administrative efforts to reduce its scope and benefits. In 2015, the Health Resources and Services Administration ("HRSA") published proposed 340B Drug Pricing Program Omnibus Guidance in the Federal Register, which could have had a negative effect on hospitals participating as covered entities in the 340B program. This proposed guidance was withdrawn in 2017. Whether HRSA will adopt new guidance in the future and what effects such guidance may have on hospitals participating in the 340B Program are unknown.

In the 2018 OPPS final rule, CMS reduced reimbursement for certain separately payable drugs or biologicals acquired through the 340B Program to the average sales price ("ASP") of the drug or biological minus 22.5% (a 28 percentage point reduction in payments for 340B Program drugs). CMS finalized an extension to this payment reduction policy for calendar year 2019. In the calendar year 2020 OPPS final rule, CMS finalized a policy to continue to pay ASP minus 22.5% for 340B-acquired drugs furnished by non-excepted off-campus HOPDs.

In December 2018, the D.C. District Court ruled that DHHS did not have statutory authority to implement the 2018 Medicare OPPS rate reduction related to hospitals that qualify for drug discounts under the 340B Program and granted a permanent injunction against the payment reduction. The hospitals subsequently asked the court for a permanent injunction on the 2019 OPPS final rule. In May 2019, the court held that the 2018 and 2019 rate reductions were unlawful and remanded the rules back to DHHS. The case has been appealed and management of the Corporation is unable to predict the ultimate outcome of any appeal and the type of relief that may be ordered by the courts. There can be no assurance, however, that CMS or Congress will not propose future changes to the 340B Program that would reduce the financial benefits of that program for hospitals.

Employer Status. Hospitals are major employers with mixed technical and nontechnical workforces. Labor costs, including salary, benefits and other liabilities associated with a workforce, have significant impacts on hospital operations and financial condition. Developments affecting hospitals as major employers include: (i) imposing higher minimum or living wages; (ii) adoption of more stringent occupational health and safety standards; (iii) limiting the ability of workers to be classified as independent contractors, and imposing joint employer status on employers using contract, staffing agency or other temporary labor; and (iv) penalizing employers of undocumented immigrants; and (v) complying with the employer requirements of the ACA. President Trump has issued executive orders related to

immigration. Any changes to laws related to visas and other immigration matters, and enforcement thereof, could impact health care providers that employ personnel who have employment-based or other visas. Legislation or regulation on any of the above or related topics could have a material adverse impact on the Corporation.

Labor Relations and Collective Bargaining. Hospitals are large employers with a wide diversity of employees. Increasingly, employees of hospitals are becoming unionized, and many hospitals have collective bargaining agreements with one or more labor organizations. Employees subject to collective bargaining agreements may include essential nursing and technical personnel, as well as food service, maintenance and other trade personnel. Renegotiation of such agreements upon expiration may result in significant cost increases to hospitals. Employee strikes or other adverse labor actions may have an adverse impact on operations, revenue and hospital reputation. Certain employees of the Corporation are currently covered by collective bargaining agreements. See APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—EMPLOYEES.”

Class Actions. Nonprofit hospitals and health systems have long been subject to a wide variety of litigation risks, including liability for care outcomes, employer liability, property and premises liability, and peer review litigation with physicians, among others. In recent years, consumer class action litigation has emerged as a potentially significant source of litigation liability for nonprofit hospitals and health systems. These class action suits have most recently focused on hospital billing and collections practices and breaches of privacy, and they may be used for a variety of currently unanticipated causes of action. Since the subject matter of class action suits may involve uninsured risks, and since such actions often involve alleged large classes of plaintiffs, they may have material adverse consequences on nonprofit hospitals and health systems in the future.

Wage and Hour Class Actions and Litigation. Federal law and many states, including notably California, impose standards related to worker classification, eligibility and payment for overtime, liability for providing rest periods and similar requirements. Large employers with complex workforces, such as hospitals, are susceptible to actual and alleged violations of these standards. In recent years there has been a proliferation of lawsuits over these “wage and hour” issues, often in the form of large class actions. For large employers, such as hospitals and health systems, such class actions can involve multi-million dollar claims, judgments and settlements. A major class action decided or settled adversely to the Corporation could have a material adverse impact on the financial conditions and results of operations.

Health Care Worker Classification. Health care providers, like all businesses, are required to withhold income taxes from amounts paid to employees. If the employer fails to withhold the tax, the employer becomes liable for payment of the tax imposed on the employee. On the other hand, businesses are not required to withhold federal taxes from amounts paid to a worker classified as an independent contractor. The IRS has established criteria for determining whether a worker is an employee or an independent contractor for tax purposes. If the IRS were to reclassify a significant number of hospital independent contractors (*e.g.*, physician medical directors) as employees, back taxes and penalties could be material.

Staffing. From time to time, the health care industry suffers from a scarcity of nursing personnel, respiratory therapists, pharmacists and other trained health care and information system technicians. In addition, aging medical and nursing staffs and difficulties in recruiting individuals to these medical professions are predicted to result in shortages. A significant factor underlying this trend includes a decrease in the number of persons entering such professions. This is expected to intensify in the future, aggravating the general shortage and increasing the likelihood of hospital-specific shortages. Competition for physicians and other health care professionals, coupled with increased recruiting and retention costs, will increase hospital operating costs, possibly significantly, and growth may be constrained. This trend could have a material adverse impact on the financial conditions and results of operations of hospitals and other health care facilities. This scarcity may further be intensified if utilization of health care services increases as a consequence of the ACA’s expansion of the number of insured consumers. As reimbursement amounts are reduced to health care facilities and organizations that employ or contract with physicians, nurses and other health care professionals, pressure to control and possibly reduce wage and benefit costs may further strain the supply of those professionals.

California imposes mandatory nurse staffing ratios for all hospital patient care areas, which have been consistent since January 2008. The impact on California hospitals will vary by facility, but the required staffing, in aggregate, is more costly than prior staffing patterns.

Professional Liability Claims and General Liability Insurance. In recent years, the number of professional and general liability suits and the dollar amounts of damage recoveries have increased in health care nationwide, resulting in substantial increases in malpractice insurance premiums, higher deductibles and generally less coverage. Professional liability and other actions alleging wrongful conduct and seeking punitive damages are often filed against health care providers. Insurance does not provide coverage for judgments of punitive damages.

Litigation also arises from the corporate and business activities of hospitals, from a hospital's status as an employer or as a result of medical staff or provider network peer review or the denial of medical staff or provider network privileges. As with professional liability, many of these risks are covered by insurance, but some are not. For example, some antitrust claims or business disputes are not covered by insurance or other sources and may, in whole or in part, be a liability of the Corporation if determined or settled adversely.

There is no assurance that hospitals will be able to maintain coverage amounts currently in place in the future, that the coverage will be sufficient to cover malpractice judgments rendered against a hospital or that such coverage will be available at a reasonable cost in the future.

Information Systems. The ability to adequately price and bill health care services and to accurately report financial results depends on the integrity of the data stored within information systems, as well as the operability of such systems. Information systems require an ongoing commitment of significant resources to maintain, protect and enhance existing systems and develop new systems to keep pace with continuing changes in information processing technology, evolving systems and regulatory standards. There can be no assurance that efforts to upgrade and expand information systems capabilities, protect and enhance these systems, and develop new systems to keep pace with continuing changes in information processing technology will be successful or that additional systems issues will not arise in the future.

Electronic media are also increasingly being used in clinical operations, including the conversion from paper to electronic medical records, computerization of order entry functions and the implementation of clinical decision-support software. The reliance on information technology for these purposes imposes new expectations on physicians and other workforce members to be adept in using and managing electronic systems. It also introduces risks related to patient safety, and to the privacy, accessibility and preservation of health information. See “—Regulatory Environment—HIPAA, HITECH, and Other Privacy and Security Requirements” above. Technology malfunctions or failure to understand and use information systems properly could result in the dissemination of or reliance on inaccurate information, as well as in disputes with patients, physicians and other health care professionals. Health information systems may also be subject to different or higher standards or greater regulation than other information technology or the paper-based systems previously used by health care providers, which may increase the cost, complexity and risks of operations. All of these risks may have adverse consequences on hospitals and health care providers.

Future government regulation and adherence to technological advances could result in an increased need of the Corporation to implement new technology. Such implementation could be costly and is subject to cost overruns and delays in application, which could negatively affect the financial condition of the Corporation.

Cybersecurity Risks. Health care providers are highly dependent upon integrated electronic medical record and other information technology systems to deliver high quality, coordinated and cost-effective health care. These systems necessarily hold large quantities of highly sensitive protected health information that is highly valued on the black market for such information. As a result, the electronic systems and networks of health care providers are targets for cyberattacks and other potential breaches of their systems. In addition to regulatory fines and penalties, the health care entities subject to the breaches, as opposed to the vendor or other third party responsible for the breach, may ultimately be liable for the costs of remediating the breaches, damages to individuals (or classes) whose information has been breached, reputational damage and business loss, and damage to the information technology infrastructure. The Corporation has taken, and continues to take measures to protect its information technology system against such cyberattacks, but there can be no assurance that the Corporation will not experience a significant breach. If such a breach occurs, the financial consequences of such a breach could have a material adverse impact on the Corporation.

Payment Card Industry Security Standards. Health care providers have seen significant changes in the method, amount of transactions and dollar amount of patient payments. Health care providers recognize that financial

data security is a paramount concern as is continuing to protect and secure patient information. Chip cards used at Europay, MasterCard and Visa (“EMV”) terminals protect against counterfeit transactions by replacing static data with dynamic data. Merchants are in the process of migrating to EMV chip card technology to improve the security of the card-present payments infrastructure. As a result, EMV is being introduced to health care providers.

Beginning October 1, 2015, the liability for card-present fraud shifts to whichever party is the least EMV-compliant in a fraudulent transaction. This means in practice that if a health care provider has not updated its system to accept chip cards and fraud occurs when a chip card is inserted into the terminal, the health care provider would be liable for the costs. It is not mandatory to begin using EMV compliant terminals on or after October 1, 2015 and there are no fines or other penalties; however, a health care provider that does not use EMV-compliant terminals may face much higher costs in the event of a large data breach.

Increasing Cost of Modern Technology. Technological advances in recent years have forced hospitals to acquire sophisticated and costly equipment to remain technologically current. Moreover, the growth of e-commerce may also result in a shift in the way that health care is delivered, *i.e.*, from remote locations. For example, physicians will now be able to provide certain services over the internet and pharmaceuticals and other health services may now be purchased online. If, due to financial constraints, the Corporation was less able to acquire new equipment required to remain technologically current, the operations and financial condition of the Corporation could be materially adversely affected.

Infectious Disease Outbreak. The Corporation’s business and financial results could be harmed by an international, national or localized outbreak of a highly contagious or epidemic disease. Existing or future outbreaks of an infectious disease, such as the COVID-19 virus, Middle East Respiratory Syndrome virus, Severe Acute Respiratory Syndrome virus, Zika virus, or Ebola virus, that occur internationally, nationally or in the Corporation’s service area, could adversely affect the Corporation’s business and financial results and delay or disrupt the production or delivery of pharmaceuticals and other medical supplies. The treatment of a highly contagious disease at one of the Corporation’s facilities may result in a temporary shutdown or diversion of patients, harm to workforce personnel, and overburdening of facilities. In addition, unaffected individuals may decide to defer elective procedures or otherwise avoid medical treatment, resulting in reduced patient volumes and operating revenues. The Corporation cannot predict any costs associated with the potential treatment of an infectious disease outbreak or preparation for such treatment. The extent to which business interruption insurance would be available in connection with such events is dependent on the specific facts of the events, and there can be no assurance that adequate business interruption insurance coverage would be available to cover losses in such event.

Affiliations, Merger, Acquisition and Divestiture

The Corporation evaluates and pursues potential acquisition, merger and affiliation candidates as part of the overall strategic planning and development process. As part of its ongoing planning and property management functions, the Corporation reviews the use, compatibility and business viability of many of the operations of the Corporation, and from time to time the Corporation may pursue changes in the use of, or disposition of, its facilities. Likewise, the Corporation occasionally receives offers from, or conducts discussions with, third parties about the potential acquisition of operations and properties that may become subsidiaries or affiliates of the Corporation in the future, or about the potential sale of some of the operations or property which are currently conducted or owned by the Corporation. Discussion with respect to affiliation, merger, acquisition, disposition or change of use of facilities, including those which may affect the Corporation, are held from time to time with other parties. These may be conducted with acute care hospital facilities and may be related to potential affiliation between the Corporation and another party, including potential affiliation with such other party’s obligated group. As a result, it is possible that the current organization and assets of the Corporation may change from time to time. See “SECURITY AND SOURCE OF PAYMENT FOR THE BONDS—The Master Indenture—Replacement of Obligation No. 42” herein.

In addition to relationships with other hospitals and physicians, the Corporation may consider investments, ventures, affiliations, development and acquisition of other health care-related entities. These may include home health care, long-term care entities or operations, infusion providers, pharmaceutical providers, and other health care enterprises that support the overall operations of the Corporation. In addition, the Corporation may pursue transactions with health insurers, HMOs, preferred provider organizations, third-party administrators and other health insurance-related businesses. Because of the integration occurring throughout the health care field, management will consider

these arrangements if there is a perceived strategic or operational benefit for the Corporation. Any initiative may involve significant capital commitments and/or capital or operating risk (including, potentially, insurance risk) in a business in which the Corporation may have less expertise than in hospital operations. There can be no assurance that these projects, if pursued, will not lead to material adverse consequences to the Corporation.

Tax-Exempt Status and Other Tax Matters

Maintenance of the Tax-Exempt Status of the Corporation and any future Members of the Obligated Group. The tax-exempt status of the Bonds depends upon maintenance by each Member of the Obligated Group, consisting currently only of the Corporation, that receives or benefits from the proceeds of the Bonds of its status as an organization described in Section 501(c)(3) of the Code. The maintenance of such status is contingent on compliance with general rules promulgated in the Code and related regulations regarding the organization and operation of tax-exempt entities, including their operation for charitable and other permissible purposes and their avoidance of transactions that may cause their earnings or assets to inure to the benefit of private individuals. As these general principles were developed primarily for public charities that do not conduct large-scale technical operations and business activities, they often do not adequately address the myriad of operations and transactions entered into by a modern health care organization. Although traditional activities of health care providers, such as medical office building leases, have been the subject of interpretations by the IRS in the form of private letter rulings, many activities or categories of activities have not been fully addressed in any official opinion, interpretation or policy of the IRS.

The IRS has taken the position that hospitals which are in violation of the Anti-Kickback Law may also be subject to revocation of their tax-exempt status. See “—Regulatory Environment—Anti-Kickback Law” above. As a result, tax-exempt hospitals, such as the Corporation, which have, and will continue to have, extensive relationships with physicians are subject to an increased degree of scrutiny and perhaps enforcement by the IRS.

The ACA also contains requirements for tax-exempt hospitals through Section 501(r) of the Code. Under the ACA, each tax-exempt hospital facility is required to (i) conduct a community health needs assessment at least every three years and adopt an implementation strategy to meet the identified community needs, (ii) adopt, implement and widely publicize a written financial assistance policy and adopt a written policy to provide emergency medical treatment without discrimination, (iii) limit charges to individuals who qualify for financial assistance under such tax-exempt hospital’s financial assistance policy to no more than the amounts generally billed to individuals who have insurance covering such care and refrain from using “gross charges” when billing such individuals, and (iv) refrain from taking extraordinary collection actions without first making reasonable efforts to determine whether the individual is eligible for assistance under such tax-exempt hospital’s financial assistance policy.

On December 29, 2014, the Secretary of the Treasury issued final regulations under Section 501(r) of the Code that provide detailed and comprehensive guidance relating to requirements for community health needs assessments, financial assistance policies, emergency medical care policies, limitations on charges and billing and collection practices, and also provide guidance on consequences of failure to satisfy Section 501(r) requirements. A failure to comply with the provisions of Section 501(r) of the Code and the final regulations issued thereunder could result in a loss of tax-exempt status or otherwise subject revenues of a hospital facility to federal income tax.

In addition, the Treasury Department is required to review information about each tax-exempt hospital’s community benefit activities at least once every three years, as well as to submit an annual report to Congress with information regarding the levels of charity care, bad debt expenses, unreimbursed costs of government programs, and costs incurred by tax-exempt hospitals for community benefit activities. The periodic reviews and reports to Congress regarding the community benefits provided by 501(c)(3) hospitals may increase the likelihood that Congress will require such hospitals to provide a minimum level of charity care in order to retain tax-exempt status and may increase IRS scrutiny of particular 501(c)(3) hospital organizations, and may increase the risk of passage of legislation to repeal the exemption of nonprofit hospitals from federal income taxes.

The Corporation participates in a variety of joint ventures and transactions with physicians either directly or indirectly. Management believes that the joint ventures and transactions to which the Corporation is a party are consistent with the requirements of the Code as to tax-exempt status, but, as noted above, there is uncertainty as to the state of the law. Any change in or violation of the applicable rules could adversely affect the tax-exempt status of the Corporation as an organization described in Section 501(c)(3) of the Code. Such a change or violation may also

require the dissolution of one or more joint ventures, which could have material adverse consequences to the Corporation.

The IRS has periodically conducted audit and other enforcement activity regarding tax-exempt health care organizations. Certain audits are conducted by teams of revenue agents, often take years to complete and require the expenditure of significant staff time by both the IRS and the audited organization. These audits examine a wide range of possible issues, including tax-exempt bond financings, partnerships and joint ventures, retirement plans and employee benefits, employment taxes, political contributions and other matters.

If the IRS were to find that the Corporation or any future Member of the Obligated Group has participated in activities in violation of certain regulations or rulings, the tax-exempt status of such entity could be in jeopardy. Although the IRS has not frequently revoked the 501(c)(3) tax-exempt status of nonprofit health care corporations, it could do so in the future. Loss of tax-exempt status by the Corporation potentially could result in loss of tax exemption of the Bonds and of other tax-exempt debt of the Corporation or any future Member of the Obligated Group, and defaults in covenants regarding the Bonds and other related tax-exempt debt and obligations likely would be triggered. Loss of tax-exempt status also could result in substantial tax liabilities on income of the Corporation or any future Member of the Obligated Group. For these reasons, loss of tax-exempt status of the Corporation could have a material adverse effect on the financial condition and results of operations of the Obligated Group.

In some cases, the IRS has imposed substantial monetary penalties on tax-exempt hospitals in lieu of revoking their tax-exempt status. In those cases, the IRS and exempt hospitals entered into settlement agreements requiring the hospital to make substantial payments to the IRS.

In addition, the IRS may impose a penalty in the form of excise taxes on certain “excess benefit transactions” involving 501(c)(3) organizations and “disqualified persons.” An excess benefit transaction is one in which a disqualified person or entity receives more than fair market value from the exempt organization or pays the exempt organization less than fair market value for property or services, or shares the net revenues of the tax-exempt entity. A disqualified person is a person (or an entity) who is in a position to exercise substantial influence over the affairs of the exempt organization during the five years preceding an excess benefit transaction. The statute imposes excise taxes on the disqualified person and any “organization manager” who knowingly participates in an excess benefit transaction. These rules do not currently penalize the exempt organization itself, so there would be no direct impact on a Member of the Obligated Group or the tax status of the Bonds if an excess benefit transaction were subject to IRS enforcement, pursuant to these “intermediate sanctions” rules. However, these intermediate sanctions do not replace other remedies available to the IRS, including revocation of tax-exempt status.

The IRS and state, county and local taxing authorities may undertake audits and reviews of the operations of tax-exempt hospitals with respect to the generation of unrelated business taxable income (“UBTI”). The Corporation participates in activities that may generate UBTI. The level of these activities is currently immaterial, but these activities could increase in the future. An investigation or audit could lead to a challenge that could result in taxes, interest and penalties with respect to UBTI and, in some cases, ultimately could affect the tax-exempt status of the Corporation, as well as the exclusion from gross income for federal tax purposes of the interest payable on the Bonds and other tax-exempt debt issued for the Corporation.

State and Local Tax Exemption. Until recently, California has not been as active as the IRS in scrutinizing the income tax exemption of health care organizations. With some overlap with the ACA’s mandates, California laws also require tax-exempt hospitals to conduct a community needs assessment, to adopt an implementation strategy, and to have a charity care policy. It is possible that legislation may be proposed to strengthen the role of the California Franchise Tax Board and the Attorney General in supervising nonprofit health systems. It is likely that the loss by the Corporation or any future Member of the Obligated Group of federal tax exemption would also trigger a challenge to its respective state tax exemption. Depending on the circumstances, such event could be material and adverse.

State, county and local taxing authorities undertake audits and reviews of the operations of tax-exempt health care providers with respect to their real property tax exemptions. In some cases, particularly where authorities are dissatisfied with the amount of services provided to indigents, the real property tax-exempt status of the health care providers has been questioned. For example, a court in New Jersey decided that a nonprofit hospital should pay property taxes on almost all of its property because it did not meet the legal test that it operated as a nonprofit,

charitable organization during certain years. At this time, it is uncertain whether this state-specific case will have a negative impact on the broader nonprofit hospital community. Subjecting significant amounts of real property to taxation could adversely affect health care organizations. The majority of the real property of the Corporation is currently treated as exempt from real property taxation.

It is not possible to predict the scope or effect of future state and local legislative or regulatory actions with respect to taxation of nonprofit corporations. There can be no assurance that future changes in the laws and regulations of state or local governments will not materially adversely affect the financial condition of the Obligated Group by requiring payment of income, local property or other taxes.

Maintenance of Tax-Exempt Status of Interest on the Bonds. The Code imposes a number of requirements that must be satisfied for interest on state and local obligations, such as the Bonds, to be excludable from gross income for federal income tax purposes. These requirements include limitations on the use of bond proceeds and bond-financed property, limitations on the investment earnings of bond proceeds prior to expenditure, a requirement that certain investment earnings on bond proceeds be paid periodically to the United States Treasury, and a requirement that issuers file an information report with the IRS. The Corporation has covenanted in the Loan Agreement that it will comply with such requirements. Future failure by the Corporation to comply with the requirements stated in the Code and related regulations, rulings and policies may result in the treatment of interest on the Bonds as taxable, retroactively to the date of issuance. The Authority has covenanted in the Indenture that it will not take any action or refrain from taking any action that would cause interest on the Bonds to be included in gross income for federal income tax purposes.

IRS officials have indicated that resources will be invested in audits of tax-exempt bonds, including the use of bond proceeds, in the charitable organization sector, with specific reviews of private use. In addition, under its compliance check program initiated in 2007, the IRS has from time to time sent post-issuance compliance questionnaires to several hundred nonprofit corporations that have borrowed on a tax-exempt basis regarding their post-issuance compliance with various requirements for maintaining the federal tax exemption of interest on their bonds. The questionnaire includes questions relating to the borrower's (i) record retention, which the IRS has particularly emphasized, (ii) qualified use of bond-financed property, (iii) compliance with arbitrage yield restriction and rebate requirements, (iv) debt management policies, and (v) voluntary compliance and education. After analyzing responses, IRS representatives indicated that it had commenced a number of examinations of hospital tax-exempt bond issues with wide-ranging areas of inquiry. In the final report summarizing findings and conclusions of the questionnaire responses, issued July 1, 2011, the IRS stressed the importance of formal post-issuance compliance and record-keeping procedures. IRS representatives indicate that more questionnaires may be sent to additional nonprofit organizations.

Effective with the 2008 tax year, tax-exempt organizations must also complete Schedules H, K and J to Form 990, which create additional reporting responsibilities. On Schedule H, hospitals and health systems must report how they provide community benefit and specify certain billing and collection practices. Schedule K requires detailed information related to certain outstanding bond issues of tax-exempt borrowers, including information regarding operating, management and research contracts as well as private use compliance. Tax-exempt organizations must also complete Schedule J, which requires reporting of compensation information for the organizations' officers, directors, trustees, key employees, and other highly compensated employees.

There can be no assurance that responses by the Corporation or any future Member of the Obligated Group to a questionnaire or Form 990 will not lead to an IRS review that could adversely affect the market value of the Bonds or of other outstanding tax-exempt indebtedness of the Obligated Group. Additionally, the Bonds or other tax-exempt obligations issued for the benefit of the Obligated Group may be, from time to time, subject to examinations or audits by the IRS.

In addition, current and future legislative proposals, if enacted into law, could cause interest on the Bonds to be subject to federal income taxation or state income taxation, or could otherwise affect the economic value or marketability of the Bonds. See "TAX MATTERS" herein.

The Corporation believes that the Bonds properly comply with the tax laws. In addition, Bond Counsel will render an opinion with respect to the tax-exempt status of the Bonds, as described under the caption "TAX

MATTERS.” No ruling with respect to the Bonds has been or will be sought from the IRS, however, and opinions of counsel are not binding on the IRS or the courts. There can be no assurance that an examination of the Bonds will not adversely affect the Bonds or the market value of the Bonds, nor that future legislative action might not limit or remove the tax-exempt status of interest on the Bonds. See “TAX MATTERS” herein.

Limitations on Contractual and Other Arrangements Imposed by the Internal Revenue Code. As tax-exempt organizations, the Corporation and any future Member of the Obligated Group are limited with respect to their use of practice income guarantees, reduced rent on medical office space, low interest loans, joint venture programs and other means of recruiting and retaining physicians. Uncertainty in this area has been reduced somewhat by the issuance by the IRS of guidelines on permissible physician recruitment practices. The IRS scrutinizes a broad variety of contractual relationships commonly entered into by hospitals and has issued a detailed audit guide suggesting that field agents scrutinize numerous activities of the hospitals in an effort to determine whether any action should be taken with respect to limitations on or revocation of their tax-exempt status or assessment of additional tax. Any suspension, limitation, or revocation of the Corporation or any future Member’s tax-exempt status or assessment of significant tax liability would have a materially adverse effect on the Obligated Group and might lead to loss of tax exemption of interest on the Bonds and other tax-exempt debt of the Obligated Group.

Other Risk Factors

Earthquakes. Many hospitals in California are in close proximity to active earthquake faults. A significant earthquake in Northern California could have a material adverse effect on the Corporation and could result in material damage and temporary or permanent cessation of operations at the Corporation’s facilities. The Corporation currently does not carry earthquake insurance coverage.

California law requires each acute care hospital in the State to evaluate and upgrade its patient care facilities to meet stated seismic standards by 2008 or, in certain cases, by 2030; ultimate deadlines depend on each acute hospital building’s structural performance category. OSHPD has been directed to review previously established seismic performance categories for hospital buildings using new software technology known as “HAZUS.” Reevaluation under HAZUS may result in buildings not being required to meet any new seismic standards until 2030. California law has been amended to allow various types of extensions of the 2008 deadline to 2013, 2015, 2016, 2018 or 2020, provided that the facility qualifies for such extension and certain requirements are met in enumerated time periods, including demonstrating to OSHPD reasonable progress towards meeting the ultimate deadlines.

Construction Risks. As the Corporation continues to implement its Master Plan, the Corporation is continuing to undertake construction projects to replace and renew its patient care facilities. Construction projects are subject to a variety of risks, including but not limited to strikes, shortages of materials and labor, adverse weather conditions, and delays in issuance of required building permits or other necessary approvals or permits, including environmental approvals. Such events could delay occupancy. Cost overruns may occur due to change orders, delays in the construction schedule, scarcity of building materials and labor and other factors. Cost overruns could cause the costs to exceed available funds. Construction costs have historically inflated in California between 15% and 20% annually making some projects financially prohibitive.

See APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SERVICES, FACILITIES AND OPERATIONS—Master Plan and Additional Capital Needs.”

Risks Related to Variable Rate Obligations. The Corporation has variable rate obligations outstanding, the interest rates on which could rise. Such interest rates vary on a periodic basis and may be converted to a fixed interest rate. This protection against rising interest rates is not unrestricted, however, because the Corporation would be required to continue to pay interest at the variable rate until it is permitted to convert the obligations to a fixed rate pursuant to the terms of the applicable transaction documents.

Approximately \$84.1 million of outstanding variable rate bonds issued on behalf of the Corporation have a “put” feature which grants the holders of such bonds the right to tender these bonds for payment on seven, or fewer, days’ notice. The Corporation also has approximately \$84.1 million of outstanding variable rate bonds issued in the commercial paper rate mode, which would be subject to tender at the end of their respective roll periods. None of such variable rate bonds are supported by either a credit facility or a liquidity facility. If any variable rate bonds are tendered

for purchase, or, in the case of variable rate bonds in the commercial paper rate mode, come to the end of their respective roll periods, and are not remarketed, the Corporation will be obligated to purchase such bonds.

Risks Related to Interest Rate Swaps. The Corporation has entered into interest rate swap agreements related to indebtedness of the Obligated Group (the “Swaps”). The Swaps are and will be subject to periodic “mark-to-market” valuations and at any time may have a negative value to the Corporation. The Swaps counterparty may terminate the Swaps upon the occurrence of certain “termination events” or “events of default.” The Corporation may terminate the Swaps at any time. If either the counterparty to the Swaps or the Corporation terminates any of the Swaps during a negative value situation, the Corporation may be required to make a termination payment to such Swaps counterparty, and such payment could be material.

Pursuant to the Swaps, the counterparty will be obligated to make payments to the Corporation, which payments may be more or less than the interest rates the Corporation is required to pay with respect to a comparable principal amount of the related indebtedness.

Regularly scheduled payments and, in limited circumstances, settlement amounts under the Swaps are secured under the Master Indenture. The Corporation or any future Member of the Obligated Group may in the future enter into additional Swaps and other financial product and hedge devices that also may be secured under the Master Indenture. See APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION—Interest Rate Swap Arrangements.”

Investments. The Corporation has significant holdings in a broad range of investments. Market fluctuations may affect the value of those investments and those fluctuations may be material. For a discussion of the Corporation’s investments, see APPENDIX A – “INFORMATION CONCERNING STANFORD HEALTH CARE—SUMMARY OF FINANCIAL INFORMATION—Cash and Investments.”

Contributions. A negative change in economic conditions, including a recurrence of a recession, or declines in the public equities market or private investment holdings of potential philanthropy sources, may have an adverse impact on the Corporation’s total receipt of charitable contributions. Failure to collect committed donations or to receive sufficient additional pledges of support may impair the Corporation’s ability to complete the construction projects or to develop programs or services that are dependent on charitable contributions. No assurances can be given that the Corporation will receive charitable contributions as anticipated or consistent with historical levels.

Other Future Risks. In the future, the following factors, among others, may adversely affect the operations of health care providers, including the Corporation, or the market value of health care revenue bonds, including the Bonds, to an extent that cannot be determined at this time.

(a) Adoption of legislation or implementation of regulations that would establish a national or statewide single-payor health program or that would establish national, statewide or otherwise regulated rates applicable to hospitals and other health care providers, or that would extend the scope of such programs to persons currently covered under commercial insurance programs.

(b) Reduced demand for the services of health facilities that might result from decreases or shifts in population or loss of market share to competitors.

(c) Bankruptcy of an indemnity/commercial insurer, managed care plan or other payor.

(d) Efforts by insurers, employers and governmental agencies to limit the cost of hospital services, to reduce the number of hospital beds or other ancillary services and to reduce the utilization of health facilities by such means as prescribed protocols, preventive medicine, improved occupational health and safety and outpatient care or comparable attempts by third-party payors to control or restrict the operations of certain health care facilities.

(e) Regulatory actions, which might limit the ability of hospitals to undertake capital improvements at its facilities or to develop new institutional health services.

(f) Cost and availability of any insurance, such as professional liability, fire, automobile and general comprehensive liability coverage, which health care facilities of a similar size and type generally carry.

(g) Increased unemployment or other adverse economic conditions in the service area of the Corporation, which would increase the proportion of patients who are unable to pay fully for the cost of their care.

(h) Competition from other hospitals and other competitive facilities now or hereafter located in the Corporation's service area, which could adversely affect revenues.

(i) Development of health maintenance and other alternative health delivery programs, which could result in decreased usage of inpatient hospital facilities.

(j) Limitations on the availability of, and increased compensation necessary to secure and retain, nursing, technical and other professional personnel.

TAX MATTERS

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Authority ("Bond Counsel"), based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Code and is exempt from State of California personal income taxes. Bond Counsel is of the further opinion that interest on the Bonds is not a specific preference item for purposes of the federal alternative minimum tax. A complete copy of the proposed form of opinion of Bond Counsel is set forth in Appendix D hereto.

To the extent the issue price of any maturity of the Bonds is less than the amount to be paid at maturity of such Bonds (excluding amounts stated to be interest and payable at least annually over the term of such Bonds), the difference constitutes "original issue discount," the accrual of which, to the extent properly allocable to each Beneficial Owner thereof, is treated as interest on the Bonds which is excluded from gross income for federal income tax purposes and State of California personal income taxes. For this purpose, the issue price of a particular maturity of the Bonds is the first price at which a substantial amount of such maturity of such Bonds is sold to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). The original issue discount with respect to any maturity of the Bonds accrues daily over the term to maturity of such Bonds on the basis of a constant interest rate compounded semiannually (with straight-line interpolations between compounding dates). The accruing original issue discount is added to the adjusted basis of such Bonds to determine taxable gain or loss upon disposition (including sale, redemption, or payment on maturity) of such Bonds. Beneficial Owners of the Bonds should consult their own tax advisors with respect to the tax consequences of ownership of Bonds with original issue discount, including the treatment of Beneficial Owners who do not purchase such Bonds in the original offering to the public at the first price at which a substantial amount of such Bonds is sold to the public.

Bonds purchased, whether at original issuance or otherwise, for an amount higher than their principal amount payable at maturity (or, in some cases, at their earlier call date) ("Premium Bonds") will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, like the Premium Bonds, the interest on which is excluded from gross income for federal income tax purposes. However, the amount of tax-exempt interest received, and a Beneficial Owner's basis in a Premium Bond, will be reduced by the amount of amortizable bond premium properly allocable to such Beneficial Owner. Beneficial Owners of Premium Bonds should consult their own tax advisors with respect to the proper treatment of amortizable bond premium in their particular circumstances.

The Code imposes various restrictions, conditions and requirements relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the Bonds. The Authority and the Corporation have made certain representations and have covenanted to comply with certain restrictions, conditions and requirements designed to ensure that interest on the Bonds will not be included in federal gross income. Inaccuracy of these representations or failure to comply with these covenants may result in interest on the Bonds being

included in gross income for federal income tax purposes, possibly from the date of original issuance of the Bonds. The opinion of Bond Counsel assumes the accuracy of these representations and compliance with these covenants. Bond Counsel has not undertaken to determine (or to inform any person) whether any actions taken (or not taken) or events occurring (or not occurring), or any other matters coming to Bond Counsel's attention after the date of issuance of the Bonds may adversely affect the value of, or the tax status of interest on, the Bonds. Accordingly, the opinion of Bond Counsel is not intended to, and may not, be relied upon in connection with any such actions, events or matters.

In addition, Bond Counsel has relied, among other things, on the opinion of Ropes & Gray LLP, counsel to the Corporation, regarding the current qualification of the Corporation as an organization described in Section 501(c)(3) of the Code. Such opinion is subject to a number of qualifications and limitations. Bond Counsel has also relied upon representations of the Corporation concerning the Corporation's "unrelated trade or business" activities as defined in Section 513(a) of the Code. Neither Bond Counsel nor counsel to the Corporation has given any opinion or assurance concerning Section 513(a) of the Code and neither Bond Counsel nor counsel to the Corporation can give or has given any opinion or assurance about the future activities of the Corporation, or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the resulting changes in enforcement thereof by the IRS. Failure of the Corporation to be organized and operated in accordance with the IRS's requirements for the maintenance of its status as an organization described in Section 501(c)(3) of the Code, or to operate the facilities financed or refinanced by the Bonds in a manner that is substantially related to the Corporation's charitable purpose under Section 513(a) of the Code, may result in interest payable with respect to the Bonds being included in federal gross income, possibly from the date of the original issuance of the Bonds.

Although Bond Counsel is of the opinion that interest on the Bonds is excluded from gross income for federal income tax purposes and is exempt from State of California personal income taxes, the ownership or disposition of, or the accrual or receipt of amounts treated as interest on, the Bonds may otherwise affect a Beneficial Owner's federal, state or local tax liability. The nature and extent of these other tax consequences depends upon the particular tax status of the Beneficial Owner or the Beneficial Owner's other items of income or deduction. Bond Counsel expresses no opinion regarding any such other tax consequences.

Current and future legislative proposals, if enacted into law, clarification of the Code or court decisions may cause interest on the Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislative proposals or clarification of the Code or court decisions may also affect, perhaps significantly, the market price for, or marketability of, the Bonds. Prospective purchasers of the Bonds should consult their own tax advisors regarding the potential impact of any pending or proposed federal or state tax legislation, regulations or litigation, as to which Bond Counsel is expected to express no opinion.

The opinion of Bond Counsel is based on current legal authority, covers certain matters not directly addressed by such authorities, and represents Bond Counsel's judgment as to the proper treatment of the Bonds for federal income tax purposes. It is not binding on the IRS or the courts. Furthermore, Bond Counsel cannot give and has not given any opinion or assurance about the future activities of the Authority or the Corporation, or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the IRS. The Authority and the Corporation have covenanted, however, to comply with the requirements of the Code.

Bond Counsel's engagement with respect to the Bonds ends with the issuance of the Bonds, and, unless separately engaged, Bond Counsel is not obligated to defend the Authority, the Corporation or the Beneficial Owners regarding the tax-exempt status of the Bonds in the event of an audit examination by the IRS. Under current procedures, parties other than the Authority, the Corporation and their appointed counsel, including the Beneficial Owners, would have little, if any, right to participate in, the audit examination process. Moreover, because achieving judicial review in connection with an audit examination of tax-exempt bonds is difficult, obtaining an independent review of IRS positions with which the Authority or the Corporation legitimately disagree, may not be practicable. Any action of the IRS, including but not limited to selection of the Bonds for audit, or the course or result of such audit, or an audit of bonds presenting similar tax issues may affect the market price for, or the marketability of, the Bonds, and may cause the Authority, the Corporation or the Beneficial Owners to incur significant expense.

APPROVAL OF LEGALITY

The validity of the Bonds and certain other legal matters are subject to the approving opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Authority. A complete copy of the proposed form of Bond Counsel's opinion is set forth as APPENDIX D hereto. Bond Counsel undertakes no responsibility for the accuracy, completeness or fairness of this Official Statement. Certain legal matters will be passed upon for the Corporation by its counsel, Ropes & Gray LLP, San Francisco, California, which undertakes no responsibility for the accuracy, completeness or fairness of this Official Statement, for the Authority by its counsel, the Attorney General of the State of California who undertakes no responsibility for the accuracy, completeness or fairness of this Official Statement, and for the Underwriters by Norton Rose Fulbright US LLP, San Francisco, California, which also undertakes no responsibility for the accuracy, completeness or fairness of this Official Statement.

ABSENCE OF MATERIAL LITIGATION

The Corporation

There is no controversy or litigation of any nature now pending against the Corporation or, to the knowledge of the officers of the Corporation, threatened, restraining or enjoining the issuance, sale, execution or delivery of the Bonds or in any way contesting or affecting the validity of the Bonds, any proceedings of the Corporation taken concerning the issuance or sale thereof or the execution and delivery of Obligation No. 42, or the pledge or application of any moneys or security provided for the payment of the Bonds.

The Corporation, like similar institutions, is subject to a variety of suits and proceedings arising in the ordinary course of business. For further discussion, see APPENDIX A – "INFORMATION CONCERNING STANFORD HEALTH CARE—LITIGATION AND REGULATORY MATTERS."

The Authority

To the knowledge of the officers of the Authority, there is no litigation of any nature now pending (with service of process having been accomplished) or threatened against the Authority restraining or enjoining the issuance, sale, execution or delivery of the Bonds, or in any way contesting or affecting the validity of the Bonds, any proceedings of the Authority taken concerning the issuance or sale thereof, the pledge or application of any moneys or security provided for the payment of the Bonds, or the existence or powers of the Authority relating to the issuance of the Bonds.

RATINGS

Moody's Investors Service, Inc., S&P Global Ratings, a division of Standard & Poor's Financial Services LLC, and Fitch Ratings, Inc. have assigned municipal bond ratings of "Aa3," "AA-" and "AA" for the Bonds. The ratings reflect the current assessment of each rating agency of the creditworthiness of the Corporation. Such ratings reflect only the view of each organization and any explanation of the significance of such rating may only be obtained from the rating agency furnishing the same. The Corporation has furnished to such rating agencies certain information and materials concerning the Bonds and itself. Generally, rating agencies base their ratings on such information and materials and on investigations, studies and assumptions made by the rating agencies themselves. There is no assurance that any of the ratings mentioned above will remain in effect for any given period of time or that the ratings might not be lowered or withdrawn entirely by the rating agency assigning any such rating, if in its judgment circumstances so warrant. Any downward change in or withdrawal of any rating might have an adverse effect on the market price or marketability of the Bonds.

INDEPENDENT ACCOUNTANTS

The financial statements of the Corporation as of August 31, 2019 and 2018 and for the years then ended, included in APPENDIX B to this Official Statement, have been audited by PricewaterhouseCoopers LLP, independent accountants, as stated in their report appearing in APPENDIX B.

UNDERWRITING

Pursuant to a Bond Purchase Contract (the “Purchase Contract”), Morgan Stanley & Co. LLC, as the representative of the underwriters named on the cover page of this Official Statement (collectively, the “Underwriters”), has agreed to purchase the Bonds at a purchase price of \$190,005,326.80, which amount represents the par amount of the Bonds, plus an original issue premium of \$19,885,326.80. The Corporation has agreed to pay the Underwriters underwriting compensation of \$731,516.00 with respect to the Bonds. The Purchase Contract provides that the Underwriters will purchase all of the Bonds, if any are purchased, and contains the agreements of the Corporation to indemnify the Underwriters and the Authority against certain liabilities. The Purchase Contract also provides that the Corporation will pay the fees of counsel to the Underwriters.

Morgan Stanley & Co. LLC, as an Underwriter of the Bonds, has entered into a retail distribution arrangement with its affiliate, Morgan Stanley Smith Barney LLC. As part of the distribution arrangement, Morgan Stanley & Co. LLC may distribute municipal securities to retail investors through the financial network of Morgan Stanley Smith Barney LLC. As part of this arrangement, Morgan Stanley & Co. LLC may compensate Morgan Stanley Smith Barney LLC for its underwriting efforts with respect to the Bonds.

The Underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities sales and trading, commercial and investment banking, municipal advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the Underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to the Authority or the Corporation and to persons and entities with relationships with the Authority or the Corporation, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the Authority or the Corporation (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the Authority or the Corporation. The Underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

The Corporation intends to use a portion of the proceeds of the Bonds to refund the Prior Bonds. To the extent an Underwriter or an affiliate thereof is an owner of any of the Prior Bonds, the Underwriter or its affiliate, as applicable, would receive a portion of the proceeds from the issuance of the Bonds in connection with such Prior Bonds being refunded by the Corporation.

FINANCIAL ADVISOR

Ponder & Co. has served as financial advisor to the Corporation for purposes of assisting with the development and implementation of a bond structure in connection with the Bonds. Ponder & Co. is not obligated to undertake, and has not undertaken, an independent verification or to assume responsibility for the accuracy, completeness, or fairness of the information contained in this Official Statement. Ponder & Co. is an independent advisory firm and is not engaged in the business of underwriting or distributing municipal securities or other public securities.

RELATIONSHIPS AMONG THE PARTIES

Certain of the parties acting with respect to the offering, sale, issuance and securing of the Bonds (this “Transaction”) act for parties related to the Corporation. Ropes & Gray LLP is acting as counsel to the Corporation

in this Transaction. Ropes & Gray LLP also acts as outside counsel for Stanford University and Lucile Salter Packard Children's Hospital at Stanford ("LPCH"). Orrick, Herrington & Sutcliffe LLP, which is acting as bond counsel to the Authority on this transaction, also acts as bond counsel on LPCH and Stanford University bond issues. PricewaterhouseCoopers LLP, which is acting as the independent auditors of the financial statements of the Corporation, also acts as the independent auditors of the financial statements of Stanford University and LPCH. Morgan Stanley & Co. LLC, which is acting as an Underwriter in this Transaction, also acts as an underwriter for LPCH and Stanford University. Goldman Sachs & Co. LLC, which is acting as an Underwriter in this Transaction, also acts as an underwriter for Stanford University. Barclays Capital Inc., which is acting as an Underwriter in this Transaction, also acts as an underwriter for Stanford University. Ropes & Gray LLP also will act as counsel to the Corporation with respect to the issuance of the Taxable Bonds, if issued. Morgan Stanley & Co. LLC, Goldman Sachs & Co. LLC and Barclays Capital Inc. also will act as underwriters with respect to the issuance of the Taxable Bonds, if issued.

MISCELLANEOUS

The foregoing and subsequent summaries or descriptions of provisions of the Bonds, the Indenture, the Loan Agreement, the Master Indenture, Supplement No. 42 and the Continuing Disclosure Agreement, and all references to other materials not purporting to be quoted in full, are only brief outlines of some of the provisions thereof and do not purport to summarize or describe all of the provisions thereof. Reference is made to said documents for full and complete statements of their provisions. The appendices attached hereto are a part of this Official Statement. Copies, in reasonable quantity, of such documents may be obtained during the offering period upon request directed to the Corporation and thereafter upon request directed to the principal corporate trust office of the Trustee.

The information contained in this Official Statement has been compiled or prepared from information obtained from the Corporation and other sources deemed to be reliable and, while not guaranteed as to completeness or accuracy, is believed to be correct as of the date of this Official Statement. The Authority furnished only the information contained under the headings "THE AUTHORITY" and "ABSENCE OF MATERIAL LITIGATION—The Authority" and, except for such information, makes no representation as to the adequacy, completeness or accuracy of this Official Statement or the information contained herein. Any statements involving matters of opinion, whether or not expressly so stated, are intended as such and not as representations of fact.

This Official Statement has been delivered by the Authority and approved by the Corporation. This Official Statement is not to be construed as a contract or agreement among any of the Authority, the Corporation or the purchasers or holders of any of the Bonds.

BACKGROUND AND ORGANIZATION

Introduction

Stanford Health Care (the “Corporation” or “SHC”) is the principal teaching affiliate of the Stanford University School of Medicine (the “School of Medicine”) that provides primary and specialty health services to adults, including cardiac care, cancer treatment, solid organ transplantation services, orthopedics and neurosciences services. The Corporation, together with Lucile Salter Packard Children’s Hospital at Stanford (“LPCH”), operates the clinical settings through which the School of Medicine educates medical and graduate students, trains residents and clinical fellows, supports faculty and community clinicians and conducts medical and biological sciences research.

The principal clinical facilities of the Corporation are the Stanford Hospital, a 605-bed tertiary, quaternary and specialty hospital facility recently and comprehensively transformed by the hereinafter-described New Stanford Hospital project (the “Hospital”), and the primary, specialty and sub-specialty clinics (the “Clinics” and, together with the Hospital, the “Hospital and Clinics”) in which the medical faculty of the School of Medicine provide clinical services. The Hospital and the majority of the Clinics are adjacent to the School of Medicine in Palo Alto, California located on the campus of Stanford University (“Stanford University”). Other Clinics are located elsewhere on campus and off campus in neighboring communities and in the San Francisco Bay Area (the “Bay Area”). Completing an eight-year comprehensive hospital facility replacement project on November 17, 2019, the Corporation began providing services in the facility referred to in this Appendix A as the “New Stanford Hospital.” The seven-story New Stanford Hospital building features 368 private patient rooms and 28 state-of-the-art operating rooms. For more information concerning the New Stanford Hospital, see “SERVICES, FACILITIES AND OPERATIONS—SHC’s Master Plan and Additional Capital Needs” herein. During the fiscal year ended August 31, 2019, SHC treated 78,650 patients in its emergency department, admitted 27,187 inpatients and recorded 864,567 outpatient visits. From these patient care activities, the Corporation reported, on a consolidated basis, total operating revenues and other support of \$5.4 billion and income from operations of \$383 million for the fiscal year ended August 31, 2019. At August 31, 2019, the Corporation’s consolidated total assets were \$7.8 billion, consolidated total liabilities were \$3.6 billion and consolidated net assets were \$4.2 billion.

The Corporation is solely responsible for the payment of principal of and interest on the California Health Facilities Financing Authority Revenue Bonds (Stanford Health Care), 2020 Series A (the “Bonds”), as described in this Official Statement. Neither Stanford University, LPCH nor any of their respective affiliates other than the Corporation are obligated to pay debt service on the Bonds. Stanford University, LPCH and the Corporation are not co-guarantors of the debt of each other, and the Corporation, Stanford University and LPCH receive separate credit ratings from rating agencies.

Concurrently with the issuance of the Bonds, the Corporation also expects to issue \$300,000,000 total aggregate principal amount of taxable bonds (the “Taxable Bonds”) to be used for general corporate purposes of the Corporation, as described under “THE PLAN OF FINANCE” in the forepart of this Official Statement.

Capitalized terms used and not otherwise defined in this Appendix A have the meanings set forth in the forepart of this Official Statement. Dollar amounts and percentages have been rounded in some cases to simplify the presentation of information in this Appendix A; in management’s view, such amounts are stated materially accurately. More precise dollar amounts are set forth in the audited consolidated financial statements of the Corporation included as Appendix B to this Official Statement.

Corporate Organization and Related Entities

The Corporation is a California nonprofit public benefit corporation. It is exempt from federal income taxation as a charitable organization described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the “Code”) and is not a private foundation as defined in Section 509(a) of the Code.

Set forth below is a listing of other entities to which the Corporation is related or in which it has interests, and a brief description of the nature of those relationships or interests. For additional information, including which of such entities are included in the Corporation’s audited consolidated financial statements, see Note 1 and Note 2 of such financial statements included as Appendix B to this Official Statement, and “SUMMARY OF FINANCIAL INFORMATION” herein. None of the entities listed below is a member of the Obligated Group; the Corporation is the only current member of the Obligated Group.

Stanford University. Stanford University, of which the School of Medicine is a part, is a trust with corporate powers, a tax-exempt organization under Section 501(c)(3) of the Code and the sole member of the Corporation. As sole member of the Corporation, Stanford University elects all elected directors of the Corporation and has the power to amend the governing documents of the Corporation and to take certain other significant actions with respect to the Corporation.

Lucile Salter Packard Children’s Hospital at Stanford. LPCH, a California nonprofit public benefit corporation and a tax-exempt organization under Section 501(c)(3) of the Code, is the principal teaching affiliate of the School of Medicine that provides pediatric and obstetric services. LPCH operates a 396-bed pediatric and obstetric hospital (the “LPCH Hospital”) and related outpatient clinics adjacent to the Hospital on Stanford University’s campus and provides pediatric care in the Bay Area, including through joint ventures and partnerships with other hospitals and physicians. LPCH purchases certain services from the Corporation and shares certain services with the Corporation. Stanford University is also the sole member of LPCH. See “SERVICES, FACILITIES AND OPERATIONS—Operational Relationships Among the Corporation, Stanford University, LPCH and UHA” herein.

University HealthCare Alliance (“UHA”). UHA is a California nonprofit public benefit corporation and a tax-exempt organization under Section 501(c)(3) of the Code that owns and operates multi-specialty clinics in support of the charitable, education and research purposes of the Corporation and the School of Medicine as a medical foundation. The Corporation and Stanford University are the corporate members of UHA. For further information about UHA, see “SERVICES, FACILITIES AND OPERATIONS—Operational Relationships Among the Corporation, Stanford University, LPCH and UHA” and “—Community Physician Network” herein.

The Hospital Committee for the Livermore-Pleasanton Areas, doing business as Stanford Health Care – ValleyCare (“SHC-VC”). SHC-VC, a California nonprofit public benefit corporation and a tax-exempt organization under Section 501(c)(3) of the Code, operates a 167-bed acute care hospital in Pleasanton, California and a 75-bed acute care hospital in Livermore, California. SHC-VC provides health care services to the Tri-Valley region east of San Francisco, including the communities of Livermore, Pleasanton, Dublin and San Ramon. The Corporation is the sole member of SHC-VC. See “SERVICES, FACILITIES AND OPERATIONS—Market Strategy” herein.

The Stanford Blood Center, LLC (“SBC”). SBC is a limited liability company organized and licensed under the laws and jurisdiction of California. The Corporation is the sole member of SBC. SBC serves as a community blood center and provides blood products and testing services to hospitals, clinics, companies and other clients.

SUMIT Holding International, LLC (“SHI”). SHI is a limited liability company organized and licensed under the laws and jurisdiction of Delaware. The sole members of SHI are the Corporation and LPCH, which hold ownership interests of 80% and 20%, respectively. SHI is the sole owner of SUMIT Insurance Company Ltd. (“SUMIT”) (described below) and Stanford University Medical Network Risk Authority, LLC, which provides risk management services to SHI, the owners of SHI and other affiliated and unaffiliated parties.

SUMIT. SUMIT, a company organized and licensed under the laws and jurisdiction of Bermuda, provides claims-made liability coverage to the Corporation and LPCH for health care professional, comprehensive general, miscellaneous errors/omissions and employment practices liability. See “PROFESSIONAL LIABILITY AND OTHER INSURANCE” herein for additional information. The governing body of SUMIT consists of eight voting directors of whom three are appointed by the Corporation, two by LPCH and the remainder by the appointees of the Corporation and LPCH.

Professional Exchange Assurance Company (“PEAC”). PEAC, a reciprocal risk retention group domiciled in Hawaii, provides insurance coverage to UHA and Packard Children’s Health Alliance (“PCHA”), a California nonprofit corporation that operates as a medical foundation in support of LPCH, and their respective affiliated parties. PCHA and UHA are the owners of PEAC.

Stanford Emanuel Radiation Oncology Center (“SEROC”). SEROC is a joint venture between the Corporation and Doctors Medical Center of Modesto, Inc. (“DMC”), a California corporation. SEROC operates an outpatient clinic that provides radiation oncology services to patients in Turlock, California and surrounding communities. The Corporation’s and DMC’s membership interests in SEROC are 60% and 40%, respectively.

Stanford Health Care Advantage (“SHCA”). SHCA, formerly known as University HealthCare Advantage, is a California nonprofit public benefit corporation and a tax-exempt organization under Section 501(c)(3) of the Code and provides comprehensive health care coverage options to elderly and disabled individuals living in Santa Clara County. As a Medicare Advantage plan, SHCA promotes the health of the community by providing Medicare-eligible individuals with a broad range of health services. On December 6, 2019, SHCA, SHC, Lumeris,

which is an accountable care delivery innovation company, and a Lumeris affiliate entered into several agreements, including an acquisition agreement and a managed service agreement pursuant to which Lumeris will collaborate with SHC for the further development of SHCA in Northern California. SHCA operates as an integral part of the broader charitable mission of the Corporation, its sole corporate member.

ValleyCare Senior Housing, Inc. (“VCSH”). VCSH is a nonprofit public benefit corporation and a tax-exempt organization under Section 501(c)(3) of the Code of which SHC-VC is the sole member. In 2003, the City of Livermore granted land to VCSH for the purpose of leasing the land for third party development of senior housing.

CareCounsel, LLC (“CareCounsel”). CareCounsel, a California limited liability company, provides employer-sponsored consumer education, advocacy and access to expert health care resources and information to for-profit, nonprofit and governmental employers across the United States.

Stanford PET-CT, LLC (“PET-CT”). PET-CT, a California limited liability company, provides radiological services, including positron emission tomography and computerized axial tomography scan services. The Corporation and Stanford University each appoint half of the members of the governing board of PET-CT and are its members.

Stanford-StartX Fund, LLC (“StartX Fund”). StartX Fund, a California limited liability company, supports the continued experiential education of participants in a program that aims to accelerate the development of students, faculty and alumni of Stanford University identified as high potential entrepreneurs by StartX, a California nonprofit public benefit corporation and a tax-exempt organization under Section 501(c)(3) of the Code. The Corporation’s membership interest in StartX Fund is 33%.

Pleasanton Physician Affiliates II, LLC (“PPA II”). PPA II, a California limited liability company, owns and operates a medical office building in Pleasanton. SHC-VC holds a 39% membership interest in PPA II.

Corporate Partners Program

In 2011, the Corporation launched its Corporate Partners Program and recruited six leading Silicon Valley technology companies to join in providing philanthropic support for the replacement facilities identified in SHC’s Master Plan (defined below). Apple, eBay, HP, Intel, Intuit and Oracle are founding members of the Corporate Partners Program. Their contributions are projected to provide as much as \$250 million by 2022, of which over \$237 million has been received as of December 31, 2019 to help build the New Stanford Hospital and other replacement facilities and create a global model for patient-centered, technologically advanced health care. See “SERVICES, FACILITIES AND OPERATIONS—Master Plan and Additional Capital Needs” herein.

Governance

Board of Directors. Pursuant to the bylaws of the Corporation, the Board of Directors (the “Board”) is comprised of seven *ex officio* directors and between seven and twenty-six elected

directors as determined by Stanford University. Currently, the Board consists of seven *ex officio* directors and twenty-five directors elected by the Board of Trustees of Stanford University. Each director has one vote. Elected directors, except for the community physician director, who serves for a one-year term, may serve for three-year terms commencing on the appointment effective date and ending three years after the appointment effective date, or until a director's successor is duly elected and qualified. Each elected director may serve up to three consecutive terms, with the exception of a director who is a clinical department chair from the School of Medicine, who may not serve more than one term consecutively. A director who has served three consecutive terms is ineligible for reelection for one year thereafter; however, the term of a director who is the chair of the Board may be extended while serving as chair. The Board has three classes of directors that are equally sized to the extent possible, and holds staggered elections such that the terms of the directors in only one class expire each year. The current elected and *ex officio* directors, the year of each director's commencement of service on the Board, and each director's occupation are as follows:

Name	Service Commenced	Occupation
Susan Bechtel	2015	President of a non-profit foundation
William Brody, M.D.	2015	Professor Emeritus
Mariann Byerwalter	2015	Chairman of an advisory group
Jeff Chambers, <i>ex officio</i>	2017	Senior Advisor at a private equity firm
Bret Comolli	2012	Chairman of a consumer technology protection services company
Ed Damrose, M.D., FACS, <i>ex officio</i>	2017	Chief of Medical Staff, SHC
Donna L. Dubinsky	2019	CEO of a neuroscience and artificial intelligence company
David Entwistle, <i>ex officio</i>	2016	President and CEO, SHC
Chandler Evans	2014	Community volunteer
Kaye Foster-Cheek	2014	Independent consultant
John Goldman	2012	Civic volunteer and President of an arts organization
Lori Goler	2013	Executive of a social media company
John Gunn, Vice Chair	2011	Senior executive of an investment fund
Fred Harman	2012	Managing director of a venture capital firm
Mary T. Hawn, M.D.	2020	Professor of Surgery and Chair of the Department of Surgery, SHC
Cecilia Herbert	2016	Trustee of an investment firm
Marc E. Jones	2020	Chairman and CEO of a communications firm
Paul A. King, <i>ex officio</i>	2019	President and CEO, LPCH
Lata Krishnan	2018	Technology entrepreneur and philanthropist
Chien Lee	2013	Private investor
Mark Leslie	2015	Retired entrepreneur
John Levin, Chair	2009	Chairman of a law firm, Attorney
Randy Livingston, <i>ex officio</i>	2017	Stanford Medicine Liaison, Chief Financial Officer, Stanford University
Alden McDonald, M.D.	2018	Interventional cardiologist, SHC
Sanjay Mehrotra	2018	President and CEO of a technology firm
Linda Meier	2012	Community volunteer
Lloyd Minor, M.D., <i>ex officio</i>	2012	Dean, Stanford University School of Medicine
Margaret Raffin	2014	President of a non-profit foundation
Norman Rizk, M.D., <i>ex officio</i>	2002	Senior Associate Dean for Clinical Affairs, Stanford University School of Medicine
Mindy B. Rogers	2018	Community volunteer
Kavitark Ram Shriram	2019	Founder of a venture capital firm
Y. Joseph Woo, M.D.	2019	Chair, Department of Cardiothoracic Surgery, Stanford University School of Medicine

Board Committees. The bylaws of the Corporation require an Audit, Compliance and Enterprise Risk Committee, a Quality and Service Committee and a Finance and Investment Committee and permit the Board to create other committees as it deems necessary for the effective governance of the Corporation. Pursuant to this power, the Board has created the following committees: Compensation, Credentials, Policies and Procedures, Major Gifts Development, Facilities, and Nominations and Governance. In addition, from time to time, the Board may create one or more ad hoc committees to deal with matters that the Board may delegate to such committees.

Management

The bylaws of the Corporation provide for the positions of President and Chief Executive Officer, Chief Financial Officer and Chief Operating Officer. The Board is authorized to appoint the President, in consultation with the President of Stanford University, from among candidates nominated by the President of Stanford University. The President of the Corporation is authorized to appoint the Chief Financial Officer and Chief Operating Officer and is also permitted to appoint and prescribe the duties of such additional officers as the President deems appropriate. Biographical information on the current executive management group is set forth below.

David Entwistle, President and Chief Executive Officer. David Entwistle was appointed President and Chief Executive Officer of the Corporation effective July 2016. Prior to his appointment, Mr. Entwistle served as the Chief Executive Officer at University of Utah Health (“UUH”). In that role, Mr. Entwistle led UUH since 2007. Prior to joining UUH, Mr. Entwistle served as Senior Vice President and Chief Operating Officer, as well as Senior Vice President of Operations, for the University of Wisconsin Hospital and Clinics. Previously, he was Vice President of Professional Services and Joint Venture Operations at City of Hope National Medical Center, where he also served as President and Chief Executive Officer for Oncology Management Services. Mr. Entwistle serves on the boards of the American Hospital Association, the AAMC Council of Teaching Hospitals, the Accreditation Council for Graduate Medical Education and Vizient (formerly University HealthSystem Consortium). He earned a B.S. in Health Sciences from Brigham Young University and an M.H.A. in Health Services Administration from Arizona State University. He also was awarded a postgraduate administrative fellowship at the University of Texas MD Anderson Cancer Center.

Quinn McKenna, Chief Operating Officer. Quinn McKenna joined the Corporation in January 2017. Mr. McKenna has more than 25 years of leadership experience in academic medical centers, health systems and management consulting. Prior to joining the Corporation, he served as Chief Operating Officer and Executive Director of UUH. Mr. McKenna previously held Chief Operating Officer roles at the University of Washington in Seattle and at Salt Lake Regional Medical Center. He earned an M.H.A. from the University of Washington and a B.S. in Business Finance from Utah State University.

Linda Hoff, Chief Financial Officer. Linda Hoff became the Chief Financial Officer of the Corporation in July 2017. Prior to joining the Corporation, Ms. Hoff served as Senior Vice President and Chief Financial Officer of Legacy Health in Portland, Oregon for three years. Previously, she was Executive Vice President and Chief Financial Officer at Meriter Health Services in Madison, Wisconsin. She also served as President and Chief Executive Officer of Physicians Plus Insurance Corporation, with product lines including individual, small group, large group, Medicare supplement and Medicaid. Ms. Hoff earned an M.B.A. in Health Care Financial Management from the University of Wisconsin, where she also received a B.S. in Economics. Ms. Hoff is a certified public accountant.

Eric Yablonka, Chief Information Officer. Eric Yablonka joined the Corporation in September 2017. Prior to his appointment, Mr. Yablonka served as Vice President and Chief Information Officer at University of Chicago Medicine for 16 years. Previously, Mr. Yablonka served as Vice President and Chief Information Officer at the Saint Raphael Healthcare System in

New Haven, Connecticut for six years. He has also held IT leadership roles at The Joint Commission, Northwestern Memorial Hospital, University of Nebraska Medical Center and Beaumont Health. Mr. Yablonka earned an M.B.A. from the Advanced Management Program of the Eli Broad College of Business at Michigan State University and a B.S. in Business from the State University of New York – Buffalo State.

Dale Beatty, Chief Nursing Officer, Vice President Patient Care Services. Dale Beatty joined the Corporation in May 2017. Prior to his appointment, Mr. Beatty served as Chief Nursing Officer at the University of Illinois Hospital and Health Sciences System for three years. Previously, Mr. Beatty served as Executive Vice President and Chief Nursing Officer at Northwest Community Healthcare, as well as Vice President and Chief Nursing Officer at Sharp HealthCare. Mr. Beatty holds a B.S. in Nursing from Ohio Wesleyan University, an M.S. in Nursing Administration from DePaul University, and a Doctor of Nursing Practice from the University of Illinois.

Norman Rizk, Chief Medical Officer. Dr. Norman Rizk was named Chief Medical Officer of the Corporation in 2011. He is also the Senior Associate Dean for Clinical Affairs and Belle N. Guggenheimer Professor in Medicine at the School of Medicine, and the Medical Director of the Intensive Care Unit (“ICU”) and Program Director for Fellowships in Critical Care Medicine at the Hospital. Dr. Rizk graduated from Yale University School of Medicine and completed his residency and Fellowship at UCSF Medical Center. Dr. Rizk is board-certified in Critical Care Medicine, Internal Medicine and Pulmonary Disease. In May 2019, Dr. Rizk announced his decision to step down from his roles as Chief Medical Officer of the Corporation, Senior Associate Dean for Clinical Affairs of the School of Medicine and Medical Director of the ICU. Dr. Rizk continues to serve in these positions until his successor is in place.

SERVICES, FACILITIES AND OPERATIONS

The Corporation operates the Hospital and Clinics on the campus of Stanford University, in neighboring communities, and in other communities in the Bay Area. In 2019, *U.S. News and World Report* ranked the Hospital and Clinics first in the San Jose Metro Area, fourth in California, and twelfth in the nation. These rankings are based on SHC’s performance in quality, patient safety, and reputation, among other key metrics. As described below, in November 2019, the Corporation opened the New Stanford Hospital, an 824,000 square-foot facility that accommodates 368 all-private patient rooms, 28 flexible surgical and interventional operating rooms, a 40,000 square-foot imaging department and a 39,000 square-foot emergency department, as well as conference, cafeteria and support spaces. The New Stanford Hospital is connected by a sky bridge to the original hospital facility, referred to in this Appendix A as “300 Pasteur,” which remains operational. After completion of renovations, 300 Pasteur will provide oncological care.

Principal Patient Services

The Corporation provides comprehensive primary and secondary care to residents of the Bay Area. In addition, the Corporation provides highly specialized referral services to patients residing in northern California and the surrounding regions. See “SERVICES, FACILITIES AND OPERATIONS—Service Area” herein.

The Corporation concentrates its planning, development and marketing on five strategic clinical services (the “Destination Service Lines” or “DSL”): Cardiovascular Health, Cancer, Solid Organ Transplantation, Orthopedics and Neurosciences. Historically, these services have been strengths of both the Hospital and Clinics and the School of Medicine. Such services are intensively focused on research and innovation, both strengths of the Corporation in management’s view, and many procedures in these services lines are eligible for higher than average payments from third-party payers. Management planning, development and marketing efforts are directed toward sustaining the Hospital and Clinics as a leading center in the United States in each of these Destination Service Lines. Brief descriptions of the five Destination Service Lines follow.

Cardiovascular Health. The Hospital and Clinics are a referral center for the medical and surgical treatment of end-stage heart failure and aortic disease. Treatments available at the Hospital and Clinics include heart, heart/lung and lung transplants, aortic surgery, revascularization, implantation of mechanical pumps to replace heart muscle function as a temporary bridge to transplant and as a permanent therapy, stent placement, catheter ablation, internal cardioverter defibrillators and other electrophysiology treatments for heart rhythm problems, minimally invasive heart surgery and cardiac imaging. Breakthrough therapies, including new interventional devices to treat coronary artery disease and heart failure and to prolong the quality of heart muscle function, have also been developed as a part of this Destination Service Line.

Cancer. The Corporation offers a multidisciplinary approach to the diagnosis and treatment of cancer, which brings together practitioners from a number of specialties, including medical and surgical specialties, radiation oncology, radiology and pathology. Specialty services include the treatment of cancers of the breast, gastrointestinal tract, head and neck, lung, and genitourinary tract, and gynecologic cancers, sarcoma and melanoma, as well as leukemia, lymphoma, and multiple myeloma. The bone marrow transplant program, specializing in the treatment of leukemia, Hodgkin’s disease and lymphomas, is a significant part of the cancer treatment program. Many cancer treatments, particularly chemotherapy, are now performed in the Hospital’s ambulatory infusion treatment area, which is open 365 days a year. Treatment of brain cancer is also provided and is described below under “Neurosciences.” The cancer clinical trials office oversees more than 250 active cancer-related clinical trials providing patients access to experimental treatments. The Stanford South Bay Cancer Center, which opened in July 2015, has expanded patient access to the latest advances in cancer care, including access to clinical trials, and treatments in complementary practices.

Solid Organ Transplantation. Services provided include kidney, simultaneous kidney/pancreas, pancreas, liver and intestinal transplantation. Such surgical transplantation services are in addition to heart, heart/lung and lung transplant services described above under “Cardiac Care.” All transplant programs utilize multi-disciplinary teams comprised of experts in transplant surgery, immunology and infectious disease. Patients benefit from research protocols and receive care and education from specialty-trained bedside nurses, transplant coordinators, social workers and rehabilitation personnel.

Orthopedics. Services provided include total joint replacements, sports medicine, hand and upper extremities, foot and ankle, spine, trauma, tumor, and physiatry. The adult reconstructive team, also known as the total joint replacement team, develops and implements the

protocols for recovery and return to productivity. The team also provides the latest in spine surgery to enable high degrees of mobility for patients who are otherwise immobilized through injury or pain and works closely with the multi-disciplinary teams of rehabilitation services and pain management experts to serve the patient from pre-surgery through post-surgical recovery. The Stanford Medicine Outpatient Center, located in Redwood City (the “Outpatient Center”), supports continued growth and expansion in the scope of the Corporation’s orthopedic services and gives the Corporation an opportunity to develop and implement additional innovations in orthopedic care.

Neurosciences. Development of treatments for diseases of the brain is emphasized at the Hospital and Clinics. Neurosurgeons, neurologists, radiologists and other specialists collaborate at the Hospital to design and develop these treatments. Brain tumor patients have access to chemotherapy, biologic agent therapy and gene therapy, as well as radiation therapy, including CyberKnife (developed by School of Medicine faculty at the Hospital) for deep-seated brain tumors and brain metastases. An extensive cerebro-vascular surgery program, including neuro-interventional radiology, treats patients with aneurysms, complex vascular malformations, and stroke. The Corporation also offers medical and neurosurgical treatments for intractable epilepsy, aggressive acute treatment of stroke, movement disorders such as Parkinson’s disease, spine care, pain management, multiple sclerosis, amyotrophic lateral sclerosis and other neuromuscular disorders. In January 2016, the Corporation opened the Stanford Neuroscience Health Center, which is adjacent to the Hospital campus and which brings together multidisciplinary teams of clinicians, integrated outpatient services, and advanced neuroscience technology in one patient-centered facility.

Other Clinical Services. The Corporation is, in the view of management, a recognized leader in providing a number of other services. These include: primary care and internal medicine, treatment of asthma, treatment of blood disorders, management of critical care patients, dermatologic care for complex skin disorders and vascular malformations, diagnostic radiology, endocrinology, endocrine surgery, gastrointestinal medicine and surgery, genetics, care for hearing disorders and cochlear implants, treatment of hepatobiliary disease, HIV care, treatment of immunological disorders, treatment of female and male infertility, laboratory medicine and pathology, laparoscopic surgery, major joint replacements, maxillo/craniofacial surgery, nephrology, ophthalmology, pain management, psychiatry, interventional and neurointerventional radiology, rehabilitation, rheumatology and treatment of bone malformation and disease, plastic surgery, pulmonary medicine and treatment for sleep disorders, surgery for scoliosis and other spinal disorders, sports medicine, urology, vascular medicine and surgery and women’s health.

Master Plan and Additional Capital Needs

The Master Plan. As authorized by a development agreement governing local entitlements entered into in 2011 by the Corporation, LPCH and Stanford University with the City of Palo Alto, the Corporation developed a master plan for replacement and renewal of its facilities located on the campus of Stanford University (the “Master Plan”). The Master Plan provides for replacement and renewal of the Corporation’s facilities in multiple phases over a thirty-year period. As part of the Master Plan, the Corporation has constructed the New Stanford Hospital, consisting of approximately 1.1 million square feet of inpatient facilities, including new surgical operating, diagnostic and treatment suites, a new emergency department and associated nursing and support

space. Additional new construction included approximately 429,000 square feet of clinics, medical offices, and administrative offices. Taken together, these new facilities replaced approximately 700,000 square feet of existing facilities, resulting in a net increase of approximately 824,000 square feet of facilities. Construction activities for the New Stanford Hospital were phased, and construction activities related to additional replacement and renewal projects will be phased to permit inpatient and outpatient services to continue during each phase of the Master Plan, described further below.

The New Stanford Hospital is the central feature of the Master Plan. The goal of the New Stanford Hospital, endorsed by the Corporation's Board and embodied in the New Stanford Hospital design, was to create a place of healing that supports patient care, practitioner and staff productivity and environmental sustainability. The New Stanford Hospital was designed to create physical connections that foster inter-connectivity among the facility components, both expressing and enabling the translational medicine activities of the Corporation, the School of Medicine and LPCH. The New Stanford Hospital was also designed to support growth of the Destination Service Lines and other tertiary services and to meet the standards of the Seismic Safety Act (defined below). The total cost of the New Stanford Hospital was \$2.2 billion. Construction began in 2012 and was completed in mid-2019, with the opening of the New Stanford Hospital taking place on November 17, 2019, with a licensed bed complement of 605 patient beds.

Management estimates total expenditures for additional on-campus capital improvements related to the Master Plan and various off-campus capital projects and strategic initiatives to be approximately \$1.8 billion over the next three fiscal years. On-campus projects include a renovation and remodel of 300 Pasteur, which will primarily provide cancer care for SHC, and a relocation of certain clinical services from Stanford University's campus to buildings in Redwood City that were purchased from Stanford University. Off-campus projects may include the expansion of existing facilities and acquisition of new facilities, all of which are subject to approval by the Board. Capital plan expenditures remain subject to modification by management and to the review and approval of the Board in light of the priorities, debt capacity and the strategic planning of the Corporation and the School of Medicine.

Seismic Safety Act Compliance. California's Hospital Seismic Safety Act (the "Seismic Safety Act") requires licensed acute care functions to be conducted only in facilities that meet specified seismic safety standards. Facilities classified by the State of California (the "State") as non-compliant must be retrofitted, replaced or removed from acute care service by applicable deadlines, subject to extension if approved by the California Office of Statewide Health Planning and Development ("OSHPD"). The State seismic safety requirements address both structural frame and non-structural performance. OSHPD has classified a substantial portion of the Hospital as compliant with seismic safety structural frame standards until 2030 and beyond. Other patient care activities are located in buildings that are structurally compliant only until 2030. None of these buildings has ever housed inpatients. Beginning in 2020, the Corporation intends to upgrade its facilities by removing from acute care service several non-inpatient buildings and conducting extensive renovations to retrofit all necessary non-structural systems, such as utility and other connections, to be fully compliant. The Corporation has completed the physical work to meet the 2020 deadline and is in the process of obtaining OSHPD approval.

The School of Medicine

The School of Medicine was established in 1908 as a part of Stanford University and today is one of the preeminent schools of medicine in the United States. In 2019, *U.S. News and World Report* ranked the School of Medicine third nationally among research-oriented medical schools. The School of Medicine offers M.D., M.A. and Ph.D. programs in various areas of biosciences, internship and residency programs at the Hospital and LPCH Hospital, and a Medical Scientist Program in which students earn both an M.D. and a Ph.D.

The mission statement of the School of Medicine is in part "...to be a premier research-intensive medical school that improves health through leadership and a collaborative approach to discovery and innovation in patient care, education and research...." A specific strategic goal of the School of Medicine is to be a leader in the clinical application of knowledge acquired and scientific innovations achieved through research at the School of Medicine. The Corporation provides the settings where these clinical applications are delivered to patients.

Joint Strategic Initiatives. The School of Medicine, the Corporation, and LPCH have jointly developed an integrated strategic plan and together are continuing to implement initiatives based on the plan. The three entities collaborate on strategies addressing areas of clinical excellence, patient satisfaction and business operations, and on a variety of initiatives in translational medicine.

Collaborations include:

- A Council of Clinical Chairs, co-chaired by the Senior Associate Dean for Clinical Affairs of the School of Medicine and the President and Chief Executive Officer of the Corporation. The Council includes the chairs of the 18 clinical science departments of the School of Medicine as well as key members of management of the Corporation.
- Joint planning involving the School of Medicine, other components of Stanford University and the Corporation to integrate the clinical services, business needs and information technology priorities. To that end, the Corporation and the School of Medicine have recently integrated their IT organizations.
- Coordination of development and philanthropy for the mutual benefit of the institutions.
- Collaboration in protecting the privacy and security of patient health information.
- Clinical Services and outreach clinics with select community hospitals.

The School of Medicine has undertaken to improve the position of SHC in the Destination Service Lines and other tertiary and quaternary services. The School of Medicine has created five institutes that align research, education and clinical efforts, including the Stanford Cancer Institute, the Stanford Institute for Stem Cell Biology and Regenerative Medicine, the Stanford Cardiovascular Institute, the Stanford Neuroscience Institute, and the Stanford Institute for Immunity, Transplantation and Infection.

Operational Relationships Among the Corporation, Stanford University, LPCH and UHA

Purchased Services from the School of Medicine. Services provided at the Hospital and Clinics by the School of Medicine include emergency room physician coverage, medical direction and professional clinical services, which are delivered pursuant to a Professional Services Agreement (“PSA”) between the Corporation and the School of Medicine. The expenses for these services are included in purchased services in the consolidated statements of operations and changes in net assets of the Corporation, included as Appendix B to this Official Statement, and were \$808.6 million for the year ended August 31, 2019.

The compensation methodology in the PSA is based on productivity and degree of complexity of the clinical procedures performed. Under the PSA, the payment to the School of Medicine is calculated using the volume of clinical work relative value units. As the School of Medicine achieves the strategic goal of seeing more patients, it is expected that the payment to the School of Medicine for services will increase.

Other Transactions with Stanford University. Services provided to the Corporation by Stanford University include telecommunications, transportation, utilities, and certain administrative services, which include legal and internal audit. The Corporation’s cost of such services for the fiscal year ended August 31, 2019 was \$122.6 million and is reflected in various expense categories in the consolidated statements of operations and changes in net assets.

The Corporation also received payment for services provided to Stanford University, including primarily building maintenance, housekeeping, and security. Costs incurred by the Corporation in providing these services are reflected in the respective categories in the consolidated statements of operations and changes in net assets. Reimbursement from Stanford University totaled \$48.4 million for the fiscal year ended August 31, 2019, and is reflected in the consolidated statements of operations and changes in net assets as expense recoveries.

The Corporation received certain grant monies for clinical trials from Stanford University that totaled \$5.8 million for the fiscal year ended August 31, 2019 and are reflected in the consolidated statements of operations and changes in net assets as net patient service revenue and recoveries. For the fiscal year ended August 31, 2019, the Corporation transferred \$120.1 million to Stanford University to support the academic mission of the School of Medicine and its initiatives, and to generally support the academic community and physical plant of Stanford University. The Corporation’s transfers to Stanford University are reflected in the consolidated statements of operations and changes in net assets as transfers to Stanford University.

Transactions with LPCH. The Corporation and LPCH share certain departments, including facilities design and construction, materials management, managed care contracting, compliance and general services. The costs for these shared services are allocated between the Corporation and LPCH based on negotiated rates. For the fiscal year ended August 31, 2019, the total cost of shared services departments was approximately \$498.1 million, of which \$38.2 million was reimbursed by LPCH. The reimbursement from LPCH is reflected in the consolidated statements of operations and changes in net assets as expense recoveries.

The Corporation also provides various services to LPCH, including operating room facilities and services, cardiac catheterization, interventional radiology, radiation oncology and laboratory services. The Corporation charges LPCH for the services and products purchased by LPCH based on either (i) a percentage of charges intended to approximate actual cost or (ii) on the basis of actual cost per procedure. Reimbursement from LPCH for purchased services provided by the Corporation totaled \$38.4 million for the year ended August 31, 2019 and is reflected in the consolidated statements of operations and changes in net assets as net patient service revenue.

Other services provided by the Corporation to LPCH include services provided by interns and residents, certain billings and collections services, building maintenance and utilities. Reimbursement of these services totaled \$41.9 million for the year ended August 31, 2019, and is reflected in the consolidated statements of operations and changes in net assets as expense recoveries.

Transactions with UHA. The Corporation has agreed to sponsor UHA’s operating divisions comprised of multi-specialty clinics operated by UHA in 70 locations in San Mateo, Santa Clara and Alameda counties, and in connection with such sponsorship, the Corporation has agreed to fund UHA’s general overhead costs and to supplement the operating division’s revenues if necessary to fund its operating and capital costs. The sponsorship continues from year to year at SHC’s discretion. In fiscal year 2019, the Corporation provided \$67 million to UHA in funding for operations and capital costs. Management of the Corporation estimates that transfers of such sponsorship amounts will not be material to the financial condition of the Corporation. See “SERVICES, FACILITIES AND OPERATIONS—Community Physician Network” below.

Additional Information Concerning Related Party Transactions. For additional information concerning related party transactions, see Note 13 of the audited consolidated financial statements of the Corporation included in Appendix B to this Official Statement.

Bed Complement

Following the opening of the New Stanford Hospital, as of November 30, 2019, the licensed and operational bed complement of the Corporation was allocated among the following services:

TABLE 1
Bed Complement by Service as of November 30, 2019

Service	Number of Beds	
	Licensed	Operational
General Acute Care	454	442
Intensive Care	121	77
Psychiatric	30	30
Totals	605	549

Source: Corporation Records.

Service Area

The Corporation has classified its service area into the four geographical markets identified below. San Mateo and Santa Clara counties comprise the Local Market for the Corporation. This two-county area historically has been the predominant source of inpatient volume for the Hospital, accounting for approximately 50% of inpatient volume. In the Regional, California and National/International Markets, the Corporation provides primarily tertiary and quaternary care. The composition of these markets is described below:

Local Market—San Mateo and Santa Clara counties

Regional Market

- East Bay—Alameda, Contra Costa and Solano counties
- Central Coast—Monterey, San Benito, San Luis Obispo and Santa Cruz counties
- Central Valley—Madera, Fresno, Kings, Merced, Sacramento, San Joaquin, Stanislaus and Tulare counties
- North Bay—Sonoma, Marin, Napa and San Francisco counties

California Market—Counties north and south of the Regional Markets

National and International Markets—Nevada and the Pacific Northwest are the predominant sources of national cases; Asia Pacific countries are the predominant sources of international cases.

Service Area Map

Below is a map of the general service area of the Corporation that includes the Local Market area and a portion of the Regional Market area. The map shows the approximate locations of the hospitals of SHC and its affiliates as well as those of its competitors listed in Table 3.

The table below provides, for the most recent years available, the following information by geographic region: (1) contribution to the Corporation’s outpatient volume and a break-down of outpatient charges; (2) actual and projected population and projected population change; and (3) median age and average household income.

TABLE 2
Clinics Outpatient Volume, Charges, and Select Demographic Information

Local and Regional Markets	Fiscal Year ended August 31, 2019		Calendar Year				
	Percentage of Outpatient Volume	Percentage of Charges	Projected Population 2020 ⁽¹⁾	Projected Population 2025	Projected Percentage Population Change 2020 - 2025	Median Age 2018	Median Household Income 2018
Local Market	64.9%	60.5%	2,745,586	2,816,865	2.6%	37	\$124,056
Regional Market:							
East Bay	12.7	11.1	3,290,240	3,418,231	3.9	38	98,336

The following table provides the discharge data for calendar years 2016, 2017 and 2018 (the most recent years for which such data are available) for the Corporation and the hospitals in and near the Local Market that management has identified as competitors of the Corporation. Table 3 also provides case mix index data for each hospital's 2017 and 2018 fiscal years (the most recent years for which such data are available). The case mix index (the "Case Mix Index") is an indicator of the complexity and intensity of the services provided.

TABLE 3
Local Market and Selected Regional Market Competitors
Discharges and Case Mix Index Data
(All patients originating from Local Market counties ages 18+)

	Calendar Year 2016		Calendar Year 2017		Calendar Year 2018		FY2017 Case Mix Index	FY2018 Case Mix Index

⁽¹⁾ Although not within the Local Market boundaries, management identifies as a competitor comparable to others within the Local Market.

⁽²⁾ The category "All Other Hospitals" includes hospitals utilized by patients residing in San Mateo and Santa Clara counties. Discharge data include all discharges for 18+ patients originating from Local Market counties.

Source: Office of Statewide Health Planning and Development

As indicated by the Case Mix Index data in Table 3, the Corporation has a higher Case Mix Index than each hospital identified as a competitor in the Local Market; such competitor hospitals tend to receive lower complexity and intensity cases, as reflected in the relatively lower Case Mix Index for those hospitals. While providing a significant amount of care at this level, the Corporation also provides care to patients whose cases are classified as high acuity and complex cases in and near the Local Market, many of which are transferred to the Hospital from other local hospitals. In large part, the most acute and difficult cases come to the Hospital because the Hospital and UCSF Medical Center are the only two hospitals in the Bay Area to offer many of the treatments and procedures necessary for these patients. The strategic decision to concentrate on the five Destination Service Lines reflects management's opinion that higher acuity services will produce higher operating margins than lower acuity services.

Market Strategy

The Corporation's strategic plan calls for near-term growth in its Destination Service Lines as well as other services in which the Corporation has demonstrated distinction. The Corporation focuses on aligning these specific services with relevant markets, based on an evaluation of various factors, including the type of services already available in such markets. This strategy is intended to promote growth in higher acuity inpatient and outpatient procedures. A principal focus of the strategic plan is the five DSLs. The Corporation's goal is to grow inpatient and outpatient volume and expand national and international distinction in these services. The growth strategy is based on leveraging the Corporation's clinical innovations in these services. See "SERVICES, FACILITIES AND OPERATIONS—The School of Medicine" herein. The growth strategy also provides for more rapid translation of faculty research into clinical care. Leverage strategies are expected to be tailored to the opportunities in each market and are expected to include selective partnering with other institutions, management of subspecialty services for other institutions, development of outreach infrastructures that include both on-site and web-based delivery of care, and expanded contracting with payers for selected clinical services.

From time to time the Corporation evaluates and pursues potential acquisition, merger and affiliation candidates as part of the overall strategic planning and development process, which includes strengthening the Corporation's presence in Local and Regional Markets. Because of the integration occurring throughout the health care industry, the Corporation may consider such transactions if there is a perceived strategic or operational benefit for the Corporation.

In management's view, the Corporation's affiliation with SHC-VC plays a key role in its market positioning. The affiliation with SHC-VC, which began in 2015, has extended the Corporation's network of health care providers, clinical outreach, and community services into the East Bay portion of the Corporation's Regional Market, which includes the Tri-Valley region of Pleasanton, Livermore and Dublin. The affiliation has supported the Corporation's academic endeavors in population health sciences and clinical research and has provided an outreach location for academic service lines.

The Corporation's strategic plan also envisions sustaining and increasing the share of the Corporation's patient care volume and revenue derived from higher-complexity tertiary and quaternary cases in the Regional, California, National and International markets, while strengthening the Corporation's presence in the Local Market through delivery of outpatient subspecialty services in selected local communities.

The following strategies of the Corporation and the School of Medicine are intended to increase higher-complexity tertiary and quaternary cases:

- Developing more complex treatments and therapies in both inpatient and outpatient settings.
- Focusing on the more complex and challenging treatment modalities within the Destination Service Lines.

- Focusing growth strategies on new services and more advanced treatments and methodologies.

Current actions being taken to implement these strategies include:

- In the Cardiovascular Health DSL, concentrating on more complex and difficult revascularization procedures, such as coronary artery bypass graft and percutaneous transluminal coronary angioplasty procedures.
- In the Cancer DSL, emphasizing the distinctive treatments provided by the Corporation, including bone marrow transplants, radiation therapy, and minimally invasive surgery techniques.
- In the Solid Organ Transplant DSL, emphasizing living donor approaches in liver transplantation and new immuno-suppressant therapies, as organ supply permits.
- In the Orthopedic DSL, emphasizing total joint replacements, sports medicine, hand and upper extremities, foot and ankle, spine, trauma, tumor, and physiatry.
- In the Neurosciences DSL, emphasizing chemo, biologic agent and gene and radiation therapies, including the CyberKnife, for spine care and neuro-oncology.

Community Physician Network

In 2011, the Corporation and Stanford University, acting on behalf of its School of Medicine, formed UHA to operate clinics staffed by a network of community-based physicians. These community-based clinics are staffed by community physicians, complementing the faculty practice clinics operated by the Corporation and staffed by members of the faculty of the School of Medicine. UHA’s community-based clinic network began in 2011 with two clinics in Menlo Park, California, and as of August 2019 consists of over 70 clinic sites located in San Mateo, Santa Clara and Alameda counties. Clinic services are provided through long-term professional services agreements between UHA and community-based physicians, who are affiliated with UHA through operating divisions associated with the physicians’ medical groups. The Corporation provides financial support for the operating divisions of UHA under sponsorship agreements. See “SERVICES, FACILITIES AND OPERATIONS—Operational Relationships Among the Corporation, Stanford University, LPCH and UHA” above. As new operating divisions are added, the Corporation may enter into additional sponsorship arrangements with UHA in support of expanding the network of community-based clinics operated by UHA. In a related effort, the Corporation is in discussions with other community-based physicians regarding extending the Corporation’s electronic medical record system to community physician practices.

Utilization

A summary of historical utilization data for the Corporation for the three fiscal years ended August 31, 2017, 2018 and 2019 and for the three-month periods ended November 30, 2019 and November 30, 2018 is presented in the following table.

TABLE 4
Historical Utilization

	Fiscal Years Ended August 31,			For the Three Months ended November 30,	
	2017	2018	2019	2018	2019
Discharges

SUMMARY OF FINANCIAL INFORMATION

All financial information presented in this section, “SUMMARY OF FINANCIAL INFORMATION,” is presented on a consolidated basis. The following consolidated statements of operations and changes in net assets of the Corporation for the fiscal years ended August 31, 2017, 2018 and 2019 have been derived by the Corporation’s management from the audited consolidated financial statements of the Corporation. All financial information presented in this section should be read in conjunction with the consolidated financial statements and related notes thereto for the fiscal years ended August 31, 2018 and 2019, included as Appendix B to this Official Statement.

The information for the three-month periods ended November 30, 2018 and November 30, 2019 has been derived by management from consolidated financial statements of the Corporation for such periods. Such consolidated financial statements are unaudited but, in the opinion of the management of the Corporation, fairly reflect the results of operations for such interim periods and are presented on a basis consistent with the audited consolidated financial statements of the Corporation included in Appendix B. The results of operations for the three-month period ended November 30, 2019 are not necessarily indicative of the results of operations to be expected for the entire fiscal year ending August 31, 2020. Management calculates that, without the opening of the New Stanford Hospital, income from operations for the three-month period ended November 30, 2019 would have been approximately \$104 million rather than the actual \$35.8 million.

The results of all of the Corporation’s related entities, consisting of UHA, SHC-VC, SBC, SHI, SEROC, CareCounsel, PEAC, and SHCA (collectively, the “Related Entities”) are consolidated with those of the Corporation for all periods. The earnings of PET-CT are included in other revenue in the consolidated statements of operations and changes in net assets for all periods. The earnings of StartX Fund are included in earnings on equity method investments in the consolidated statements of operations and changes in net assets of the Corporation beginning with the fiscal year ended August 31, 2019.

Management calculates the Related Entities’ contribution to the Corporation’s total consolidated operating revenues as 15.4% for the fiscal year ended August 31, 2019, which is derived from the sum of the operating revenues of each of the Related Entities in proportion to the Corporation’s total consolidated operating revenues. Management calculates the Related Entities’ contributions to the Corporation’s total assets, net assets and excess of revenues over expenses as 7.5%, 7.2% and (21.4%), respectively. The Corporation is currently the only member of the Obligated Group. None of the Related Entities is a Member of the Obligated Group or is otherwise obligated with respect to the Bonds. (For additional information concerning the Related Entities and other entities to which the Corporation is related or in which it has interests included in the consolidated financial statements, see Note 1 and Note 2 of the audited consolidated financial statements of the Corporation included as Appendix B to this Official Statement.)

TABLE 5
Stanford Health Care
Consolidated Statements of Operations and Changes in Net Assets
(In Thousands)

	Fiscal Years Ended August 31,			Three Months Ended November 30,	
	2017	2018	2019	2018	2019
Operating revenues and other support:					
Net patient service revenue ⁽¹⁾	\$ 4,234,526	\$ 4,677,929	\$ 5,113,052	\$ 1,236,351	\$ 1,320,141
Premium revenue	80,647	92,654	106,130	22,983	28,047

⁽¹⁾ Accounting Standards Update 2014-09 was adopted on a modified retrospective basis as of September 1, 2018 and is reflected in the FY2019. For further information regarding recent pronouncements of accounting policies effective for the years summarized above, see Appendix B, Note 2.

⁽²⁾ ASU 2016-14 was adopted in FY2019 changing net assets group from three to two.

Management’s Discussion and Analysis of Recent Financial Performance

Accounting Policies; Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Management evaluates its estimates on an ongoing basis and makes changes to the estimates as new information becomes available. Actual results could differ from those estimates.

The most significant estimates relate to patient accounts receivable, asset retirement obligations, amounts due to third party payers, retirement plan obligations, and self-insurance reserves. For additional information on the Corporation’s use of estimates, see the notes to the audited consolidated financial statements of the Corporation included in Appendix B to this Official Statement.

Additionally, in February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-02, Leases, which requires lessees to recognize operating and financing lease liabilities and corresponding right-of-use assets on the balance sheet. This guidance is effective for annual financial statements issued for fiscal years beginning after December 15, 2018. SHC elected to apply the guidance on a modified retrospective basis. The information presented for the three months period ended November 30, 2019 includes the immaterial impact to prior period consolidated statements of operations and changes in net assets and the recognition of right-of-use assets of \$327 million with corresponding lease liability of \$327 million as of September 1, 2019 in balance sheet.

Recent Initiatives and Programs. Recent initiatives include: (i) completion of construction of the New Stanford Hospital, which opened for its first patient on November 17, 2019 at a cost of approximately \$2.2 billion; and (ii) investments in new site openings and service expansions, including the Center for Academic Medicine on Stanford University’s campus, which will provide offices for School of Medicine clinical faculty, researchers and administration. In June 2019, SHC entered into an agreement for the option to purchase from Stanford University land and buildings located in Redwood City adjacent to the Outpatient Center, herein referred to as Block E. The total purchase price is \$75 million, and SHC intends to initially develop a 228,000 square foot medical clinic on Block E. In addition, SHC is in the process of renovating 300 Pasteur, including updating public spaces, the bridge lobby and the entry plaza, creating additional garden areas, and making seismic and infrastructure improvements. See “SERVICES, FACILITIES AND OPERATIONS—Master Plan and Additional Capital Needs” herein.

Three Year Historical Performance Overview. For the three years ended August 31, 2019, the Corporation’s overall financial performance strengthened despite challenges, enhancing its ability to support investments in the facilities and systems required to remain at the forefront of medicine and to be the provider of choice for complex care in the communities it serves. Higher patient revenues and improved financial market conditions contributed to the Corporation’s strengthened financial position. Cumulative operating revenues for the three years ended August 31, 2019 were \$14.8 billion, of which net patient service revenue accounted for 95%. Cumulative

income from operations for the three years ended August 31, 2019 was \$938 million. Cumulative interest and investment income and change in the value of SHC's share of the Stanford University managed investment pools (the "Managed Investment Pools") for the three years ended August 31, 2019 was \$422 million. Cumulative increase in net assets for the three years ended August 31, 2019 was \$1.2 billion. Cumulative capital expenditures for the three years ended August 31, 2019 were approximately \$1.7 billion.

Financial Performance in Fiscal Year 2019 Compared to Fiscal Year 2018. The Corporation's net assets increased by \$261 million, from \$4.0 billion as of August 31, 2018, to \$4.2 billion as of August 31, 2019. In fiscal year 2019, the Corporation generated a \$364 million excess of revenues over expenses compared to \$470 million in fiscal year 2018. Although interest and investment income and change in value of SHC's share of Managed Investment Pools decreased by \$22 million in fiscal year 2019, the Corporation still had a gain of \$120 million due to positive returns on these investments.

Net patient service revenue, including the payments under UHA's capitated agreements with health maintenance organizations (the "Premium Revenue"), increased by 9.4%, from \$4.8 billion in fiscal year 2018, to \$5.2 billion in fiscal year 2019. Of the \$5.2 billion, inpatient revenues represented 39% and grew by 6.6% on continuing increases in patient volume. Outpatient revenues increased by 11.3%, accounting for the remaining 61% of the \$5.2 billion. Operating expenses increased 9.1% in fiscal year 2019 to \$5.0 billion, from \$4.6 billion in fiscal year 2018. Salaries and benefits increased 10.1% to \$2.3 billion in response to growth in patient volumes and to maintain SHC's position in the competitive market for health care professionals. All other operating expenses were up 8.2%, from \$2.5 billion in fiscal year 2018, to \$2.7 billion in fiscal year 2019 largely as a result of costs related to the increase in patient activity, payments to Stanford University under a funds flow agreement for clinical services provided by the School of Medicine, New Stanford Hospital activation cost, and inflation increases. Excluding revenues and expenses from the Hospital Fee Program described below under the caption (the "Hospital Fee Program") and the New Stanford Hospital activation costs, net patient service revenue increased 9.4%, or \$431 million, and expenses increased 7.9%, or \$356 million, in fiscal year 2019 compared to fiscal year 2018.

Financial Performance in Fiscal Year 2018 Compared to Fiscal Year 2017. The Corporation's net assets increased by \$457 million, from \$3.5 billion as of August 31, 2017, to \$4.0 billion as of August 31, 2018. In fiscal year 2018, the Corporation generated a \$470 million excess of revenues over expenses compared to \$485 million in fiscal year 2017. Although interest and investment income and change in value of SHC's share of Managed Investment Pools decreased by \$18 million in fiscal year 2018, the Corporation still had a gain of \$142 million due to positive returns on these investments.

Net patient service revenue (including Premium Revenue) increased by 10.6%, from \$4.3 billion in fiscal year 2017, to \$4.8 billion in fiscal year 2018. Of the \$4.8 billion, inpatient revenues represented 40% and grew by 6.4% on continuing increases in patient volume. Outpatient revenues increased by 13.5%, accounting for the remaining 60% of the \$4.8 billion. Operating expenses increased 8.8% in fiscal year 2018 to \$4.6 billion, from \$4.2 billion in fiscal year 2017. Salaries and benefits increased 5.3%, from \$2.0 billion in fiscal year 2017, to \$2.1 billion in fiscal year 2018 in response to growth in patient volumes. All other operating expenses

combined increased 11.8%, from \$2.2 billion in fiscal year 2017 to \$2.5 billion in fiscal year 2018, largely as a result of costs related to increased patient activity, payments to Stanford University under the PSA for clinical services provided by the School of Medicine, and inflation increases. Excluding revenues and expenses from the Hospital Fee Program, net patient service revenue less provision for doubtful accounts increased 9.5%, or \$399 million, while operating expenses increased 8.0%, or \$334 million, in fiscal year 2018 compared to fiscal year 2017.

Financial Performance in Fiscal Year 2017 Compared to Fiscal Year 2016. The Corporation's net assets increased by \$450 million, from \$3.0 billion as of August 31, 2016, to \$3.5 billion as of August 31, 2017. In fiscal year 2017, the Corporation generated a \$485 million excess of revenues over expenses compared to a \$70 million excess of revenues over expenses in fiscal year 2016. Interest and investment income and change in value of SHC's share of the Managed Investment Pools increased by \$122 million in fiscal year 2017, resulting in a gain of \$160 million due to positive returns on these investments.

Net patient service revenue less provision for doubtful accounts (including the Premium Revenue) increased by 8.8%, from \$4.0 billion in fiscal year 2016, to \$4.3 billion in fiscal year 2017. Of the \$4.3 billion, inpatient revenues represented 42% and grew by 3.7% on continuing increases in patient volume. Outpatient revenues increased by 12.8%, accounting for the remaining 58% of the \$4.3 billion. Operating expenses increased 6.9% in fiscal year 2017 to \$4.2 billion, from \$3.9 billion in fiscal year 2016. Salaries and benefits increased 7.4% to \$2.0 billion in response to growth in patient volumes and to maintain SHC's position in the competitive market for health care professionals. All other operating expenses were up 6.4%, from \$2.1 billion in fiscal year 2016, to \$2.2 billion in fiscal year 2017 largely as a result of costs related to the increase in patient activity, payments to Stanford University under the PSA for clinical services provided by the School of Medicine, and inflation increases. Excluding revenues and expenses from the Hospital Fee Program, net patient service revenue less provision for doubtful accounts increased 9.1%, or \$351 million, while operating expenses increased 7%, or \$275 million, in fiscal year 2017 compared to fiscal year 2016.

Pension Funding Requirements. The majority of the Corporation's eligible employees are covered by the Corporation's 403(b) Retirement Plan, which is a defined contribution plan. Contributions are based on a percentage of an eligible employee's annual compensation.

In addition, certain employees are covered by a noncontributory defined benefit plan, the Staff Pension Plan (the "SPP"), that was closed to new participants in 1997. Benefits are based on years of service and compensation. Contributions to the plan are based on actuarially determined amounts sufficient to meet the benefits to be paid to plan participants. The financial performance of pension fund investments of the SPP can have a significant impact on the amount of pension expense and the recorded pension liability, as well as the amount and timing of pension contributions. Other factors can also have a significant impact on pension expense and contributions, such as interest rate levels and salary inflation. Taken together, these factors can have a material impact on both the results of operations and liquidity. As of August 31, 2019, the SPP had a net benefit liability recognized in the amount of \$17 million.

The Corporation contributed \$34.8 million in September 2017 to the SPP to eliminate Pension Benefit Guaranty Corporation variable rate premium fees. The Corporation's funded

status with respect to the SPP is estimated at 92% as of August 31, 2019. The funded status assumes a discount rate of 2.88%. The Corporation’s investment policy is dictated by a glide path that increases the plan’s fixed income allocation as the plan’s funded status increases. The Corporation’s investment policy for the SPP assets targets a portfolio mix of 40% equity and 60% long-term debt.

The Corporation also provides post-retirement health insurance coverage through the Postretirement Medical Benefit Plan (the “PMBP”) for employees meeting specific criteria. As of August 31, 2019, the Corporation recognized a net benefit liability of \$101 million for the PMBP, recorded as a liability within self-insurance reserves and other on the Corporation’s consolidated balance sheets.

For additional information on the Corporation’s retirement plans and the PMBP, see Note 10 of the audited consolidated financial statements of the Corporation included as Appendix B to this Official Statement.

Capitalization

The table below sets forth the actual consolidated capitalization of the Corporation as of August 31, 2018, as of August 31, 2019 and as of November 30, 2019, and the consolidated capitalization of the Corporation, as of November 30, 2019, as adjusted to reflect the issuance of the Bonds and the Taxable Bonds and the refunding of the Prior Bonds, as described under “THE PLAN OF FINANCE” in the forepart of this Official Statement.

TABLE 6
Consolidated Capitalization
(Dollars in Thousands)

	As of August 31, 2018	As of August 31, 2019	As of November 30, 2019 (unaudited)	
	Actual	Actual	Actual	As Adjusted
Net Long-Term Debt ⁽¹⁾	\$1,954,672	\$1,935,414	\$1,926,893	\$2,356,893

Total Consolidated Capitalization (non-GAAP)	\$5,258,797	\$5,481,289	\$6,155,451	\$6,585,451
Net Long-Term Debt as a percentage of Total Consolidated Capitalization	37.2%	35.3%	31.3%	35.8%

⁽¹⁾ Total Debt does not include lease liability as of November 30, 2019.

Source: Corporation Records.

Cash and Investments

As of August 31, 2019, the Corporation’s funds were invested across four portfolios that included: a liquidity portfolio, a short-term portfolio, an intermediate-term portfolio and a long-term portfolio that invests in shares of the merged pool (the “Merged Pool”), which is one of the two Managed Investment Pools. The liquidity and the short-term portfolios are invested in cash and cash equivalents, U.S. Treasuries, and bond funds. The intermediate-term portfolio is invested in mutual funds. The Merged Pool is invested in cash and cash equivalents, government and corporate debt securities, equity securities, mutual funds, real estate, investments in partnerships and other investments. The Corporation’s investments in the Merged Pool are carried on its financial statements based on a value per share in such funds. Gains and losses are realized only

upon the sale of such shares. For additional information regarding the composition of the Corporation’s investments at August 31, 2019, accounting for the Corporation’s interest in pooled investment funds managed by Stanford University and earnings therefrom, see Note 2 and Note 6 of the audited consolidated financial statements of the Corporation included in Appendix B to this Official Statement.

Liquidity

The following table sets forth the consolidated cash position and liquidity of the Corporation as of August 31, 2018 and as of August 31, 2019.

TABLE 7
Consolidated Liquidity
(Dollars in Thousands)

	<u>As of August 31, 2018</u>	<u>As of August 31, 2019</u>

Debt Service Coverage

The following table sets forth the actual maximum debt service coverage on a consolidated basis for the Corporation for fiscal years ended August 31, 2018 and 2019, and pro forma debt service coverage for the fiscal year ended August 31, 2019, taking into account the increase in maximum annual debt service resulting from the issuance of the Bonds and the Taxable Bonds and the refunding of the Prior Bonds, as if such issuances and refinancing occurred on September 1, 2018, as described under “THE PLAN OF FINANCE” in the forepart of this Official Statement, in each case calculated based on the assumptions set forth in Footnote 1 below.

TABLE 8
Maximum Annual Debt Service Coverage
(Dollars in Thousands)

	As of August 31,		
	2018	2019	2019
	Actual		Pro Forma
Excess of Revenues over Expenses	\$ 470,243	\$ 364,460	\$ 364,460
Depreciation and Amortization	176,742	190,283	190,283
Interest Expense	35,434	42,431	42,431
Change in Value of Stanford University Managed Investment Pools	(110,983)	(76,748)	(76,748)
Earnings on Equity Method Investments	(7,048)	(8,315)	(8,315)
Interest Rate Swap Mark-to-Market Adjustments	(63,439)	134,269	134,269
Loss on Extinguishment of Debt	47,613	-	-
Funds Available for Debt Service [†]	\$ 548,562	\$ 646,380	\$ 646,380
Maximum Annual Debt Service ⁽¹⁾	\$ 105,984	\$ 106,016	\$ 128,990
Coverage of Maximum Annual Debt Service ⁽²⁾	5.18x	6.10x	5.01x

(1) Assumes interest on all variable rate bonds, including long-term interest rate bonds following their respective put dates, is payable at 2.00% to maturity; excludes all swap cash flows; assumes balloon maturities are treated as level debt service over 30 years.

(2) Ratio of Funds Available for Debt Service to the Maximum Annual Debt Service.

† Represents a Non-GAAP measure.

Source: Corporation Records.

Interest Rate Swap Arrangements

The Corporation enters into interest rate swap contracts (“Swaps”) from time to time to increase or decrease its variable rate debt exposure and to achieve a targeted mix of fixed and floating rate indebtedness. As of August 31, 2019, the Corporation had nine floating-to-fixed rate Swaps outstanding, representing a total notional amount of \$574.9 million, under which the Corporation pays a fixed rate and receives a variable rate from the swap counterparty. Each of the Swaps may be terminated by the Corporation at its option at any time. Swap counterparties may also terminate Swaps upon the occurrence of certain “termination events” or “events of default.” If either the Corporation or a counterparty terminates a Swap with a negative market value, the Corporation may be required to make a termination payment to such counterparty, and such payment could be material in amount. The estimated fair values of the Swaps are determined using available market information and valuation methodologies. The Corporation recognizes changes in the fair value of Swaps in excess (deficiency) of revenue over expenses. As of August 31, 2019, the Corporation’s mark-to-market liability on the Swaps totaled \$316.8 million. In addition, the Corporation is required to post collateral under two of its Swaps to secure its obligations to the Swap counterparty when the counterparty’s exposure exceeds certain stated thresholds. As of August 31, 2019, the Corporation had \$31.6 million in cash posted with one counterparty. See Note 2 and Note 9 of the audited consolidated financial statements of the Corporation included in Appendix B to this Official Statement for more information related to the Corporation’s Swaps. The Corporation’s regularly scheduled payments with respect to the Swaps are secured under the Master Indenture on a parity with debt service payments with respect to the Bonds. See “SECURITY AND SOURCE OF PAYMENT FOR THE BONDS—The Master Indenture” in the forepart to this Official Statement.

Sources of Revenue

Payments are made to the Corporation on behalf of patients by the federal government under the Medicare program administered by the Centers for Medicare and Medicaid Services (“CMS”) of the United States Department of Health and Human Services, by the State of California under the Medi-Cal program, and by certain commercial insurance and managed care programs, as well as by patients on their own behalf.

The following table summarizes the percentage of net patient revenues by source of payment to the Corporation for the fiscal years ended August 31, 2017, 2018 and 2019.

TABLE 9
Net Patient Service Revenues

Source	Fiscal years ended August 31,		
	2017	2018	2019
Medicare	20%	19%	18%
Medi-Cal	2	3	3
Managed Care – Discount Fee for Services	74	75	76
Self Pay and Other	5	3	2
Related Party	1	1	1
Patient Service Revenue, Net of Contractual Allowances	102	101	
Provision for Doubtful Accounts	-2	-1	
Net Patient Service Revenue	100%	100%	100%

Source: Corporation Records.

Net patient service revenue is composed of usual and customary charges for services provided to all patients. Services provided to patients covered by Medicare, Medi-Cal and a number of managed care programs are typically paid at amounts that are less than usual and customary charges.

See “BONDHOLDERS’ RISKS” in the forepart of the Official Statement for a more detailed discussion of the sources of revenue for the Corporation and certain other risks associated with certain sources of revenue.

Arrangements with Managed Care Plans

The Corporation maintains contracts with most managed care plans operating in Northern California. Management monitors the financial performance under these contracts on a regular basis and pursues renegotiation when appropriate and where feasible.

The largest volume commercial payers for the Corporation in fiscal year ended August 31, 2019 were Anthem Blue Cross, Blue Shield of California, Aetna, and UnitedHealthcare. All commercial agreements are fee-for-service. Fee-for-service reimbursement employs the traditional methodologies including percentage of charges, per diems, case rates, surgical schedules and stop-loss.

Hospital Fee Program

State law imposes a fee on California’s general acute care hospitals, except for public hospitals and certain exempt hospitals (the “Hospital Fee Program”). Proceeds of the Hospital Fee Program are used to earn federal matching funds for Medi-Cal. The California Medi-Cal Hospital Reimbursement Initiative, or Proposition 52, passed in November 2016 and extends the Hospital Fee Program indefinitely. The program is subject to CMS approval. For more information about the Hospital Fee Program, see “BONDHOLDERS’ RISKS—Patient Service Revenues—California Hospital Provider Fee” in the forepart to this Official Statement.

SHC recognized \$93.9 million, \$89.7 million, and \$45.6 million in net patient service revenue and \$39.5 million, \$77.3 million, and \$41.6 million in other expense related to the Hospital Fee Program for the years ended August 31, 2019, 2018, and 2017, respectively.

See Note 3 of the audited consolidated financial statements of the Corporation included in Appendix B to this Official Statement for more information related to the Hospital Fee Program.

ACCREDITATION, LICENSURE, MEDICARE AND MEDI-CAL CERTIFICATION

The California Department of Public Health (“CDPH”) licenses the Hospital as a general acute care facility. The Corporation is accredited by The Joint Commission (“TJC”), which conducted its last on-site survey in June 2019. TJC conducts unannounced on-site surveys for the hospital program within a three year timeframe.

The Corporation is accredited by TJC for laboratory services, which conducted its last onsite survey in December 2018. The Corporation is certified by TJC for Comprehensive Stroke Care (last survey in December 2018) and Ventricular Assist Devices (last survey in August 2019). TJC Laboratory services and Disease Specific Care Certification are resurveyed every two years.

In addition to recurring accreditation surveys by TJC, the Corporation is subject from time to time to relicensing and incident-based surveys by CDPH, acting on behalf of CMS, to determine compliance with CMS Hospital Conditions of Participation (“CoP”). If such surveys, known as “validation surveys,” substantiate the provider’s noncompliance with CoP, CMS has authority to take enforcement actions up to termination of the Medicare provider agreement. CDPH conducted an incident-based survey in October 2019 related to an alleged violation of EMTALA which remains pending. To date, SHC has not received any communication from CMS. The Corporation remains a Medicare participating hospital, is fully licensed by CDPH and is fully accredited by TJC.

PROFESSIONAL LIABILITY AND OTHER INSURANCE

The Corporation maintains coverage for professional and comprehensive general liability and other coverages through programs of self-insurance and reinsurance. Primary layers of such liability are insured through SUMIT, an insurer controlled and owned by the Corporation and LPCH. SUMIT provides medical and hospital professional liability, general liability, employment practices liability, miscellaneous errors and omissions liability, and cyber liability to the Corporation and LPCH. SUMIT provides hospital professional and medical malpractice liability

and cyber liability to the School of Medicine (including the clinical activities of its faculty and residents).

For the policy year September 1, 2018 through September 1, 2019, SUMIT retains 100% of the risk for the first \$15 million per claim for professional and general liability losses by the Corporation, LPCH and the School of Medicine, with an annual policy aggregate of \$25 million. SUMIT purchases \$165 million of excess reinsurance jointly covering the Corporation, LPCH and the School of Medicine from various reinsurance companies rated “A” or better by A.M. Best rating agency. In addition to excess reinsurance, SUMIT purchases a “buffer” that reduces SUMIT’s liability for the first claim from \$15 million to \$10 million and reduces the annual policy aggregate from \$25 million to \$20 million. For policy years prior to September 1, 2005, SUMIT provided occurrence-based coverage for the risk related to the primary loss layer in amounts varying year to year since SUMIT was established in April 2000.

SUMIT self-insures the first \$1.25 million per claim for cyber liability coverage in excess of \$1.25 million per claim. SUMIT purchases \$75 million of excess reinsurance jointly covering LPCH, SHC, the School of Medicine, UHA and PCHA.

In addition to SUMIT, the Corporation obtains coverage for various risks under policies issued by commercial insurers. These policies typically cover LPCH as a named insured as well. As a result, claims brought against one named insured reduce the limits available to the other on each claim. The Corporation secures the following coverage jointly with LPCH:

- Workers’ compensation in amounts in excess of a \$750,000 deductible, per claim for any fiscal year.
- Property in an aggregate blanket amount of \$1 billion of coverage per claim with a \$100,000 deductible, subject to various sublimits, exclusions, and terms and conditions for property loss caused by risks such as flood, business interruption and certain acts of terrorism, among others. The Corporation does not purchase earthquake coverage.
- Directors and officers (“D&O”) and employment practices liability (“EPL”) in aggregate of \$50 million in limits subject to a self-insured D&O retention of \$250,000 per claim and a self-insured EPL retention of \$1 million per claim, in the current fiscal year.
- Terrorism coverage with \$25 million in limits, subject to a \$500,000 retention.
- Nuclear, Chemical, Biological, and Radiological coverage with \$25 million in limits, subject to a \$1 million retention.
- Fiduciary coverage with \$50 million in limits, subject to a \$50,000 retention.

LITIGATION AND REGULATORY MATTERS

At any given time, the Corporation has lawsuits pending and threatened against it that may or may not be covered in whole or in part by insurance. In 2017, a qui tam lawsuit alleging false claims based on separate billing for services required to be billed on a bundled basis was filed

against the Corporation under seal in the U.S. District Court for the Central District of California (the “District Court”). The federal and state governments have declined to intervene, and the lawsuit was dismissed on February 4, 2020 with leave to amend. On March 2, 2020, the qui tam relator filed a second amended complaint in the District Court. The Corporation plans to vigorously defend the lawsuit. Management is unable to predict the outcome or potential exposure at this time. There is not now, pending or threatened, any litigation restraining or enjoining the offering of the Bonds, if issued, or questioning or affecting the validity of the Bonds, if issued, or the proceedings and authority under which they are to be issued. Neither the creation, organization or existence of the Corporation nor the title of the present directors or officers of the Corporation to their respective offices is being contested. The Corporation is not now a party to any pending litigation, and is not aware of any circumstances that would likely result in such litigation that in any manner questions the right of the Corporation to use the proceeds of the Bonds, if issued, as described in this Official Statement.

EMPLOYEES

As of August 31, 2019, the Corporation employed 10,102 full-time, 1,165 regular part time and 687 per diem/PRN (as needed) staff, equivalent to 11,954 full-time equivalent employees.

As of August 31, 2019, the Corporation employed 3,435 full and part-time registered nurses. Turnover rate for the registered nursing staff for the past twelve months was approximately 7.7%.

As of August 31, 2019, approximately 33% of the Corporation’s employees were covered by collective bargaining arrangements with two bargaining units that are represented by Committee for Recognition of Nursing Achievement (“CRONA”) and Service Employees International Union–United Healthcare Workers (“SEIU–UHW”), respectively. The current CRONA contract is in effect through April 2022. The current contract with SEIU–UHW is in effect through September 2020 and negotiations will begin in the summer of 2020.

Report of Independent Auditors

To the Board of Directors
Stanford Health Care

We have audited the accompanying consolidated financial statements of Stanford Health Care (“SHC”) and its subsidiaries, which comprise the consolidated balance sheets as of August 31, 2019 and 2018, and the related consolidated statements of operations and changes in net assets and of cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to SHC's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SHC's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Stanford Health Care and its subsidiaries as of August 31, 2019 and 2018, and the results of their operations and changes in net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the consolidated financial statements, SHC changed the manner in which it presents net assets and reports certain aspects of its financial statements as a not-for-profit entity in 2019. Our opinion is not modified with respect to this matter.

A handwritten signature in cursive script that reads "PricewaterhouseCoopers LLP".

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

1. Organization

Stanford Health Care (“SHC”) operates a licensed acute care hospital (“Stanford Hospital”) and a cancer center in Palo Alto, California, along with numerous outpatient physician clinics in the San Francisco Bay Area, in community settings, and in association with regional hospitals. Stanford Hospital is a principal teaching affiliate of the Stanford University School of Medicine (“SoM”) and provides primary and specialty health services to adults, including cardiac care, cancer treatment, solid organ transplantation services, neurosciences, and orthopedics services designated by management as SHC’s “Strategic Clinical Services”. SHC, together with Lucile Salter Packard Children’s Hospital at Stanford (“LPCH”), operates the clinical settings through which the SoM educates medical and graduate students, trains residents and clinical fellows, supports faculty and community clinicians and conducts medical and biological sciences research.

The Board of Trustees of Leland Stanford Junior University (the “University”) is the sole corporate member of SHC and LPCH. As part of their ongoing operations, SHC and LPCH engage in certain related party transactions as described further in Note 13.

The consolidated financial statements include SHC’s interest in University HealthCare Alliance (“UHA”), The Hospital Committee for the Livermore-Pleasanton Areas (dba Stanford Health Care - ValleyCare) (“SHC-VC”), Stanford Blood Center, LLC (“SBC”), Stanford Emanuel Radiation Oncology Center, LLC (“SEROC”), CareCounsel, LLC (“CareCounsel”), SUMIT Holding International, LLC (“SHI”), Professional Exchange Assurance Company (“PEAC”), Stanford Health Care Advantage (“SHC Advantage”), Stanford International Medical Services RAK FZE (“SIMS RAK FZE”) and Stanford Medicine International (Hong Kong) Co., Limited (“SMI Hong Kong”) (collectively “SHC”).

UHA, a physician medical foundation, supports SHC’s mission of delivering quality care to the community and conducting research and education. In addition, UHA leads the development of a high quality clinical delivery network, built on collaboration with and sponsorship of community hospitals, on behalf of the SoM, SHC, and UHA physicians. The SoM and SHC are the members of UHA, and appoint directors to the governing board. The UHA bylaws afford control to SHC. Effective January 1, 2011, SHC entered into a sponsorship agreement with UHA whereby SHC agreed to certain funding for the development and operation of UHA and continued additional funding for future or alternative clinical sites of UHA.

SHC-VC, a leading community hospital system located in the East Bay’s Tri-Valley region of Pleasanton, Livermore and Dublin, completed an affiliation agreement with SHC effective May 18, 2015. SHC is the sole corporate member of SHC-VC.

SBC is a limited liability company organized effective July 31, 2015. SBC serves as a community blood center and provides blood products and testing services to hospitals, clinics, companies and other clients. SHC is the sole member of SBC. On September 30, 2015, SBC completed the acquisition of the Stanford Blood Center from the University for \$36,000.

SEROC was originally formed as a joint venture between SHC and Emanuel Medical Center (“EMC”). On July 31, 2014, EMC transferred its membership interest to Doctors Medical Center of Modesto, Inc. (“DMC”). SEROC operates an outpatient clinic that provides radiation oncology services to patients in Turlock, California and surrounding communities. SHC’s interest in SEROC was 60% for the years ended August 31, 2019 and 2018. The remaining interest of 40% is recorded as a noncontrolling interest in net assets without donor restrictions on the consolidated balance sheets as of August 31, 2019 and 2018.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

1. Organization (Continued)

CareCounsel, a leading provider of employer-sponsored health advocacy and health care assistance services, was acquired by SHC effective July 18, 2012. The Bay Area company was founded in 1996 with a mission to help employees, retirees and their families navigate the complex health care environment through an employer-sponsored benefit that provides consumer education, advocacy and access to expert health care resources and information.

SHI is the sole owner of SUMIT Insurance Company Ltd. ("SUMIT") and Stanford University Medical Network Risk Authority, LLC (dba The Risk Authority) ("TRA"). SHC and LPCH are the owners of SHI.

SHC's share of net assets in SUMIT, a captive insurance carrier, was 70.1% and 80.6% for the years ended August 31, 2019 and 2018, respectively. LPCH's share of net assets in SUMIT was 29.9% and 19.4% for the years ended August 31, 2019 and 2018, respectively, and is recorded as a noncontrolling interest in net assets without donor restrictions on the consolidated balance sheets.

TRA was formed on September 19, 2012 and began operations on December 1, 2012. TRA provides risk management services to SHI, the owners of SHI and other affiliated and unaffiliated parties and serves as attorney-in-fact to PEAC. In October 2017, TRA acquired the assets and assumed the liabilities of PHT Services, Ltd., a South Carolina risk management services corporation. SHC's share of net assets in TRA was 82% for the years ended August 31, 2019 and 2018. The remaining interest of 18% is recorded as a noncontrolling interest in net assets without donor restrictions on the consolidated balance sheets as of August 31, 2019 and 2018.

PEAC, a captive insurance carrier, provides insurance coverage to UHA, Packard Children's Health Alliance and other affiliated parties. SHC's share of net assets in PEAC was 63.3% and 68.5% for the years ended August 31, 2019 and 2018, respectively. The remaining interest of 36.7 % and 31.5% for the years ended August 31, 2019 and 2018, respectively, is recorded as a noncontrolling interest in net assets without donor restrictions on the consolidated balance sheets.

SHC Advantage, a non-profit public benefit corporation, provides comprehensive healthcare coverage options to elderly and disabled eligible Medicare populations of Santa Clara, Alameda and San Mateo Counties through their Medicare Advantage Plan and is controlled solely by SHC. This service is offered to Medicare-eligible residents of Santa Clara, Alameda and San Mateo Counties effective January 1, 2015, 2018 and 2019, respectively.

SIMS RAK FZE was formed in January 2016 to provide consulting and project management services in the United Arab Emirates. There was no significant activity for the years ended August 31, 2019 and 2018.

SMI Hong Kong was formed in May 2016, as a holding company for business activities in China. There was no significant activity for the years ended August 31, 2019 and 2018.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of SHC and its subsidiaries, which are controlled by SHC. All significant inter-company accounts and transactions are eliminated in the consolidation.

Basis of Presentation

The accompanying consolidated financial statements are prepared on the accrual basis of accounting. Net assets of SHC and changes therein have been classified and are reported as follows:

- **Net Assets Without Donor Restrictions** — Net assets without donor restrictions represent those resources of SHC that are not subject to donor-imposed stipulations. The only limits on net assets without donor restrictions are broad limits resulting from the nature of SHC and the purposes specified in its articles of incorporation or bylaws and, limits resulting from contractual agreements, if any.
- **Net Assets With Donor Restrictions** — Net assets with donor restrictions represent contributions, which are subject to donor-imposed restrictions that can be fulfilled by actions of SHC pursuant to those stipulations or by the passage of time or are subject to donor-imposed restrictions that they be maintained permanently by SHC. Generally, the donors of these assets permit SHC to use all or part of the investment return on these assets.

Expenses are generally reported as decreases in net assets without donor restrictions. A restriction expires when the stipulated time period has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both. Net assets with donor restricted contributions are recorded as restricted revenue when received and when the restriction expires, the net assets are shown as released from restriction on the consolidated statements of operations and changes in net assets. Investment income on net assets with donor restrictions that is restricted by donor or law is recorded in the category of net assets with donor restrictions and when the restriction expires, the net assets are shown as released from restriction.

Cash and Cash Equivalents

Cash and cash equivalents include certain investments in highly liquid debt instruments with original maturities of three months or less. Cash equivalents consist primarily of demand deposits and money market mutual funds.

Assets Limited as to Use, Held by Trustee

Assets limited as to use include various accounts held by a trustee in accordance with indenture requirements. The indenture terms require that the trustee control the expenditure of bond proceeds for capital projects. Assets limited as to use consist of cash and cash equivalents and short-term investments, recorded at cost, which approximates fair value. Amounts required to fund current liabilities of SHC have been classified as current assets in the consolidated balance sheet at August 31, 2019. There were no assets limited as to use in the consolidated balance sheet at August 31, 2018.

Inventories

Inventories, which consist primarily of hospital operating supplies and pharmaceuticals, are stated at the lower of cost or market value determined using the first-in, first-out method.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies (Continued)

Investments

Investments held directly by SHC consist of cash and cash equivalents, mutual funds and investments in non-public entities and are stated at fair value. Fair value is determined in accordance with current accounting guidance as further described in Note 7. Investment earnings (including realized gains and losses on investments, interest, dividends and impairment loss on investment securities) net of investment expenses are included in investment income unless the income or loss is restricted by donor or law. Income on investments of donor restricted funds is added to or deducted from the appropriate net asset category based on the donor's restriction. Unrealized gains and losses on without donor restricted funds other than trading securities are separately reported below the excess of revenues over expenses.

Investments at Equity

Investments at equity consist of investments in which SHC has ownership of 50% or less but is able to exercise significant influence over the investee. These investments include Stanford-StartX Fund, LLC ("StartX Fund"), Stanford PET-CT, LLC ("PET-CT"), Pleasanton Physician Associates II, LLC ("PPA II") and Innovence Augmented Intelligence Medical Systems - Psychiatry, LLC ("AIMS"). All earnings from StartX Fund and PPA II are included in earnings on equity method investments in the consolidated statements of operations and changes in net assets. Earnings from PET-CT and AIMS are included in other revenue in the consolidated statements of operations and changes in net assets.

The mission of StartX, a California nonprofit public benefit corporation, is to accelerate the development of students, faculty and alumni of the University identified by StartX as high potential entrepreneurs through an experiential educational program. StartX Fund is a California limited liability company created to support the continued experiential education of participants in the StartX accelerator program. SHC's interest in StartX Fund was 33% for the years ended August 31, 2019 and 2018.

PET-CT is a California limited liability company which provides radiological services to patients of the community, including patients served by SHC and physicians affiliated with the SoM. SHC and the University each appoint one-half of the members of the governing board of PET-CT and are its only members. SHC's interest in PET-CT was 50% for the years ended August 31, 2019 and 2018.

PPA II is a California limited liability company which owns and operates a medical office building in Pleasanton. SHC-VC's interest in PPA II was 39% for the years ended August 31, 2019 and 2018.

AIMS is a Delaware limited liability company which provides research and development of applications to reduce suicide and self-harm. TRA and Mersey Care NHS Foundation Trust, a United Kingdom based company, each have a 50% interest in AIMS for the year ended August 31, 2019 and 2018.

Investments in University Managed Pools

Investments in University managed pools consist of funds invested in the University's Merged Pool ("MP") and Expendable Funds Pool ("EFP") (collectively the "Pools"). Under the terms of SHC's agreement with the University, the University has discretion to invest the funds in the Pools. SHC may deposit funds in the Pools at its discretion. Withdrawals from the MP and EFP require advance notice to the University. The value of its share of the Pools is determined by the University and is based on the fair value of the underlying assets in the Pools.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies (Continued)

Investments in University Managed Pools (continued)

The University allocates investment earnings to SHC from the University managed pools based on SHC's share of the Pools. Earnings include interest, dividends, distributions, investment gains and losses, and the increases or decreases in the value of SHC's share of the Pools. All investment gains and losses and increases and decreases in share value are treated as realized and unrealized and included in the excess of revenues over expenses.

The increases or decreases in the value of SHC's share of the Pools are recorded as income and gains on University managed pools unless the income is restricted by donor or law. Income on investments of donor restricted funds invested in the University managed pools is added to or deducted from the appropriate net asset category based on the donor's restriction.

Financial Assets and Liquid Resources

SHC has put in place a range of policies and measures to actively manage its liquidity and make sure the organization's financial obligations can be satisfied. To ensure adequate liquidity through the full range of potential operating environments and market conditions, SHC maintains the ability to liquefy certain assets when, and if, requirements warrant.

Liquidity is managed within pools known as investment portfolios. The SHC Investment Program has established four distinct investment portfolios into which SHC may invest its cash and operating reserves. These portfolios have been established to address varying degrees of liquidity requirements, return expectations and tolerance levels for risk.

The primary sources of liquidity are the liquidity and short-term portfolios; invested in cash, U.S. Treasury Bills and short-term bond funds. The amount of liquidity held in these portfolios is largely determined by internal liquidity projections which periodically estimate potential funding requirements. Funding requirements include:

- Cash and collateral outflows, as well as potential capital and funding support required for operations
- Repayment of all maturing debt and credit facilities
- Other large committed payments

Operating liquidity is monitored daily and reported periodically to senior management and the Board. When determining the appropriate allocation of funds across the various investment portfolios, SHC limits the percentage of the investment portfolio that is not readily realizable. Additionally, SHC maintains a cushion of excess liquidity that would be sufficient to fully fund operations and commitments for an extended period during which funding from normal sources is disrupted. The primary measure used to assess SHC's liquidity is "Days Cash on Hand" during such period of liquidity disruption. This measure assumes that SHC is unable to generate funds from normal business operations or from the issuance of debt while continuing to meet obligations to maintain operations and repayment of contractual principal and interest payments owed. Once a sufficient level of liquidity is established, excess cash is invested in the intermediate or long-term portfolios. The intermediate-term portfolio is primarily invested in fixed income and equities mutual funds which can be liquidated on short notice while the long-term portfolio is invested in shares of the MP. Per SHC's agreement with the Stanford Management Company ("SMC"), SHC can withdraw annually up to 10% of its investments with SMC after providing a six months notice. It is not the intention of SHC to utilize the long-term portfolio for unplanned operating commitments; however, amounts could be made available from these sources if necessary.

Stanford Health Care
Notes to Consolidated Financial Statements

2. Summary of Significant Accounting Policies (Continued)

Financial Assets and Liquid Resources (continued)

Financial assets and resources available for general expenditure within one year of the consolidated statement of financial position date for general expenditure at August 31, 2019 consist of following:

	<u>2019</u>
Financial assets:	
Cash and cash equivalents	\$ 505,509
Accounts receivable, net	685,425
Short-term investments	399,639
Investments in Mutual funds	504,872
10% of long-term investments in Merged Pool	144,974
Financial assets available to meet cash needs for general expenditure within one year	<u>\$ 2,240,419</u>
Liquidity resources:	
Revolving line of credit capacity	200,000
Total financial assets and liquidity resources available within one year	<u>\$ 2,440,419</u>

Property and Equipment

Property and equipment are stated at cost except for donated assets, which are recorded at fair market value at the date of donation. Depreciation and amortization of property and equipment is determined using the straight-line method over the estimated useful lives of the assets, which are as follows:

Land improvements	10 to 25 years
Buildings and leasehold improvements	7 to 40 years
Equipment	3 to 20 years

Significant replacements and improvements are capitalized, while maintenance and repairs, which do not improve or extend the life of the respective assets, are charged to expense as incurred. Leasehold improvements are amortized over the shorter of the estimated useful life or term of the lease. Upon sale or disposal of property and equipment, the cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in the consolidated statements of operations and changes in net assets.

Equipment includes medical equipment, furniture and fixtures and computer software and hardware.

Equipment under capital leases is recorded at present value at the inception of the leases and is amortized on the straight-line method over the shorter of the lease term or the estimated useful life of the equipment. The amortization of the assets recorded under capital leases is included in depreciation and amortization expense in the accompanying consolidated statements of operations and changes in net assets.

Interest costs incurred on borrowed funds during the period of construction of capital assets is capitalized, net of any interest earned, as a component of the cost of acquiring those assets.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies (Continued)

Asset Retirement Obligations

Asset retirement obligations (“ARO”) are legal obligations associated with the retirement of long-lived assets. These liabilities are initially recorded at fair value as other long-term liabilities and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets in property and equipment. Asset retirement costs are subsequently accreted over the useful lives of the related assets.

Other Assets

Other assets include long-term portion of contributions receivable, intangible assets, and other long-term assets.

Contributions Receivable

Unconditional promises to give (“contributions”) are recorded at fair value at the date the promise is received. Donations for specific purposes are reported as net assets with donor restrictions. Contributions to be received after one year are discounted at an appropriate discount rate commensurate with the risks involved and applicable to the years in which the promises are received and are recorded in the category of net assets with donor restrictions. In accordance with current accounting guidance, the discount rates were determined using the risk free rate adjusted for the risk of donor default. Current and long-term portions of contributions receivable are included in other receivables and other assets in the consolidated balance sheets, respectively, and contribution revenue is included in the consolidated financial statements in the appropriate net asset category. Amortization of the discount is included in contributions and other in the consolidated statements of operations and changes in net assets. Conditional promises to give are recognized when the condition is substantially met.

Premiums, Discounts and Deferred Financing Costs on Long-Term Debt

Premiums and discounts arising from the original issuance of long-term debt are amortized on either the effective interest method or the straight-line basis, which approximates the effective interest method, over the life of the debt. Deferred financing costs represent costs incurred in conjunction with the issuance of SHC’s long-term debt. These costs are amortized on a straight-line basis, which approximates the effective interest method, over the life of the debt. The unamortized portion of these premiums, discounts and deferred financing costs are included in long-term debt on the consolidated balance sheets.

Interest Rate Swap Agreements

SHC entered into several interest rate swap agreements to reduce the effect of interest rate fluctuation on its variable rate bonds. All swaps are recognized on the consolidated balance sheets at their fair value in accordance with current accounting guidance. Changes in the fair value of interest rate swaps are included in excess of revenues over expenses. In fiscal year 2019 and 2018, the swap settlements (net cash payments less receipts) under the interest rate swap agreements have been recorded as an increase (decrease) to swap interest and change in value of swap agreements in the consolidated statements of operations and changes in net assets.

Excess of Revenues over Expenses (Performance Indicator)

The consolidated statements of operations and changes in net assets include excess of revenues over expenses. Changes in net assets without donor restrictions which are excluded from excess of revenues over expenses, include transfers of assets to and from affiliates for other than goods and services, change in unrealized gains and losses on marketable investments, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), changes in pension and postretirement liability and other changes related to noncontrolling interests.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies (Continued)

Net Patient Service Revenue

Net patient service revenue is reported at the amount that reflects the consideration to which SHC expects to be entitled for providing patient care. These amounts are due from patients, third-party payors, and others and include variable consideration for retroactive revenue adjustments due to settlement of reviews and audits. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined. Contracts, laws, and regulations governing the Medicare and Medi-Cal programs are complex and subject to interpretation.

Thus, there is at least a reasonable possibility that recorded estimates may change by a material amount in the near term. Generally, SHC bills the patients and third-party payors several days after the services are performed or shortly after discharge. Revenue is recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by SHC. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected or actual charges. SHC believes that this method provides a reasonable depiction of the transfer of services over the term of the performance obligations based on the inputs needed to satisfy the obligation. Generally, performance obligations are satisfied over time related to patients receiving inpatient acute care services.

SHC measures the performance obligations from admission into the hospital to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge. These services are considered to be a single performance obligation. Revenue for performance obligations satisfied at a point in time is recognized when services are provided and SHC does not believe it is required to provide additional services to the patient.

Because all of its performance obligations relate to contracts with a duration of less than one year, SHC has elected to apply the optional exemption provided in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 606-10-50-14(a) and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The transaction price is based on standard charges for services provided to patients, reduced by applicable contractual adjustments, discounts to under and uninsured patients, and implicit pricing concessions. The estimates of contractual adjustments and discounts are based on contractual agreements, discount policy, and historical collection experience. The process for estimating the ultimate collectability of patient accounts receivables involves historical collection experience, changes in contracts with payors, and significant assumptions and judgment. Account balances are written off as an implicit pricing concession when management believes it is probable the receivable will not be recovered.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies (Continued)

Net Patient Service Revenue (continued)

SHC has elected to apply the practical expedient allowed under FASB ASC 606-10-10-4 for applying the new revenue standard to a portfolio of contracts with similar characteristics. SHC accounts for the contracts within each portfolio as a collective group, rather than individual contracts, based on the payment pattern expected in each portfolio category and the similar nature and characteristics of the patients within each portfolio. The portfolios consist of major payor classes for inpatient revenue and outpatient revenue. Based on historical collection trends and other analysis, SHC has concluded that revenue for a given portfolio would not be materially different than if accounting for revenue on a contract-by-contract basis.

SHC has elected to apply the practical expedient allowed under FASB ASC 606-10-32-18 for the financing component, as the period of time between the service being provided and the time that the patient pays for service is typically one year or less.

Charity Care and Community Benefits

SHC provides either full or partial charity care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Amounts determined to qualify as charity care are not reported as net patient service revenue. SHC also provides services to other indigent patients under Medi-Cal and other publicly sponsored programs, which reimburse at amounts less than the cost of the services provided to the recipients. The difference between the cost of services provided to these indigent persons and the expected reimbursement is included in the estimated cost of charity care. Such amounts are considered community benefits.

Premium Revenue

UHA has capitated agreements with various Health Maintenance Organizations (“HMOs”) to provide medical services to enrollees. Under these agreements, monthly payments are received based on the number of health plan enrollees. These receipts are recorded as premium revenue in the consolidated statements of operations and changes in net assets. Costs are accrued when services are rendered under these contracts, including cost estimates of incurred but not reported (“IBNR”) claims. The IBNR accrual (which is included in accounts payable and accrued liabilities in the consolidated balance sheets) includes an estimate of the costs of services for which UHA is responsible, including referrals to outside healthcare providers.

SHC Advantage receives premium revenue from the Centers for Medicare & Medicaid Services (“CMS”) to provide Medicare services to members. Premium revenue is recognized in the month in which the member is eligible for Medicare services. Costs are accrued when services are rendered, including cost estimates of IBNR claims.

Income Taxes

SHC, UHA, SHC-VC and SHC Advantage are not-for-profit corporations and tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code. SBC, SEROC, CareCounsel and SHI are limited liability companies and taxable income flows through to the individual members. SUMIT is currently exempt from all taxes until March 31, 2035. TRA is a limited liability company, but has elected to be taxed as a corporation. PEAC is a taxable corporation. SHC and its subsidiaries have no uncertain tax positions pertaining to unrelated business income.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies (Continued)

Income Taxes (continued)

The Tax Cuts and Jobs Act (the “Act”) was enacted on December 22, 2017. The Act impacts SHC in several ways, including new excise taxes on executive compensation and net investment income, increases to unrelated business taxable income (“UBTI”) by the amount of certain fringe benefits for which a deduction is not allowed, changes to the net operating loss rules, repeal of the alternative minimum tax, and the computation of UBTI separately for each unrelated trade or business. Further, the Act reduces the U.S. federal corporate tax rate and federal corporate unrelated business income tax rate from 35% to 21%. The overall impact of the Act remains uncertain and the full impact of the Act will not be known until further regulatory guidance is provided to assist the Institution with calculating income and excise tax liabilities. SHC continues to evaluate the impact of the Act on current and future tax positions.

Self-Insurance Plans

SHC, SHC-VC and SBC self-insure for professional liability risks, postretirement medical benefits, workers’ compensation and health and dental benefits. These liabilities are reflected as self-insurance reserves in the consolidated balance sheets.

- **Professional Liability** — SHC, SHC-VC and SBC are self-insured through SUMIT for medical malpractice and general liability losses under claims-made coverage. SHC, SHC-VC and SBC also maintain professional liability reserves for claims not covered by SUMIT which total \$8,080, \$933 and \$61 as of August 31, 2019, respectively. As of August 31, 2018, this coverage was \$7,304, \$1,376 and \$75 for SHC, SHC-VC and SBC, respectively. Since September 1, 2005, SUMIT has retained 100% of the risk related to the first \$15,000 per occurrence. The next \$165,000 is transferred to various reinsurance companies. Prior to September 1, 2005, SHC maintained various coverage limits.
- **Postretirement Medical Benefits** — Liabilities for postretirement medical claims for current and retired employees are actuarially determined.
- **Workers’ Compensation** — SHC, SHC-VC and SBC purchase insurance for workers’ compensation claims with a \$750 deductible per occurrence. Workers’ compensation insurance provides statutory limits for the State of California. An actuarial estimate of retained losses (or losses retained within the deductible) has been used to record a liability.
- **Health and Dental** — Liabilities for health and dental claims for current employees are based on estimated costs.

Fair Value of Financial Instruments

Due to the short-term nature of cash and cash equivalents, accounts payable and accrued liabilities, and accrued salaries and related benefits, their carrying value approximates their fair value. The fair value of the amounts payable under third-party reimbursement contracts is not readily determinable.

Concentration of Credit Risk

Financial instruments, which potentially subject SHC to concentrations of credit risk, consist principally of cash and cash equivalents, patient accounts receivable, and investments in University managed pools.

SHC’s concentration of credit risk relating to patient accounts receivable is limited by the diversity and number of patients and payors. Patient accounts receivable consist of amounts due from commercial insurance companies, governmental programs, private pay patients and other third-party payors.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant estimates relate to patient accounts receivable, ARO, amounts due to third-party payors, retirement plan obligations, and self-insurance reserves. Actual results could differ from those estimates.

Recent Pronouncements – effective in the years ended August 31, 2019 and 2018

The FASB ASC is the sole source of authoritative non-governmental U.S. generally accepted accounting principles.

Consolidation - In January 2017, the FASB issued Accounting Standards Update (“ASU”) 2017-02, *Clarifying When a Not-for-Profit Entity That Is a General Partner or a Limited Partner Should Consolidate a For-Profit Limited Partnership or Similar Entity*, which reinstates the presumption that a not-for-profit (“NFP”) entity that is a general partner controls a limited partnership. The amendments in this update also add guidance on when an NFP limited partner should consolidate a for-profit limited partnership. The guidance was effective for SHC during the fiscal year ending August 31, 2018 and did not materially impact SHC’s consolidated financial statements.

Fair value - In May 2015, the FASB issued ASU 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient as well as limiting disclosure requirement to investments for which the entity has elected to measure the fair value using that practical expedient. The guidance is effective for SHC during the fiscal year ending August 31, 2018, and should be applied on a retrospective basis for each period presented. SHC has adopted this guidance in fiscal year 2018 as described further in Note 7.

In January 2016, the FASB issued ASU 2016-01, *Recognition and Measurement of Financial Assets and Financial Liabilities*. This update eliminates the requirement to disclose the fair value of financial instruments measured at cost and requires equity investments (except those accounted for under the equity method of accounting) to be measured at fair value with changes in fair value recognized in net income. The portion of this guidance that eliminates the requirement to disclose the fair value of financial instruments measured at cost (such as the fair value of debt) has been early adopted in the fiscal year ending August 31, 2019. The remaining guidance is not expected to have a material impact on SHC’s consolidated financial statements.

In August 2018, the FASB issued ASU 2018-13, *Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which adds, modifies, and removes some fair value measurement disclosure requirements. The guidance is effective for SHC during the fiscal year ending August 31, 2021. SHC early adopted the portion of this guidance that modifies and removes fair value disclosure requirements and it did not materially impact SHC’s consolidated financial statements.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies (Continued)

Recent Pronouncements – effective in the years ended August 31, 2019 and 2018 (continued)

Revenue recognition - In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, to improve the consistency of revenue recognition practices across industries for economically similar transactions. Subsequently, the FASB has issued several amendments and updates to the original standard. The core principle is that an entity recognizes revenue for goods or services to customers in an amount that reflects the consideration it expects to receive in return. SHC adopted ASU 2014-09 on September 1, 2018 using the modified retrospective method of transition. SHC performed an analysis of revenue streams and transactions under ASU 2014-09. In particular, for net patient service revenue, SHC performed an analysis into the application of the portfolio approach as a practical expedient to group patient contracts with similar characteristics, such that revenue for a given portfolio would not be materially different than if it were evaluated on a contract-by-contract basis. Upon adoption, the majority of what was previously classified as provision for uncollectible accounts are presented as a reduction to net patient service revenue on the consolidated statements of operations and changes in net assets and treated as a price concession that reduces the transaction price, which is reported as net patient service revenue. The new standard also requires enhanced disclosures related to the disaggregation of revenue and significant judgments made in measurement and recognition. The impact of adopting ASU 2014-09 was not material to total without donor restrictions, excess of revenues over expenses or total net assets.

In June 2018, the FASB issued ASU 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*, which will assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) or as exchange (reciprocal) transactions and (2) determining whether a contribution is conditional. The guidance was effective for SHC during the fiscal year ending August 31, 2019 and did not materially impact SHC's consolidated financial statements.

Not-for-profit reporting - In August 2016, the FASB issued ASU 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities*, which modifies current NFP reporting requirements. This update changes the way NFPs classify net assets and results in significant changes to financial reporting and disclosures for NFPs. The most significant change is the updated presentation of net assets in two classes: net assets without donor restrictions and net assets with donor restrictions. SHC adopted on a retrospective basis during the fiscal year ending August 31, 2019 and the adoption did not have a material impact on the consolidated financial statements.

Recent Pronouncements – effective in future periods

Pension service costs - In March 2017, the FASB issued ASU 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, which requires that an employer report the service cost component of pension costs in the same line item as employee compensation costs within income from operations. The other components of net benefit cost are required to be presented in the statement of operations and changes in net assets separately from the service cost component and outside a subtotal of income from operations, and will not be eligible for capitalization. The guidance is effective for SHC during the fiscal year ending August 31, 2020. SHC is currently evaluating the impact that this guidance will have on its consolidated financial statements.

Leases - In February 2016, the FASB issued ASU 2016-02, *Leases*, which requires lessees to recognize operating and financing lease liabilities and corresponding right-of-use assets on the balance sheet. The guidance is effective for SHC during the fiscal year ending August 31, 2020, and should be applied on a retrospective or modified retrospective basis. SHC is currently evaluating the impact that this guidance will have on its consolidated financial statements.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

2. Summary of Significant Accounting Policies (Continued)

Recent Pronouncements – effective in future periods (continued)

Statement of cash flows - In August 2016, the FASB issued ASU 2016-15, *Classification of Certain Cash Receipts and Cash Payments*, which intends to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. The guidance is effective for SHC during the fiscal year ending August 31, 2020, and should be applied on a retrospective basis. SHC is currently evaluating the impact that this guidance will have on its consolidated financial statements.

In November 2016, the FASB issued an ASU 2016-18, *to add or clarify Guidance on the Classification and Presentation of Restricted Cash in the Statement of Cash Flows*. This update requires the amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The guidance is effective for SHC during the fiscal year ending August 31, 2020. SHC is currently evaluating the impact that this guidance will have on its consolidated financial statements.

Defined benefit plan disclosures - In August 2018, the FASB issued ASU 2018-14, *Disclosure Framework—Changes to the Disclosure Requirements for Defined Benefit Plans*, which adds, removes, and clarifies disclosure requirements related to defined benefit pension and other postretirement plans. The guidance is effective for SHC during the fiscal year ending August 31, 2022. SHC is currently evaluating the impact that this guidance will have on its consolidated financial statements.

Cloud computing arrangements - In August 2018, the FASB issued ASU 2018-15, *Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract*, to allow capitalization of implementation costs incurred in a cloud computing arrangement in a manner that is consistent with the capitalization of implementation costs incurred to develop or obtain internal-use software. The guidance is effective for SHC during the fiscal year ending August 31, 2022. SHC is currently evaluating the impact that this guidance will have on its consolidated financial statements.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

3. Net Patient Service Revenue

SHC has agreements with third-party payors that provide for payments at amounts different from SHC's established rates. A summary of payment arrangements with major third-party payors follows:

- **Medicare** — Inpatient acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Medicare reimburses hospitals for covered outpatient services rendered to its beneficiaries by way of an outpatient prospective payment system based on ambulatory payment classifications.

Inpatient non-acute services, certain outpatient services and medical education costs related to Medicare beneficiaries are paid based, in part, on a cost reimbursement methodology. SHC is reimbursed for cost reimbursable items at a tentative rate with final settlement of such items determined after submission of annual cost reports and audits thereof by the Medicare administrative contractor. The estimated amounts due to or from the program are reviewed and adjusted annually based on the status of such audits and any subsequent appeals. Differences between final settlements and amounts accrued in previous years are reported as adjustments to net patient service revenue in the year examination is substantially completed. SHC's Medicare cost reports have been audited by the Medicare administrative contractor through August 31, 2010. Professional services are reimbursed based on a fee schedule.

- **Medi-Cal** — Inpatient services rendered to Medi-Cal program beneficiaries are reimbursed at a prospectively determined rate per discharge. Outpatient services are reimbursed based upon prospectively determined fee schedules. Professional services are reimbursed based on a fee schedule.
- **Managed Care Organizations** — SHC entered into agreements with numerous third-party payors to provide patient care to beneficiaries under a variety of payment arrangements. These include arrangements with:
 - Commercial insurance companies, including workers' compensation plans, which reimburse SHC at negotiated charges.
 - Managed Care contracts such as those with HMOs and Preferred Provider Organizations ("PPOs"), which reimburse SHC at contracted or per diem rates, which are usually less than full charges. PPOs give their members multiple choices in health care and health care providers.
 - Counties in the State of California, which reimburse SHC for certain indigent patients covered under county contracts.

Uninsured — For uninsured patients that do not qualify for charity care, SHC recognizes revenue on the basis of its standard rates for services less an uninsured discount applied to the patient's account that approximates the average discount for Managed Care payors.

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

3. Net Patient Service Revenue (Continued)

Patient service revenue, net of price concessions, by major payor for the year ended August 31, 2019 is as follows:

	<u>2019</u>
Medicare	\$ 937,369
Medi-Cal	150,184
Managed Care - Discounted Fee For Services	3,871,597
Self pay and other	115,527
Related party	<u>38,375</u>
Net patient service revenue	<u>\$ 5,113,052</u>

Patient service revenue, net of contractual allowances (but before provision for doubtful accounts), by major payor for the year ended August 31, 2018 is as follows:

	<u>2018</u>
Medicare	\$ 892,195
Medi-Cal	140,788
Managed Care - Discounted Fee For Services	3,498,434
Self pay and other	160,605
Related party	<u>43,344</u>
Patient service revenue, net of contractual allowances	\$ 4,735,366
Provision for doubtful accounts	(57,437)
Net patient service revenue	<u>\$ 4,677,929</u>

SHC recognized net patient service revenue adjustments of \$20,336 and \$880 as a result of prior years favorable developments related to reimbursement for the years ended August 31, 2019 and 2018, respectively. SHC also recognized revenues of \$0 and \$1,556 as a result of prior years appeals settled during the year ended August 31, 2019 and 2018, respectively.

Amounts due from Blue Cross, Medicare, Aetna, Blue Shield and United Health as a percentage of net patient accounts receivable at August 31 are as follows:

	<u>2019</u>	<u>2018</u>
Blue Cross	26%	24%
Medicare	13%	13%
Aetna	11%	10%
Blue Shield	10%	10%
United Health	10%	9%

SHC does not believe significant credit risks exist with these payors. Excluding these payors, no one payor represents more than 10% of the SHC's patient receivables or net patient service revenue. As a result of certain changes required by ASU 2014-09, the majority of the SHC's provision for uncollectible accounts is recorded as a direct reduction to net patient service revenue instead of being presented as a separate line item on the consolidated statements of operations and changes in net assets. The adoption of ASU 2014-09 has no impact on the SHC's patient receivables as it was historically recorded net of allowance for uncollectible accounts and contractual adjustments on the consolidated balance sheets.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

3. Net Patient Service Revenue (Continued)

California Hospital Quality Assurance Fee Program

The State of California enacted Senate Bill 239 in October 2013 which established the Hospital Quality Assurance Fee ("HQAF") and Hospital Fee programs for January 1, 2014 through June 30, 2019. CMS has approved, and SHC has recognized as revenue on the date of approval, supplemental payments related to the following programs and periods:

- Fee-For-Service programs for January 1, 2014 through June 30, 2019.
- Managed Care programs for the expansion population for January 1, 2014 through December 31, 2016.
- Managed Care programs for the non-expansion population for January 1, 2014 through December 31, 2016.

For the years ended August 31, 2019 and 2018, respectively, SHC recognized \$93,880 and \$89,718 in net patient service revenue for Medi-Cal Fee-For-Service ("FFS") and Managed Care supplemental payments provided for under the California provider fee programs.

For the years ended August 31, 2019 and 2018, respectively, SHC recognized \$39,544 and \$77,302 in other expense for HQAF paid to the California Department of Health Care Services. Expenses were paid for the same CMS approved programs noted above.

California's participation in the provider fee program, as authorized under federal regulations, has been made permanent by the passage of Proposition 52, an initiative on the November 2016 ballot. The first iteration of the hospital provider fee program under the permanent legislation covering the period from January 1, 2017 to June 30, 2019 has been approved by CMS for the FFS program only. Accordingly, any potential activity under the Managed Care program related to January 1, 2017 through June 30, 2019 has not been recorded in the consolidated financial statements.

SHC recorded \$31,602 and \$49,546 in deferred revenue as of August 31, 2019 and 2018, respectively, pending CMS approval. SHC also recorded \$22,214 and \$0 as prepaid expense for the years ended August 31, 2019 and 2018 respectively, pending CMS approval. Deferred revenue and prepaid expenses associated with unapproved Hospital Fee Program will be recognized as revenue and expense respectively, upon CMS approval.

The Fee-For-Service and Managed Care programs for July 1, 2019 through December 31, 2021 have been modeled by the State and will then be sent to CMS for approval. Given the State has not submitted the new program model to CMS for approvals, no revenue or expense has been recorded in fiscal year 2019 for these programs.

Notes to Consolidated Financial Statements
(in thousands of dollars)

4. Charity Care, Uncompensated Costs and Community Benefits

SHC engages in numerous community benefit programs and services. These services include health research, education and training and other benefits for the larger communities that are excluded from the information below.

Uncompensated charity care is provided to vulnerable populations. Additionally, Medi-Cal and Medicare program reimbursements do not cover the estimated costs of services provided.

Information related to SHC's charity care for the years ended August 31 are as follows:

	<u>2019</u>	<u>2018</u>
Charity care at established rates	\$ 112,665	\$ 112,471
Estimated cost of charity care, net	23,978	24,813

The estimated cost of providing charity care is based on a calculation which applies a ratio of costs to charges to the gross uncompensated charges associated with providing care to charity patients. The ratio of cost to charges is calculated based on SHC's total expenses divided by gross patient service charges. SHC received \$410 and \$876 during the years ended August 31, 2019 and 2018, respectively, from contributions that were restricted for the care of indigent patients.

Estimated cost of services in excess of reimbursement for the years ended August 31 are as follows:

	<u>2019</u>	<u>2018</u>
Charity care	\$ 23,978	\$ 24,813
Medi-Cal	277,994	258,003
Medicare	854,133	718,188
Total	<u>\$ 1,156,105</u>	<u>\$ 1,001,004</u>

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

5. Contributions Receivable

Contributions are recorded at the discounted net present value of the future cash flows, adjusted for the risk of donor default, using a discount rate of 1.88% for new receivables recorded in fiscal year 2019 and 3.21% for receivables recorded in fiscal year 2018.

Contributions receivable at August 31 are expected to be realized in the following periods:

	<u>2019</u>	<u>2018</u>
In one year or less	\$ 29,691	\$ 34,906
Between one year and five years	33,348	52,023
More than five years	<u>6,021</u>	<u>7,000</u>
	69,060	93,929
Less: discount/allowance	<u>(6,664)</u>	<u>(9,394)</u>
Total contributions receivable, net	62,396	84,535
Less: current portion	<u>(27,242)</u>	<u>(31,847)</u>
Contributions receivable, net of current portion	<u>\$ 35,154</u>	<u>\$ 52,688</u>

Contributions receivable at August 31 are to be utilized for the following purposes:

	<u>2019</u>	<u>2018</u>
Plant replacement and expansion	\$ 67,259	\$ 90,954
Other patient and clinical services	<u>1,801</u>	<u>2,975</u>
Total	<u>\$ 69,060</u>	<u>\$ 93,929</u>

There were no conditional pledges at August 31, 2019 and 2018.

6. Investments and Investments in University Managed Pools

The composition of investments held directly by SHC at August 31 are as follows:

	<u>2019</u>		<u>2018</u>	
	<u>Cost</u>	<u>Fair Value</u>	<u>Cost</u>	<u>Fair Value</u>
Short term investments:				
Mutual funds	<u>\$ 397,058</u>	<u>\$ 399,639</u>	<u>\$ 390,244</u>	<u>\$ 391,314</u>
Investments:				
Cash and cash equivalents	\$ 62,205	\$ 62,205	\$ 48,583	\$ 48,583
Mutual funds	563,887	585,071	450,914	460,302
Public equity	488	3,761	-	-
Other	<u>385</u>	<u>6,517</u>	<u>873</u>	<u>896</u>
Total	<u>\$ 626,965</u>	<u>\$ 657,554</u>	<u>\$ 500,370</u>	<u>\$ 509,781</u>

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

6. Investments and Investments in University Managed Pools (Continued)

The composition of investments in University managed pools at August 31 are as follows:

	<u>Fair Value</u>	
	<u>2019</u>	<u>2018</u>
Investments in University managed pools:		
Merged Pool	\$1,472,256	\$1,393,429
Expendable Funds Pool	6,298	7,410
Total	<u>\$1,478,554</u>	<u>\$1,400,839</u>

The MP is the primary investment pool in which funds are invested. The MP is invested with the objective of maximizing long-term total return. It is a unitized pool in which the fund holders purchase investments and withdraw funds based on a monthly share value.

The MP's investments at August 31 consist of the following:

	<u>Allocation</u>	
	<u>2019</u>	<u>2018</u>
Cash and Cash Equivalents	1%	2%
Fixed Income	6%	7%
Public Equities	26%	26%
Real Estate	8%	7%
Natural Resources	6%	9%
Absolute Return	19%	20%
Private Equities	34%	29%
Total	<u>100%</u>	<u>100%</u>

7. Fair Value Measurements

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability.

The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk.

Accounting guidance expands the disclosure requirements around fair value and establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels which are determined by the lowest level input that is significant to the fair value measurement in its entirety.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

7. Fair Value Measurements (Continued)

These levels are:

Level 1: Quoted prices are available in active markets for identical assets or liabilities as of the measurement date. Financial assets and liabilities in Level 1 include U.S. Treasury securities and listed equities.

Level 2: Pricing inputs are based on quoted market prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Financial assets and liabilities in this category generally include asset-backed securities, corporate bonds and loans, municipal bonds and interest rate swap instruments.

Level 3: Pricing inputs are generally unobservable for the assets or liabilities and include situations where there is little, if any, market activity for the investment. The inputs into the determination of the fair value require management's judgment or estimation of assumptions that market participants would use in pricing the assets or liabilities.

The following table summarizes SHC's assets and liabilities measured at fair value on a recurring basis as of August 31, based on the inputs used to value them:

	2019			
	Level 1	Level 2	Level 3	Total
Assets				
Cash and cash equivalents	\$ 505,509	\$ -	\$ -	\$ 505,509

7. Fair Value Measurements (Continued)

The table below sets forth a summary of the changes in the fair value of the level 3 investments for the years ended August 31:

	<u>2019</u>	<u>2018</u>
Balance, beginning of year	\$ 896	\$ 713
Purchases	-	177
Transfer out to Level 1	(511)	-
Unrealized gain	<u>6,132</u>	<u>6</u>
Balance, end of year	<u>\$ 6,517</u>	<u>\$ 896</u>

Transfers in and out of Level 3 include situations where observable inputs have changed. All transfer amounts are based on the fair value at the end of the fiscal year. During the year ended August 31, 2019, \$3,761 which includes \$3,250 of unrealized gain was transferred from Level 3 to Level 1 due to quoted market price data becoming available for the security.

8. Property and Equipment

Property and equipment consist of the following as of August 31:

	<u>2019</u>	<u>2018</u>
Land and improvements	\$ 68,844	\$ 68,844
Buildings and leasehold improvements	1,773,365	1,694,056
Equipment	<u>1,246,431</u>	<u>1,185,244</u>
	3,088,640	2,948,144
Less: Accumulated depreciation	(1,824,105)	(1,638,721)
Construction-in-progress	<u>2,426,480</u>	<u>1,969,625</u>
Property and equipment, net	<u>\$ 3,691,015</u>	<u>\$ 3,279,048</u>

Depreciation and amortization expense totaled \$190,283 and \$176,742 for the years ending August 31, 2019 and 2018, respectively, and is included in the consolidated statements of operations and changes in net assets.

Medical and office equipment acquired under capital leases totaled \$8,951 and \$9,416 as of August 31, 2019 and 2018, respectively, and building improvements acquired under capital leases totaled \$1,970 as of August 31, 2019 and 2018, are included in property and equipment in the consolidated balance sheets. Amortization expense under capital leases is included in depreciation expense in the consolidated statements of operations and changes in net assets. Accumulated amortization was \$9,846 and \$9,416 as of August 31, 2019 and 2018, respectively.

Interest expense on debt issued for construction projects and income earned on the funds held pending use are capitalized until the projects are placed in service and depreciated over the estimated useful life of the asset. Capitalized interest expense net of capitalized investment income was \$28,861 and \$27,718 for the years ended August 31, 2019 and 2018, respectively.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

9. Debt Obligations (Continued)

Debt Issuance Activity

SHC borrows at tax-exempt rates through the California Health Facilities Financing Authority (“CHFFA”), a conduit issuer. Although CHFFA is the issuer, these tax-exempt securities are the obligation of, and payable solely by, SHC.

Payments of principal and interest on all SHC debt obligations (taxable and tax-exempt) are collateralized by a pledge against the revenues of SHC secured under a master trust indenture between SHC and the master trustee. The master trust indenture includes, among other things, limitations on additional indebtedness, liens on property, restrictions on the disposition or transfer of assets, and maintenance of certain financial ratios. SHC may redeem some of its bonds, in whole or in part, prior to the stated maturities. Total debt outstanding under the master trust indenture is in the aggregate principal amounts of \$1,843,490 and \$1,857,995 as of August 31, 2019 and 2018, respectively.

In December 2017, CHFFA, on behalf of SHC, issued fixed rate refunding revenue bonds (the “2017 Bonds”) in the aggregate principal amount of \$454,200 plus an original issue premium of \$76,138. Proceeds of the 2017 Bonds were used to advance refund a portion of the 2008 Series A bonds and the 2010 Series A and B bonds.

In January 2018, SHC issued taxable fixed rate bonds in the amount of \$500,000. The bonds bear interest at a coupon rate of 3.80% and mature on November 15, 2048. Proceeds were issued for general corporate purposes.

In May 2017, SHC entered into a \$200,000 revolving credit facility. Drawdowns from the revolving credit facility bear interest at a floating rate equal to the applicable London Interbank Offered Rate (“LIBOR”) plus a specified spread. No amounts were outstanding as of August 31, 2019 or August 31, 2018.

Variable Rate Debt

Interest on the 2008 Series B-1 bonds resets weekly and the bonds are remarketed every 7 days at the then prevailing interest rate. The 2012 Series C bonds are in a Windows weekly floating index mode and cannot be tendered for 180 days after a 30 day notice and remarketing period. The 2008 Series B bonds and the 2012 Series C bonds are supported by SHC’s self-liquidity and are classified as current liabilities. In the event SHC receives notice of any optional tender of the 2008 Series B-1 bonds or the 2012 Series C bonds, or if any bonds become subject to mandatory tender, the purchase price of the bonds will be paid from the remarketing of such bonds. However, if the remarketing proceeds are insufficient, SHC has an obligation to purchase any remaining bonds. SHC maintains sufficient liquidity to provide for the full and timely purchase price of any bonds tendered in the event of a failed remarketing.

The 2012 Series D and 2015 Series B bonds are in a monthly floating index mode and are directly placed with U.S. Bank. The 2012 Series D and 2015 Series B bonds are not subject to remarketing or tender until May 13, 2020 and June 28, 2024, respectively. The 2012 Series D bonds are classified as current liabilities while the 2015 Series B bonds are classified as long-term liabilities. SHC presently anticipates the 2012 Series D bonds will be remarketed to new holders in one of the interest rate modes available under the related bond indenture. In the event the 2012 Series D bonds are not remarketed on their mandatory tender date, then, as long as no default or event of default has occurred and is continuing, the 2012 Series D bonds will be repaid.

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

9. Debt Obligations (Continued)

Scheduled principal payments on long-term debt are summarized below:

	<u>Scheduled Maturities</u>	<u>Debt subject to Remarketing</u>	<u>Debt subject to Mandatory Tender (2012D and 2015B)</u>	<u>Total</u>
2020	\$ 14,235	\$ 228,200	\$ 100,000	\$ 342,435
2021	16,045	-	-	16,045
2022	15,505	-	-	15,505
2023	17,065	-	-	17,065
2024	13,475	-	75,000	88,475
Thereafter	1,363,965	-	-	1,363,965
Total	<u>\$ 1,440,290</u>	<u>\$ 228,200</u>	<u>\$ 175,000</u>	<u>\$ 1,843,490</u>

The scheduled principal payments above represent the annual payments required under debt repayment schedules. The current portion of long-term obligations includes debt subject to remarketing arrangements and payments scheduled to be made in 2020.

In 1998, SHC advance refunded its 1993 bonds in the amount of \$89,520 by issuing the 1998 Series B bonds. In 2017, SHC advance refunded a portion of its 2008A and 2010AB bonds in the amount of \$481,185 by issuing the 2017 Series A Bonds. All advance refunded bonds are considered extinguished. Any outstanding 2008A and 2010AB bonds will be redeemed at par by the trustee on November 15, 2020 and November 15, 2021. The following table summarizes the amounts of refunded bonds that remain outstanding:

	<u>Amount Advance Refunded</u>	<u>Amount Outstanding as of August 31,</u>	
	<u>Total</u>	<u>2019</u>	<u>2018</u>
1993 Series	\$ 89,520	\$ 4,330	\$ 6,335
2008 Series A-1	65,610	65,610	65,610
2008 Series A-2	96,625	96,625	96,625
2008 Series A-3	78,090	78,090	78,090
2010 Series A	94,150	94,150	94,150
2010 Series B	146,710	146,710	146,710
Total	<u>\$ 570,705</u>	<u>\$ 485,515</u>	<u>\$ 487,520</u>

Interest Rate Swap Agreements

SHC entered into various interest rate swap agreements to manage fluctuations in cash flows resulting from variable rate debt interest risk. Under the terms of the current agreements, SHC pays a fixed interest rate, determined at inception, and receives a variable rate on the underlying notional principal amount based on a percentage of One Month LIBOR.

SHC currently has nine outstanding interest rate exchange agreements.

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

9. Debt Obligations (Continued)

Interest Rate Swap Agreements (continued)

The following is a summary of the outstanding positions under these interest rate swap agreements at August 31, 2019:

<u>Description</u>	<u>Current Notional</u>	<u>Maturity Date</u>	<u>Rate Paid</u>	<u>Rate Received</u>
2003 Series B	\$ 48,800	11/15/2036	3.365%	70% 1-month LIBOR
2003 Series C	48,700	11/15/2036	3.365%	70% 1-month LIBOR
2003 Series D	<u>52,500</u>	11/15/2036	3.365%	70% 1-month LIBOR
Subtotal LIBOR Swaps	150,000			
2008 Series A-1	66,650	11/01/2040	3.691%	70% 1-month LIBOR
2008 Series A-2	102,775	11/15/2051	3.999%	67% 1-month LIBOR
2008 Series A-3	<u>84,600</u>	11/15/2051	3.902%	67% 1-month LIBOR
Subtotal LIBOR Swaps	254,025			
2012 Series A	68,350	11/15/2045	4.081%	67% 1-month LIBOR
2012 Series B	68,375	11/15/2045	4.077%	67% 1-month LIBOR
2012 Series C	<u>34,175</u>	11/15/2045	4.008%	67% 1-month LIBOR
Subtotal Forward Swaps	170,900			
Total	<u>\$ 574,925</u>			

SHC designates its interest rate swaps that are used to minimize the variability in cash flows of interest-bearing liabilities or forecasted transactions caused by changes in interest rates as hedging instruments at the inception of each contract, with the intention of maintaining hedge accounting treatment over the term of the agreement. However, circumstances may arise whereby the representations made at the inception of the agreement became invalid, or the structure of the bonds is changed, resulting in de-designation of the hedge. In June 2008, the underlying bonds that were being hedged were refinanced and as a result, none of the swap agreements are treated as a hedge for accounting purposes.

The fair value of interest rate swaps (all of which are designated as non-hedging instruments) is shown on the balance sheets as of August 31 as follows:

<u>Description</u>	<u>Fair Value</u>		<u>Balance Sheet Location</u>
	<u>2019</u>	<u>2018</u>	
Fixed Payment Swaps	\$ 316,796	\$ 182,527	Swap liabilities

The change in fair value of the interest rate swaps (all of which are designated as non-hedging instruments) is shown on the consolidated statements of operations and changes in net assets for the years ended August 31 as follows:

<u>Description</u>	<u>Unrealized (Loss) Gain</u>		<u>Statement of Operations Location</u>
	<u>2019</u>	<u>2018</u>	
Fixed Payment Swaps	\$ (134,269)	\$ 63,439	Swap interest and change in value of swap agreements

SHC has two swap agreements which require mutual posting of collateral by SHC and the counterparties if the termination values exceed a predetermined threshold dollar amount. There was \$31,634 of cash collateral posted by SHC at August 31, 2019 but no collateral was posted at August 31, 2018.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

9. Debt Obligations (Continued)

Interest Rate Swap Agreements (continued)

Upon the occurrence of certain events of default or termination events identified in the derivative contracts, either SHC or the counterparty could terminate the contracts in accordance with their terms. Termination results in the payment of a termination amount by one party that attempts to compensate the other party for its economic losses. If interest rates at the time of termination are lower than those specified in the derivatives contract, SHC will make a payment to the counterparty. Conversely, if interest rates at such time are higher, the counterparty will make a payment to SHC.

Bond Interest Expense

Total bond interest expense was \$39,060 and \$33,473 for the years ended August 31, 2019 and 2018, respectively. Interest capitalized as a cost of construction was \$28,861 and \$27,718 for the years ended August 31, 2019 and 2018, respectively.

Since fiscal year 2018, SHC has been recording all swap net settlements in swap interest and change in value of swap agreements on the consolidated statements of operations and changes in net assets.

10. Retirement Plans

SHC provides retirement benefits through defined benefit and defined contribution retirement plans covering substantially all benefit eligible employees.

Defined Contribution Retirement Plan

Employer contributions to the defined contribution retirement plan are based on a percentage of participant annual compensation. Employer contributions to this plan for SHC employees, excluding LPCH employees (see Note 13), totaling \$101,847 and \$98,503, UHA employer contributions totaling \$4,364 and \$4,571 and SHC-VC employer contributions totaling \$5,872 and \$8,290, for the years ended August 31, 2019 and 2018, respectively, are included in salaries and benefits expense in the consolidated statements of operations and changes in net assets.

Defined Benefit Pension Plan

Certain employees of SHC are covered by a noncontributory defined benefit pension plan (the "Staff Pension Plan"). Benefits are based on years of service and the employee's compensation. Contributions to the plans are based on actuarially determined amounts sufficient to meet the benefits to be paid to plan participants.

As of August 31, 2004, SHC assumed the pension liability of the LPCH employees. SHC received \$128 and \$168 in cash for the years ending August 31, 2019 and 2018, respectively, which represented the current year pension expense related to LPCH employees.

During the fiscal year ending August 31, 2018, SHC purchased a group annuity contract for certain SHC Staff Pension Plan retirees. This resulted in a \$41,204 payment from plan assets and a permanent reduction in the plan's benefit obligation and triggered a settlement event. The transaction resulted in additional net periodic benefit expense of \$12,094 for the year ended August 31, 2018.

Postretirement Medical Benefit Plan

SHC currently provides health insurance coverage for SHC employees upon retirement as early as age 55, with years of service as defined by specific criteria. The health insurance coverage for retirees who are under age 65 is the same as that provided to active employees. A Medicare supplement option is provided for retirees over age 65.

10. Retirement Plans (Continued)

Postretirement Medical Benefit Plan (continued)

The following tables present information on plan assets and obligations, costs, and actuarial assumptions for the Staff Pension Plan and the Postretirement Medical Benefit Plan for the years ended August 31, 2019 and 2018, respectively.

The tables for the Postretirement Medical Benefit Plan include SHC and LPCH employees. The total postretirement medical benefit liability was \$101,093 and \$77,544 as of August 31, 2019 and 2018, respectively. SHC recorded a liability within self-insurance reserves in the consolidated balance sheets of \$76,491 and \$60,146 as of August 31, 2019 and 2018, respectively, which represents the liability for SHC employees excluding LPCH employees.

The change in pension and other postretirement plan assets and the related change in benefit obligations, using a measurement date of August 31, as of and for the years ended August 31 are as follows:

	Staff Pension Plan Obligations		Postretirement Medical Benefits	
	2019	2018	2019	2018
Change in plan assets:				
Fair value of plan assets at beginning of year	\$ 180,930	\$ 193,476	\$ -	\$ -
Actual return on plan assets	23,736	7,477	-	-

10. Retirement Plans (Continued)

Postretirement Medical Benefit Plan (continued)

The estimated net loss for the Staff Pension Plan that will be amortized from net assets without donor restrictions into net periodic benefit cost over the next fiscal year is \$2,277.

The estimated net gain and prior service cost for the Postretirement Medical Benefit Plan that will be amortized from net assets without donor restrictions into net periodic benefit cost over the next fiscal year are \$251 and \$2,560, respectively.

The accumulated benefit obligation for the Staff Pension Plan was \$208,922 and \$186,182 as of August 31, 2019 and 2018, respectively.

Net benefit expense related to the plans for the years ended August 31 includes the following components:

	Staff Pension Plan Obligations	
	2019	2018
Service cost	\$ 1,197	\$ 1,611
Interest cost	7,416	8,485
Expected return on plan assets	(9,742)	(12,786)
Amortization of net actuarial loss	1,361	2,605
Settlement loss recognized	-	12,094
Total net periodic benefit cost	<u>\$ 232</u>	<u>\$ 12,009</u>

	Postretirement Medical Benefits	
	2019	2018
Service cost	\$ 2,235	\$ 2,501
Interest cost	2,928	2,685
Amortization of prior service cost	1,426	1,602
Amortization of net actuarial gain	(924)	(580)
Total net periodic benefit cost	<u>\$ 5,665</u>	<u>\$ 6,208</u>

Changes recognized in net assets without donor restrictions for the years ended August 31 include the following components:

	Staff Pension Plan Obligations		Postretirement Medical Benefits	
	2019	2018	2019	2018
Net loss (gain) arising during period	\$ 11,525	\$ (7,604)	\$ 9,652	\$ (6,052)
New prior service cost	-	-	13,767	(671)
Amortizations				
Prior service cost	-	-	(1,426)	(1,602)
(Loss) gain	(1,361)	(14,699)	924	580
Total recognized in net assets without donor restrictions	<u>\$ 10,164</u>	<u>\$ (22,303)</u>	<u>\$ 22,917</u>	<u>\$ (7,745)</u>
Total recognized in net periodic benefit cost and net assets without donor restrictions	<u>\$ 10,396</u>	<u>\$ (10,294)</u>	<u>\$ 28,582</u>	<u>\$ (1,537)</u>

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

10. Retirement Plans (Continued)

Actuarial Assumptions

The weighted-average assumptions used to determine benefit obligations are as follows for the years ended August 31:

	Staff Pension Plan Obligations		Postretirement Medical Benefits	
	2019	2018	2019	2018
Weighted-average assumptions				
Discount rate	2.88%	4.07%	2.77%	3.96%
Rate of compensation increase	3.00%	3.00%	N/A	N/A

The discount rate, expected rate of return on plan assets, and the projected covered payroll growth rates used in determining the above net benefit expense are as follows for the years ended August 31:

	Staff Pension Plan Obligations		Postretirement Medical Benefits	
	2019	2018	2019	2018
Weighted-average assumptions				
Discount rate	4.07%	3.56%	3.96%	3.33%
Expected return on plan assets	5.50%	6.00%	N/A	N/A
Rate of compensation increase	3.00%	3.00%	N/A	N/A

To develop the assumption for the expected rate of return on plan assets, SHC considered the historical and future expected returns. An independent investment consulting firm provided SHC with an estimate of the future expected returns for each asset class based on SHC's asset allocation targets. The evaluation of the historical returns and the future expected returns resulted in the use of 5.5% as the assumption for the expected return on plan assets.

To determine the accumulated postretirement benefit obligation as of August 31, 2019, a 6.25% annual rate of increase in the per capita cost of covered health care was assumed for calendar year 2019, declining gradually to 4.5% by 2038, and remaining at this rate thereafter.

Assumed healthcare cost trend rates have a significant effect on the amounts reported for the postretirement medical benefit plan. Increasing the health care cost trend rate by 1% in each future year would increase the accumulated postretirement benefit obligation by \$2,131 and the aggregate service and interest cost by \$116. Decreasing the health care cost trend rate by 1% in each future year would decrease the accumulated postretirement benefit obligation by \$2,110 and the aggregate service and interest cost by \$121.

Plan Assets

SHC's Staff Pension Plan weighted-average asset allocations as of the measurement date August 31, 2019 and 2018, respectively, by asset category are as follows:

<u>Asset Category</u>	2019	2018
Debt securities	60%	60%
Equity securities	40%	40%
Total	100%	100%

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

10. Retirement Plans (Continued)

Plan Assets (continued)

The following table summarizes SHC's Staff Pension Plan assets measured at fair value on a recurring basis as of August 31, based on the inputs used to value them as defined in Note 7:

	2019			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 483	\$ -	\$ -	\$ 483
Mutual funds	193,159	-	-	193,159
Total assets	<u>\$ 193,642</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 193,642</u>

	2018			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 683	\$ -	\$ -	\$ 683
Mutual funds	180,247	-	-	180,247
Total assets	<u>\$ 180,930</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 180,930</u>

Plan Investments

The investment objective of the Staff Pension Plan funds is to maximize the total rate of return (income and appreciation) within the limits of prudent risk taking and Section 404 of the Employee Retirement Income Security Act. The funds are diversified across asset classes to achieve an optimal balance between risk and return and between income and capital appreciation. Many of the pension liabilities are long-term. The investment horizon is also long-term; however, the investment plan also ensures adequate near-term liquidity to meet benefit payments.

The allowable asset mix range and target asset allocations are:

<u>Asset Category</u>	<u>Acceptable Range</u>	<u>Target Allocation</u>
Equity securities	36% to 60%	40%
Debt securities	20% to 80%	60%

Appropriate investments include common, preferred and convertible equities of domestic and foreign companies, mutual and commingled trust funds, top tier commercial paper, certificates of deposit, and fixed income securities whose assets are rated investment grade or better.

Financial futures and options on futures traded on exchanges are also permitted for hedging purposes. Prohibited investments include commodities, unregistered securities and short sales. Derivative products may not be used to leverage a portfolio or to speculate. All assets must have readily ascertainable market value and be easily marketable.

Portfolios are expected to be well diversified with respect to industry and economic sectors. Equity investments in any one company shall be limited to the greater of 5% of the market value of the portfolio at time of purchase or twice the applicable benchmark weighting of the security. The investment manager shall not hold more than 15% of any company's outstanding equity.

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

10. Retirement Plans (Continued)

Plan Investments (continued)

Fixed income investments may consist of U.S. government, U.S. government guaranteed, and U.S. government agency securities. Corporate bond holdings must have an investment grade credit rating at the time of purchase and during the holding period. No single issuer of fixed income or cash equivalent securities (except for the U.S. Government and its Agencies) will account for more than 10% of the market value of the fixed income securities in a manager's portfolio.

Concentration of Risk

SHC manages a variety of risks, including market, credit, and liquidity risks, across plan assets through investment managers. Concentration of risk is defined as an undiversified exposure to one of the above-mentioned risks that increases the exposure of the loss of plan assets unnecessarily. Risk is minimized by diversifying our exposure to such risks across a variety of instruments, markets, and counterparties. As of August 31, 2019, SHC did not have concentrations of risk in any single entity, manager, counterparty, sector, industry or country.

Expected Contributions

SHC expects to make no contributions to its Staff Pension Plan for both SHC and LPCH employees during the fiscal year ending August 31, 2020. SHC expects to contribute \$5,399 to its Postretirement Medical Benefit Plan for only SHC employees during the fiscal year ending August 31, 2020.

Expected Benefit Payments

The following benefit payments, which reflect expected future service, are expected to be paid for the fiscal years ending August 31:

	Pension Benefits	Postretirement Medical Benefits	
		Net of Medicare Part D Subsidy	Excluding Medicare Part D Subsidy
2020	\$ 11,141	\$ 6,965	\$ 7,248
2021	11,512	7,229	7,363
2022	11,801	7,397	7,527
2023	11,989	7,441	7,565
2024	12,120	7,403	7,521
2025 - 2029	60,958	36,853	37,335

11. Net Assets Without Donor Restrictions

The changes in consolidated net assets without donor restrictions attributable to the controlling financial interest of SHC and the noncontrolling interests, for the years ended August 31, are as follows:

	Total	Controlling Interest	Noncontrolling Interests
Balance as of September 1, 2017	\$ 2,893,173	\$ 2,871,113	\$ 22,060
Excess of revenues over expenses	470,243	471,954	(1,711)
Noncontrolling capital distribution	(1,200)	-	(1,200)
Other changes in net assets without donor restrictions	(58,091)	(57,669)	(422)
Balance as of August 31, 2018	3,304,125	3,285,398	18,727
Excess of revenues over expenses	364,460	357,087	7,373
Other changes in net assets without donor restrictions	(122,710)	(123,521)	811
Balance as of August 31, 2019	\$ 3,545,875	\$ 3,518,964	\$ 26,911

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

12. Net Assets With Donor Restrictions

Net assets with donor restrictions consist of the following at August 31:

	<u>2019</u>	<u>2018</u>
Subject to expenditure for specified purpose:		
Plant facilities	\$ 543,577	\$ 498,752
Pledges receivables	62,396	84,535
Other	46,447	51,557
Total subject to expenditure for specified purpose	<u>652,420</u>	<u>634,844</u>
Subject to restriction in perpetuity:		
Accumulated appreciation	14,922	13,982
Endowment	9,431	8,233
Total subject to restriction in perpetuity	<u>24,353</u>	<u>22,215</u>
Total net assets with donor restrictions	<u>\$ 676,773</u>	<u>\$ 657,059</u>

Endowments

In 2009, California adopted a version of the Uniform Prudent Management of Institutional Funds Act ("UPMIFA"). SHC has interpreted UPMIFA as requiring the preservation of the original gift as of the gift date of donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, SHC classifies as endowments (a) the original value of gifts donated, (b) the original value of subsequent gifts, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

In accordance with UPMIFA, SHC considers the following factors in making a determination to appropriate or accumulate endowment funds:

1. The duration and preservation of the fund.
2. The purposes of SHC and the donor restricted endowment fund.
3. General economic conditions.
4. The possible effect of inflation and deflation.
5. The expected total return from income and the appreciation of investments.
6. Other resources of the organization.
7. The investment policies of the organization.

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

12. Net Assets With Donor Restrictions (Continued)

Endowments (continued)

Changes in SHC's endowment for the years ended August 31, 2019 and 2018 are as follows:

	<u>2019</u>	<u>2018</u>
Endowment net assets, beginning of year	\$ 22,215	\$ 20,711
Investment return:		
Investment income	599	541
Mark to market adjustments	<u>702</u>	<u>1,256</u>
Total investment return	1,301	1,797
Contributions	1,198	89
Expenditures	<u>(361)</u>	<u>(382)</u>
Endowment net assets, end of year	<u>\$ 24,353</u>	<u>\$ 22,215</u>

The portion of endowment funds that is required to be retained either by explicit donor stipulation or by California UPMIFA, as of August 31, 2019 and 2018 are as follows:

	<u>2019</u>	<u>2018</u>
Clinical services	\$ 5,882	\$ 5,855
Education	7,380	6,993
Indigent care and other	<u>11,091</u>	<u>9,367</u>
Total endowment classified as net assets with donor restrictions	<u>\$ 24,353</u>	<u>\$ 22,215</u>

All of SHC's endowment, totaling \$24,353 and \$22,215 at August 31, 2019 and 2018, respectively, are invested in the MP. The original funds are held in perpetuity and invested to generate income to support operating and strategic initiatives.

Return Objectives and Risk Parameters

The return objective for the endowment assets is to generate optimal total return while maintaining an appropriate level of risk established by the University.

Strategies Employed for Achieving Investment Objectives

SHC relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized gain) and current yield (interest and dividend) managed by the MP.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

13. Related-Party Transactions

Transactions with the University and SoM

SHC has various transactions with the University and the SoM. SHC records expense transactions where direct and incremental economic benefits are received by SHC.

Expenses paid to the University and the SoM are reported as operating expenses in the consolidated statements of operations and changes in net assets and are management's best estimates of SHC's arms-length payments of such amounts for its market specific circumstances. To the extent that payments to the University and the SoM exceed an arms-length estimated amount relative to the benefits received by SHC, they are recorded as transfers to the University and the SoM in other changes in net assets.

SHC purchases certain services from the University and the SoM. Payment for these services is based on management's best estimate of its market specific circumstances.

Services provided by the SoM include physician services that benefit SHC, such as emergency room coverage, physicians providing medical direction to SHC, and physicians providing service to the clinical practice, which are covered by the Professional Services Agreement ("PSA"). Such expenses are reflected as purchased services in the consolidated statements of operations and changes in net assets, and total \$808,567 and \$739,908 for the years ended August 31, 2019 and 2018, respectively.

Services provided by the University and other SoM non-physician services include telecommunications, transportation, utilities, and certain administrative services, such as legal and internal audit. Total costs incurred by SHC were \$122,615 and \$96,559 for the years ended August 31, 2019 and 2018, respectively, and are reflected in various categories in the consolidated statements of operations and changes in net assets.

SHC paid service fees to the University in the amount of \$2,211 and \$2,369 for the years ended August 31, 2019 and 2018, respectively. The service fees represent costs for the utilization of infrastructure owned by the University such as road improvements, parking garages and generators and are reflected in the consolidated statements of operations and changes in net assets as other expense. Expected payments over the next 14 years total \$13,902. Annual service fees range from approximately \$1,598 for the year ending August 31, 2020 to \$648 for the year ending August 31, 2033.

SHC also received payment for services provided to the University including primarily building maintenance, housekeeping, and security. Costs incurred by SHC in providing these services are reflected in the respective categories in the consolidated statements of operations and changes in net assets. Reimbursement from the University totaled \$48,402 and \$45,351 for the years ended August 31, 2019 and 2018, respectively, and is reflected in the consolidated statements of operations and changes in net assets as expense recoveries.

In addition, SHC received certain grant monies for clinical trials from the University. Grant revenue totaled \$5,832 and \$6,058 for the years ended August 31, 2019 and 2018, respectively, and is reflected in the consolidated statements of operations and changes in net assets as net patient service revenue and recoveries.

During the year ended August 31, 2004, SHC paid \$5,500 to the University. The amount represented a prepayment of a 51 year lease for property owned by the University. The short-term portion of \$108 is included in prepaid expenses and other in the consolidated balance sheets as of August 31, 2019 and 2018. The remaining amount included in other assets in the consolidated balance sheets is \$3,487 and \$3,594 as of August 31, 2019 and 2018, respectively.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

13. Related-Party Transactions (Continued)

Transactions with the University and SoM (continued)

For the years ended August 31, 2019 and 2018, SHC transferred \$120,090 and \$98,183, respectively, to the University. These funds are used by the University to support the academic mission of the SoM and its initiatives as well as the general support of the academic community and physical plant. Total transfers of \$120,090 and \$98,183 for the years ended August 31, 2019 and 2018, respectively, are included in other changes in net assets without donor restrictions in the consolidated statements of operations and changes in net assets.

SHC also sent equity transfers of \$316 and received equity transfers of \$2,177 during the years ended August 31, 2019 and 2018, respectively, which represented restricted gifts originally donated to the University. These gifts were subsequently re-designated mostly for SHC patient care services and the New Stanford Hospital and are included in changes in net assets with donor restrictions in the consolidated statements of operations and changes in net assets.

Transactions with Companies of University Board Members

Certain Board Members of the University are executives of companies doing business with SHC. Material transactions are with Goldman Sachs and primarily relate to interest rate swap agreements. As of August 31, 2019, and 2018, SHC had an interest rate swap liability to Goldman Sachs of \$77,826 and \$43,731, respectively, and posted collateral of \$5,440 at August 31, 2019 for the same interest rate swap agreement. There was no collateral posted at August 31, 2018. Additionally, SHC made net swap payments to Goldman Sachs of \$2,482 and \$3,002 for the years ended August 31, 2019 and 2018, respectively.

Transactions with LPCH

SHC and LPCH share certain departments, including facilities design and construction, materials management, Managed Care contracting, compliance and general services. Shared service costs are included in the respective categories on the consolidated statements of operations and changes in net assets, and are allocated between SHC and LPCH based on negotiated rates. Reimbursement received from LPCH totaled \$38,175 and \$33,725 for the years ended August 31, 2019 and 2018, respectively, and is reflected in the consolidated statements of operations and changes in net assets as expense recoveries.

SHC provides various services to LPCH. These services include operating room, cardiac catheterization, interventional radiology, radiation oncology and laboratory. The cost of these services is charged back to LPCH based on a percentage of charges intended to approximate cost or a cost per procedure. Costs of these purchased services are reflected in the appropriate category in the consolidated statements of operations and changes in net assets. Reimbursement of purchased services from LPCH totaled \$38,375 and \$43,344 for the years ended August 31, 2019 and 2018, respectively, and is reflected in the consolidated statements of operations and changes in net assets as net patient service revenue.

Other services provided by SHC include services provided by interns and residents, building maintenance, IT and utilities. Reimbursement of these services totaled \$41,882 and \$41,931 for the years ended August 31, 2019 and 2018, respectively, and is reflected in the consolidated statements of operations and changes in net assets as expense recoveries.

SHC had not received any reimbursements related to capital projects during the year ended August 31, 2019, but received \$2,068 from LPCH for the year ended August 31, 2018.

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

14. Operating and Capital Leases

SHC leases various equipment and facilities under non-cancelable lease agreements expiring at various dates. Total rental expense (included in other expense in the consolidated statements of operations and changes in net assets) under these leases for the years ended August 31, 2019 and 2018 was \$122,587 and \$116,264, respectively.

Net minimum future lease payments under all non-cancelable operating leases and capital lease obligations for periods subsequent to August 31, 2019 are as follows:

Year Ending August 31,	<u>Operating</u>	<u>Capital</u>
2020	\$ 79,271	\$ 107
2021	73,406	107
2022	70,468	107
2023	64,352	30
2024	40,570	-
Thereafter	<u>73,019</u>	<u>-</u>
Total	<u>\$ 401,086</u>	351
Less amount representing interest		(26)
Subtotal		<u>325</u>
Current portion		(93)
Long-term portion, net of current portion		<u>\$ 232</u>

SHC leases space in its medical office buildings to others under non-cancelable operating lease arrangements. Future minimum base rentals to be received under these leases in place as of August 31, 2019 are as follows:

Year Ending August 31,	
2020	\$ 5,591
2021	5,513
2022	4,934
2023	2,449
2024	1,705
Thereafter	<u>9,594</u>
Total	<u>\$ 29,786</u>

15. Commitments and Contingencies

SHC is aware of certain asserted and unasserted legal claims. While the outcome cannot be determined at this time, management is of the opinion that the liability, if any, from these actions will not have a material effect on SHC's financial position.

SHC has irrevocable standby letters of credit in the amount of \$18,964, which are required as security for the workers' compensation self-insurance arrangements and \$2,210 to serve as a security deposit for certain construction projects being undertaken by SHC. No amounts have been drawn on these letters of credit as of August 31, 2019.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

15. Commitments and Contingencies (Continued)

At August 31, 2019, SHC had contractual obligations of approximately \$227,662 primarily related to the construction of the new hospital and other capital projects and approximately \$544,439 to support SHC's operations, such as maintenance, food services, valet services and other purchased services.

Effective December 23, 2014, SHC entered into a five-year agreement with a global technology services and outsourcing company, pursuant to which SHC will receive certain information technology services. Under the terms of the agreement, SHC will be charged fixed fees for one-time transition services, ongoing recurring and event-based fees for information technology services, and additional fees plus expenses for project work agreed upon pursuant to work orders. SHC anticipated that it would spend approximately \$36,000 over the initial term of the agreement. Effective April 1, 2019, SHC extended this contract for an additional five-year term through March 31, 2024, with no limit on renewals. SHC anticipates it will spend approximately \$36,000 over the extended term of the agreement.

Effective May 30, 2019, SHC entered into an agreement for the option to purchase land and buildings ("Block E") from the University. Block E consists of approximately six acres of land and office buildings located in Redwood City, California. The total purchase price is \$75,000. Under the terms of the agreement, SHC may exercise options up to four years to purchase Block E and the option price will be four equal installments of \$2,250 non-refundable deposits with the first being due three days after the effective date of the agreement, and the last on September 1, 2021. If SHC exercises all four years of options, the balance of \$66,000 is due and payable by August 31, 2022, unless exercised sooner by SHC. SHC intends to initially develop a 228,000 square foot medical clinic on Block E.

The healthcare industry is subject to numerous laws and regulations of federal, state and local governments. Compliance with these laws and regulations can be subject to future government review and interpretation, as well as to regulatory actions unknown or unasserted at this time. Government activity with respect to investigations and allegations concerning possible violations of regulations by healthcare providers could result in the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. SHC is subject to similar regulatory reviews, and while such reviews may result in repayments and/or civil remedies that could have a material effect on SHC's financial results of operations in a given period, management believes that such repayments and/or civil remedies would not have a material effect on SHC's financial position.

As with many medical centers across the country, information security and privacy is a growing risk area based on developments in the law and expanding mobile technology practices. SHC has policies, procedures, and training in place to safeguard protected information, but select incidents have occurred in the past and may occur in the future involving potential or actual disclosure of such information (including, for example, certain identifiable information relating to patients or research participants). In most cases, there has been no evidence of unauthorized access to, or use/disclosure of, such information, yet laws may require reporting to potentially affected individuals and federal and state governmental agencies. Governmental agencies have the authority to investigate and request further information about an incident or safeguards, to cite SHC for a deficiency or regulatory violation, and/or require payment of fines, corrective action, or both. California law also allows a private right to sue for a breach of medical information. The cost of such possible consequences has not been material to date to SHC, and management does not believe that any future consequences of these incidents will be material to the consolidated financial statements.

The percentage of SHC employees that are covered by collective bargaining arrangements is approximately 29%. There are currently no expired agreements.

Stanford Health Care

Notes to Consolidated Financial Statements

(in thousands of dollars)

15. Commitments and Contingencies (Continued)

California's Hospital Seismic Safety Act requires licensed acute care functions to be conducted only in facilities that meet specified seismic safety standards for structural performance. Facilities classified by the State of California as non-compliant in the event of an earthquake must be retrofitted, replaced or removed from acute care service by applicable deadlines between 2020 and 2030.

The California Office of Statewide Health Planning and Development has classified a substantial portion of Stanford Hospital as compliant with seismic safety structural standards through 2030 and beyond. Certain patient care activities are located in three existing buildings that can be used for inpatient care only until January 1, 2026, at which time, they must be removed from general acute care service. However, these three buildings have utility system configurations that must be modified to support inpatient functions until they are removed from acute care service. Work is in progress now to remedy the utility infrastructure deficiencies by January 1, 2020. The opening of the New Stanford Hospital in 2019 will allow a substantial reduction in the number of inpatient beds occupying non-compliant structures. Work is in progress to construct additional inpatient beds by 2026 to completely relocate all inpatients from non-compliant structures.

SHC also has buildings that do not meet the structural seismic safety standards for 2020 compliance, but none of those buildings have any direct inpatient care. SHC received approval from the State of California via Senate Bill 90 to extend the structural compliance deadline for these buildings through the end of 2019, and subsequently to remove those buildings from the roster of hospital structures by January 1, 2020. SHC believes it will fulfill the requirements for compliance that are due by January 1, 2020.

In June 2011, the Palo Alto City Council certified the Final Environmental Impact Report, land use changes, permits and a Development Agreement with SHC, LPCH and the University as part of a Renewal Project. In July 2011, the Palo Alto City Council provided final approval for the Renewal Project at the second reading of the Development Agreement. The Renewal Project will rebuild Stanford Hospital and expand LPCH to assure adequate capacity, meet State-mandated earthquake safety standards, and provide modern, technologically-advanced hospital facilities. The Renewal Project also includes replacement of outdated laboratory facilities at the SoM and remodeling of Hoover Pavilion. SHC's share of the estimated cost is approximately \$2.2 billion. As of August 31, 2019, SHC has capitalized \$2,081 million, exclusive of \$180 million in capitalized interest, related to this project. SHC's portion of the Renewal Project construction was completed in Fall 2019.

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

16. Functional Expenses

Expenses are reported in their natural classification in the functional expense categories. All expenses that are not determined to be management and general or fundraising are classified as patient services. Certain cost centers are purely administrative and not directly related to patient care; therefore, the expenses from these cost centers are categorized as management and general. Fundraising expenses include cost centers solely dedicated to fundraising as well as allocation of employees who have involved with fundraising activities. Certain Informational and Technology costs support more than one functional expense category. A percentage of their expenses are allocated to management and general based on the most recent audited annual Office of Statewide Health Planning and Development Report.

Expenses are categorized on a functional basis for the years ended August 31 are as follows:

	2019			
	Patient services	Management and general	Fundraising	Total
Salaries and benefits	\$ 2,082,191	\$ 219,615	\$ 593	\$ 2,302,399

Total	<u>\$ 4,119,260</u>	<u>\$ 457,722</u>	<u>\$ 12,905</u>	<u>\$ 4,589,887</u>

17. Subsequent Events

SHC has evaluated subsequent events occurring between the end of the most recent fiscal year and December 3, 2019, the date the consolidated financial statements were issued.

Events Subsequent to Original Issuance of Financial Statements (Unaudited)

In connection with the reissuance of the financial statements, SHC has evaluated subsequent events through March 25, 2020, the date the financial statements were available to be reissued. Since December 3, 2019, the novel strain of coronavirus emerged and in January 2020 the World Health Organization has declared the novel coronavirus a Public Health Emergency of International Concern.

Stanford Health Care
Notes to Consolidated Financial Statements
(in thousands of dollars)

The State of California has adopted various measures as well to address the spread of this pandemic, including in March 2020, the health officers of six San Francisco Bay Area counties issued “shelter-in-place” orders restricting non-essential activities, travel and business operations, continuing until April 7, 2020 unless further extended. The Governor of California and the State Public Health Officer and Director of the California Department of Public Health have also ordered all individuals living in the State of California to stay in their place of residence for an indefinite period of time, subject to certain exceptions for necessary activities. Such orders or restrictions, and the perception that such orders or restrictions could occur, have resulted in business closures, work stoppages, slowdowns and delays, work-from-home policies, travel restrictions and cancellation of events, including the rescheduling of elective or non-critical procedures (which management believes is temporary and such procedures will be performed at a later date) and redeployment of resources to address the novel coronavirus needs, among other effects. While we expect that the novel coronavirus may negatively impact our 2020 results, we believe we have sufficient liquidity to meet our operating and financing needs; however, given the difficulty in predicting the ultimate duration and severity of the impact of the novel coronavirus on our organization, the economy and the financial markets, the ultimate impact may be material.

**Report of Independent Auditors
on Accompanying Consolidating Information**

To the Board of Directors
Stanford Health Care

We have audited the consolidated financial statements of Stanford Health Care (“SHC”) and its subsidiaries as of August 31, 2019 and for the year then ended and our report thereon appears on page one of this document. That audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and cash flows of the individual companies and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations and cash flows of the individual companies.

SUMMARY OF PRINCIPAL DOCUMENTS

The following is a summary of certain provisions of the Amended and Restated Master Indenture of Trust, dated as of June 1, 2011 and effective as of June 16, 2011 (as supplemented and amended from time to time pursuant to its terms, the "Master Indenture"), between Stanford Health Care, formerly known as Stanford Hospital and Clinics (the "Corporation"), and The Bank of New York Mellon Trust Company, N.A., as master trustee (the "Master Trustee"), the Supplemental Master Indenture of Trust for Obligation No. 42, dated as of April 1, 2020 ("Supplement No. 42"), between the Corporation and the Master Trustee, the Indenture, dated as of April 1, 2020 (the "Indenture"), between the California Health Facilities Financing Authority (the "Authority") and The Bank of New York Mellon Trust Company, N.A., as trustee, and the Loan Agreement, dated as of April 1, 2020 (the "Loan Agreement"), between the Corporation and the Authority. This summary does not purport to be complete or definitive, is supplemental to the summary of other provisions of such documents described elsewhere in this Official Statement and is qualified in its entirety by reference to the full terms of the Master Indenture, Supplement No. 42, the Indenture and the Loan Agreement. All capitalized terms used and not otherwise defined in this Official Statement have the meanings assigned to such terms in the Indenture or, if not set forth in the Indenture, in the Master Indenture.

DEFINITIONS OF CERTAIN TERMS

Account Control Agreement means an agreement providing for control of deposit accounts within the meaning of Division 9 of the California Commercial Code, including Section 9104 of the California Commercial Code, entered into by one or more Members of the Obligated Group, the Master Trustee and a Depository Bank.

Accountant means, for purposes of the Master Indenture, any independent certified public accountant or firm of independent certified public accountants selected by the Obligated Group Representative.

Act means the California Health Facilities Financing Authority Act, constituting Part 7.2 of Division 3 of Title 2 of the Government Code of the State of California, as now in effect and as it may from time to time hereafter be amended or supplemented.

Additional Payments means the payments so designated and required to be made by the Corporation pursuant to the provisions of the Loan Agreement.

Administrative Fees and Expenses means any application, commitment, financing or similar fee charged, or reimbursement for administrative or other expenses incurred, by the Authority or the Trustee.

Affiliated Corporation means any corporation which, directly or indirectly through one or more intermediaries, controls, is controlled by or is under common control with, an Obligated Group Member.

Agreement or **Loan Agreement** means that certain Loan Agreement, dated as of April 1, 2020, between the Authority and the Corporation, as originally executed and as it may from time

to time be supplemented, modified or amended in accordance with the terms thereof and of the Indenture.

Amended Master Indenture Effective Date means June 16, 2011.

Annual Debt Service means for each Fiscal Year the sum (without duplication) of the aggregate amount of principal and interest scheduled to become due and payable in such Fiscal Year on all Long-Term Indebtedness of the Obligated Group then Outstanding (by scheduled maturity, acceleration, mandatory redemption or otherwise, but not including purchase price coming due as a result of a mandatory or optional tender or put), less any amounts of such principal or interest to be paid during such Fiscal Year from (a) the proceeds of Indebtedness or (b) moneys or Government Obligations deposited in trust for the purpose of paying such principal or interest; provided that if a Financial Products Agreement is being entered into by any Obligated Group Member concurrently or substantially concurrently with the incurrence of Long-Term Indebtedness and with respect to such Long-Term Indebtedness or if a Financial Products Agreement has been entered into by any Obligated Group Member with respect to Long-Term Indebtedness, interest on such Long-Term Indebtedness shall be included in the calculation of Annual Debt Service by including for each Fiscal Year an amount equal to the amount of interest payable on such Long-Term Indebtedness in such Fiscal Year at the rate or rates stated in such Long-Term Indebtedness plus any Financial Product Payments under a Financial Products Agreement payable in such Fiscal Year minus any Financial Product Receipts under a Financial Products Agreement receivable in such Fiscal Year; provided that in no event shall any calculation made pursuant to this clause result in a number less than zero being included in the calculation of Annual Debt Service. For purposes of computing Annual Debt Service, the principles and assumptions set forth under the definition of Maximum Annual Debt Service shall be applied.

Appraisal Institute means the global membership association of professional real estate appraisers designated by that name or any successor thereto.

Authority means the California Health Facilities Financing Authority, created pursuant to, and as defined in, the Act, and its successors.

Authorized Denomination or Minimum Authorized Denomination means \$5,000 and any multiple integral thereof.

Authorized Representative means, for purposes of the Master Indenture, with respect to each Obligated Group Member, the chair of its Governing Body, its president or chief executive officer, its chief financial officer or any other person designated as an Authorized Representative of such Obligated Group Member by a Certificate of that Obligated Group Member signed by the chair of its Governing Body, its president or chief executive officer, or its chief financial officer and filed with the Master Trustee.

Authorized Representative means, for purposes of the Indenture and Loan Agreement, with respect to the Authority, its Chairperson (or any Deputy), Executive Director, or any other Person or Persons designated as an Authorized Representative of the Authority by a Certificate of the Authority signed by its Chairperson (or any Deputy), or Executive Director, and with respect to the Corporation, the Chair or Vice Chair of its governing body, its chief executive officer, its

chief operating officer, its chief financial officer, or any other person designated as an Authorized Representative of the Corporation by a Certificate of the Corporation signed by its chief executive officer, its chief operating officer or its chief financial officer and filed with the Trustee.

Balloon Indebtedness means either (a) Long-Term Indebtedness or (b) Commercial Paper Indebtedness or Short-Term Indebtedness which is intended to be refinanced upon or prior to its maturity so that such Commercial Paper Indebtedness or Short-Term Indebtedness, as applicable, and the Indebtedness intended to be used to refinance such Commercial Paper Indebtedness or Short-Term Indebtedness, as applicable, will be scheduled to be outstanding for a total of more than three hundred sixty-five (365) days as certified in an Officer's Certificate, in either case twenty-five percent (25%) or more of the original principal of which matures (or is redeemable at the option of the holder) in the same Fiscal Year, if such twenty-five percent (25%) or more is not to be amortized below twenty-five percent (25%) by mandatory redemption prior to such Fiscal Year.

Beneficial Owner means any Person which has or shares the power, directly or indirectly, to make investment decisions concerning ownership of any of the Bonds (including any Person holding Bonds through nominees, depositories or other intermediaries).

Bond Counsel means an attorney-at-law, or firm of such attorneys, of nationally recognized standing in matters pertaining to the tax-exempt nature of interest on obligations issued by states and their political subdivisions and acceptable to the Authority.

Bondholder or **Holder**, whenever used with respect to a Bond, means the Person in whose name such Bond is registered.

Bonds means the California Health Facilities Financing Authority Revenue Bonds (Stanford Health Care), 2020 Series A, authorized by, and at any time Outstanding pursuant to, the Indenture.

Book Value means, when used in connection with Property, Plant and Equipment or other Property of any Obligated Group Member, the value of such property, net of accumulated depreciation, as it is carried on the books of such Obligated Group Member and in conformity with GAAP, and when used in connection with Property, Plant and Equipment or other Property of the Obligated Group, means the aggregate of the values so determined with respect to such Property of each Obligated Group Member determined in such a way that no portion of such value of Property of any Obligated Group Member is included more than once.

Business Day means a day that is not a Saturday, Sunday or a legal holiday on which banking institutions in (a) the State of California or the State of New York, (b) the city or cities in which the Principal Office of the Trustee, (c) or a day on which The New York Stock Exchange is closed.

Certificate, Statement, Request and Requisition of the Authority or the Corporation mean, respectively, a written certificate, statement, request or requisition signed in the name of the Authority by its Chairperson, any Deputy to the Chairperson, the Executive Director or such other person as may be designated and authorized to sign for the Authority, or in the name of the Corporation by an Authorized Representative of the Corporation.

Certificate, Statement, Request, Consent or Order of any Obligated Group Member or of the Master Trustee means, respectively, a written certificate, statement, request, consent or order signed in the name of such Obligated Group Member by an Authorized Representative or in the name of the Master Trustee by a Responsible Officer.

Code means the Internal Revenue Code of 1986 or any successor statute thereto and any regulations promulgated thereunder. Reference to any particular Code section shall, in the event of such a successor Code, be deemed to be a reference to the successor to such Code section.

Collateral means all of the following whether now existing or hereafter created or acquired (a) all Gross Revenues, (b) all accounts comprising the Gross Revenue Fund, (c) all accounts and accounts receivable, including health-care-insurance receivables and (d) all proceeds of any of the foregoing. The terms "accounts" and "health-care-insurance receivables" are used in the Master Indenture with meanings as defined in the California Commercial Code Division 9. Notwithstanding the foregoing, "Collateral" shall not include Restricted Assets.

Commercial Paper Indebtedness means Indebtedness with a maturity not in excess of two hundred seventy (270) days), the proceeds of which are to be used: (i) to provide interim financing for capital improvements, (ii) to support current operations or (iii) for other corporate purposes. Commercial Paper Indebtedness shall not constitute Short-Term Indebtedness for any purpose under the Master Indenture.

Completion Indebtedness means any Long-Term Indebtedness incurred for the purpose of financing the completion of construction or equipping of any project for which Long-Term Indebtedness has theretofore been incurred in accordance with the provisions of the Master Indenture, to the extent necessary to provide a completed and fully equipped facility of the type and scope contemplated at the time said Long-Term Indebtedness was incurred, and in accordance with the general plans and specifications for such facility as originally prepared in connection with the related financing as certified by an Officer's Certificate.

Continuing Disclosure Agreement means that certain Continuing Disclosure Agreement, dated the Issue Date, between the Corporation and The Bank of New York Mellon Trust Company, N.A., as trustee and as dissemination agent, as originally executed and as it may from time to time be supplemented, modified or amended in accordance with its terms.

Corporate Trust Office means the office of the Master Trustee at which its principal corporate trust business is conducted, which at the date hereof is located at 400 South Hope Street, Suite 400, Los Angeles, California 90071, or at such other or additional offices as shall be specified by the Master Trustee in a writing delivered to the Obligated Group Representative.

Corporation means Stanford Health Care, formerly known as Stanford Hospital and Clinics, a nonprofit public benefit corporation duly organized and validly existing under the laws of the State of California, or any corporation that is the surviving, resulting or transferee corporation in any merger, consolidation or transfer of all or substantially all assets permitted under the Master Indenture.

Counsel means an attorney duly admitted to practice law before the highest court of any state.

Debt Service Coverage Ratio means, for any Fiscal Year, the ratio determined by dividing Income Available for Debt Service for such Fiscal Year by Maximum Annual Debt Service.

Default means, for purposes of the Master Indenture, an event that, with the passage of time or the giving of notice or both, would become an Event of Default.

Depository Bank means a financial institution which has entered into an Account Control Agreement with one or more Obligated Group Members and the Master Trustee.

DTC means The Depository Trust Company, a limited purpose trust company organized under the laws of the State of New York, and its successors and assigns.

Electronic Means includes email transmissions, facsimile transmission or other electronic means of communication providing evidence of transmission, including a telephone communication confirmed by any other method set forth in this definition, and, with respect to communications with the Trustee means the following communications methods: email, facsimile transmission, secure electronic transmission containing applicable authorization codes, passwords and/or authentication keys issued by the Trustee, or another method or system specified by the Trustee as available for use in connection with its services under the Indenture.

Electronic Notice means notice delivered by Electronic Means.

ERISA means the Employee Retirement Income Security Act of 1974.

Event of Default means, for purposes of the Indenture, any of the events of default specified in the Indenture, and means, for purposes of the Master Indenture, any of the events of default specified in the Master Indenture.

Existing Obligations means the Obligations listed on Exhibit B to the Master Indenture.

Existing Parity Financial Product Extraordinary Payments means the Parity Financial Product Extraordinary Payments listed on Exhibit C to the Master Indenture.

Fair Market Value, when used in connection with Property, means the fair market value of such Property as determined by either:

(1) an appraisal of the portion of such Property which is real property made within five years of the date of determination by a member of the Appraisal Institute and by an appraisal of the portion of such Property which is not real property made within five years of the date of determination by any expert qualified in relation to the subject matter, provided that any such appraisal shall be performed by an Independent Consultant, adjusted for the period, not in excess of five years, from the date of the last such appraisal for changes in the implicit price deflator for the gross national product as reported by the United States Department of Commerce or its successor agency, or if such index is no longer published, such other index certified to be comparable and appropriate in an Officer's Certificate delivered to the Master Trustee;

(2) a bona fide offer for the purchase of such Property made on an arm's-length basis within six months of the date of determination, as established by an Officer's Certificate; or

(3) an officer of the Obligated Group Representative (whose determination shall be made in good faith and set forth in an Officer's Certificate filed with the Master Trustee) if the fair market value of such Property is less than or equal to the greater of \$5,000,000 or 2.5% of cash and equivalents as shown on the most recent Financial Statements.

Favorable Opinion of Bond Counsel means an opinion of Bond Counsel, addressed to the Trustee, to the effect that the action proposed to be taken with respect to Bonds is authorized or permitted by the Indenture and will not, in and of itself, adversely affect any exclusion of interest on the Bonds from gross income for purposes of federal income taxation.

Financial Product Extraordinary Payments means any payments required to be paid to a counterparty by an Obligated Group Member pursuant to a Financial Product Agreement in connection with the termination thereof, tax gross-up payments, expenses, default interest, and any other payments or indemnification obligations to be paid to a counterparty by an Obligated Group Member under a Financial Product Agreement, which payments are not Financial Product Payments.

Financial Product Extraordinary Receipts means any payments required to be paid to an Obligated Group Member by a counterparty pursuant to a Financial Product Agreement in connection with the termination thereof, tax gross-up payments, expenses, default interest, and any other payments or indemnification obligations to be paid to an Obligated Group Member by a counterparty under a Financial Product Agreement, which payments are not Financial Product Receipts.

Financial Product Payments means regularly scheduled payments required to be paid to a counterparty by an Obligated Group Member pursuant to a Financial Products Agreement.

Financial Product Receipts means regularly scheduled payments required to be paid to an Obligated Group Member by a counterparty pursuant to a Financial Products Agreement.

Financial Products Agreement means any interest rate exchange agreement, hedge or similar arrangement, including, without limitation, an interest rate swap, asset swap, a constant maturity swap, a forward or futures contract, cap, collar, option, floor, forward or other hedging agreement, arrangement or security, direct funding transaction or other derivative, however denominated and whether entered into on a current or forward basis, identified to the Master Trustee in an Officer's Certificate of the Obligated Group Representative as having been entered into by an Obligated Group Member with a Qualified Provider: (a) with respect to Indebtedness (which is either then-Outstanding or to be incurred after the date of such Certificate) identified in such Certificate for the purpose of (1) reducing or otherwise managing the Obligated Group Member's risk of interest rate changes or (2) effectively converting the Obligated Group Member's interest rate exposure, in whole or in part, from a fixed rate exposure to a variable rate exposure, or from a variable rate exposure to a fixed rate exposure; or (b) for any other interest rate, investment, asset or liability management purpose.

Financial Statements means financial statements complying with the provisions set forth in the Master Indenture and described under the caption "Master Indenture - Covenants - Preparation and Filing of Financial Statements, Certificates and Other Information."

Fiscal Year means the period beginning on September 1 of each year and ending on the next succeeding August 31, or any other twelve-month period hereafter designated by the Obligated Group Representative as the fiscal year of the Obligated Group.

Fitch means Fitch, Inc., doing business as Fitch Ratings, a corporation organized and existing under the laws of the State of Delaware, its successors and their assigns, or, if such corporation shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, any other nationally recognized securities rating agency designated by the Corporation by notice in writing to the Authority and the Trustee.

GAAP means accounting principles generally accepted in the United States of America, consistently applied.

Governing Body means, when used with respect to any Obligated Group Member, its board of directors, board of trustees or other board or group of individuals in which all of the powers of such Obligated Group Member are vested, except for those powers reserved to the corporate membership of such Obligated Group Member by the articles of incorporation or bylaws of such Obligated Group Member.

Government Issuer means any municipal corporation, political subdivision, state, territory or possession of the United States, or any constituted authority or agency or instrumentality of any of the foregoing empowered to issue obligations on behalf thereof, which obligations would constitute Related Bonds under the Master Indenture.

Government Obligations means: (1) direct obligations of the United States of America (including obligations issued or held in book-entry form on the books of the Department of the Treasury of the United States of America) or obligations the timely payment of the principal of and interest on which are fully guaranteed by the United States of America; (2) obligations issued or guaranteed by any agency, department or instrumentality of the United States of America if the obligations issued or guaranteed by such entity are rated in one of the two highest rating categories of a Rating Agency (without regard to any gradation of such rating category); (3) certificates which evidence ownership of the right to the payment of the principal of and interest on obligations described in clauses (1) and/or (2), provided that such obligations are held in the custody of a bank or trust company in a special account separate from the general assets of such custodian; and (4) obligations the interest on which is excluded from gross income for purposes of federal income taxation pursuant to Section 103 of the Code, and the timely payment of the principal of and interest on which is fully provided for by the deposit in trust of cash and/or obligations described in clauses (1), (2) and/or (3).

Governmental Unit shall have the meaning set forth in Section 150 of the Code.

Gross Revenue Fund means the fund by that name established pursuant to the Master Indenture.

Gross Revenues means all revenues, income, receipts and money now existing or hereafter received by each Obligated Group Member, including: (a) gross revenues collected from its operations and possession of and pertaining to its properties; (b) gifts, grants, bequests, donations and contributions; (c) proceeds derived from (i) condemnation, (ii) insurance, (iii) accounts and

accounts receivable, including health-care-insurance receivables, (iv) payment intangibles, (v) inventory and other tangible and intangible property, (vi) medical reimbursement programs and agreements, (vii) contract rights and other rights and assets now or hereafter owned, held or possessed by or on behalf of any Obligated Group Member; and (d) rentals received from the lease of real estate. The terms "accounts," "health-care-insurance receivables," "payment intangibles," and "inventory" as used in the Master Indenture shall have the meanings ascribed to such terms in the California Commercial Code Divisions 8 and 9. Notwithstanding the foregoing, "Gross Revenues" shall not include Restricted Assets.

Guaranty means all loan commitments and all obligations of any Obligated Group Member guaranteeing in any manner whatever, whether directly or indirectly, any obligation of any other Person, which would, if such other Person were an Obligated Group Member, constitute Indebtedness.

Holder, whenever used with respect to an Obligation, means the registered owner of any Obligation in registered form or the bearer of any Obligation in coupon form which is not registered or is registered to bearer.

Holder or **Bondholder**, whenever used with respect to a Bond, means the Person in whose name such Bond is registered.

Immaterial Affiliates means Persons that are not Members of the Obligated Group and whose combined total revenues (calculated as if such Persons were Members of the Obligated Group), as shown on their financial statements for their most recently completed fiscal year, were less than ten percent (10%) of the Total Revenues of the Obligated Group (including the Total Revenues of such Persons) as shown on the Financial Statements for the most recently completed Fiscal Year of the Obligated Group.

Income Available for Debt Service means, unless the context provides otherwise, as to any period of time, net income, or excess of revenues over expenses (excluding income from all Irrevocable Deposits) before depreciation, amortization, and interest expense, as determined in accordance with GAAP and as shown on the Financial Statements; provided, that no determination thereof shall take into account:

- (a) any revenue or expense of a Person which is not a Member of the Obligated Group;
- (b) gifts, grants, bequests, donations or contributions, to the extent specifically restricted by the donor to a particular purpose inconsistent with their use for the payment of principal of, redemption premium and interest on Indebtedness or the payment of operating expenses;
- (c) the net proceeds of insurance (other than business interruption insurance) and condemnation awards;
- (d) any gain or loss resulting from the extinguishment of Indebtedness;
- (e) any gain or loss resulting from the sale, exchange or other disposition of assets not in the ordinary course of business;

- (f) any gain or loss resulting from any discontinued operations;
- (g) any gain or loss resulting from pension terminations, settlements or curtailments;
- (h) any unusual charges for employee severance;
- (i) adjustments to the value of assets or liabilities resulting from changes in GAAP;
- (j) unrealized gains or losses on investments, including "other than temporary" declines in Book Value;
- (k) gains or losses resulting from changes in valuation of any hedging, derivative, interest rate exchange or similar contract, including, without limitation, any Financial Products Agreement;
- (l) any Financial Product Extraordinary Payments, Financial Product Extraordinary Receipts, or similar payments on any hedging, derivative, interest rate exchange or similar contract that does not constitute a Financial Products Agreement;
- (m) unrealized gains or losses from the write-down, reappraisal or revaluation of assets;
- (n) changes in the share value of investment pools held or managed by Stanford University; or
- (o) other nonrecurring items of any extraordinary nature which do not involve the receipt, expenditure or transfer of assets.

Indebtedness means any Guaranty (other than any Guaranty by any Obligated Group Member of Indebtedness of any other Obligated Group Member) and any obligation of any Obligated Group Member (1) for repayment of borrowed money, (2) with respect to finance leases or (3) under installment sale agreements; provided, however, that if more than one Obligated Group Member shall have incurred or assumed a Guaranty of a Person other than an Obligated Group Member, or if more than one Obligated Group Member shall be obligated to pay any obligation, for purposes of any computations or calculations under the Master Indenture, such Guaranty or obligation shall be included only one time. Financial Products Agreements and physician income guaranties shall not constitute Indebtedness.

Indenture means the Indenture, as originally executed or as it may from time to time be supplemented, modified or amended by any Supplemental Indenture.

Independent Consultant means a firm (but not an individual) which (1) is in fact independent, (2) does not have any direct financial interest or any material indirect financial interest in any Obligated Group Member (other than the agreement pursuant to which such firm is retained), (3) is not connected with any Obligated Group Member as an officer, employee, promoter, trustee, partner, director or person performing similar functions and (4) is qualified to pass upon questions relating to the financial affairs of organizations similar to the Obligated Group or facilities of the type or types operated by the Obligated Group and having the skill and

experience necessary to render the particular opinion or report required by the provision hereof in which such requirement appears.

Industry Restrictions means federal, state or other applicable governmental laws or regulations, including conditions imposed specifically on the Obligated Group Members or the Obligated Group Members' facilities, or general industry standards or general industry conditions placing restrictions and limitations on the rates, fees and charges to be fixed, charged and collected by the Obligated Group Members.

Insurance Consultant means a Person or firm (which may be an insurance broker or agent of an Obligated Group Member) which (1) is in fact independent, (2) does not have any direct financial interest or any material indirect financial interest in any Obligated Group Member (other than the agreement pursuant to which such Person or firm is retained) and (3) is not connected with any Obligated Group Member as an officer, employee, promoter, underwriter, trustee, partner, director or Person performing similar functions, and designated by the Obligated Group Representative, qualified to survey risks and to recommend insurance coverage for hospitals, health-related facilities and services and organizations engaged in such operations.

Interest Account means the account by that name in the Revenue Fund established pursuant to the Indenture.

Interest Payment Date means August 15 and February 15 of each year, commencing August 15, 2020.

Investment Securities means any of the following that at the time are legal investments under the laws of the State of California for moneys held under the Indenture and then proposed to be invested therein:

- (1) United States Government Obligations;
- (2) Obligations of any of the following federal agencies which obligations represent the full faith and credit of the United States of America: (a) Export-Import Bank; (b) Rural Economic Community Development Administration; (c) U.S. Maritime Administration; (d) Small Business Administration; (e) U.S. Department of Housing & Urban Development (PHAs); (f) Federal Housing Administration; and (g) Federal Financing Bank;
- (3) Direct obligations of any of the following federal agencies which obligations are not fully guaranteed by the full faith and credit of the United States of America: (a) senior debt obligations issued by the Federal National Mortgage Association (FNMA) or Federal Home Loan Mortgage Corporation (FHLMC); (b) obligations of the Resolution Funding Corporation (REFCORP); and (c) senior debt obligations of the Federal Home Loan Bank System;
- (4) U.S. dollar denominated deposit accounts, including other deposit products, trust funds, trust accounts, time deposits, overnight bank deposits, interest bearing deposits, interest bearing money market accounts, certificates of deposit (including those placed by a third party pursuant to an agreement between the Trustee and the Corporation), federal fund and bankers' acceptances with domestic commercial banks (including the Trustee or any of its affiliates) (i) which have a rating on their short term certificates of deposit on the date of purchase of "P-1"

by Moody's and "A-1" or "A-1+" by S&P and maturing not more than three hundred sixty (360) calendar days after the date of purchase or (ii) are insured by the Federal Deposit Insurance Corporation;

(5) Commercial paper which is rated at the time of purchase in the single highest classification, "P-1" by Moody's and "A-1" or "A-1+" by S&P and which matures not more than two hundred seventy (270) calendar days after the date of purchase;

(6) Investments in money market mutual funds rated "AAAm" or "AAm-G" or better by S&P or having a rating in the highest investment category granted thereby from Moody's, including, without limitation any mutual fund for which the Trustee or an affiliate of the Trustee serves as investment manager, administrator, shareholder servicing agent, and/or custodian or subcustodian, notwithstanding that (i) the Trustee or an affiliate of the Trustee receives and retains fees from money market funds for services rendered to such funds, (ii) the Trustee collects fees for services rendered pursuant to the Indenture, which fees are separate from the fees received from such money market funds, and (iii) services performed for such money market funds and pursuant to the Indenture may at times duplicate those provided to such money market funds by the Trustee or an affiliate of the Trustee;

(7) Pre-refunded municipal obligations defined as any bonds or other obligations of any state of the United States of America or of any agency, instrumentality or local governmental unit of any such state which are not callable at the option of the obligor prior to maturity or as to which irrevocable instructions have been given by the obligor to call on the date specified in the notice; and (a) which are rated, based on irrevocable escrow account or fund (the "escrow"), in the highest Rating Category of Moody's or S&P or any successors thereto; or (b) (i) which are fully secured as to principal and interest and redemption premium, if any, by an escrow consisting only of cash or United States Government Obligations, which escrow may be applied only to the payment of such principal of and interest and redemption premium, if any, on such bonds or other obligations on the maturity date or dates thereof or the specified redemption date or dates pursuant to such irrevocable instructions, as appropriate, and (ii) which escrow is sufficient, as verified by an independent certified public accountant, to pay principal of and interest and redemption premium, if any, on the bonds or other obligations described in this paragraph on the maturity date or dates specified in the irrevocable instructions referred to above, as appropriate;

(8) Municipal obligations rated "Aaa/AAA" or general obligations of states of the United States of America with a rating of "A2/A" or higher by both Moody's and S&P; and

(9) Investment agreements with any financial institution that at the time of investment has long-term obligations rated in one of the three highest Rating Categories by each Rating Agency then rating both the Bonds and such obligations (but in all cases by at least one Rating Agency then rating the Bonds).

Irrevocable Deposit means an irrevocable deposit in trust of cash in an amount, or Government Obligations, or other securities permitted for such purpose pursuant to the terms of the documents governing the payment of or discharge of Indebtedness, the principal of and interest on which will be in an amount sufficient to pay all or a portion of the principal of, premium, if any, and interest on, any such Indebtedness (which would otherwise be considered Outstanding)

as the same shall become due. The trustee of such deposit may be the Master Trustee, a Related Bond Trustee or any other trustee or escrow agent authorized to act in such capacity.

Issue Date means the date of original delivery of the Bonds.

Lease means that certain Ground Lease (Hospital Campus) and that certain Ground Lease (Hoover Campus), each made and entered into as of February 1, 2012, between Stanford University, as lessor, and the Corporation, as lessee, which supersede the Restatement and Assignment of Lease (Hospital and Hoover Pavilion), dated November 1, 1997, as amended by Amendment of Lease, dated March 31, 2000, among Stanford University, as lessor, the Corporation, as lessee, and UCSF Stanford Health Care, as assignee, which amended and restated that certain Lease and License Agreement, dated as of April 20, 1984, between Stanford University, as lessor, and the Corporation, as lessee.

Lien means any mortgage or pledge of, or security interest in, or lien or encumbrance on, any Property, including Gross Revenues, of an Obligated Group Member (i) which secures any Indebtedness or any other obligation of such Obligated Group Member or (ii) which secures any obligation of any Person other than an Obligated Group Member, and excluding liens applicable to Property in which an Obligated Group Member has only a leasehold interest, unless the lien secures Indebtedness of that Obligated Group Member.

Loan Agreement means that certain loan agreement, dated as of April 1, 2020, between the Authority and the Corporation, as originally executed and as it may from time to time be supplemented, modified or amended in accordance with the terms thereof and of the Indenture.

Loan Default Event means any of the events specified as such in the Loan Agreement.

Loan Repayments means the payments so designated and required to be made by the Corporation pursuant to the Loan Agreement.

Master Indenture means that certain Amended and Restated Master Indenture of Trust, dated as of June 1, 2011, which took effect on the Amended Master Indenture Effective Date, between Stanford Hospital and Clinics, currently known as Stanford Health Care, and the Master Trustee, and which amended and restated the Original Master Indenture, as originally executed and as it may from time to time be supplemented, modified or amended in accordance with the terms thereof.

Master Trustee means The Bank of New York Mellon Trust Company, N.A., a national banking association organized under the laws of the United States of America, and, subject to the limitations contained in the Master Indenture, any other corporation or association that may be co-trustee with the Master Trustee, and any successor or successors to said trustee or co-trustee in the trusts created under the Master Indenture.

Maximum Annual Debt Service means the greatest amount of Annual Debt Service becoming due and payable in any Fiscal Year including the Fiscal Year in which the calculation is made or any subsequent Fiscal Year; provided, however that for the purposes of computing Maximum Annual Debt Service:

(a) with respect to a Guaranty, there shall be included in the calculation of Annual Debt Service a percentage of the Annual Debt Service (calculated as if such Person were a Obligated Group Member) guaranteed by the Obligated Group Members under the Guaranty, based on the ratio of Income Available for Debt Service of the Person whose indebtedness is guaranteed by the Obligated Group Member (calculated as if such Person were a Obligated Group Member), over the Maximum Annual Debt Service of such Person (calculated as if such Person were a Obligated Group Member) (such ratio being hereinafter referred to as the "Ratio"). If the Ratio is greater than 2.00, no Annual Debt Service on the indebtedness guaranteed shall be included in the calculation of Annual Debt Service. If the Ratio is equal to or less than 2.0, twenty percent (20%) of Annual Debt Service on the indebtedness guaranteed shall be included in the calculation of Annual Debt Service; provided however, that if the indebtedness guaranteed shall be in default, one hundred percent (100%) of such indebtedness shall be included in the calculation of Annual Debt Service until such time as either the default is cured, the indebtedness guaranteed is repaid or the Guaranty is terminated.

(b) if interest on Long-Term Indebtedness is payable pursuant to a variable interest rate formula (or if Financial Product Payments or Financial Product Receipts are determined pursuant to a variable rate formula), the interest rate on such Long-Term Indebtedness (or the variable rate formula for such Financial Product Payments or Financial Product Receipts) for periods when the actual interest rate cannot yet be determined shall be assumed to be equal to (i) if such Long-Term Indebtedness (or Financial Products Agreement) was Outstanding during the twelve (12) calendar months immediately preceding the date of calculation, an average of the interest rates per annum which were in effect for such period, and (ii) if such Long-Term Indebtedness (or Financial Products Agreement) was not Outstanding during the twelve (12) calendar months immediately preceding the date of calculation, at the election of the Obligated Group Representative, either (x) an average of the SIFMA Swap Index during the twelve (12) calendar months immediately preceding the date of calculation or (y) an average of the interest rates per annum which would have been in effect for any twelve (12) consecutive calendar months during the eighteen (18) calendar months immediately preceding the date of calculation, as specified in a Certificate of the Obligated Group Representative or, at the sole option of the Obligated Group Representative, such interest rate as shall be specified in a written statement from an investment banking or financial advisory firm selected by the Obligated Group Representative.

(c) debt service on Long-Term Indebtedness incurred to finance capital improvements shall be included in the calculation of Maximum Annual Debt Service only in proportion to the amount of interest on such Long-Term Indebtedness which is payable in the then-current Fiscal Year from sources other than proceeds of such Long-Term Indebtedness held by a trustee or escrow agent for such purpose (excluding any funds held on deposit in a debt service reserve fund established in connection with such Long-Term Indebtedness);

(d) with respect to Balloon Indebtedness, such Balloon Indebtedness shall be treated, at the sole option of the Obligated Group Representative, as Long-Term Indebtedness bearing interest at an interest rate equal to either (i) a fixed rate equal to the Thirty-Year Revenue Bond Index most recently published in *The Bond Buyer* prior to the date of calculation or (ii) such interest rate as shall be specified in a written statement from an investment banking or financial advisory firm selected by the Obligated Group Representative, and (x) with substantially level debt service over a period of up to thirty (30) years (which period shall be designated by the Obligated Group

Representative) from the date of calculation, or (y) with the debt service being interest only for a designated period of years and then substantially level debt service over a designated period of years (each of which periods shall be designated by the Obligated Group Representative), provided that such periods shall not aggregate in excess of thirty (30) years (by way of example, Annual Debt Service on Balloon Indebtedness could be designated by the Obligated Group Representative to be treated as interest only for twenty-five (25) years and as level payments of principal and interest for the next five (5) years); and

(e) debt service on Commercial Paper Indebtedness shall be treated in the same manner as interest on Long-Term Indebtedness payable pursuant to a variable interest rate formula as provided in clause (b) above.

Member means the Corporation and each other Person that is then obligated as a Member under and as defined in the Master Indenture.

Merger Transaction shall have the meaning specified in the provisions of the Master Indenture and described under the caption "Master Indenture - Covenants - Merger, Consolidation, Sale or Conveyance."

Minimum Authorized Denomination or Authorized Denomination means \$5,000 and any integral multiple thereof.

Moody's means Moody's Investors Service, Inc., a corporation organized and existing under the laws of the State of Delaware, its successors and their assigns, or, if such corporation shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, any other nationally recognized securities rating agency designated by the Corporation by notice in writing to the Authority and the Trustee.

Nonrecourse Indebtedness means any Indebtedness which is not a general obligation and which is secured by a Lien on Property, Plant and Equipment acquired or constructed with the proceeds of such Indebtedness, liability for which is effectively limited to the Property, Plant and Equipment subject to such Lien, with no recourse, directly or indirectly, to any other Property of any Obligated Group Member or to any Obligated Group Member.

Obligated Group has the meaning set forth in the Master Indenture.

Obligated Group Member means the Corporation and each other Person that is then obligated as a Member under and as defined in the Master Indenture.

Obligated Group Representative means the Corporation or such other Obligated Group Member (or Obligated Group Members acting jointly) as may have been designated pursuant to written notice to the Master Trustee executed by the Corporation.

Obligation means any obligation of the Obligated Group, including the Existing Obligations, issued pursuant to the provisions of the Master Indenture, as a joint and several obligation of each Obligated Group Member, which may be in any form set forth in a Related Supplement, including, but not limited to, bonds, notes, obligations, debentures, reimbursement agreements, loan agreements, Financial Products Agreements or leases. Reference to a Series of

Obligations or to Obligations of a Series means Obligations or a Series of Obligations issued pursuant to a single Related Supplement.

Obligation No. 42 means the obligation issued under the Master Indenture and Supplement No. 42.

Officer's Certificate means a certificate signed by an Authorized Representative of the Obligated Group Representative.

Official Statement means, the Official Statement, dated March 26, 2020, relating to, and used in connection with the sale of, the Bonds, including all appendices thereto.

Opinion of Bond Counsel means a written opinion signed by an attorney or firm of attorneys experienced in the field of public finance whose opinions are generally accepted by purchasers of bonds issued by or on behalf of a Government Issuer.

Opinion of Counsel means, for purposes of the Master Indenture, a written opinion signed by a reputable and qualified attorney or firm of attorneys who may be counsel for the Obligated Group Representative.

Opinion of Counsel means, for purposes of the Indenture and Loan Agreement, a written opinion of counsel (who may be counsel for the Authority, the Trustee or the Corporation), selected by the Corporation and acceptable to the Authority.

Original Master Indenture means that certain Master Indenture of Trust, dated as of December 1, 1990, as supplemented and amended to the Amended Master Indenture Effective Date, between Stanford University Hospital, currently known as Stanford Health Care, and First Interstate Bank, LTD., predecessor master trustee to BNY Western Trust Company, predecessor-in-interest to The Bank of New York Mellon Trust Company, N.A., formerly known as The Bank of New York Trust Company, N.A., as master trustee.

Outstanding, when used as of any particular time with reference to Bonds, means (subject to the provisions of the Indenture relating to disqualified Bonds) all Bonds theretofore, or thereupon being, authenticated and delivered by the Trustee under the Indenture except: (a) Bonds theretofore canceled by the Trustee or surrendered to the Trustee for cancellation; (b) Bonds with respect to which all liability of the Authority shall have been discharged in accordance with the discharge provisions of the Indenture; and (c) Bonds for the transfer or exchange of or in lieu of or in substitution for which other Bonds shall have been authenticated and delivered by the Trustee pursuant to the Indenture.

Outstanding, when used with reference to Indebtedness or Obligations, means, as of any date of determination, all Indebtedness or Obligations theretofore issued or incurred and not paid and discharged other than (1) Obligations theretofore cancelled by the Master Trustee or delivered to the Master Trustee for cancellation or otherwise deemed paid in accordance with the terms hereof, including, without limitation, Obligations securing Related Bonds which have been defeased pursuant to their terms, (2) Obligations in lieu of which other Obligations have been authenticated and delivered or which have been paid pursuant to the provisions of a Related Supplement regarding mutilated, destroyed, lost or stolen Obligations unless proof satisfactory to

the Master Trustee has been received that any such Obligation is held by a bona fide purchaser, (3) any Obligation held by any Obligated Group Member, (4) Indebtedness deemed paid and no longer outstanding pursuant to the terms thereof, and (5) Indebtedness for which there has been an Irrevocable Deposit, but only to the extent that payment of debt service on such Indebtedness is payable from such Irrevocable Deposit; provided, however, that if two or more obligations which constitute Indebtedness represent the same underlying obligation (as when an Obligation secures an issue of Related Bonds and another Obligation secures repayment obligations to a bank under a letter of credit which secures such Related Bonds) for purposes of calculating compliance with the various financial covenants contained in the Master Indenture, but only for such purposes, only one of such Obligations shall be deemed Outstanding and the Obligation so deemed to be Outstanding shall be that Obligation which produces the greatest amount of Annual Debt Service to be included in the calculation of such covenants.

Parity Financial Product Extraordinary Payments means Existing Parity Financial Product Extraordinary Payments and Financial Product Extraordinary Payments that: (i) are with respect to a Financial Products Agreement secured or evidenced by an Obligation; and (ii) have been specified to be payable on a parity with Financial Product Payments in the Related Supplement authorizing the issuance of such Obligation.

Participant means a member of or participant in the Securities Depository.

Participating Underwriter means any of the original underwriters of the Bonds required to comply with the Rule in connection with offering of the Bonds.

Permitted Liens means and includes:

(a) Any judgment lien or notice of pending action against any Obligated Group Member so long as the judgment or pending action is being contested and execution thereon is stayed or while the period for responsive pleading has not lapsed;

(b) (i) Rights reserved to or vested in any municipality or public authority by the terms of any right, power, franchise, grant, license, permit or provision of law, affecting any Property, to (A) terminate such right, power, franchise, grant, license or permit, provided that the exercise of such right would not materially impair the use of such Property or materially and adversely affect the Value thereof, or (B) purchase, condemn, appropriate or recapture, or designate a purchase of, such Property; (ii) any liens on any Property for taxes, assessments, levies, fees, water and sewer charges, and other governmental and similar charges and any liens of mechanics, materialmen, laborers, suppliers or vendors for work or services performed or materials furnished in connection with such Property, which are not due and payable or which are not delinquent, or the amount or validity of which are being contested and execution thereon is stayed or, with respect to liens of mechanics, materialmen and laborers, have been due and payable or which are not delinquent, or the amount or validity of which are being contested and execution thereon is stayed or, with respect to liens of mechanics, materialmen and laborers, have been due for less than sixty (60) days or for which a bond has been furnished; (iii) easements, rights-of-way, servitudes, restrictions and other minor defects, encumbrances, and irregularities in the title to any Property which do not materially impair the use of such Property or materially and adversely affect the Value thereof; and (iv) rights reserved to or vested in any municipality or public authority to

control or regulate any Property or to use such Property in any manner, which rights do not materially impair the use of such Property in any manner, or materially and adversely affect the Value thereof;

(c) Any Lien in favor of the Master Trustee securing all Outstanding Obligations equally and ratably;

(d) Liens arising by reason of good faith deposits with any Obligated Group Member in connection with leases of real estate, bids or contracts (other than contracts for the payment of money), deposits by any Obligated Group Member to secure public or statutory obligations, or to secure, or in lieu of, surety, stay or appeal bonds, and deposits as security for the payment of taxes or assessments or other similar charges;

(e) Any Lien arising by reason of deposits with, or the giving of any form of security to, any governmental agency or any body created or approved by law or governmental regulation as a condition to the transaction of any business or the exercise of any privilege or license, or to enable any Obligated Group Member to maintain self-insurance or to participate in any funds established to cover any insurance risks or in connection with workers' compensation, unemployment insurance, pension or profit sharing plans or other similar social security plans, or to share in the privileges or benefits required for companies participating in such arrangements;

(f) Any Lien arising by reason of any escrow or reserve fund established to pay debt service with respect to Indebtedness;

(g) Any Lien in favor of a trustee on the proceeds of Indebtedness prior to the application of such proceeds;

(h) Liens on moneys deposited by patients or others with any Obligated Group Member as security for or as prepayment for the cost of patient care;

(i) Liens on Property received by any Obligated Group Member through gifts, grants, bequests or research grants, such Liens being due to restrictions on such gifts, grants, bequests or research grants or the income thereon, up to the Fair Market Value of such Property;

(j) Rights of the United States of America, including, without limitation, the Federal Emergency Management Agency ("FEMA"), or the State of California, including without limitation the California Emergency Management Agency, by reason of FEMA and other federal and State of California funds made available to any Member of the Obligated Group under federal or State of California statutes;

(k) Liens on Property securing Indebtedness incurred to refinance Indebtedness previously secured by a Lien on such Property, provided that the aggregate principal amount of such new Indebtedness does not exceed the aggregate principal amount of such refinanced Indebtedness;

(l) Liens granted by an Obligated Group Member to another Obligated Group Member;

(m) Liens securing Nonrecourse Indebtedness incurred pursuant to the provisions hereof;

(n) Liens consisting of purchase money security interests (as defined in the UCC) and lessors' interest in capitalized leases;

(o) Liens on the Obligated Group Members' accounts receivable, provided that at the time of creation of such Lien, the Indebtedness secured by any such Lien shall not exceed thirty percent (30%) of the Obligated Group Members' net accounts receivable as shown on the most recent Financial Statements available at the time of incurrence of the Indebtedness to be secured by such Lien, and provided further that no more than thirty percent (30%) of the Obligated Group Members' net accounts receivable can be utilized for such securitization;

(p) Liens on revenues constituting rentals in connection with any other Lien permitted under the Master Indenture on the Property from which such rentals are derived;

(q) The lease or license of the use of a part of an Obligated Group Member's facilities for use in performing professional or other services necessary for the proper and economical operation of such facilities in accordance with customary business practices in the industry;

(r) Liens on Property due to rights of third party payors for recoupment of excess reimbursement amounts paid to any Obligated Group Member;

(s) Liens on real property constituting Property not necessary for the delivery of patient care by any Obligated Group Member;

(t) Liens securing the interest of a vendor or lessor under any conditional sale agreement, capital lease or other title agreement;

(u) Liens in favor of banking or other depository institutions arising as a matter of law encumbering the deposits of any Obligated Group Member held in the ordinary course of business by such banking institution (including any right of setoff or statutory bankers' liens) so long as such deposit account is not established or maintained for the purpose of providing such Lien, right of setoff or bankers' lien;

(v) Rights of tenants under leases or rental agreements pertaining to Property, Plant and Equipment owned by any Obligated Group Member so long as the lease arrangement is in the ordinary course of business of such Obligated Group Member;

(w) Deposits of Property by any Obligated Group Member to meet regulatory requirements for a governmental workers' compensation, unemployment insurance or social security program, other than any Lien imposed by ERISA;

(x) Deposits to secure the performance of another party with respect to a bid, trade contract, statutory obligation, surety bond, appeal bond, performance bond or lease (other than a lease that is treated as Indebtedness under GAAP), and other similar obligations incurred in the ordinary course of business of an Obligated Group Member;

(y) Liens resulting from deposits to secure bids from or the performance of another party with respect to contracts incurred in the ordinary course of business of an Obligated Group Member (other than contracts creating or evidencing an extension of credit to the depositor or otherwise for the payment of Indebtedness);

(z) Present or future zoning laws, ordinances or other laws or regulations restricting the occupancy, use or enjoyment of Property, Plant and Equipment of any Obligated Group Member which, in the aggregate, are not substantial in amount, and which do not in any case materially impair the Fair Market Value or use of such Property, Plant and Equipment for the purposes for which it is used or could reasonably be expected to be held or used;

(aa) Liens junior to Liens in favor of the Master Trustee;

(bb) Liens created on amounts deposited by an Obligated Group Member pursuant to a security annex or similar document to collateralize obligations of such Obligated Group Member under a Financial Products Agreement;

(cc) Liens or encumbrances contemplated by or created in connection with or arising out of the Lease; and

(dd) Any other Lien on Property, provided that at the time of creation of such Lien the Value of all Property encumbered by all Liens permitted as described in this clause (dd) does not exceed twenty-five percent (25%) of the total Value of all Property of the Obligated Group Members as shown on the Financial Statements of the Obligated Group for the most recent Fiscal Year available at the time of creation of such Lien.

Person means an individual, association, corporation, firm, limited liability company, partnership, trust or other legal entity or group of entities, including a governmental entity or any agency or political subdivision thereof.

Principal Account means the account by that name in the Revenue Fund established pursuant to the Indenture.

Principal Office means, solely with respect to the surrender of Bonds for payment, transfer, or exchange, such office as is designated by the Trustee, and for all other purposes, the corporate trust office of the Trustee located at 400 South Hope Street, Suite 500, Los Angeles, California 90071, Attention: Corporate Trust or such other or additional offices as may be designated by the Trustee from time to time; provided, however, that for purposes of the presentation of Bonds for payment, transfer or exchange, the Principal Office shall be the Trustee's designated corporate trust agency or operations office.

Project means the health care facilities owned and operated by the Corporation to be financed and refinanced by the Bonds as more fully described in Exhibit C of the Indenture.

Property means any and all rights, titles and interests in and to any and all assets of any Obligated Group Member, whether real or personal, tangible or intangible and wherever situated.

Property, Plant and Equipment means all Property of any Obligated Group Member which is considered property, plant and equipment of such Obligated Group Member under GAAP.

Qualified Provider means any financial institution or insurance company or corporation which is a party to a Financial Products Agreement if (i) the unsecured long-term debt obligations of such provider (or of the parent or a subsidiary of such provider if such parent or subsidiary guarantees or otherwise assures the performance of such provider under such Financial Products Agreement), or (ii) obligations secured or supported by a letter of credit, contract, guarantee, agreement, insurance policy or surety bond issued by such provider (or such guarantor or assuring parent or subsidiary) are rated in one of the three highest rating categories of a Rating Agency (without regard to any gradation or such rating category) at the time of the execution and delivery of the Financial Products Agreement.

Rating Agency means, as and to the extent applicable, any nationally recognized securities rating service, including Fitch, Moody's or S&P, then maintain a rating on the Bonds at the request, or upon application, of the Corporation.

Rating Category means a generic securities rating category, without regard to any refinement or gradation of such rating category by a numerical modifier or otherwise.

Rebate Fund means the fund by that name established pursuant to the Indenture.

Record Date means the first day (whether or not a Business Day) of the calendar month in which such Interest Payment Date occurs.

Redemption Fund means the fund by that name established pursuant to the Indenture.

Redemption Price means, with respect to any Bond (or portion thereof), the principal amount of such Bond (or portion), plus the applicable premium, if any, payable upon redemption thereof pursuant to the provisions of such Bond and the Indenture.

Related Bond Indenture means any indenture, bond resolution, trust agreement, or other comparable instrument pursuant to which a series of Related Bonds are issued.

Related Bond Issuer means the Government Issuer of any issue of Related Bonds.

Related Bond Trustee means the trustee and its successors in the trusts created under any Related Bond Indenture, and if there is no such trustee, means the Related Bond Issuer.

Related Bonds means the revenue bonds or other obligations (including, without limitation, certificates of participation) issued by any Government Issuer, the proceeds of which are loaned or otherwise made available to an Obligated Group Member in consideration of the execution, authentication and delivery of an Obligation or Obligations to or for the order of such Government Issuer.

Related Supplement means an indenture supplemental to, and authorized and executed pursuant to the terms of, the Master Indenture.

Required Payment means any payment, whether at maturity, by acceleration, upon proceeding for redemption or otherwise, including without limitation, Financial Product Payments, Financial Product Extraordinary Payments, required to be made by any Obligated Group Member under the Master Indenture, any Related Supplement or any Obligation.

Responsible Officer means, with respect to the Master Trustee, the president, any vice president, any assistant vice president, any assistant secretary, any assistant treasurer, any senior associate, any associate or any other officer of the Master Trustee customarily performing functions similar to those performed by the persons above designated or to whom any corporate trust matter is referred because of such person's knowledge of and familiarity with the particular subject.

Responsible Officer means, with respect to the Trustee, the president, any vice president, any assistant vice president, the secretary, any assistant secretary, the treasurer, any assistant treasurer, any senior associate, any associate or any other officer of the Trustee within the Principal Office (or any successor corporate trust office) customarily performing functions similar to those performed by the persons who at the time shall be such officers, respectively, or to whom any corporate trust matter is referred at the Principal Office because of such person's knowledge of and familiarity with the particular subject and having direct responsibility for the administration of the Indenture.

Restricted Assets means any gifts, grants, bequests, donations and contributions to the extent specifically restricted by the donor to a particular purpose inconsistent with their use for the payment of Required Payments or the payment of operating expenses.

Revenue Fund means the fund by that name established pursuant to the Indenture.

Revenues means all amounts received by the Authority or the Trustee for the account of the Authority pursuant or with respect to the Loan Agreement or Obligation No. 42, including, without limiting the generality of the foregoing, Loan Repayments (including both timely and delinquent payments and any late charges, and regardless of source), prepayments, insurance proceeds, condemnation proceeds, and all interest, profits or other income derived from the investment of amounts in any fund or account established pursuant to the Indenture, but not including any Additional Payments or Administrative Fees and Expenses or any moneys required to be deposited to, or on deposit in, the Rebate Fund.

Rule means Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

S&P means S&P Global Ratings, its successors and assigns, or, if such organization shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, any other nationally recognized securities rating agency designated by the Corporation by notice to the Authority and the Trustee.

Securities Depository means The Depository Trust Company and its successors and assigns, or any other securities depository selected as set forth in the Indenture.

Series, when used with respect to the Bonds, means all Bonds designated as being of the same series, authenticated and delivered in a simultaneous transaction, regardless of variations in maturity, interest rate, redemption and other provisions, and any Bonds thereafter authenticated and delivered upon transfer or exchange or in lieu of or in substitution for (but not to refund) such Bond.

Series A Bonds or **2020 Series A Bonds** means the California Health Facilities Financing Authority Revenue Bonds (Stanford Health Care), 2020 Series A.

Short-Term Indebtedness means all (i) Indebtedness having an original maturity less than or equal to one year and not renewable at the option of an Obligated Group Member for a term greater than one year from the date of original incurrence or issuance or (ii) Indebtedness with a maturity or renewable at the option of a Obligated Group Member with a term greater than one year, if by the terms of such Indebtedness, no Indebtedness is permitted to be outstanding thereunder for a period of at least twenty (20) consecutive days during each calendar year. For purposes of this definition, (i) only the stated maturity of Indebtedness (and not any tender or put right of the holder of such Indebtedness) shall be taken into account in determining if such Indebtedness constitutes Short-Term Indebtedness under the Master Indenture and (ii) classification of Indebtedness as current or short-term under GAAP shall not be controlling. Commercial Paper Indebtedness shall not constitute Short-Term Indebtedness for any purpose under the Master Indenture.

Special Record Date means the date established by the Trustee as a record date for the payment of defaulted interest on such Bonds.

Stanford University means The Board of Trustees of the Leland Stanford Junior University, a body having corporate powers under the Constitution and laws of the State of California, and its successors and assigns.

State means the State of California.

Subordinate Financial Product Extraordinary Payment means any Financial Product Extraordinary Payment other than a Parity Financial Product Extraordinary Payment.

Subordinated Indebtedness means Indebtedness specifically subordinated as to payment and security to the payment of all Required Payments and other obligations of the Obligated Group Members under the Master Indenture.

Supplement No. 42 means that certain Supplemental Master Indenture for Obligation No. 42, dated as of April 1, 2020, between the Corporation and the Master Trustee, as originally executed and as amended or supplemented from time to time in accordance with the terms of the Master Indenture.

Supplemental Indenture means any supplemental indenture duly authorized and entered into between the Authority and the Trustee, supplementing, modifying or amending the Indenture; but only if and to the extent that such Supplemental Indenture is specifically authorized under the Indenture.

Surviving Entity has the meaning set forth in the provisions of the Master Indenture and described under the caption "Master Indenture - Covenants - "Merger, Consolidation, Sale or Conveyance."

Tax Agreement means the Tax Certificate and Agreement, delivered by the Authority and the Corporation at the time of issuance and delivery of the Bonds, as the same may be amended or supplemented in accordance with its terms.

Total Revenues means, for the period of calculation in question, the sum of operating revenue (including net patient service revenue, capitation or premium revenue and other revenue) and nonoperating gains (losses), as shown on the Financial Statements of the Obligated Group for the most recent Fiscal Year.

Transaction Test means with respect to any specified transaction, that: (i) no Event of Default or Default then exists; and (ii) following such transaction, the Obligated Group could satisfy the conditions for the issuance of \$1.00 of additional Long-Term Indebtedness set forth in the provisions of the Master Indenture described under the caption "Master Indenture - Covenants - Limitations on Indebtedness - Long-Term Indebtedness," assuming that such transaction occurred at the start of the most recent Fiscal Year and taking into account any other transaction entered into within the then current Fiscal Year.

Trustee means The Bank of New York Mellon Trust Company, N.A., a national banking association organized and existing under and by virtue of the laws of the United States of America, or its successor, as Trustee under the Indenture, as provided in the Indenture.

2012 Series C Bonds or 2012 C Bonds means the California Health Facilities Financing Authority Variable Rate Revenue Bonds (Stanford Hospital and Clinics), 2012 Series C.

2012 Series C Trustee means U.S. Bank National Association.

UCC means the Uniform Commercial Code of the State of California, as amended from time to time.

United States Government Obligations means:

(1) direct obligations of the United States of America (including obligations issued or held in book-entry form on the books of the Department of the Treasury of the United States of America) or obligations the timely payment of which are fully and unconditionally guaranteed by the United States of America, including, but not limited to: (i) U.S. treasury obligations; (ii) all direct or fully guaranteed obligations; (iii) Farmers Home Administration; (iv) General Services Administration; (v) Guaranteed Title XI financing; (vi) Government National Mortgage Association (GNMA); and (vii) State and Local Government Series;

(2) certificates or other instruments that evidence direct ownership of future principal and/or interest on obligations described in clause (1), provided that such obligations are held in the custody of a bank or trust company in a special account separate from the general assets of such custodian; and

(3) obligations (a) the interest on which is excluded from gross income for federal income tax purposes pursuant to Section 103 of the Code, (b) the timely payment of the principal of and interest on which is fully provided for by the deposit in trust or escrow of cash or obligations described in clauses (1) or (2), and (c) that are rated in the highest Rating Category by each Rating Agency then rating both the Bonds and such obligations (but in all cases by at least one Rating Agency then rating the Bonds).

Value, when used with respect to Property, means the aggregate value of all such Property, with each component of such Property valued, at the option of the Obligated Group Representative, at either its Fair Market Value or its Book Value.

MASTER INDENTURE

General

The Master Indenture authorizes the issuance of Obligations by the Obligated Group. An Obligation is stated in the Master Indenture to be a joint and several obligation of each Member of the Obligated Group. The Corporation is currently the only Member of the Obligated Group.

Authorization and Issuance of Obligations

Authorization of Obligations. Pursuant to the provisions of the Master Indenture, each Obligated Group Member authorizes the issuance from time to time of Obligations or Series of Obligations, without limitation as to amount, except as provided in the Master Indenture or as may be limited by law, and subject to the terms, conditions and limitations established in the Master Indenture and in any Related Supplement.

Issuance of Obligations. From time to time when authorized by the Master Indenture and subject to the terms, limitations and conditions established in the Master Indenture or in a Related Supplement, the Obligated Group Representative may authorize the issuance of an Obligation or a Series of Obligations by entering into a Related Supplement. The Obligation or the Obligations of any such Series may be issued and delivered to the Master Trustee for authentication upon compliance with the provisions of the Master Indenture and of any Related Supplement. The Corporation has been designated as the Obligated Group Representative pursuant to the provisions of the Master Indenture.

Covenants

Payment of Required Payments. Each Obligated Group Member jointly and severally covenants, to pay or cause to be paid promptly, all Required Payments at the place, on the dates and in the manner provided in the Master Indenture, or in any Related Supplement or Obligation. Each Obligated Group Member acknowledges that the time of such payment and performance is of the essence of the Obligations under the Master Indenture. Each Obligated Group Member further covenants to faithfully observe and perform all of the conditions, covenants and requirements of the Master Indenture, any Related Supplement and any Obligation.

Maintenance of Properties; Payment of Indebtedness. Each Obligated Group Member covenants to:

(a) maintain its Property, Plant and Equipment in accordance with all valid and applicable governmental laws, ordinances, approvals and regulations including, without limitation, such zoning, sanitary, pollution and safety ordinances and laws and such rules and regulations thereunder as may be binding upon it; provided, however, that no Obligated Group Member shall be required to comply with any law, ordinance, approval or regulation as long as it shall in good faith contest the validity thereof;

(b) maintain and operate its Property, Plant and Equipment in reasonably good working condition, and from time to time make or cause to be made all needful and proper replacements, repairs and improvements so that the operations of such Obligated Group Member will not be materially impaired;

(c) pay and discharge all applicable taxes, assessments, governmental charges of any kind whatsoever, water rates, meter charges and other utility charges which may be or have been assessed or which may have become Liens upon the Property, Plant and Equipment, and will make such payments or cause such payments to be made in due time to prevent any delinquency thereon or any forfeiture or sale of any part of the Property, Plant and Equipment, and, upon request, will furnish to the Master Trustee receipts for all such payments, or other evidences satisfactory to the Master Trustee; provided, however, that no Obligated Group Member shall be required to pay any tax, assessment, rate or charge as long as it shall in good faith contest the validity thereof as set out in the definition of Permitted Liens;

(d) pay or otherwise satisfy and discharge all of its obligations and Indebtedness and all demands and claims against it as and when the same become due and payable, other than obligations, Indebtedness, demands or claims (exclusive of the Obligations issued and Outstanding under the Master Indenture) the validity, amount or collectibility of which is being contested in good faith;

(e) at all times comply with all terms, covenants and provisions of any Liens at such time existing upon its Property or any part thereof or securing any of its Indebtedness noncompliance with which would have a material adverse effect on the operations of the Obligated Group or its Property;

(f) use its best efforts to maintain (as long as it is in its best interests and will not materially adversely affect the interests of the Holders) all permits, licenses and other governmental approvals necessary for the operation of its Property; and

(g) take no action or suffer any action to be taken by others which would result in the interest on any Related Bond issued as a tax exempt obligation becoming subject to federal income taxation.

Nothing in the Master Indenture shall be construed to require an Obligated Group Member to maintain any permit, license or other governmental approval, or to continue to operate or maintain any Property, Plant or Equipment, if, in the reasonable good faith judgment of the Obligated Group Member, such permit, license, governmental approval or Property, Plant or

Equipment is, or within the next succeeding 12 calendar months is reasonably expected to become, inadequate, obsolete, unsuitable, undesirable or unnecessary for the business of the Obligated Group and failure to maintain or operate such permit, license, governmental approval or Property, Plant or Equipment will not materially adversely impair the operation of the Obligated Group.

Insurance.

(a) Each Obligated Group Member, respectively, covenants and agrees that it will keep the Property, Plant and Equipment and all of its operations adequately insured at all times and carry and maintain such insurance in amounts which are customarily carried, subject to customary deductibles and alternative risk management programs and self-insurance, and against such risks as are customarily insured against by other health care institutions in connection with the ownership and operation of health facilities of similar character and size in the State of California.

(b) The Obligated Group Representative shall employ an Insurance Consultant at least once every two (2) years to review the insurance requirements (including alternative risk management programs and self-insurance) of the Members. If the Insurance Consultant makes recommendations for a change in the insurance coverage required by the Master Indenture, the Obligated Group Members shall change such coverage in accordance with such recommendations, subject to a good faith determination of the Governing Body of the Obligated Group Representative that such recommendations, in whole or in part, are not in the best interests of the Obligated Group Members or that such coverage is not obtainable at commercially reasonable rates. In lieu of maintaining insurance coverage which the Governing Body of the Obligated Group Representative deems necessary, the Obligated Group Members shall have the right to adopt alternative risk management programs which the Governing Body of the Obligated Group Representative determines to be reasonable and which shall not have a material adverse impact on reimbursement from third-party payers, including, without limitation, to self-insure in whole or in part individually or in connection with other institutions, to participate in programs of captive insurance companies, to participate with other health care institutions in mutual or other cooperative insurance or other risk management programs, to participate in state or federal insurance programs, to take advantage of state or federal laws now or hereafter in existence limiting medical and malpractice liability, or to establish or participate in other alternative risk management programs; all as may be approved, in writing, as reasonable and appropriate risk management by the Insurance Consultant.

(c) The Obligated Group Members shall have the right, without giving rise to an Event of Default under the Master Indenture solely on such account, (1) to maintain insurance coverage below that required by the provisions of the Master Indenture described in subsection (a) above, if the Obligated Group Representative furnishes to the Master Trustee a certificate of the Insurance Consultant that the insurance so provided accords the greatest amount of coverage available for the risk being insured against at rates which in the judgment of the Insurance Consultant are reasonable in connection with reasonable and appropriate risk management, or (2) to adopt alternative risk management and self-insurance programs in accordance with the provisions of the Master Indenture described in subsection (b) above.

Against Encumbrances. Each Obligated Group Member, respectively, covenants and agrees that it will not create, assume or suffer to exist any Lien upon the Property of the Obligated

Group, except for Permitted Liens. Each Obligated Group Member, respectively, further covenants and agrees that if such a Lien (other than a Permitted Lien) is nonetheless created by someone other than an Obligated Group Member and is assumed by any Obligated Group Member, it will make or cause to be made effective a provision whereby all Obligations will be secured prior to any such Indebtedness or other obligation secured by such Lien.

Limitations on Indebtedness. Each Obligated Group Member covenants that it will not incur any Indebtedness except in accordance with the provisions of the Master Indenture described below:

(a) Long-Term Indebtedness, if prior to the date of incurrence of the Long-Term Indebtedness there is delivered to the Master Trustee an Officer's Certificate to the effect that:

(1) the Debt Service Coverage Ratio for the most recent Fiscal Year for which Financial Statements are available with respect to all Long-Term Indebtedness then Outstanding at the time of such certification and the additional Long-Term Indebtedness to be incurred, but excluding any Long-Term Indebtedness to be refunded with the proceeds of said additional Long-Term Indebtedness to be incurred, was not less than 1.2:1.0;

(2) (i) the Debt Service Coverage Ratio for the most recent Fiscal Year for which Financial Statements are available was not less than 1.2:1.0 and (ii) the Debt Service Coverage Ratio for each of the two (2) Fiscal Years beginning with the Fiscal Year commencing after the estimated completion of the construction, acquisition or equipping of Property to be financed by such Indebtedness (or, if the proceeds of such Indebtedness are not to be used for the construction, acquisition or equipping of Property, each of the two (2) Fiscal Years beginning with the Fiscal Year commencing after the incurrence of such Indebtedness) with respect to all Long-Term Indebtedness projected to be Outstanding (including the additional Long-Term Indebtedness to be incurred, but excluding any Long-Term Indebtedness to be refunded with the proceeds of said additional Long-Term Indebtedness to be incurred), is projected by the Obligated Group Representative to be not less than 1.25:1.0. Notwithstanding the foregoing, if the Master Trustee receives a report of an Independent Consultant to the effect that Industry Restrictions prevent the Obligated Group Members from generating the required levels of Income Available for Debt Service sufficient to result in a Debt Service Coverage Ratio of not less than 1.25:1.0, the 1.25:1.0 ratio requirement described in this subsection shall be reduced to a ratio of not less than 1.0:1.0; or

(3) any other Long-Term Indebtedness (including, without limitation, Commercial Paper Indebtedness, treating the amount of Commercial Paper Indebtedness being incurred or Outstanding, as the case may be, as the principal amount for purposes of any calculations made to demonstrate compliance with the provisions of the Master Indenture described under this caption) provided that the aggregate principal amount of such Long-Term Indebtedness, together with any other Long-Term Indebtedness incurred pursuant to the provisions of the Master Indenture described in this clause (3) and then Outstanding, does not, as of the date of incurrence, exceed 10% of Total Revenues.

(b) Completion Indebtedness without limitation;

(c) Short-Term Indebtedness provided that either (i) the provisions of the Master Indenture described in subsection (a) above are satisfied calculated as if such Short-Term Indebtedness was Long-Term Indebtedness or (ii) the provisions of the Master Indenture described below are satisfied, in either case, as evidenced by an Officer's Certificate delivered to the Master Trustee:

(1) the total amount of such Short-Term Indebtedness shall not exceed 20% of Total Revenues; and

(2) the total amount of such Short-Term Indebtedness and Indebtedness incurred pursuant to the provision of the Master Indenture described below in clause (g) then Outstanding shall not exceed 25% of Total Revenues; and

(3) in every Fiscal Year, there shall be at least a consecutive 20 day period when the balances of such Short-Term Indebtedness is reduced to an amount which shall not exceed 5% of Total Revenues.

(d) Nonrecourse Indebtedness without limitation.

(e) Long-Term Indebtedness, if such Long-Term Indebtedness is issued or incurred to refund Long-Term Indebtedness and if prior to issuance or incurrence thereof there is delivered to the Master Trustee a resolution of the Governing Body of the Obligated Group Representative determining that such refunding is in the best interests of the Obligated Group, which resolution shall also state the reasons for such determination.

(f) Subordinated Indebtedness, without limitation.

(g) Any other Indebtedness, provided that the aggregate principal amount of such Indebtedness, together with the aggregate principal amount of Indebtedness incurred pursuant to the provisions of the Master Indenture described in subsection (c) above, does not, as of the date of incurrence, exceed 25% of Total Revenues.

(h) Reimbursement or other repayment obligations under reimbursement agreements or similar agreements relating to credit facilities and/or liquidity facilities which provide credit support and/or liquidity for Indebtedness.

Gross Revenue Fund.

(a) Each Obligated Group Member agrees that, as long as any of the Obligations remain Outstanding, all of the Gross Revenues shall be deposited as soon as practicable upon receipt in one or more deposit accounts designated as the "Gross Revenue Fund" which the Obligated Group Representative established and agreed to maintain pursuant to the provisions of the Original Master Indenture, subject to the provisions of the Master Indenture described in subsection (b) below, at such financial institution or institutions as the Obligated Group Representative shall from time to time designate, in writing, for such purpose (each, a "Depository Bank" and in the Master Indenture collectively called the "Depository Bank") and which has

entered into an Account Control Agreement with the Obligated Group Members and the Master Trustee. As security for the payment of Required Payments and the performance by each Obligated Group Member of its other obligations under the Master Indenture, each Obligated Group Member pledges and assigns to the Master Trustee and grants to the Master Trustee a security interest in, all its right, title and interest, whether now owned or hereafter acquired, in and to all Collateral, including Gross Revenues and the Gross Revenue Fund. Each of the Obligated Group Members has executed or shall execute an Account Control Agreement, has executed or shall execute and cause to be filed Uniform Commercial Code financing statements, and has executed or shall execute and deliver such other documents (including, but not limited to, amendments to such Uniform Commercial Code financing statements) as may be necessary in order to perfect or maintain the perfection of such security interest. Each Obligated Group Member authorizes the Master Trustee to execute and file any financing statements and amendments thereto as may be required to perfect or to continue the perfection of the security interest in the Collateral, including, without limitation, financing statements that describe the collateral as being of an equal, greater or lesser scope, or with greater or lesser detail, than as set forth in the definition of Collateral. Each Obligated Group Member covenants that it will not change its name or its type or jurisdiction of organization unless (i) it gives thirty (30) days' notice of such change to the Master Trustee and (ii) before such change occurs it takes all actions as are necessary or advisable to maintain and continue the first priority perfected security interest of the Master Trustee in the Collateral.

(b) Gross Revenues and amounts in the Gross Revenue Fund may be used and withdrawn by each Obligated Group Member at any time for any lawful purpose, except as otherwise provided in the Master Indenture. In the event that any Obligated Group Member is delinquent for more than one (1) Business Day in the payment of any Required Payment, the Master Trustee shall notify the Obligated Group Representative of such delinquency, and, unless such Required Payment is paid within ten (10) days after receipt of such notice, the Master Trustee shall be entitled to deliver an Order (as such term is defined in the Account Control Agreement) to the Depository Bank. Upon delivery of the Order with respect to the Gross Revenue Fund, exclusive control over the Gross Revenue Fund shall be exercised by the Master Trustee as provided in the Account Control Agreement. All Gross Revenues shall continue to be deposited in the Gross Revenue Fund as provided pursuant to the provisions of the Master Indenture described in subsection (a) above and the Master Trustee shall continue to exercise exclusive control over the Gross Revenue Fund until the amounts on deposit in said Gross Revenue Fund are sufficient to pay in full (or have been used to pay in full) all Required Payments in default and until all other then-existing Events of Default known to the Master Trustee shall have been made good or cured to the satisfaction of the Master Trustee or provision deemed by the Master Trustee to be adequate shall have been made therefor. During any period that the Gross Revenue Fund is subject to the exclusive control of the Master Trustee, the Master Trustee shall use and withdraw from time to time amounts in said fund, to make Required Payments as such payments become due (whether by maturity, prepayment, redemption, acceleration or otherwise), and, if such amounts shall not be sufficient to pay in full all such payments due on any date, then to the payment of debt service on Obligations, ratably, without any discrimination or preference, and to such other payments in the order which the Master Trustee, in its discretion, shall determine to be in the best interests of the Holders of the Obligations, without discrimination or preference. During any period that the Gross Revenue Fund is subject to the exclusive control of the Master Trustee, no Obligated Group Member shall be entitled to use or withdraw any of the Gross Revenues unless

(and then only to the extent that) the Master Trustee in its sole discretion so directs for the payment of current or past due operating expenses of such Obligated Group Member; provided, however, that Obligated Group Members may submit requests to the Master Trustee as to which expenses to pay and in which order. Each Obligated Group Member agrees to execute and deliver all instruments as may be required to implement by the Master Indenture. Each Obligated Group Member further agrees that a failure to comply with the terms of the Master Indenture shall cause irreparable harm to the Master Trustee from time to time of the Obligations, and shall entitle the Master Trustee, with or without notice to the Obligated Group Representative, to take immediate action to compel the specific performance of the obligations of each of the Obligated Group Members pursuant to the provisions of the Master Indenture described under this caption.

(c) Upon receipt of Gross Revenues, each Obligated Group Member covenants and agrees: (i) to deposit in all Gross Revenues in the Gross Revenue Fund and not in any other fund or account; (ii) that the Gross Revenue Fund will be held as a deposit at the Depository Bank; and (iii) that the Gross Revenue Fund will not be moved from the Depository Bank without the prior written consent of the Master Trustee, which consent shall not be unreasonably withheld.

Notwithstanding any other provision of the Master Indenture, the Gross Revenue Fund may consist of any number of deposit accounts provided that each such deposit account shall be established at a Depository Bank which has entered into an Account Control Agreement with the Master Trustee and one or more Obligated Group Members.

Debt Coverage.

(a) Each Obligated Group Member, respectively, further covenants and agrees to manage its operations such that Income Available for Debt Service for the Obligated Group calculated at the end of each Fiscal Year will be not less than 1.10 times Maximum Annual Debt Service.

(b) Within 5 months after the end of each Fiscal Year, the Obligated Group Representative shall compute the Debt Service Coverage Ratio for the Obligated Group for such Fiscal Year and furnish to the Master Trustee, an Officer's Certificate setting forth the results of such computation. The Obligated Group Representative covenants that if at the end of such Fiscal Year the Debt Service Coverage Ratio shall have been less than 1.1:1.0, it will promptly employ an Independent Consultant to make recommendations as to a revision of the rates, fees and charges of the Obligated Group or the methods of operation of the Obligated Group to increase the Debt Service Coverage Ratio to at least 1.1:1.0 for subsequent Fiscal Years (or, if in the opinion of the Independent Consultant, the attainment of such level is impracticable, to the highest practicable level). Copies of the recommendations of the Independent Consultant shall be filed with the Master Trustee within ninety (90) days of the retention of the Independent Consultant. Each Obligated Group Member shall, promptly upon its receipt of such recommendations, subject to applicable requirements or restrictions imposed by law and to a good faith determination by the Governing Body of the Obligated Group Representative that such recommendations are in the best interest of the Obligated Group, revise its rates, fees and charges or its methods of operation or collections and shall take such other action as shall be in conformity with such recommendations.

If either (i) the Obligated Group complies in all material respects with the reasonable recommendations of the Independent Consultant with respect to their rates, fees, charges and methods of operation or collection or (ii) the Obligated Group Representative determines that such recommendations are not in the best interests of the Obligated Group (and accordingly will not be followed) as evidenced by an Officer's Certificate filed with the Master Trustee, the Obligated Group will be deemed to have complied with the covenants set forth in the Master Indenture for such Fiscal Year, notwithstanding that the Debt Service Coverage Ratio shall be less than 1.1:1.0; provided, however, that the Debt Service Coverage Ratio shall not be reduced to less than 1.0:1.0 for any Fiscal Year. Notwithstanding the foregoing, the Obligated Group Members shall not be excused from taking any action or performing any duty required under the Master Indenture and no other Event of Default shall be waived by the operation of the provisions of the Master Indenture.

(c) If a written report of an Independent Consultant is delivered to the Master Trustee stating that Industry Restrictions have made it impossible for the Debt Service Coverage Ratio of 1.1:1.0 to be met, then such ratio shall be reduced to 1.0:1.0.

(d) Notwithstanding the foregoing, an Obligated Group Member may permit the rendering of services or the use of its Property without charge or at reduced charges, at the discretion of the Governing Body of such Obligated Group Member, to the extent necessary for maintaining its tax-exempt status or the tax-exempt status of its Property, Plant and Equipment or its eligibility for grants, loans, subsidies or payments from governmental entities, or in compliance with any recommendation for free services that may be made by an Independent Consultant; provided, however, that the Debt Service Coverage Ratio shall not be reduced to a ratio of less than 1.0:1.0.

Limitation on Disposition of Assets.

(a) Each Obligated Group Member covenants that it will not sell, lease or otherwise dispose of any part of its Property in any Fiscal Year (other than (i) such Property as is described in Exhibit D to the Master Indenture which may be disposed of by the Obligated Group solely upon the written consent of the Obligated Group Representative; (ii) in the ordinary course of business; or (iii) as part of a disposition of all or substantially all of its assets as permitted by the Master Indenture, with a Book Value in excess of 10% of the Book Value of the Property of the Obligated Group, unless prior to said disposition:

(1) there shall have been delivered to the Master Trustee an Officer's Certificate to the effect that such Property is or shall become within the next two (2) Fiscal Years inadequate, obsolete, unsuitable, undesirable or unnecessary for the operation and functioning of the primary business of the Obligated Group Members; or

(2) there shall have been delivered to the Master Trustee an Officer's Certificate to the effect that the Value of the Property so disposed of by the Obligated Group Members in any Fiscal Year pursuant to the provision described in the Master Indenture does not exceed 5% of the total Value of the Property of the Obligated Group; or

(3) there shall have been delivered to the Master Trustee an Officer's Certificate to the effect that such Property is being transferred to a Person who is not an Obligated Group Member if such Person shall become a Member pursuant to the Master Indenture substantially simultaneously with such transfer; or

(4) there shall have been delivered to the Master Trustee an Officer's Certificate to the effect that such Property is being transferred to another Person in connection with a sale/leaseback or lease/leaseback financing transaction relating to such Property; or

(5) there shall have been delivered to the Master Trustee an Officer's Certificate to the effect that the disposition is for Fair Market Value and does not materially adversely affect the operations of the Obligated Group; or

(6) there shall have been delivered to the Master Trustee an Officer's Certificate to the effect that the Transaction Test is satisfied.

(b) Notwithstanding the foregoing, nothing shall prohibit any disposition of assets among Obligated Group Members nor shall prohibit the Obligated Group Members from: (1) making loans, including, without limitation, employee relocation loans, physician recruitment loans or other credit/funding extensions, provided that such loans or other credit/funding extensions are in writing and the Master Trustee receives an Officer's Certificate to the effect that (x) such loans are in furtherance of the exempt purposes of the Obligated Group Members or (y) the Obligated Group Members reasonably expect such loans to be repaid and such loans bear interest at a reasonable rate of interest and on commercially reasonable terms; or (2) transferring restricted gifts for the Obligated Group Members to an Affiliated Corporation which has the purpose to receive and disburse such restricted gifts.

Merger, Consolidation, Sale or Conveyance. Each Obligated Group Member covenants that it will not merge or consolidate with any other Person that is not an Obligated Group Member or sell or convey all or substantially all of its assets to any Person that is not an Obligated Group Member (a "Merger Transaction") unless:

(a) After giving effect to the Merger Transaction, (i) the successor or surviving entity (hereinafter, the "Surviving Entity") is an Obligated Group Member, or (ii) the Surviving Entity (x) shall be a corporation or other entity organized and existing under the laws of the United States of America or any state thereof, (y) shall become an Obligated Group Member pursuant to the Master Indenture and (z) pursuant to the Related Supplement required by the Master Indenture, shall expressly assume in writing the due and punctual payment of all Required Payments of the disappearing Obligated Group Member under the Indenture;

(b) The Master Trustee receives an Officer's Certificate to the effect that the Transaction Test is satisfied in connection with the Merger Transaction;

(c) So long as any Related Bonds that are tax-exempt obligations are Outstanding, the Master Trustee receives an Opinion of Bond Counsel to the effect that, under then existing law, the consummation of the Merger Transaction, in and of itself, would not result in the inclusion of interest on such Related Bonds in gross income for purposes of federal income taxation;

(d) The Master Trustee receives an Opinion of Counsel to the effect that: (i) all conditions in the Master Indenture relating to the Merger Transaction have been complied with and the Master Trustee is authorized to join in the execution of any instrument required to be executed and delivered; (ii) the Surviving Entity meets the conditions set forth in the Master Indenture and is liable on all Obligations then Outstanding; (iii) the Merger Transaction will not adversely affect the validity of any Obligations then Outstanding and such Obligations then Outstanding are enforceable against the Surviving Entity in accordance with their respective terms; and (iv) the Merger Transaction will not cause the Master Indenture or any Obligations to be subject to registration under federal or state securities laws or the Trust Indenture Act of 1939, as amended (or, that any such registration, if required, has occurred); and

(e) The Surviving Entity shall be substituted for its predecessor in interest in all Obligations and agreements then in effect which affect or relate to any Obligation, and the Surviving Entity shall execute and deliver to the Master Trustee appropriate documents in order to effect the substitution.

From and after the effective date of such substitution (as set forth in the above-mentioned documents), the Surviving Entity shall be treated as though it were an Obligated Group Member as of the date of the execution of the Master Indenture and shall thereafter have the right to participate in transactions under the Master Indenture relating to Obligations to the same extent as the other Obligated Group Members. All Obligations issued under the Master Indenture on behalf of a Surviving Entity shall have the same legal rank and benefit under the Master Indenture as Obligations issued on behalf of any other Obligated Group Member.

Preparation and Filing of Financial Statements, Certificates and Other Information.

(a) Each Obligated Group Member covenants that it will keep adequate records and books of accounts in which complete and correct entries shall be made (said books shall be subject to the inspection by the Master Trustee (which inspection the Master Trustee is not required to make) during regular business hours after reasonable notice and under reasonable circumstances).

(b) The Obligated Group Representative covenants that it will furnish to the Master Trustee and any Related Bond Issuer that shall request the same in writing:

(1) As soon as practicable, but in no event more than 5 months after the last day of each Fiscal Year, one or more financial statements which, in the aggregate, shall include the Obligated Group Members. Such financial statements:

(A) may consist of (i) consolidated or combined financial results including one or more Members of the Obligated Group and one or more other Persons required to be consolidated or combined with such Member(s) of the Obligated Group under GAAP or (ii) special purpose financial statements including only Members of the Obligated Group;

(B) shall be audited by an Accountant selected by the Obligated Group Representative and shall be prepared in accordance with GAAP (except, in the case of special purpose financial statements, for required consolidations);

(C) shall include a consolidated or combined balance sheet, statement of operations and changes in net assets; and

(D) if financial statements delivered to the Master Trustee pursuant to the provisions of the Master Indenture described in this subsection include financial information with respect to any Person who is not an Obligated Group Member or an Immaterial Affiliate as provided pursuant to clause (3) below or do not include financial information with respect to all Obligated Group Members, then the financial statements shall contain a consolidating or combining schedule from which financial information solely relating to the Obligated Group Members and Immaterial Affiliates may be derived.

(2) At the time of the delivery of financial statements complying with the provisions of the Master Indenture described under subsection (b) above (such financial statements being hereinafter referred to as the "Financial Statements"), a certificate of the chief financial officer of the Obligated Group Representative, stating that the Obligated Group Representative has made a review of the activities of the Obligated Group Members during the preceding Fiscal Year for the purpose of determining whether or not the Obligated Group Members have complied with all of the terms, provisions and conditions of the Master Indenture and that each Obligated Group Member has kept, observed, performed and fulfilled each and every covenant, provision and condition of the Master Indenture on its part to be performed and none of such Obligated Group Members is in default in the performance or observance of any of the terms, covenants, provisions or conditions, or if any Obligated Group Member shall be in default, such certificate shall specify all such defaults and the nature thereof.

(3) Notwithstanding the foregoing, the results of operation and financial position of Immaterial Affiliates need not be excluded from Financial Statements delivered to the Master Trustee pursuant to the provisions of the Master Indenture described under this caption, and such results of operation and financial position may be considered as if they were a portion of the results of operation and financial position of the Obligated Group Members for all purposes of the Master Indenture notwithstanding the inclusion of the results of operation and financial position of such Immaterial Affiliates.

(c) The Master Trustee shall not be obligated to review, verify, or analyze any Financial Statements delivered to the Master Trustee under the Master Indenture, and shall only retain such Financial Statements as a repository for the Holders.

Membership in Obligated Group. Additional Obligated Group Members may be added to the Obligated Group from time to time, provided that prior to such addition the Master Trustee receives:

(a) a copy of a resolution of the Governing Body of the proposed new Obligated Group Member which authorizes the execution and delivery of a Related Supplement and compliance with the terms of the Master Indenture;

(b) a Related Supplement executed by the Obligated Group Representative, the new Obligated Group Member and the Master Trustee pursuant to which the proposed new Obligated Group Member (i) agrees to become an Obligated Group Member, (ii) agrees to be bound by the terms of the Master Indenture, the Related Supplements and the Obligations, and (iii) irrevocably appoints the Obligated Group Representative as its agent and attorney-in-fact and grants to the Obligated Group Representative the requisite power and authority to execute Related Supplements authorizing the issuance of Obligations or Series of Obligations, to execute and deliver Obligations and to make payments on all Obligations;

(c) an Opinion of Counsel to the effect that: (i) the proposed new Obligated Group Member has taken all necessary action to become an Obligated Group Member, and upon execution of the Related Supplement, such proposed new Obligated Group Member will be bound by the terms of the Master Indenture; (ii) the addition of such Obligated Group Member would not adversely affect the validity of any Obligation then Outstanding; and (iii) the addition of such Obligated Group Member will not cause the Master Indenture or any Obligations to be subject to registration under federal or state securities laws or the Trust Indenture Act of 1939, as amended (or, that any such registration, if required, has occurred);

(d) an Officer's Certificate to the effect that immediately after the addition of the proposed new Obligated Group Member, the Transaction Test would be satisfied; and

(e) so long as any Related Bonds that are tax-exempt obligations are Outstanding, an Opinion of Bond Counsel to the effect that the addition of the proposed new Obligated Group Member will not, in and of itself, result in the inclusion of interest on any Related Bonds in gross income for purposes of federal income taxation.

Withdrawal from Obligated Group. Any Obligated Group Member may withdraw from the Obligated Group and be released from further liability or obligation under the provisions of the Master Indenture, provided that prior to such withdrawal the Master Trustee receives:

(a) the written consent of the Obligated Group Representative to the withdrawal of such Obligated Group Member;

(b) an Officer's Certificate to the effect that immediately following the withdrawal of such Obligated Group Member, the Transaction Test would be satisfied; and

(c) an Opinion of Counsel to the effect that: (i) the withdrawal of such Obligated Group Member would not adversely affect the validity of any Obligation then Outstanding; and (ii) the withdrawal of such Obligated Group Member will not cause the Master Indenture or any Obligations to be subject to registration under federal or state securities laws or the Trust Indenture Act of 1939, as amended (or, that any such registration, if required, has occurred).

Upon compliance with the conditions contained in the provisions of the Master Indenture described under this caption, the Master Trustee shall execute any documents reasonably requested by the withdrawing Obligated Group Member to evidence the termination of such Obligated Group Member's obligations under the Master Indenture, under all Related Supplements and under all Obligations.

Notwithstanding the foregoing, the Corporation may not withdraw from the Obligated Group unless prior to or concurrently with such withdrawal, the Corporation shall transfer all or substantially all of its assets to another Member of the Obligated Group.

Defaults and Remedies

Events of Default. Each of the following events shall be an Event of Default under the Master Indenture:

(a) Failure on the part of the Obligated Group Members to make due and punctual payment of the principal of, redemption premium, if any, interest on, or any other Required Payment on, any Obligation.

(b) Any Obligated Group Member shall fail to observe or perform any other covenant or agreement under the Master Indenture (including covenants or agreements contained in any Related Supplement or Obligation) and shall not have cured such failure within sixty (60) days after the date on which written notice of such failure, requiring the failure to be remedied, shall have been given to the Obligated Group Representative by the Master Trustee or to the Obligated Group Representative and the Master Trustee by the Holders of 25% in aggregate principal amount of Outstanding Obligations; provided that if such failure can be remedied but not within such 60 day period, such failure shall not become an Event of Default for so long as the Obligated Group Representative shall diligently proceed to remedy the failure.

The Corporation has proposed amendment of the percentage set forth in subsection (b) above from 25% in aggregate principal amount of Outstanding Obligations to a majority in aggregate principal amount of Outstanding Obligations. Upon securing the consent of the Holders of 100% in aggregate principal amount of Outstanding Obligations, such amendment will take effect. By purchasing the Bonds, the purchasers and Beneficial Owners will be deemed to have consented to such amendment.

(c) A court having jurisdiction shall enter a decree or order for relief in respect of any Obligated Group Member in an involuntary case under any applicable federal or state bankruptcy, insolvency or other similar law, or appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator (or similar official) of any Obligated Group Member or for any substantial part of the Property of any Obligated Group Member, or ordering the winding up or liquidation of its affairs, and such decree or order shall remain unstayed and in effect for a period of sixty (60) consecutive days.

(d) Any Obligated Group Member shall commence a voluntary case under any applicable federal or state bankruptcy, insolvency or other similar law, or shall consent to the entry of an order for relief in an involuntary case under any such law, or shall consent to the appointment of or taking possession by a receiver, liquidator, assignee, trustee, custodian, sequestrator (or similar official) of any Obligated Group Member or for any substantial part of its Property, or shall make any general assignment for the benefit of creditors, or shall fail generally to pay its debts as they become due or shall take any corporate action in furtherance of the foregoing.

(e) An event of default shall exist under any Related Bond Indenture.

The Obligated Group Representative agrees that, as soon as practicable, and in any event within ten (10) days after such event, the Obligated Group Representative shall notify the Master Trustee of any event which is an Event of Default under the Master Indenture which has occurred and is continuing, which notice shall state the nature of such event and the action which the Obligated Group Members propose to take with respect thereto.

Acceleration; Annulment of Acceleration.

(a) Upon the occurrence and during the continuation of an Event of Default under the Master Indenture, the Master Trustee may, and, upon (i) the written request of the Holders of not less than 25% in aggregate principal amount of Outstanding Obligations or of any Holder if an Event of Default under the Master Indenture has occurred or (ii) the acceleration of any Obligation pursuant to the terms of the Related Supplement under which such Obligation was issued, the Master Trustee shall, by notice to the Members, declare all Outstanding Obligations immediately due and payable, whereupon such Obligations shall become and be immediately due and payable, anything in the Obligations or in the Master Indenture to the contrary notwithstanding; provided, however, that if the terms of any Related Supplement give a Person the right to consent to acceleration of the Obligations issued pursuant to such Related Supplement, the Obligations issued pursuant to such Related Supplement may not be accelerated by the Master Trustee unless such consent is properly obtained pursuant to the terms of such Related Supplement. In the event of acceleration, an amount equal to the aggregate principal amount of all Outstanding Obligations, plus all interest accrued thereon and, to the extent permitted by applicable law, which accrues on such principal and interest to the date of payment, shall be due and payable on the Obligations. Notwithstanding the foregoing, no Obligation shall be accelerated if the Event of Default is the result of the nonpayment of a Subordinate Financial Product Extraordinary Payment issued on or after the date of effectiveness of the Master Indenture.

The Corporation has proposed amendment of the percentage set forth in subsection (a) above from 25% in aggregate principal amount of Outstanding Obligations to a majority in aggregate principal amount of Outstanding Obligations. Upon securing the consent of the Holders of 100% in aggregate principal amount of Outstanding Obligations, such amendment will take effect. By purchasing the Bonds, the purchasers and Beneficial Owners will be deemed to have consented to such amendment.

(b) At any time after the Obligations have been declared to be due and payable, and before the entry of a final judgment or decree in any proceeding instituted with respect to the Event of Default that resulted in the declaration of acceleration, the Master Trustee may annul such declaration and its consequences if:

(1) the Obligated Group Members have paid (or caused to be paid or deposited with the Master Trustee moneys sufficient to pay) all payments then due on all Outstanding Obligations (other than payments then due only because of such declaration);

(2) the Obligated Group Members have paid (or caused to be paid or deposited with the Master Trustee moneys sufficient to pay) all fees and expenses of the Master Trustee then due;

(3) the Obligated Group Members have paid (or caused to be paid or deposited with the Master Trustee moneys sufficient to pay) all other amounts then payable by the Obligated Group under the Master Indenture; and

(4) every Event of Default (other than a default in the payment of the principal or other payments of such Obligations then due only because of such declaration) has been remedied.

No such annulment shall extend to or affect any subsequent Event of Default or impair any right with respect to any subsequent Event of Default.

Additional Remedies and Enforcement of Remedies.

(a) Upon the occurrence and continuance of any Event of Default, the Master Trustee may, and upon the written request of the Holders of not less than 25% in aggregate principal amount of Outstanding Obligations (and upon indemnification of the Master Trustee to its satisfaction by the Obligated Group for any such request), shall, proceed to protect and enforce its rights and the rights of the Holders under the Master Indenture by such proceedings as the Master Trustee may deem expedient, including but not limited to:

(1) Enforcement of the right of the Holders to collect amounts due or becoming due under the Obligations;

(2) Civil action upon all or any part of the Obligations;

(3) Civil action to require any Person holding moneys, documents or other property pledged to secure payment of amounts due or to become due on the Obligations to account as if it were the trustee of an express trust for the Holders of Obligations;

(4) Civil action to enjoin any acts which may be unlawful or in violation of the rights of the Holders of Obligations; and

(5) Enforcement of any other right or remedy of the Holders conferred by law or by the Master Indenture.

The Corporation has proposed amendment of the percentage set forth in subsection (a) above from 25% in aggregate principal amount of Outstanding Obligations to a majority in aggregate principal amount of Outstanding Obligations. Upon securing the consent of the Holders of 100% in aggregate principal amount of Outstanding Obligations, such amendment will take effect. By purchasing the Bonds, the purchasers and Beneficial Owners will be deemed to have consented to such amendment.

(b) Regardless of the occurrence of an Event of Default, if requested in writing by the Holders of not less than 25% in aggregate principal amount of the Outstanding Obligations (and upon indemnification of the Master Trustee to its satisfaction for such request), the Master Trustee shall institute and maintain such proceedings as it may be advised shall be necessary or expedient (1) to prevent any impairment of the security under the Master Indenture by any acts which may be unlawful or in violation of the Master Indenture, or (2) to preserve or protect the interests of the

Holder. However, the Master Trustee shall not comply with any such request or institute and maintain any such proceeding that is in conflict with any applicable law or the provisions of the Master Indenture or (in the sole judgment of the Master Trustee) is unduly prejudicial to the interests of the Holders not making such request.

Application of Moneys After Default. During the continuance of an Event of Default, all moneys received by the Master Trustee pursuant to any right given or action taken under the provisions of the Master Indenture described under the caption "Default" (after payment of the costs of the proceedings resulting in the collection of such moneys and payment of all fees, expenses and other amounts owed to the Master Trustee) shall be applied as follows:

(a) Unless all Outstanding Obligations have become or have been declared due and payable (or if any such declaration is annulled in accordance with the terms of the Master Indenture):

First: To the payment of all installments of interest then due on the Obligations (including (i) Financial Product Payments to the extent made pursuant to a Financial Products Agreement secured or evidenced by an Obligation and (ii) Parity Financial Product Extraordinary Payments), in the order of their due dates, and, if the amount available is not sufficient to pay in full all installments of interest, Financial Product Payments to the extent made pursuant to a Financial Products Agreement secured or evidenced by an Obligation, and Parity Financial Product Extraordinary Payments due on the same date, then to the payment thereof ratably, according to the amounts of interest, Financial Product Payments to the extent made pursuant to a Financial Products Agreement secured or evidenced by an Obligation, and Parity Financial Product Extraordinary Payments due on such date, without any discrimination or preference;

Second: To the payment of all installments of principal then due on the Obligations (whether at maturity or by call for redemption) and other unpaid Required Payments in the order of their due dates, and, if the amount available is not sufficient to pay in full all installments of principal due on the same date, then to the payment thereof ratably, according to the amounts of principal due on such date, without any discrimination or preference;

Third: To the payment of all Subordinate Financial Product Extraordinary Payments in the order of their due dates, and, if the amount available is not sufficient to pay in full all Subordinate Financial Product Extraordinary Payments due on the same date, then to the payment thereof ratably, according to the amounts of Subordinate Financial Product Extraordinary Payments due on such date, then to the payment thereof ratably, according to the amounts of Subordinate Financial Product Extraordinary Payments due on such date, without any discrimination or preference.

(b) If all Outstanding Obligations have become or have been declared due and payable (and such declaration has not been annulled under the terms of the Master Indenture):

First: To the payment of the principal and interest and other Required Payments (including (i) Financial Product Payments to the extent made pursuant to a Financial

Products Agreement secured or evidenced by an Obligation and (ii) Parity Financial Product Extraordinary Payments, but excluding Subordinate Financial Product Extraordinary Payments) then due and unpaid on the Obligations, and, if the amount available is not sufficient to pay in full the whole amount then due and unpaid, then to the payment thereof ratably, without preference or priority of principal over interest, of interest over principal, of any installment or payment over any other installment or payment or of any Obligation over any other Obligation, according to the amounts due respectively, without any discrimination or preference; and

Second: To the payment of all Subordinate Financial Product Extraordinary Payments in the order of their due dates, and, if the amount available is not sufficient to pay in full all Subordinate Financial Product Extraordinary Payments due on the same date, then to the payment thereof ratably, according to the amounts of Subordinate Financial Product Extraordinary Payments due on such date, without any discrimination or preference.

Such moneys shall be applied at such times as the Master Trustee shall determine, having due regard for the amount of moneys available and the likelihood of additional moneys becoming available in the future. Upon any date fixed by the Master Trustee for the application of such moneys to the payment of principal, interest on the amounts of principal to be paid on such date shall cease to accrue, provided such moneys are applied by the Master Trustee to the payment of such principal. The Master Trustee shall give such notices as it may deem appropriate of the deposit with it of such moneys or of the fixing of such dates. The Master Trustee shall not be required to make payment to the Holder of any unpaid Obligation until such Obligation is presented to the Master Trustee for appropriate endorsement of any partial payment or for cancellation if fully paid.

Whenever all Obligations have been paid under the terms of the Master Indenture and all fees and expenses of the Master Trustee have been paid, any balance remaining shall be paid to the Person entitled to receive such balance. If no other Person is entitled thereto, then the balance shall be paid to the Members of the Obligated Group or such Person as a court of competent jurisdiction may direct.

Remedies Not Exclusive. No remedy granted by the terms of the Master Indenture is intended to be exclusive of any other remedy. Each remedy shall be cumulative and shall be in addition to every other remedy given under the Master Indenture or existing at law or in equity.

Remedies Vested in the Master Trustee. All rights of action (including the right to file proof of claims) under the Master Indenture or under any of the Obligations may be enforced by the Master Trustee without the possession of any of the Obligations or the production thereof in any proceeding relating thereto. Any proceeding instituted by the Master Trustee may be brought in its name as the Master Trustee without the necessity of joining any Holders as plaintiffs or defendants. Subject to the provisions of the Master Indenture described above under the caption "Application of Moneys After Default," any recovery or judgment shall be for the equal benefit of the Holders of the Outstanding Obligations.

Master Trustee to Represent Holders. The Master Trustee is by the Master Indenture irrevocably appointed as trustee and attorney in fact for the Holders for the purpose of exercising on their behalf the rights and remedies available to the Holders under the provisions of the Master Indenture, the Obligations, any Related Supplement and applicable provisions of law, in each case subject to the provisions of the Master Indenture described below under the caption "Holders' Control of Proceedings." The Holders, by taking and holding the Obligations, shall be conclusively deemed to have so appointed the Master Trustee.

Holders' Control of Proceedings. If an Event of Default has occurred and is continuing, notwithstanding anything in the Master Indenture to the contrary, the Holders of at least a majority in aggregate principal amount of Outstanding Obligations shall have the right (upon the indemnification of the Master Trustee to its satisfaction) to direct the method and/or place of conducting any proceeding to be taken in connection with the enforcement of the terms of the Master Indenture. Such direction must be in writing, signed by such Holders and delivered to the Master Trustee. However, the Master Trustee shall not follow any such direction that is in conflict with any applicable law or the provisions of the Master Indenture or (in the sole judgment of the Master Trustee) is unduly prejudicial to the interests of the Holders not joining in such direction. Nothing shall impair the right of the Master Trustee to take any other action authorized by the Master Indenture which it may deem proper and which is not inconsistent with such direction by Holders.

Termination of Proceedings. In case any proceeding instituted by the Master Trustee with respect to any Event of Default is discontinued or abandoned for any reason or is determined adversely to the Master Trustee or the Holders, then the Obligated Group Members, the Master Trustee and the Holders shall be restored to their former positions and rights under the Master Indenture. All rights, remedies and powers of the Master Trustee and the Holders shall continue as if no such proceeding had been taken.

Waiver of Event of Default.

(a) No delay or omission of the Master Trustee or of any Holder to exercise any right with respect to any Event of Default shall impair such right or shall be construed to be a waiver of or acquiescence to such Event of Default. Every right and remedy given by the Master Indenture to the Master Trustee and the Holders may be exercised from time to time and as often as may be deemed expedient by them.

(b) The Master Trustee may waive any Event of Default which in its opinion has been remedied before the entry of a final judgment or decree in any proceeding instituted by it under the provisions of the Master Indenture, or before the completion of the enforcement of any other remedy under the Master Indenture.

(c) Upon the written request of the Holders of at least a majority in aggregate principal amount of Outstanding Obligations, the Master Trustee shall waive any Event of Default under the Master Indenture and its consequences; provided, however, that, except under the circumstances set forth in the Master Indenture, the failure to pay the principal of, premium, if any, or interest on any Obligation when due may not be waived without the written consent of the Holders of all Outstanding Obligations.

(d) In case of any waiver by the Master Trustee of an Event of Default, the Obligated Group Members, the Master Trustee and the Holders shall be restored to their former positions and rights. No waiver shall extend to, or impair any right with respect to, any other Event of Default.

Appointment of Receiver. Upon the occurrence and continuance of any Event of Default, the Master Trustee shall be entitled (a) without declaring the Obligations to be due and payable, (b) after declaring the Obligations to be due and payable, or (c) upon the commencement of any proceeding to enforce any right of the Master Trustee or the Holders, to the appointment of a receiver or receivers of any or all of the Property of the Obligated Group Members (without the necessity of notice to any Obligated Group Member or any other Person), with such powers as the court making such appointment shall confer. Each Obligated Group Member consents, and will if requested by the Master Trustee, consent at the time of application by the Master Trustee for appointment of a receiver, to the appointment of such receiver and agrees that such receiver may be given the right, to the extent the right may lawfully be given, to take possession of, operate and deal with such Property and the revenues, profits and proceeds therefrom, with the same effect as the Obligated Group Member could, and to borrow money and issue evidences of indebtedness as such receiver.

Remedies Subject to Provisions of Law. All rights, remedies and powers provided by the Master Indenture may be exercised only to the extent that the exercise thereof does not violate any applicable provision of law. All the provisions of the Master Indenture are intended to be subject to all applicable mandatory provisions of law that may be continuing and to be limited to the extent necessary so that they will not render any provision of the Master Indenture invalid or unenforceable under the provisions of any applicable law.

Notice of Default. Within ten (10) days after a Responsible Officer of the Master Trustee has actual knowledge or has received written notice of the occurrence of an Event of Default, the Master Trustee shall mail notice of such Event of Default to all Holders, unless such Event of Default has been cured before the giving of such notice, the term "Event of Default" for purposes of the provisions of the Master Indenture being described under this caption being limited to the events specified in the provisions of the Master Indenture described above under the caption "Events of Default" under subsection (a) through (f), not including any grace periods provided for in subsection (b), (c) and (d). Except in the case of default in the payment of the principal of or premium, if any, or interest on any of the Obligations and the Events of Default specified in the Master Indenture, the Master Trustee shall be protected in withholding such notice if and so long as the Master Trustee in good faith determines that the withholding of such notice is in the best interest of the Holders.

Supplements and Amendments

Supplements Not Requiring Consent of Holders. The Obligated Group Representative (acting for itself and as agent for each Obligated Group Member) and the Master Trustee may, without the consent of or notice to any of the Holders, enter into one or more Related Supplements for any of the following purposes:

- (a) To correct any ambiguity or formal defect or omission in the Master Indenture;

(b) To correct or supplement any provision which may be inconsistent with any other provision or to make any other provision with respect to matters or questions arising under the Master Indenture, which, in either case, does not materially and adversely affect the interests of the Holders;

(c) To grant or confer ratably upon all of the Holders any additional benefits, rights, remedies, powers or authority, including, without limitation, the addition of provisions providing for the creation of a credit group which credit group shall consist of all Obligated Group Members and Persons designated as affiliates of Obligated Group Members, or to add to the covenants of and restrictions on the Obligated Group Members;

(d) To qualify the Master Indenture under the Trust Indenture Act of 1939, as amended, or corresponding provisions of federal law from time to time in effect;

(e) To create and provide for the issuance of an Obligation or Series of Obligations as permitted under the Master Indenture;

(f) To obligate a successor to any Obligated Group Member as provided in the Master Indenture;

(g) To add a new Obligated Group Member as provided in the Master Indenture; or

(h) To make any other change which does not materially and adversely affect the interests of the Holders.

Supplements Requiring Consent of Holders.

(a) Other than Related Supplements referred to in the provisions of the Master Indenture described above under the caption "Supplements Not Requiring Consent of Holders," and subject to the terms contained in the Master Indenture and described under this caption, the Holders of not less than a majority in aggregate principal amount of the Outstanding Obligations shall have the right to consent to and approve the execution by the Obligated Group Representative (acting for itself and as agent for each Obligated Group Member) and the Master Trustee of such Related Supplements as shall be deemed necessary or desirable for the purpose of modifying, altering, amending, adding to or rescinding any of the terms contained in the Master Indenture; provided, however, with respect to any Obligation registered in the name of a Related Bond Trustee and securing a Related Series of Bonds, payment of the principal of and interest on which is insured or otherwise guaranteed by a municipal bond insurance policy or is secured by a letter of credit, the provider of such municipal bond insurance or letter of credit shall be deemed to be the Holder of such Obligation for purposes of consenting to and approving the execution of Related Supplements for purposes of the Master Indenture, except as otherwise provided in the applicable Related Supplement or Obligation; and provided, further, however, that nothing in the Master Indenture shall permit or be construed as permitting a Related Supplement which would:

(i) extend the stated maturity of, or time for paying interest on, any Obligation or reduce the principal amount of or the redemption premium or rate of interest or change the method of calculating interest payable on, or reduce any other Required Payment on any Obligation without the consent of the Holder of such Obligation;

(ii) modify, alter, amend, add to or rescind any of the terms or provisions contained in the Master Indenture so as to affect the right of the Holders of any Obligations in default as to payment to compel the Master Trustee to declare the principal of all Obligations to be due and payable, without the consent of the Holders of all Obligations then Outstanding; or

(iii) reduce the aggregate principal amount of Obligations then Outstanding the consent of the Holders of which is required to authorize such Related Supplement, without the consent of the Holders of all Obligations then Outstanding.

(b) The Master Trustee may execute a Related Supplement (in substantially the form delivered to it) without liability or responsibility to any Holder (whether or not such Holder has consented to the execution of such Related Supplement) if the Master Trustee receives: (i) a Request of the Obligated Group Representative to enter into such Related Supplement; (ii) a certified copy of the resolution of the Governing Body of the Obligated Group Representative approving the execution of such Related Supplement; (iii) the proposed Related Supplement; and (iv) an instrument or instruments executed by the Holders of not less than the aggregate principal amount or number of Obligations specified in the provisions of the Master Indenture described in subsection (a) above for the Related Supplement in question which instrument or instruments shall refer to the proposed Related Supplement and shall specifically consent to and approve the execution thereof in substantially the form of the copy thereof as on file with the Master Trustee.

(c) Any such consent shall be binding upon the Holder of the Obligation giving such consent and upon any subsequent Holder of such Obligation and of any Obligation issued in exchange therefor (whether or not such subsequent Holder thereof has notice thereof), unless such consent is revoked in writing by the Holder of such Obligation giving such consent or by a subsequent Holder thereof by filing with the Master Trustee, prior to the execution by the Master Trustee of such Related Supplement, such revocation and, if such Obligation or Obligations are transferable by delivery, proof that such Obligations are held by the signer of such revocation. At any time after the Holders of the required principal amount or number of Obligations shall have filed their consents to the Related Supplement, the Master Trustee shall file a written statement to that effect with the Obligated Group Representative. Such written statement shall be conclusive evidence that such consents have been so filed.

(d) If the Holders of the required principal amount or number of the Outstanding Obligations have consented to the execution of such Related Supplement, no Holder shall have any right to object to the execution thereof, to object to any of the terms and provisions contained therein or the operation thereof, to question the propriety of the execution thereof or to enjoin or restrain the Master Trustee or the Obligated Group Representative from executing such Related Supplement or from taking any action pursuant to the provisions thereof.

Execution and Effect of Supplements.

(a) In executing any Related Supplement permitted by the Master Indenture, the Master Trustee shall be entitled to receive and to rely upon an Opinion of Counsel stating that the execution of such Related Supplement is authorized or permitted by the Master Indenture. The

Master Trustee may (but shall not be obligated to) enter into any Related Supplement that materially and adversely affects the Master Trustee's own rights, duties or immunities.

(b) Upon the execution and delivery of any Related Supplement in accordance with the provisions of the Master Indenture described under the caption "Supplements and Amendments," the provisions of the Master Indenture shall be deemed modified in accordance therewith. Such Related Supplement shall form a part of the Master Indenture for all purposes and every Holder shall be bound thereby.

(c) Any Obligation authenticated and delivered after the execution and delivery of any Related Supplement in accordance with the Master Indenture may, and, if required by the Obligated Group Representative or the Master Trustee shall, bear a notation in form approved by the Master Trustee as to any matter provided for in such Related Supplement. If the Obligated Group Representative or the Master Trustee shall so determine, new Obligations so modified as to conform in the opinion of the Master Trustee and the Governing Body of the Obligated Group Representative to any such Related Supplement may be prepared and executed by the Obligated Group Representative and authenticated and delivered by the Master Trustee in exchange for and upon surrender of Obligations then Outstanding.

Amendment of Related Supplements. Any Related Supplement may provide that the provisions thereof may be amended without the consent of or notice to any of the Holders, or pursuant to such terms and conditions as may be specified in such Related Supplement. If a Related Supplement does not contain provisions relating to the amendment thereof, the amendment of such Related Supplement shall be governed by the provisions of the Master Indenture described under the caption "Supplements and Amendments."

Satisfaction and Discharge

The Master Indenture shall cease to be of further effect if: (i) all Obligations previously authenticated (other than any Obligations which have been mutilated, destroyed, lost or stolen and which have been replaced or paid as provided in any Related Supplement) and not cancelled are delivered to the Master Trustee for cancellation; or (ii) all Obligations not previously cancelled or delivered to the Master Trustee for cancellation are paid; or (iii) a deposit is made in trust with the Master Trustee (or with one or more national banking associations or trust companies acceptable to the Master Trustee pursuant to an agreement between an Obligated Group Member and such national banking associations or trust companies in form acceptable to the Master Trustee) in cash or Government Obligations or both, sufficient to pay at maturity or upon redemption all Obligations not previously cancelled or delivered to the Master Trustee for cancellation, including principal and interest or other payments (including Financial Product Payments and Financial Product Extraordinary Payments) due or to become due to such date of maturity, redemption date or payment date, as the case may be; and all other sums payable under the Master Indenture by the Obligated Group Members are also paid.

SUPPLEMENTAL MASTER INDENTURE FOR OBLIGATION NO. 42

General

Supplement No. 42 provides for the issuance of Obligation No. 42 and provides the terms and form thereof. Obligation No. 42 further secures the obligation of the Corporation arising under and pursuant to the Loan Agreement with respect to the Bonds.

Payments on Obligation No. 42; Credits

Principal of and interest on Obligation No. 42 are payable in any coin or currency of the United States of America that on the payment date is legal tender for the payment of public and private debts. Except as provided pursuant to the provisions of Supplement No. 42 described in subsection (b) below with respect to credits and as described under the caption "Prepayment of Obligation No. 42" below regarding prepayment, payments on the principal of and interest on Obligation No. 42 shall be made at the times and in the amounts specified in Obligation No. 42 by the Corporation (i) depositing the same with or to the account of the Trustee at or prior to the opening of business on the day such payments shall become due or payable (or on the next succeeding business day if such date is a Saturday, Sunday or bank holiday in the city in which the principal corporate trust office of the Trustee is located) and (ii) giving a notice to the Master Trustee and the Trustee of each payment of principal or interest on Obligation No. 42, specifying the amount paid, and identifying such payment as a payment on Obligation No. 42.

The Corporation shall receive credit for payment on Obligation No. 42, in addition to any credits resulting from payment or prepayment from other sources, as follows:

(i) On installments of interest on Obligation No. 42 in an amount equal to moneys deposited in the Interest Account created under the Indenture, to the extent such amounts have not previously been credited against payments on Obligation No. 42;

(ii) On installments of principal of Obligation No. 42 in an amount equal to moneys deposited in the Principal Account created under the Indenture, to the extent such amounts have not previously been credited on Obligation No. 42;

(iii) On installments of principal and interest, respectively, on Obligation No. 42 in an amount equal to the principal amount of Bonds for the payment or redemption of which sufficient amounts (as determined by the provisions of the Indenture described below under the caption "Indenture - Discharge of the Indenture") in cash or United States Government Obligations are on deposit as provided pursuant to the discharge provisions of the Indenture, to the extent such amounts have not been previously credited against payments on Obligation No. 42, and the interest on such Bonds from and after the date fixed for payment at maturity or redemption thereof. Such credits shall be made against the installments of principal of and interest on Obligation No. 42 that would have been used, but for such call for redemption, to pay principal of and interest on such Bonds when due at maturity or called for redemption; and

(iv) On installments of principal and interest, respectively, on Obligation No. 42 in an amount equal to the principal amount of Bonds acquired by the Corporation and delivered to the Trustee for cancellation or purchased by the Trustee and cancelled, and the interest on such Bonds

from and after the date interest thereon has been paid prior to cancellation. Such credits shall be made against the installments of principal of and interest on Obligation No. 42 that would have been used, but for such cancellation, to pay principal of and interest on such Bonds when due.

Prepayment of Obligation No. 42

So long as all amounts that have become due under Obligation No. 42 have been paid, the Corporation shall have the right, at any time and from time to time, to pay in advance and in any order of due dates all or part of the amounts to become due under Obligation No. 42. Prepayments may be made by payments of cash or surrender of Bonds as described above under the caption "Payments on Obligation No. 42; Credits." All such prepayments shall be deposited upon receipt in the Redemption Fund and, at the request of and as determined by the Corporation, credited against payments due under Obligation No. 42 or used for the redemption or purchase of Outstanding Bonds in the manner and subject to the terms and conditions set forth in the Indenture and in the Loan Agreement. Notwithstanding any such redemption or surrender of Bonds, as long as any Bond remains outstanding under the Indenture or any additional payments required to be made under Obligation No. 42 remain unpaid, the Corporation shall not be relieved of its obligations under the Master Indenture, including Supplement No. 42.

Prepayments made under Supplement No. 42 shall be credited against amounts to become due on Obligation No. 42 as described above, under the caption "Payments on Obligation No. 42; Credits" and as provided pursuant to the provisions of the Loan Agreement.

The Corporation may also prepay all of its indebtedness under Obligation No. 42 by providing for prepayment of the Bonds in accordance with the defeasance provisions of the Indenture.

Registration, Number, Negotiability and Transfer of Obligations

Except as described in the paragraph immediately following this paragraph, so long as any Bond remains outstanding, Obligation No. 42 shall consist of a single Obligation without coupons registered as to principal and interest in the name of the Trustee and no transfer of Obligation No. 42 shall be registered under the Master Indenture except for transfers to a successor Trustee.

Upon the principal of all Obligations then Outstanding being declared immediately due and payable upon and during the continuance of an Event of Default, Obligation No. 42 may be transferred if and to the extent the Trustee requests that the restrictions described in the preceding paragraph on transfers be terminated.

Right to Redeem

Obligation No. 42 shall be subject to redemption, in whole or in part, prior to the maturity at the times and in the amounts applicable to redemption of the Bonds as specified in the Indenture; provided that in no event shall any portion of Obligation No. 42 be redeemed unless a corresponding amount of Bonds is also redeemed.

Agreement to Consent to Second Amended and Restated Master Indenture of Trust

The Corporation has proposed to amend and restate the Master Indenture as set forth in the Second Amended and Restated Master Indenture of Trust (the "Second Amended and Restated Master Indenture"), the form of which is attached as Exhibit G to this Official Statement. Purchasers of the Bonds, by their purchase of the Bonds, have been deemed to consent to the amendment of the Master Indenture as set forth in the Second Amended and Restated Master Indenture. Pursuant to such deemed consent, the Trustee as Holder of Obligation No. 42, by acceptance of Obligation No. 42, agrees to consent to amendment of the Master Indenture as set forth in the Second Amended and Restated Master Indenture when the Corporation shall request such consent from the Trustee. In such event and based on the foregoing, the Master Trustee agrees to accept such consent and to execute the Second Amended and Restated Master Indenture upon satisfaction of all requirements specified in the Master Indenture.

INDENTURE

The Indenture sets forth the terms of the Bonds, the nature and extent of the security for the Bonds, various rights of the Bondholders, the rights, duties and immunities of the Trustee and the rights and obligations of the Authority.

Terms of the Bonds

Bonds shall be issued as fully registered Bonds without coupons in denominations of \$5,000 or any integral multiple thereof. The Bonds shall be registered initially in the name of "Cede & Co.," as nominee of the Securities Depository, and shall be evidenced by one bond certificate in the principal amount of the Bonds. Registered ownership of the Bonds, or any portion thereof, may not thereafter be transferred except as set forth in the Indenture.

The Bonds shall be dated the Issue Date and shall bear interest, payable in lawful money of the United States of America, from the Issue Date until payment of the principal or Redemption Price thereof shall have been made or provided for in accordance with the provisions of this Indenture, whether upon maturity, redemption or otherwise. Interest on the Bonds shall be payable on each Interest Payment Date.

The principal or Redemption Price of the Bonds shall be payable in lawful money of the United States of America at the designated office of the Trustee upon surrender of the Bonds to the Trustee for cancellation. Payment of the interest on any Bond shall be made on each Interest Payment Date to the Holder thereof as of the Record Date for each Interest Payment Date by check mailed on each Interest Payment Date to such Holder at his address as it appears on the registration books maintained by the Trustee; provided, however, that the Holder of \$1,000,000 or more in aggregate principal amount of Bonds may be paid by wire transfer to an account within the United States of America upon written request filed with the Trustee on or before the Record Date for the applicable Interest Payment Date. Any such interest not so punctually paid or duly provided for shall forthwith cease to be payable to the Holder on such Record Date and shall be paid to the person in whose name such Bond is registered at the close of business on a special record date (hereinafter referred to as a "Special Record Date") for the payment of such defaulted interest to

be fixed by the Trustee, notice of which shall be given to the Holders by first class mail not less than ten (10) days prior to such Special Record Date

If available funds are insufficient on any Interest Payment Date to pay the interest then due on Bonds, interest shall continue to accrue thereon but shall cease to be payable to the Holders as of the related Record Date. If sufficient funds for the payment of such overdue interest thereafter become available, the Trustee shall (A) establish a "special interest payment date" for the payment of the overdue interest and a Special Record Date (which shall be a Business Day) for determining the Bondholders entitled to such payment and (B) mail notices by first class mail of such dates as soon as practicable. Notice of each such date so established shall be mailed to each Bondholder at least ten (10) days prior to the Special Record Date but not more than thirty (30) days prior to the Special Interest Payment Date. The overdue interest shall be paid on the special interest payment date to the Holders, as shown on the registration books of the Trustee as of the close of business on the Special Record Date.

Pledge and Assignment; Revenue Fund

Subject only to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth in the Indenture, there are pledged to secure the payment of the principal of and interest on the Bonds in accordance with their terms and the provisions of the Indenture, all of the Revenues and any other amounts held in any fund or account established pursuant to the Indenture (other than the Rebate Fund). Said pledge shall constitute a lien on and security interest in such assets and shall attach, be perfected and be valid and binding from and after delivery by the Trustee of the Bonds, without any physical delivery thereof or further act.

Pursuant to the provisions of the Indenture, the Authority transfers in trust, grants a security interest in and assigns to the Trustee, for the benefit of the Holders from time to time of the Bonds, all of the Revenues and other assets pledged as described in the immediately preceding paragraph and all of the right, title and interest of the Authority in the Loan Agreement (except for (i) the right to receive any Additional Payments or Administrative Fees and Expenses to the extent payable to the Authority, (ii) any rights of the Authority to be indemnified, held harmless and defended and rights to inspection and to receive notices, certificates or opinions, (iii) express rights to give approvals, consents or waivers, and (iv) the obligation of the Corporation to make deposits pursuant to the Tax Agreement and Obligation No. 42. The Trustee shall be entitled to and shall collect and receive all of the Revenues, and any Revenues collected or received by the Authority shall be deemed to be held, and to have been collected or received, by the Authority as the agent of the Trustee and shall forthwith be paid by the Authority to the Trustee. The Trustee also shall be entitled to and shall take all steps, actions and proceedings reasonably necessary in its judgment to enforce all of the rights of the Authority (other than those rights retained by the Authority under the provisions of the Indenture described under this caption) and all of the obligations of the Corporation under the Loan Agreement and of the Members under Obligation No. 42. All Revenues deposited with the Trustee shall be held, disbursed, allocated and applied by the Trustee only as provided in the Indenture.

Except as is otherwise provided in the Indenture with respect to (i) deposits to the Rebate Fund and the Redemption Fund and (ii) investment earnings, all Revenues shall be promptly

deposited by the Trustee upon receipt thereof in a separate fund designated as the "Revenue Fund" which the Trustee is directed to establish, maintain and hold in trust.

Allocation of Revenues

On or before the dates specified below, the Trustee shall transfer from the Revenue Fund and deposit into the following respective accounts (each of which the Trustee is directed to establish and maintain within the Revenue Fund) the following amounts, in the following order of priority, the requirements of each such account (including the making up of any deficiencies in any such account resulting from lack of Revenues sufficient to make any earlier required deposit) at the time of deposit to be satisfied before any transfer is made to any account subsequent in priority:

First: on or before each Interest Payment Date, to the Interest Account, the amount of interest becoming due and payable on such Interest Payment Date on all Bonds then Outstanding, until the balance in said account is equal to said amount of interest;

Second: on or before each Redemption Date or each principal payment date, to the principal account, the amount of the principal payment becoming due and payable on such date, until the balance in said account is equal to said amount of such principal payment; and

Third: on each date specified in the Tax Agreement, to the Rebate Fund, such amounts as are required to be deposited therein by the Tax Agreement.

Any moneys remaining in the Revenue Fund after the foregoing transfers shall be transferred to the Corporation as an overpayment of Loan Repayments.

Establishment of Funds and Accounts

The Indenture creates an Interest Account, a Principal Account, a Rebate Fund, and a Redemption Fund. All such funds and accounts shall be established, maintained and held in trust by the Trustee and applied in accordance with the provisions set forth in the Indenture.

Funding and Application of the Interest Account. All amounts in the Interest Account shall be used and withdrawn by the Trustee solely for the purpose of paying interest on the Bonds as it shall become due and payable (including accrued interest on any Bonds purchased or redeemed prior to maturity from funds on deposit in the Principal Account or the Redemption Fund pursuant to the Indenture). Interest on the Bonds, whether at maturity, by proceedings for redemption, by acceleration or otherwise, shall be payable from Loan Repayments.

Funding and Application of the Principal Account. All amounts in the Principal Account shall be used and withdrawn by the Trustee solely to redeem or pay at maturity the Bonds as provided in the Indenture. Principal, whether at maturity, by proceedings for redemption, by acceleration or otherwise, shall be payable from Loan Repayments.

Funding and Application of the Redemption Fund. The Trustee shall establish, maintain and hold in trust a separate fund designated as the "Redemption Fund." All amounts deposited in the Redemption Fund shall be used and withdrawn by the Trustee solely for the

purpose of redeeming Bonds, in the manner and upon the terms and conditions specified in the Indenture, at the next succeeding date of redemption for which notice has not been given and at the then-applicable Redemption Price; provided that, at any time prior to giving such notice of redemption, the Trustee shall, upon direction of the Corporation, apply such amounts to the purchase of Bonds at public or private sale, as and when and at such prices (including brokerage and other charges, but excluding accrued interest, which is payable from the Interest Account) as the Corporation may direct, except that the purchase price (exclusive of accrued interest) may not exceed the Redemption Price then applicable to the Bonds; and provided further that in lieu of redemption at such next succeeding date of redemption, or in combination therewith, amounts in such account may be transferred to the Revenue Fund and credited against Loan Repayments in order of their due date as set forth in a Request of the Corporation.

Funding and Application of the Rebate Fund. The Trustee shall establish and maintain a fund separate from any other fund established and maintained under the Indenture designated as the Rebate Fund. Within the Rebate Fund, the Trustee shall maintain such accounts as shall be specified by the Tax Agreement. Subject to the transfer provisions provided in the Indenture, all money at any time deposited in the Rebate Fund shall be held by the Trustee in trust, to the extent required to satisfy the Rebate Requirement (as described in the Tax Agreement), for payment to the federal government of the United States of America. Neither the Authority, the Corporation, nor the Holder of any Bonds shall have any rights in or claim to such money. All amounts deposited into or on deposit in the Rebate Fund shall be governed by the provisions of the Indenture and by the Tax Agreement. The Trustee shall be deemed conclusively to have complied with such provisions if it follows the written directions of the Corporation including supplying all necessary information in the manner requested by the Corporation, and shall have no liability or responsibility to enforce compliance by the Corporation or the Authority with the terms of the Tax Agreement. The Authority shall be deemed conclusively to have complied with the provisions set forth under this caption if it takes such action as may reasonably be requested by the Corporation pursuant to the Tax Agreement.

Investment of Moneys in Funds and Accounts

All moneys in any of the funds and accounts established pursuant to the Indenture shall be invested by the Trustee, upon the written direction of the Corporation, solely in Investment Securities. Investment Securities shall be purchased at such prices as the Corporation may direct. The directions of the Corporation shall be subject to the limitations set forth in the Indenture. All Investment Securities shall be acquired subject to the limitations as to maturities set forth and such additional limitations or requirements consistent with the foregoing as may be established by Request of the Corporation. No Request of the Corporation shall impose any duty on the Trustee inconsistent with its responsibilities under the Indenture. In the absence of directions from the Corporation, the Trustee shall invest in Investment Securities specified in clause (6) of the definition thereof in the Indenture; provided, however, that any such investment shall be made by the Trustee only if, prior to the date on which such investment is to be made, the Trustee shall have received a written direction from the Corporation specifying a specific money market fund and, if no such written direction from the Corporation is so received, the Trustee shall hold such moneys uninvested. Unless otherwise specifically provided in the Indenture, ratings and credit criteria specified with respect to any Investment Security shall refer to the ratings assigned and the credit of the issuing or guaranteeing organization at the time such Investment Security is acquired.

All interest, profits and other income received from the investment of moneys in the Rebate Fund shall be deposited when received in such fund. Unless otherwise specifically provided in the Indenture, all interest, profits and other income received from the investment of moneys in any other fund or account established pursuant to the Indenture shall be deposited when received in such fund or account. Notwithstanding any other provision of the Indenture to the contrary, an amount of interest received with respect to any Investment Security equal to the amount of accrued interest, if any, paid as part of the purchase price of such Investment Security shall be credited to the fund or account for the credit of which such Investment Security was acquired.

Investment Securities acquired as an investment of moneys in any fund or account established under the Indenture shall be credited to such fund or account. For the purpose of determining the amount in any such fund or account all Investment Securities credited to such fund or account shall be valued at the lower of cost (exclusive of accrued interest after the first payment of interest following acquisition) or par value (plus, prior to the first payment of interest following acquisition, the amount of interest paid as part of the purchase price).

Certain Covenants

Tax Covenant. The Authority shall at all times do and perform all acts and things permitted by law and the Indenture which are necessary or desirable in order to assure that interest paid on the Bonds (or any of them) will be excluded from gross income for federal income tax purposes and shall take no action that would result in such interest not being so excluded. Without limiting the generality of the foregoing, the Authority agrees to comply with the provisions of the Tax Agreement. This covenant shall survive payment in full or defeasance of the Bonds.

Enforcement of Loan Agreement and Obligation No. 42. The Trustee shall promptly collect all amounts due from the Corporation pursuant to the Loan Agreement and from the Members pursuant to Obligation No. 42, shall perform all duties imposed upon it pursuant to the Loan Agreement and, subject to its rights and protections under the Indenture, shall be entitled to enforce, and take all steps, actions and proceedings reasonably necessary for the enforcement of all of the rights of the Authority except such rights as the Authority shall have retained, including without limitation, the rights to enforce remedies upon the occurrence and continuation of an Event of Default, and all of the obligations of the Corporation and the other Members.

Amendment of Loan Agreement. Except as provided pursuant to the provisions of the Indenture described in the following paragraph, the Authority shall not amend, modify or terminate any of the terms of the Loan Agreement, or consent to any such amendment, modification or termination, unless the written consent of the Corporation and the Holders of a majority in principal amount of the Bonds then Outstanding to such amendment, modification or termination is filed with the Trustee, provided that no such amendment, modification or termination shall reduce the amount of Loan Repayments to be made to the Authority or the Trustee by the Corporation pursuant to the Loan Agreement, or extend the time for making such payments, without the written consent of all of the Holders of the Bonds then Outstanding.

Notwithstanding the provisions of the Indenture described in the preceding paragraph, the terms of the Loan Agreement may also be modified or amended from time to time and at any time by the Authority and the Corporation by a supplement to the Loan Agreement, which the Authority

and the Corporation may enter into without the consent of any Bondholders, only to the extent permitted by law and only for any one or more of the following purposes: (1) to add to the covenants and agreements of the Authority or the Corporation contained in the Loan Agreement other covenants and agreements thereafter to be observed, to pledge or assign additional security for the Bonds (or any portion thereof), or to surrender any right or power therein reserved to or conferred upon the Authority or the Corporation, provided, that no such covenant, agreement, pledge, assignment or surrender shall materially adversely affect the interests of the Holders of the Bonds; (2) to make such provisions for the purpose of curing any ambiguity, inconsistency or omission, or of curing or correcting any defective provision, contained in the Loan Agreement, or in regard to matters or questions arising under the Loan Agreement, as the Authority may deem necessary or desirable and not inconsistent with the Loan Agreement or the Indenture, and which shall not materially adversely affect the interests of the Holders of the Bonds; and (3) to maintain the exclusion from gross income of interest payable with respect to the Bonds.

In executing any amendment or modification of the Loan Agreement permitted by the provisions of the Indenture described under this caption, the Authority shall be entitled to receive and to rely upon an Opinion of Counsel stating that the execution of such amendment or modification is authorized or permitted by the Indenture.

Replacement of Obligation No. 42. Obligation No. 42 shall be surrendered by the Trustee and delivered to the Master Trustee for cancellation upon receipt by the Trustee of the following: (a) a Request of the Corporation requesting such surrender and delivery and stating that (i) the Corporation has become a member of an obligated group (herein referred to as the "New Group") under a master indenture (other than the Master Indenture) (herein referred to as the "Replacement Master Indenture"), (ii) that no Event of Default exists under the Indenture or shall be caused by such surrender and delivery and (iii) that an obligation is being issued to the Trustee under the Replacement Master Indenture; (b) a properly executed obligation (the "Replacement Obligation") issued under the Replacement Master Indenture and registered in the name of the Trustee with the same tenor and effect as Obligation No. 42 (in a principal amount equal to the then-Outstanding principal amount of Bonds), authenticated by the master trustee under the Replacement Master Indenture; (c) an Opinion of Counsel to the Corporation to the effect that the Replacement Obligation has been validly issued under the Replacement Master Indenture and constitutes a valid and binding obligation of the Corporation and each of the other members of the New Group; (d) a Favorable Opinion of Bond Counsel; (e) a copy of the Replacement Master Indenture, certified as a true and accurate copy by the master trustee under the Replacement Master Indenture; (f) any of the following (x) an Officer's Certificate showing that the Debt Service Coverage Ratio for the most recently ended Fiscal Year of the Corporation was not less than 1.10, or (y) written confirmation from each Rating Agency then rating the Bonds that the replacement of Obligation No. 42 will not, by itself, result in a reduction in the then-current ratings on the Bonds, or (z) an Officer's Certificate certifying evidence (in the form of a rating letter or website listing maintained by a Rating Agency) that such Rating Agency has assigned and not suspended or withdrawn a rating on at least one outstanding series of long-term indebtedness secured under the Replacement Master Indenture in a Rating Category at least as high as the then-current Rating Category applicable to the Bonds immediately prior to the completion of such merger, affiliation, acquisition, or joint venture; and (g) a certificate of the Master Trustee to the effect that Obligation No. 42 has been cancelled.

Upon satisfaction of the conditions identified above, (i) all references in the Indenture, in the Bonds, in the Loan Agreement and in the Tax Agreement to Obligation No. 42 shall be deemed to be references to the Replacement Obligation, (ii) all references to the Master Indenture shall be deemed to be references to the Replacement Master Indenture, (iii) all references to the Master Trustee shall be deemed to be references to the master trustee under the Replacement Master Indenture, (iv) all references to the Obligated Group and the Members of the Obligated Group Members shall be deemed to be references to the New Group and the members of the New Group, and (v) all references to Supplement No. 42 shall be deemed to be references to the supplemental master indenture pursuant to which the Replacement Obligation is issued.

Trustee as Holder of Obligation No. 42

Consent to Amendment of Certain Provisions of the Original Master Indenture and Consent to Amendment and Restatement of the Master Indenture. If the Trustee, as Holder of Obligation No. 42, is required to provide an approval, a consent or to vote, or to consent to an amendment of the Master Indenture except with respect to (i) the proposed amendment of the Master Indenture described above under the caption "Master Indenture – Additional Remedies – Event of Default" and under the caption "Master Indenture – Defaults and Remedies – Additional Remedies and Enforcement of Remedies" and (ii) amendment of the of the Master Indenture as set forth in the form of Second Amended and Restated Master Indenture of Trust (the "Second Amended and Restated Master Indenture"), which is attached as Exhibit G to this Official Statement, the Trustee shall be entitled to request and receive the consent and/or direction of the Holders of a majority in principal amount of the Bonds Outstanding prior to providing such approval or consent or vote.

Events of Default and Remedies

Events of Default. The following events shall be Events of Default:

(A) default in the due and punctual payment of the principal or Redemption Price of any Bond, when and as the same shall become due and payable, whether at maturity, by proceedings for redemption, by acceleration or otherwise;

(B) default in the due and punctual payment of any installment of interest on any Bond, when and as such interest installment shall become due and payable;

(C) default by the Authority in the observance of any of the other covenants, agreements or conditions on its part in the Indenture or in the Bonds, contained, if such default shall have continued for a period of sixty (60) days after written notice thereof, specifying such default and requiring the same to be remedied, shall have been given to the Authority and the Corporation by the Trustee or to the Authority, the Corporation and the Trustee by the Holders of not less than 25% in aggregate principal amount of the Bonds at the time Outstanding; or

(D) a Loan Default Event.

Acceleration of Maturities. Whenever any Event of Default shall have happened and be continuing, the Trustee may take the following remedial steps:

(A) In the case of an Event of Default under the provisions of the Indenture described in (A), (B) or (D) above under the caption "Events of Default," the Trustee may, and shall, at the written direction of the Holders of a majority in principal amount of Bonds then Outstanding, notify the Authority and the Master Trustee of such Event of Default, may make a demand for payment under Obligation No. 42 and may request the Master Trustee in writing to give notice pursuant to the Master Indenture to the Members declaring the principal of all obligations issued under the Master Indenture then outstanding to be due and immediately payable. Thereupon, the Trustee shall declare the principal of all Bonds then Outstanding, and the interest accrued thereon, to be due and payable immediately, and upon any such declaration the same shall become and shall be immediately due and payable, anything in the Indenture to the contrary notwithstanding. In addition, the Trustee may take whatever action at law or in equity is necessary or desirable to collect the payments due under Obligation No. 42;

(B) In the case of an Event of Default under the provisions of the Indenture described in (D) above under the caption "Events of Default," the Trustee may take whatever action the Authority would be entitled to take, and shall take whatever action the Authority would be required to take, pursuant to the Loan Agreement in order to remedy the Loan Default Event.

Upon a declaration of acceleration set forth under this caption, interest on Bonds shall cease to accrue.

Any such declaration, however, is subject to the condition that if, at any time after such declaration and before any judgment or decree for the payment of the moneys due shall have been obtained or entered, the Authority or the Corporation shall deposit with the Trustee a sum sufficient to pay all the principal or redemption price of and installments of interest on the Bonds payment of which is overdue, with interest on such overdue principal at the rate borne by the respective Bonds, and the reasonable charges and expenses of the Trustee, and if the Trustee has received notification from the Master Trustee that the declaration of acceleration of Obligation No. 42 has been annulled pursuant to the Master Indenture and any and all other defaults known to the Trustee (other than in the payment of principal of and interest on the Bonds due and payable solely by reason of such declaration) shall have been made good or cured to the satisfaction of the Trustee or provision deemed by the Trustee to be adequate shall have been made therefor, then, and in every such case, the Trustee shall, on behalf of the Holders of all of the Bonds, rescind and annul such declaration of acceleration of the Bonds and its consequences and waive such default; but no such rescission and annulment shall extend to or shall affect any subsequent default, or shall impair or exhaust any right or power consequent thereon.

Nothing contained in the Indenture, however, shall require the Trustee to exercise any remedies in connection with an Event of Default unless the Trustee shall have actual knowledge or shall have received written notice of such Event of Default.

Application of Revenues and Other Funds after Default. If an Event of Default shall occur and be continuing, all Revenues and any other funds then held or thereafter received by the Trustee under any of the provisions of the Indenture (subject to the provisions of the Indenture relating to moneys held for particular Bonds and other than moneys required to be deposited in the Rebate Fund) shall be applied by the Trustee as follows and in the following order:

(1) To the payment of any expenses necessary in the opinion of the Trustee to protect the interests of the Holders of the Bonds and payment of reasonable fees and expenses of the Trustee (including reasonable fees and disbursements of its counsel) incurred in and about the performance of its powers and duties under the Indenture;

(2) To the payment of the principal or Redemption Price of and interest then due on the Bonds (upon presentation of the Bonds to be paid, and stamping thereon of the payment if only partially paid, or surrender thereof if fully paid) subject to the provisions of the Indenture, as follows:

(i) Unless the principal of all of the Bonds shall have become or have been declared due and payable,

First: To the payment to the Persons entitled thereto of all installments of interest then due in the order of the maturity of such installments, and, if the amount available shall not be sufficient to pay in full any installment or installments maturing on the same date, then to the payment thereof ratably, according to the amounts due thereon, to the Persons entitled thereto, without any discrimination or preference;

Second: To the payment to the Persons entitled thereto of the unpaid principal or Redemption Price of any Bonds which shall have become due, whether at maturity or by call for redemption, in the order of their due dates, with interest on the overdue principal at the rate borne by the respective Bonds, and, if the amount available shall not be sufficient to pay in full all the Bonds due on any date, together with such interest, then to the payment thereof ratably, according to the amounts of principal or Redemption Price due on such date to the Persons entitled thereto, without any discrimination or preference;

(ii) If the principal of all of the Bonds shall have become or have been declared due and payable, to the payment of the principal and interest then due and unpaid upon the Bonds, with interest on the overdue principal at the rate borne by the respective Bonds, and, if the amount available shall not be sufficient to pay in full the whole amount so due and unpaid, then to the payment thereof ratably, without preference or priority of principal over interest, or of interest over principal, or of any installment of interest over any other installment of interest, or of any Bond over any other Bond, according to the amounts due respectively for principal and interest, to the Persons entitled thereto without any discrimination or preference; and

(3) To the payment of the reasonable fees, charges and expenses of the Authority and the payment of any amounts owed pursuant to the provisions of Loan Agreement.

Trustee to Represent Bondholders. Upon the occurrence and continuance of an Event of Default or other occasion giving rise to a right in the Trustee to represent the Bondholders, the Trustee in its discretion may, and upon the written request of the Holders of not less than 25% in aggregate principal amount of the Bonds then Outstanding, and upon being indemnified to its satisfaction therefor, shall, proceed to protect or enforce its rights or the rights of such Holders by such appropriate action, suit, mandamus or other proceedings as it shall deem most effectual to

protect and enforce any such right, at law or in equity, either for the specific performance of any covenant or agreement contained in the Indenture, or in aid of the execution of any power in the Indenture granted, or for the enforcement of any other appropriate legal or equitable right or remedy vested in the Trustee, or in such Holders under the Indenture, the Loan Agreement, Obligation No. 42, the Act or any other law; and upon instituting such proceeding, the Trustee shall be entitled, as a matter of right, to the appointment of a receiver of the Revenues and other amounts and assets pledged under the Indenture, pending such proceedings. If more than one such request is received by the Trustee from the Holders, the Trustee shall follow the written request executed by the Holders of the greater percentage of Bonds then Outstanding in excess of 25%. All rights of action under the Indenture or the Bonds or otherwise may be prosecuted and enforced by the Trustee without the possession of any of the Bonds or the production thereof in any proceeding relating thereto, and any such suit, action or proceeding instituted by the Trustee shall be brought in the name of the Trustee for the benefit and protection of all the Holders of the Bonds, subject to the provisions of the Indenture. Nothing in the Indenture shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Holder any plan of reorganization, arrangement, adjustment, or composition affecting the Bonds or the rights of any Holder thereof, or to authorize the Trustee to vote in respect of the claim of any Holder in any such proceeding without the approval of the Holders so affected.

Limitation on Bondholders' Right to Sue. No Holder of any Bond shall have the right to institute any suit, action or proceeding at law or in equity, for the protection or enforcement of any right or remedy under the Indenture, the Loan Agreement, Obligation No. 42, the Act or any other applicable law with respect to such Bond, unless: (1) such Holder shall have given to the Trustee written notice of the occurrence of an Event of Default; (2) the Holders of not less than 25% in aggregate principal amount of the Bonds then Outstanding shall have made written request upon the Trustee to exercise the powers granted in the Indenture or to institute such suit, action or proceeding in its own name; provided, however, that if more than one such request is received by the Trustee from the Holders, the Trustee shall follow the written request executed by the Holders of the greater percentage of Bonds then Outstanding in excess of 25%; (3) such Holder or said Holders shall have tendered to the Trustee indemnity satisfactory to it against the costs, expenses and liabilities to be incurred in compliance with such request; and (4) the Trustee shall have refused or omitted to comply with such request for a period of sixty (60) days after such written request shall have been received by, and said tender of indemnity shall have been made to, the Trustee.

Such notification, request, tender of indemnity and refusal or omission are, in every case, to be conditions precedent to the exercise by any Holder of Bonds of any remedy under the Indenture or under law; it being understood and intended that no one or more Holders of Bonds shall have any right in any manner whatever by such Holder's or Holders' action to affect, disturb or prejudice the security of the Indenture or the rights of any other Holders of Bonds, or to enforce any right under the Indenture, the Loan Agreement, Obligation No. 42, the Act or other applicable law with respect to the Bonds, except in the manner in the Indenture provided, and that all proceedings at law or in equity to enforce any such right shall be instituted, had and maintained in the manner in the Indenture provided and for the benefit and protection of all Holders of the Outstanding Bonds, subject to the provisions of the Indenture.

Termination of Proceedings. In case any proceedings taken by the Trustee or any one or more Bondholders on account of any Event of Default shall have been discontinued or abandoned

for any reason or shall have been determined adversely to the Trustee or the Bondholders, then in every such case the Authority, the Trustee, and the Bondholders, subject to any determination in such proceedings, shall be restored to their former positions and rights under the Indenture, severally and respectively, and all rights, remedies, powers and duties of the Authority, the Trustee and the Bondholders shall continue as though no such proceedings had been taken.

Remedies Not Exclusive. No remedy in the Indenture conferred upon or reserved to the Trustee or to the Holders of the Bonds is intended to be exclusive of any other remedy or remedies, and each and every such remedy, to the extent permitted by law, shall be cumulative and in addition to any other remedy given under the Indenture or now or hereafter existing at law or in equity or otherwise.

No Waiver of Default. No delay or omission of the Trustee or of any Holder of the Bonds to exercise any right or power arising upon the occurrence of any default shall impair any such right or power or shall be construed to be a waiver of any such default or an acquiescence therein; and every power and remedy given by the Indenture to the Trustee or to the Holders of the Bonds may be exercised from time to time and as often as may be deemed expedient.

Amendment of the Indenture

Amendments Permitted. The Indenture and the rights and obligations of the Authority and of the Holders of the Bonds and of the Trustee may be modified or amended from time to time and at any time by an indenture or indentures supplemental to the Indenture, which the Authority and the Trustee may enter into when there shall have been filed with the Trustee the written consent of (i) the Holders of a majority in aggregate principal amount of the Bonds then Outstanding and (ii) the Corporation shall have been filed with the Trustee. No such modification or amendment shall (1) extend the stated maturity of any Bond, or reduce the amount of principal thereof, or extend the time of payment or change the method of computing the rate of interest thereon, or extend the time of payment of interest thereon, without the consent of the Holder of each Bond so affected, or (2) reduce the aforesaid percentage of Bonds, the consent of the Holders of which is required to effect any such modification or amendment, or permit the creation of any lien on the Revenues and other assets pledged under the Indenture prior to or on a parity with the lien created by the Indenture, or deprive the Holders of the Bonds of the lien created by the Indenture on such Revenues and other assets (except as expressly provided in the Indenture), without the consent of the Holders of all Bonds then Outstanding. Notwithstanding the foregoing, if such amendment will, by its terms, not take effect so long as Bonds of any particular maturity remain Outstanding, the consent of the Holders of Bonds of such maturity shall not be required and such Bonds shall not be deemed to be Outstanding for the purpose of any calculation of Bonds Outstanding set forth under this caption.

The Indenture and the rights and obligations of the Authority, of the Trustee and of the Holders of the Bonds may also be modified or amended from time to time and at any time by an indenture or indentures supplemental to the Indenture, which the Authority and the Trustee may enter into with the consent of the Corporation, but without the necessity of obtaining the consent of any Bondholders, only to the extent permitted by law and only for any one or more of the following purposes:

(1) to add to the covenants and agreements of the Authority contained in the Indenture other covenants and agreements thereafter to be observed, to pledge or assign additional security for the Bonds (or any portion thereof), or to surrender any right or power in the Indenture reserved to or conferred upon the Authority, provided, that no such covenant, agreement, pledge, assignment or surrender shall materially adversely affect the interests of the Holders of the Bonds;

(2) to make such provisions for the purpose of curing any ambiguity, inconsistency or omission, or of curing or correcting any defective provision, contained in the Indenture, or in regard to matters or questions arising under the Indenture, as the Authority or the Trustee may deem necessary or desirable and not inconsistent with the Indenture, and which shall not materially adversely affect the interests of the Holders of the Bonds;

(3) to modify, amend or supplement the Indenture in such manner as to permit the qualification under the Trust Indenture Act of 1939, as amended, or any similar federal statute hereafter in effect, and to add such other terms, conditions and provisions as may be permitted by said act or similar federal statute, and which shall not materially adversely affect the interests of the Holders of the Bonds;

(4) to maintain the exclusion from gross income of interest payable with respect to the Bonds;

(5) to make any changes required by a Rating Agency in order to obtain or maintain a rating for the Bonds;

(6) to facilitate and implement any termination of a book entry system with respect to the Bonds; or

(7) to modify, alter, amend or supplement the Indenture in any other respect which is not materially adverse to the Bondholders.

Defeasance

Discharge of All Bonds Outstanding and Indenture. All Bonds Outstanding may be paid by the Authority or the Trustee on behalf of the Authority in any of the following ways:

(1) by paying or causing to be paid the principal or Redemption Price of and interest on all Bonds Outstanding, as and when the same become due and payable;

(2) by depositing with the Trustee, in trust, at or before maturity, Available Moneys or securities in the necessary amount (as provided pursuant to the provisions of the Indenture) to pay when due or redeem all Bonds then Outstanding; or

(3) by delivering to the Trustee, for cancellation by it, all Bonds then Outstanding.

If the Authority shall also pay or cause to be paid all other sums payable under the Indenture by the Authority, if the Corporation shall have paid all Additional Payments, Administrative Fees and Expenses payable to the Authority, any indemnification owed to the Authority or the Trustee and any other fees and expenses payable to the Authority pursuant to the Loan Agreement, then

and in that case at the election of the Authority (evidenced by a Certificate of the Authority filed with the Trustee signifying the intention of the Authority to discharge all such indebtedness and the Indenture and upon receipt by the Authority and the Trustee of an Opinion of Counsel to the effect that the obligations under the Indenture and the Bonds being paid have been discharged), and notwithstanding that any Bonds shall not have been surrendered for payment, the Indenture and the pledge of Revenues and other assets made under the Indenture and all covenants, agreements and other obligations of the Authority under the Indenture (except as otherwise provided in the Indenture) shall cease, terminate, become void and be completely discharged and satisfied.

Notices

Notwithstanding any other provision in the Indenture to the contrary, any notice to be delivered to Bondholders may be given by Electronic Notice.

LOAN AGREEMENT

The Loan Agreement provides the terms of the loan of the proceeds of the Bonds, to the Corporation and the repayment of and security for the loan provided by the Corporation.

Issuance of Obligation No. 42

In consideration of the issuance of the Bonds by the Authority and the application of the proceeds thereof as provided in the Indenture, the Corporation agrees to issue, or cause to be issued, and to cause to be authenticated and delivered to the Authority or its designee, pursuant to the Master Indenture and Supplement No. 42, concurrently with the issuance and delivery of the Bonds, Obligation No. 42. The Authority agrees that Obligation No. 42 shall be registered in the name of the Trustee.

Payment of Loan

Loan of Proceeds; Payments of Principal and Interest. Pursuant to the Loan Agreement, the Authority lends and advances to the Corporation, and the Corporation borrows and accepts from the Authority, the net proceeds received from the sale of the Bonds, such proceeds to be applied under the terms and conditions of the Loan Agreement and the Indenture. In consideration of the loan of such proceeds to the Corporation, the Corporation agrees to pay, or cause to be paid, Loan Repayments as follows: (i) on or before the Business Day next preceding each Interest Payment Date, the full amount of the interest becoming due and payable on such Interest Payment Date on all Bonds then Outstanding (less any amounts on deposit in the Interest Account available for the payment of such interest) and (ii) on or before the Business Day next preceding each principal payment date, the aggregate amount of principal becoming due and payable on the Outstanding Bonds on such principal payment date (less any amounts on deposit in the Principal Account available for the payment of such principal. Notwithstanding the foregoing schedule of payments, the Corporation agrees to make payments, or cause payments to be made, at the times and in the amounts required to be paid as principal of, premium, if any, and interest on the Bonds from time to time Outstanding under the Indenture and other amounts required to be paid under the Indenture, as the same shall become due whether at maturity, upon redemption, by declaration of acceleration or otherwise.

Except as otherwise expressly provided in the Loan Agreement, all amounts payable by the Corporation to the Authority under the Loan Agreement or with respect to Obligation No. 42 shall be paid to the Trustee, as assignee of the Authority, and the Loan Agreement and all right, title and interest of the Authority in any such payments shall be assigned and pledged to the Trustee so long as any Bonds remain Outstanding.

Additional Payments. In addition to Loan Repayments and payments on Obligation No. 42, the Corporation shall also pay to the Authority, the Trustee, as the case may be, Additional Payments, as described below. The obligations of the Corporation described under this caption with respect to the Authority and the Trustee shall survive the resignation and removal of the Trustee, payment of the Bonds and discharge of the Indenture.

The Additional Payments to the Authority include:

(a) All taxes and assessments of any type or character charged to the Authority affecting the amount available to the Authority from payments to be received under the Loan Agreement or in any way arising due to the transactions contemplated by the Loan Agreement (including taxes and assessments assessed or levied by any public agency or governmental authority of whatsoever character having power to levy taxes or assessments); provided, however, (i) that the Corporation shall have the right to protest any such taxes or assessments and to require the Authority, at the Corporation's expense, to protest and contest any such taxes or assessments levied upon them and (ii) that the Corporation shall have the right to withhold payment of any such taxes or assessments pending disposition of any such protest or contest unless such withholding, protest or contest would adversely affect the rights or interests of the Authority, and the Corporation has provided the Authority with security and indemnification reasonably deemed adequate by the Authority in respect of such affected rights or interests;

(b) All amounts payable to the Authority under the Loan Agreement and under the Indenture;

(c) The reasonable fees and expenses of such accountants, consultants, attorneys and other experts as may be engaged by the Authority to prepare audits, financial statements, reports, opinions or provide such other services required under the Loan Agreement, Obligation No. 42 or the Indenture;

(d) The annual fee of the Authority, any and all fees and expenses incurred primarily in connection with the authorization, issuance, sale and delivery of any Bonds and the reasonable fees and expenses of the Authority or any agency of the State selected by the Authority to act on its behalf in connection with the Loan Agreement, Obligation No. 42, the Bonds or the Indenture, including, without limitation, in connection with any litigation, investigation, inquiry or other proceeding which may at any time be instituted involving the Loan Agreement, Obligation No. 42, the Bonds or the Indenture or any of the other documents contemplated thereby, or by the Attorney General of the State of California or such other counsel as the Authority may select in connection with the supervision or inspection of the Corporation, its properties, assets or operations or otherwise in connection with the administration (both before and after the execution of the Loan Agreement) of the Loan Agreement or the Indenture; and

(e) All other reasonable and necessary fees and expenses attributable to the Bonds, the Loan Agreement, Obligation No. 42 or related documents, including, without limitation, all payments required pursuant to the Tax Agreement.

The Additional Payments to the Trustee include:

(a) All taxes and assessments of any type or character charged to the Trustee affecting the amount available to the Trustee from payments to be received under the Loan Agreement or in any way arising due to the transactions contemplated thereby (including taxes and assessments assessed or levied by any public agency or governmental authority of whatsoever character having power to levy taxes or assessments); provided, however, (i) that the Corporation shall have the right to protest any such taxes or assessments and to require the Trustee, at the Corporation's expense, to protest and contest any such taxes or assessments levied upon them and (ii) that the Corporation shall have the right to withhold payment of any such taxes or assessments pending disposition of any such protest or contest unless such withholding, protest or contest would adversely affect the rights or interests of the Trustee, and the Corporation has provided the Trustee with security and indemnification satisfactory to the Trustee in respect of such affected rights or interests;

(b) All reasonable fees and expenses of such accountants, consultants, attorneys and other experts as may be engaged by the Trustee to prepare audits, financial statements, reports, opinions or provide such other services required under the Loan Agreement or the Indenture;

(c) All amounts payable to the Trustee under the Loan Agreement and the fees and expenses (including, without limitation, legal fees and expenses) payable to the Trustee under the Indenture; and

(d) All other reasonable and necessary fees and expenses attributable to the Bonds, the Loan Agreement, or related documents, including, without limitation, all payments required pursuant to the Tax Agreement.

Prepayment. The Corporation shall have the right, so long as all amounts that have theretofore become due under the Loan Agreement have been paid, at any time or from time to time to prepay all or any part of the Loan Repayments, and the Authority agrees that the Trustee shall accept such prepayments when the same are tendered. Prepayments may be made by payments of cash, deposit of United States Government Obligations or surrender of Bonds. All such prepayments shall be deposited upon receipt in the Redemption Fund and, at the request of and as determined by the Corporation, credited against payments due under the Loan Agreement or used for the redemption or purchase of Outstanding Bonds in the manner and subject to the terms and conditions set forth in the Indenture.

Notwithstanding any prepayment or surrender of Bonds, as long as any Bonds remain Outstanding or any Additional Payments required to be made under the Loan Agreement remain unpaid, the Corporation shall not be relieved of its obligations under the Loan Agreement.

The Corporation shall also have the right to surrender Bonds acquired by it in any manner whatsoever to the Trustee for cancellation, and such Bonds, upon such surrender and cancellation, shall be deemed to be paid and retired and allocated as set forth in a Request of the Corporation.

Obligations Unconditional. The obligations of the Corporation under the Loan Agreement and pursuant to Obligation No. 42, including the obligation of the Corporation to pay the principal of and interest on Obligation No. 42, are absolute and unconditional, notwithstanding any other provision of the Loan Agreement, Supplement No. 42, the Master Indenture or the Indenture. Until the Loan Agreement is terminated and all payments under the Loan Agreement are made, the Corporation:

(a) Will pay all amounts required under the Loan Agreement and under Obligation No. 42 without abatement, deduction or set-off except as otherwise expressly provided in the Loan Agreement;

(b) Will not suspend or discontinue any payments due under the Loan Agreement or under Obligation No. 42 for any reason whatsoever, including, without limitation, any right of set-off or counterclaim;

(c) Will perform and observe all its other agreements contained in the Loan Agreement; and

(d) Except as provided in the Loan Agreement, will not terminate the Loan Agreement for any cause including, without limiting the generality of the foregoing, damage, destruction or condemnation of the Corporation's facilities or any part thereof, commercial frustration of purpose, any change in the tax or other laws of the United States of America or of the State, or any political subdivision of either thereof or any failure of the Authority to perform and observe any agreement, whether express or implied, or any duty, liability or obligation arising out of or connected with the Loan Agreement.

Continuing Disclosure

The Corporation, on behalf of itself and the other Members of the Obligated Group, covenants and agrees to comply with the continuing disclosure requirements promulgated under the Rule. Notwithstanding any other provision of the Loan Agreement, failure of the Corporation to comply with the requirements of the Rule shall not be considered a Loan Default Event; however, the Trustee, at the written request of any Participating Underwriter or the Holders of at least 25% aggregate principal amount of a Series of Bonds Outstanding, shall, but only to the extent the Trustee is indemnified to its satisfaction from and against any cost, liability or expense related thereto, including, without limitation, reasonable fees and expenses of its attorneys and advisors and its additional fees and expenses, or any Holder or Beneficial Owner of the Bonds may, take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the Corporation to comply with its obligations pursuant to this caption.

Loan Default Events and Remedies

Loan Default Events. Each of the following events shall constitute a Loan Default Event under the Loan Agreement:

(a) Failure by the Corporation to pay in full any payment required under the Loan Agreement or under Obligation No. 42 when due;

(b) If any material representation or warranty made by the Corporation in the Loan Agreement or in any document, instrument or certificate furnished to the Trustee or the Authority in connection with the issuance of Obligation No. 42 or the Bonds shall at any time prove to have been incorrect in any respect as of the time made;

(c) If the Corporation shall fail to observe or perform any covenant, condition, agreement or provision in the Loan Agreement on its part to be observed or performed, other than as described in subsection (a) or (b) above, or shall breach any warranty by the Corporation contained in the Loan Agreement, for a period of sixty (60) days after written notice, specifying such failure or breach and requesting that it be remedied, has been given to the Corporation by the Authority or the Trustee; except that, if such failure or breach can be remedied but not within such 60 day period and if the Corporation shall have taken all action reasonably possible to remedy such failure or breach within such 60 day period, such failure or breach shall not become a Loan Default Event for so long as the Corporation shall diligently proceed to remedy such failure or breach in accordance with and subject to any directions or limitations of time established by the Authority, or the Trustee;

(d) If the Corporation files a petition in voluntary bankruptcy, for the composition of its affairs or for its corporate reorganization under any state or federal bankruptcy or insolvency law, or makes an assignment for the benefit of creditors, or admits in writing to its insolvency or inability to pay debts as they mature, or consents in writing to the appointment of a trustee or receiver for itself or for the whole or any substantial part of the Corporation's facilities;

(e) If a court of competent jurisdiction shall enter an order, judgment or decree declaring the Corporation an insolvent, or adjudging it bankrupt, or appointing a trustee or receiver of the Corporation or of the whole or any substantial part of the Corporation's facilities, or approving a petition filed against the Corporation seeking reorganization of the Corporation under any applicable law or statute of the United States of America or any state thereof, and such order, judgment or decree shall not be vacated or set aside or stayed within sixty (60) days from the date of the entry thereof;

(f) If, under the provisions of any other law for the relief or aid of debtors, any court of competent jurisdiction shall assume custody or control of the Corporation's facilities, and such custody or control shall not be terminated within sixty (60) days from the date of assumption of such custody or control;

(g) Any Event of Default as defined in and under the Indenture; or

(h) Any Event of Default as defined in and under the Master Indenture.

Remedies on Default. If a Loan Default Event shall occur, then, and in each and every such case during the continuance of such Loan Default Event, the Authority and the Trustee on behalf of the Authority, subject to the limitations in the Indenture as to the enforcement of remedies and subject to the Trustee's rights and protections under the Indenture, may take such action as it deems necessary or appropriate to collect amounts due under the Loan Agreement, to enforce performance and observance of any obligation or agreement of the Corporation under the Loan

Agreement or to protect the interests securing the same, and may, without limiting the generality of the foregoing:

(a) Exercise any or all rights and remedies given by the Loan Agreement or available under the Loan Agreement or given by or available under any other instrument of any kind securing the Corporation's performance under the Loan Agreement (including, without limitation, Obligation No. 42 and the Master Indenture);

(b) By written notice to the Corporation declare an amount equal to all amounts then due and payable on the Bonds, whether by acceleration of maturity or otherwise, to be immediately due and payable under the Loan Agreement, whereupon the same shall become immediately due and payable; and

(c) Take any action at law or in equity to collect the payment required under the Loan Agreement then due, whether on the stated due date or by declaration of acceleration or otherwise, for damages or for specific performance or otherwise to enforce performance and observance of any obligation, agreement or covenant of the Corporation under the Loan Agreement.

Notwithstanding any other provision of the Loan Agreement or any right, power or remedy existing at law or in equity or by statute, the Trustee shall not under any circumstances declare the entire unpaid aggregate amount of the payment due under the Loan Agreement to be immediately due and payable except in accordance with the directions of the Master Trustee if the Master Trustee shall have declared the aggregate principal amount of Obligation No. 42 and all interest thereon immediately due and payable in accordance with the provisions of the Master Indenture.

APPENDIX D

PROPOSED FORM OF OPINION OF BOND COUNSEL

[Closing Date]

California Health Facilities Financing Authority
Sacramento, California

California Health Facilities Financing Authority Revenue Bonds
(Stanford Health Care), 2020 Series A
Final Opinion

Ladies and Gentlemen:

We have acted as bond counsel to the California Health Facilities Financing Authority (the "Issuer") in connection with issuance of \$170,120,000 aggregate principal amount of California Health Facilities Financing Authority Revenue Bonds (Stanford Health Care), 2020 Series A (the "Bonds"), issued pursuant to an Indenture, dated as of April 1, 2020 (the "Indenture"), between the Issuer and The Bank of New York Mellon Trust Company, N.A., as trustee (the "Trustee"). Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Indenture.

In such connection, we have reviewed the Indenture, the Loan Agreement, dated as of April 1, 2020 (the "Loan Agreement"), between the Issuer and Stanford Health Care (the "Borrower"), the Tax Certificate and Agreement, dated the date hereof (the "Tax Certificate"), between the Issuer and the Borrower, opinions of counsel to the Issuer, the Borrower and the Trustee, certificates of the Issuer, the Borrower, the Trustee and others, and such other documents, opinions and matters to the extent we deemed necessary to render the opinions set forth herein.

We have relied on the opinion of Ropes & Gray LLP, counsel to the Borrower, regarding, among other matters, the current qualification of the Borrower as an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986 (the "Code"). We note that the opinion is subject to a number of qualifications and limitations. We have also relied upon representations of the Borrower regarding the use of the facilities financed or refinanced with the proceeds of the Bonds in activities that are not considered unrelated trade or business activities of the Borrower within the meaning of Section 513 of the Code. We note that the opinion of counsel to the Borrower does not address Section 513 of the Code. Failure of the Borrower to be organized and operated in accordance with the Internal Revenue Service's requirements for the maintenance of its status as an organization described in Section 501(c)(3) of the Code, or use of the bond-financed or refinanced facilities in activities that are considered unrelated trade or business activities of the Borrower within the meaning of Section 513 of the Code, may result in interest on the Bonds being included in gross income for federal income tax purposes, possibly from the date of issuance of the Bonds.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after original

delivery of the Bonds on the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or any other matters come to our attention after original delivery of the Bonds on the date hereof. Accordingly, this letter speaks only as of its date and is not intended to, and may not, be relied upon or otherwise used in connection with any such actions, events or matters. We disclaim any obligation to update this letter. We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and validity against, any parties other than the Issuer. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents, and of the legal conclusions contained in the opinions, referred to in the second and third paragraphs hereof. Furthermore, we have assumed compliance with all covenants and agreements contained in the Indenture, the Loan Agreement and the Tax Certificate, including (without limitation) covenants and agreements compliance with which is necessary to assure that future actions, omissions or events will not cause interest on the Bonds to be included in gross income for federal income tax purposes. We call attention to the fact that the rights and obligations under the Bonds, the Indenture, the Loan Agreement and the Tax Certificate and their enforceability may be subject to bankruptcy, insolvency, receivership, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases and to the limitations on legal remedies against authorities of the State of California. We express no opinion with respect to any indemnification, contribution, liquidated damages, penalty (including any remedy deemed to constitute a penalty or having the effect of a penalty), right of set-off, arbitration, judicial reference, choice of law, choice of forum, choice of venue, non-exclusivity of remedies, waiver or severability provisions contained in the foregoing documents, nor do we express any opinion with respect to the state or quality of title to or interest in any of the assets described in or as subject to the lien of the Indenture or the Loan Agreement or the accuracy or sufficiency of the description contained therein of, or the remedies available to enforce liens on, any such assets. Our services did not include financial or other non-legal advice. Finally, we undertake no responsibility for the accuracy, completeness or fairness of the Official Statement or other offering material relating to the Bonds and express no opinion with respect thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The Bonds constitute the valid and binding limited obligations of the Issuer.
2. The Indenture has been duly executed and delivered by, and constitutes the valid and binding obligation of, the Issuer. The Indenture creates a valid pledge, to secure the payment of the principal of and interest on the Bonds, of the Revenues and any other amounts held by the Trustee in any fund or account established pursuant to the Indenture, except any Bond Purchase Fund and the Rebate Fund, subject to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth in the Indenture.
3. The Loan Agreement has been duly executed and delivered by, and constitutes a valid and binding agreement of, the Issuer.

4. The Bonds are not a lien or charge upon the funds or property of the Issuer except to the extent of the aforementioned pledge. Neither the faith and credit nor the taxing power of the State of California or of any political subdivision thereof is pledged to the payment of the principal of or interest on the Bonds. The Bonds are not a debt of the State of California, and said State is not liable for the payment thereof.

5. Interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Code and is exempt from State of California personal income taxes. Interest on the Bonds is not a specific preference item for purposes of the federal alternative minimum tax. We express no opinion regarding other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds.

Faithfully yours,

ORRICK, HERRINGTON & SUTCLIFFE LLP

APPENDIX E
BOOK-ENTRY SYSTEM

The Depository Trust Company (“DTC”), New York, New York, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued in the aggregate principal amount of each maturity of the Bonds, and will be deposited with DTC.

DTC, the world’s largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company of DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has a Standard & Poor’s rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their beneficial ownership interests in the Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial

Owners may wish to provide their names and addresses to the Trustee and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such Bonds to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's Money Market Instrument Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Authority as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal, premium, redemption proceeds, and interest payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Authority or the Trustee, on a payment date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participants and not of DTC nor of its nominee, the Trustee, the Corporation or the Authority, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, redemption proceeds, and interest to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Corporation, the Authority or the Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

A Beneficial Owner must effect delivery of its Bonds on a tender date by causing the Direct Participant to transfer the Participant's interest in the Bonds, on DTC's records, to the Bond Trustee. The requirement for physical delivery of the Bonds in connections with a tender for purchase will be deemed satisfied when the ownership rights in the Bonds are transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered Bonds to the Bond Trustee's DTC account.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the Authority or the Trustee. Under such circumstances, in the event that a successor securities depository is not obtained, Bond certificates are required to be printed and delivered.

The Authority may decide to discontinue use of the system of book-entry only transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the Authority and the Corporation believe to be reliable, but neither the Authority nor the Corporation takes responsibility for the accuracy thereof.

The Authority, the Corporation and the Underwriters cannot and do not give any assurances that DTC will distribute to Participants or that Participants or others will distribute to the Beneficial Owners payments of principal of, premium, if any, and interest on the Bonds paid or any redemption or other notices or that they will do so on a timely basis or will serve and act in the manner described in this Official Statement. Neither the Authority nor the Corporation is responsible or liable for the failure of DTC or any Direct Participant or Indirect Participant to make any payments or give any notice to a Beneficial Owner with respect to the Bonds or any error or delay relating thereto.

None of the Authority, the Corporation, the Underwriters or the Trustee will have any responsibility or obligation to Direct Participants, to Indirect Participants or to any Beneficial Owner with respect to (i) the accuracy of any records maintained by DTC, any Direct Participant, or any Indirect Participant; (ii) the payment by DTC or any Direct Participant or Indirect Participant of any amount with respect to the principal of or premium, if any, or interest on the Bonds; (iii) any notice that is permitted or required to be

given to Holders under the Indenture; (iv) the selection by DTC, any Direct Participant or any Indirect Participant of any person to receive payment in the event of a partial redemption of the Bonds; (v) any consent given or other action taken by DTC as Bondholder; or (vi) any other procedures or obligations of DTC, Direct Participants or Indirect Participants under the book-entry system.

APPENDIX F

FORM OF CONTINUING DISCLOSURE AGREEMENT

This Continuing Disclosure Agreement, dated April 1, 2020 (this "Disclosure Agreement"), is executed and delivered by Stanford Health Care, a nonprofit public benefit corporation duly organized and existing under the laws of the State of California (the "Corporation") and The Bank of New York Mellon Trust Company, N.A., a national banking association duly organized and existing under the laws of the United States of America ("BNY") in connection with the issuance of \$170,120,000 aggregate principal amount of California Health Facilities Financing Authority Revenue Bonds (Stanford Health Care), 2020 Series A (the "Bonds"). The Bonds are being issued pursuant to an Indenture, dated as of April 1, 2020 (the "Indenture"), between the California Health Facilities Financing Authority (the "Authority") and BNY, as trustee (the "Trustee").

The proceeds of the Bonds are being loaned by the Authority to the Corporation pursuant to a Loan Agreement, dated as of April 1, 2020 (the "Loan Agreement"), between the Authority and the Corporation. The obligations of the Corporation under the Loan Agreement are secured by Stanford Health Care Obligation No. 42, issued by the Corporation pursuant to the Supplemental Master Indenture for Obligation No. 42, dated as of April 1, 2020 ("Supplement No. 42"), between the Corporation and BNY, as master trustee (the "Master Trustee"). Supplement No. 42 supplements the Amended and Restated Master Indenture of Trust, dated as of June 1, 2011 (the "Master Indenture of Trust"), between the Corporation, formerly known as Stanford Hospital and Clinics, and the Master Trustee. The Master Indenture of Trust, as supplemented and amended from time to time pursuant to its terms, including as supplemented and amended by Supplement No. 42, is hereinafter referred to as the Master Indenture.

Pursuant to Section 6.11 of the Indenture and Section 5.12 of the Loan Agreement, the Corporation, acting on its own behalf and on behalf of each other Person who becomes a Member of the Obligated Group (as such terms are defined in the Master Indenture) and BNY, acting in its capacity as dissemination agent (BNY, acting in such capacity being hereinafter referred to as the "Dissemination Agent"), covenant and agree as follows:

SECTION 1. Purpose of this Disclosure Agreement. This Disclosure Agreement is being executed and delivered by the Corporation and the Dissemination Agent for the benefit of the Holders and Beneficial Owners (as hereinafter defined) of the Bonds and in order to assist the Participating Underwriters (as hereinafter defined) in complying with the Rule (as hereinafter defined). The Corporation and the Dissemination Agent acknowledge that the Authority has undertaken no responsibility with respect to any reports, notices or disclosures provided or required under this Disclosure Agreement, and has no liability to any person, including any Holder or Beneficial Owner of the Bonds, with respect to any such reports, notices or disclosures or with respect to the Rule.

SECTION 2. Definitions. In addition to the definitions set forth in the Indenture, which apply to any capitalized term used in this Disclosure Agreement unless

otherwise defined in this Section, the following capitalized terms shall have the following meanings:

Annual Report shall mean any Annual Report provided by the Corporation pursuant to, and as described in, Section 3 and Section 4 of this Disclosure Agreement.

Beneficial Owner shall mean any person which has or shares the power, directly or indirectly, to make investment decisions concerning ownership of any Bonds (including persons holding Bonds through nominees, depositories or other intermediaries).

Disclosure Representative shall mean the Authorized Representative of the Corporation or his or her designee, or such other person as the Authorized Representative of the Corporation shall designate in writing to the Dissemination Agent from time to time.

Dissemination Agent shall mean BNY, acting in its capacity as Dissemination Agent hereunder, or any successor Dissemination Agent designated in writing by the Corporation to the Trustee.

Financial Obligation shall mean for purposes of the Listed Events set out in Section 5(A)(10) and Section 5(B)(8), a: (i) debt obligation; (ii) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (iii) guarantee of (i) or (ii); provided that "Financial Obligation" shall not include municipal securities as to which a final official statement has been provided to the MSRB consistent with the Rule.

Listed Events shall mean any of the events listed in Section 5(A) or Section 5(B) of this Disclosure Agreement.

MSRB shall mean the Municipal Securities Rulemaking Board or any other entity designated or authorized by the SEC to receive continuing disclosure filings pursuant to the Rule.

Participating Underwriter shall mean any of the original underwriters of the Bonds required to comply with the Rule in connection with offering of the Bonds.

Quarterly Report shall mean any Quarterly Report provided by the Corporation pursuant to, and as described in, Section 3 of this Disclosure Agreement.

Repository shall mean the MSRB or any other entity designated or authorized by the SEC to receive reports pursuant to the Rule. Until otherwise designated by the MSRB or the SEC, filings with the MSRB are to be made through the Electronic Municipal Market Access (EMMA) website of the MSRB, currently located at <http://emma.msrb.org>.

Rule shall mean Rule 15c2-12(b)(5) adopted by the SEC under the Securities Exchange Act of 1934, as the same may be amended from time to time.

SEC shall mean the Securities and Exchange Commission or any successor agency thereto.

State shall mean the State of California.

SECTION 3. Provision of Annual Reports and Quarterly Reports. (A) The Corporation shall, or shall upon written direction cause the Dissemination Agent to, not later than one hundred fifty (150) days after the end of the fiscal year of the Obligated Group, commencing with the Annual Report for the fiscal year of the Obligated Group ending August 31, 2020, provide to the Repository an Annual Report which is consistent with the requirements of Section 4 of this Disclosure Agreement. The Annual Report may be submitted as a single document or as separate documents comprising a package, and may include by reference other information as provided in Section 4 of this Disclosure Agreement; provided that the audited financial statements referred to in Section 4(A) may be submitted separately from the balance of the Annual Report and later than the date required above for the filing of the Annual Report if such audited financial statements are not available by that date. If the fiscal year of the Obligated Group changes, the Corporation shall give notice of such change in the same manner as for a Listed Event under Section 5(H).

(B) Not later than two (2) Business Days prior to the date specified in subsection (A) for providing the Annual Report to the Repository, the Corporation shall provide the Annual Report (in such format as is specified in Section 14) to the Dissemination Agent and the Trustee (if the Trustee is not the Dissemination Agent). If by two (2) Business Days prior to such date, the Dissemination Agent has not received a copy of the Annual Report, the Dissemination Agent shall contact the Corporation to determine if the Corporation is in compliance with subsection (A).

(C) If the Dissemination Agent is unable to verify that an Annual Report has been provided to the Repository by the date required in subsection (A), the Dissemination Agent shall send a notice, in electronic format, to the Repository, such notice to be in substantially the form attached as Exhibit A hereto.

(D) Unless the Corporation shall have informed the Dissemination Agent in writing that the Corporation has provided the Annual Report directly to the Repository, in which case the Corporation shall file a report with the Authority, the Dissemination Agent and (if the Dissemination Agent is not the Trustee) the Trustee certifying that the Annual Report has been provided pursuant to this Disclosure Agreement and stating the date it was provided, the Dissemination Agent shall file a report with the Corporation, the Authority and (if the Dissemination Agent is not the Trustee) the Trustee certifying that the Annual Report has been provided pursuant to this Disclosure Agreement and stating the date it was provided.

(E) In addition to providing the Annual Report required to be filed pursuant to subsection (A), the Corporation shall, or shall upon written direction, cause the Dissemination Agent to, provide to the Repository, unaudited financial information on a quarterly basis, such unaudited financial information to be provided for the first fiscal quarter, the second fiscal quarter, and the third fiscal quarter and to consist of a consolidated balance sheet, a consolidated statement of operations and changes in net assets and a consolidated statement of cash flows of the Obligated Group and such subsidiaries as are required to be included in accordance with generally accepted accounting principles and an update (as of the last day of the most recently ended fiscal quarter) of the information contained in Table 4 entitled "Historical Utilization" set

forth under the caption "Services, Facilities, and Operations-Utilization" in Appendix A of the Official Statement, dated March 26, 2020, relating to the Bonds (the "Official Statement"), such unaudited financial information and such update being hereinafter referred to as a "Quarterly Report." Commencing with the Quarterly Report for the fiscal quarter of the Obligated Group ending May 31, 2020, the Corporation shall provide, or cause the Dissemination Agent to provide, a Quarterly Report, consistent with this subsection (E) and in such format as is specified in Section 14, not later than sixty (60) days after the end of each of the first three fiscal quarters of each fiscal year of the Members of the Obligated Group. In the event the Corporation shall direct the Dissemination Agent to provide a Quarterly Report to the Repository, the Corporation shall provide the Quarterly Report to the Dissemination Agent not later than two (2) Business Days prior to the date such Quarterly Report is to be provided to the Repository.

SECTION 4. Content of Annual Reports. The Annual Report of the Obligated Group shall contain or include by reference the following:

(A) The audited financial statements of the Obligated Group for the prior fiscal year, prepared in accordance with generally accepted accounting principles applicable in the United States as promulgated from time to time. If the Obligated Group's audited financial statements are not available by the time the Annual Report is required to be filed pursuant to Section 3(A), the Annual Report shall contain unaudited financial statements in a format similar to the audited financial statements contained in the Official Statement and the audited financial statements shall be filed in the same manner as the Annual Report when such audited financial statements become available.

(B) An update (as of the last day of the most recently ended fiscal year of the Obligated Group) of the information set forth in the front portion of the Official Statement under the caption "Debt Service Requirements."

(C) An update (as of the last day of the most recently ended fiscal year of the Obligated Group) of the information contained in each of the following tables set forth in Appendix A of the Official Statement: (i) Table 4 entitled "Historical Utilization" set forth under the caption "Services, Facilities, and Operations-Utilization;" (ii) Table 6 entitled "Consolidated Capitalization" set forth under the caption "Summary of Financial Information-Capitalization;" (iii) Table 7 entitled "Consolidated Liquidity" set forth under the caption "Summary of Financial Information-Liquidity;" and (iv) Table 8 entitled "Maximum Annual Debt Service Coverage" set forth under the caption "Summary of Financial Information-Debt Service Coverage."

Any or all of the items listed above may be included by specific reference to other documents, including official statements of debt issues with respect to which the Corporation or any other Member of the Obligated Group is an "obligated person" (as such term is defined in the Rule), which have been submitted to the Repository. The Corporation shall clearly identify each such other document so included by reference.

SECTION 5. Reporting of Listed Events.

(A) The Corporation shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Bonds in a timely manner not later than ten (10) Business Days after the occurrence of the event:

1. principal and interest payment delinquencies;
2. unscheduled draws on debt service reserves reflecting financial difficulties;
3. unscheduled draws on the credit enhancements reflecting financial difficulties;
4. substitution of the credit or liquidity providers or any failure by such credit or liquidity providers to perform;
5. adverse tax opinions or issuance by the Internal Revenue Service of a proposed or final determination of taxability or a Notice of Proposed Issue (IRS Form 5701 TEB);
6. tender offers;
7. defeasances;
8. rating changes;
9. bankruptcy, insolvency, receivership or similar event of any Member of the Obligated Group; or
10. default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a Financial Obligation of any Member of the Obligated Group, any of which reflect financial difficulties.

Note: for the purposes of the event identified in subsection (9) above, the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for any Member of the Obligated Group in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of such Member of the Obligated Group, or if such jurisdiction has been assumed by leaving the existing governing body and officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of such Member of the Obligated Group.

(B) The Corporation shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Bonds, if material, in a timely manner not later than ten (10) Business Days after the occurrence of the event, such notice to be provided in accordance with the provisions set forth in Section 14:

1. unless described in subsection 5(A)(5), other material notices or determinations by the Internal Revenue Service with respect to the tax status of the Bonds or other material events affecting the tax status of the Bonds;
2. modifications to rights of Bondholders;
3. Bond calls;
4. release, substitution or sale of property securing repayment of the Bonds;
5. non-payment related defaults;
6. the consummation of a merger, consolidation or acquisition involving any Member of the Obligated Group or the sale of all or substantially all of the assets of any Member of the Obligated Group, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms;
7. appointment of a successor or additional trustee or the change of name of a trustee; or
8. incurrence of a Financial Obligation of any Member of the Obligated Group, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a Financial Obligation of any Member of the Obligated Group, any of which affects Holders of Bonds.

(C) If the Corporation learns of the occurrence of a Listed Event described in Section 5(A), or determines that knowledge of a Listed Event described in Section 5(B) would be material under applicable federal securities laws, the Corporation shall within ten (10) Business Days of occurrence file a notice of such occurrence, or cause a notice of such occurrence to be filed, with the Repository. Notwithstanding the foregoing, notice of the Listed Event described in Section 5(A)(7) or Section 5(B)(3) need not be given under this Section 5(C) any earlier than the notice (if any) of the underlying event is given to Holders of affected Bonds pursuant to the Indenture.

(D) The Dissemination Agent shall, within one (1) Business Day, or as soon thereafter as practicable, of obtaining actual knowledge of the occurrence of any of the Listed Events described in Section 5(B), contact the Disclosure Representative, inform such person of the event, and request that the Corporation promptly direct the Dissemination Agent in writing whether or not to report such event pursuant to Section 5(H). For purposes of this Disclosure Agreement, "actual knowledge" of the occurrence of such Listed Events shall mean actual knowledge by the officer at the Dissemination Agent with regular responsibility for the administration of matters related to this Disclosure Agreement. The Dissemination Agent shall not have any duty to determine if any Listed Event is material, reflects financial difficulties or affects the Holders of Bonds.

(E) Whenever the Corporation obtains knowledge of the occurrence of a Listed Event described in Section 5(B), whether because of a notice from the Dissemination

Agent pursuant to Section 5(D) or otherwise, the Corporation shall as soon as possible determine if such event would be material under applicable federal securities laws.

(F) If the Corporation has determined that knowledge of the occurrence of a Listed Event described in Section 5(B) would be material under applicable federal securities laws, the Corporation shall promptly notify the Dissemination Agent in writing. Such notice shall instruct the Dissemination Agent to report the occurrence pursuant to Section 5(H).

(G) If in response to a request under Section 5(D), the Corporation determines that the Listed Event described in Section 5(B) would not be material under applicable federal securities laws, the Corporation shall so notify the Dissemination Agent in writing and instruct the Dissemination Agent not to report the occurrence pursuant to Section 5(H).

(H) If the Dissemination Agent has been instructed by the Corporation to report the occurrence of a Listed Event described in Section 5(B), the Dissemination Agent shall file a notice of such occurrence with the Repository, such notice to be provided in accordance with the provisions set forth in Section 14.

SECTION 6. Termination of Reporting Obligation. The obligations of the Corporation and the Dissemination Agent under this Disclosure Agreement shall terminate with respect to the Bonds upon the legal defeasance, prior redemption or payment in full of all of the Bonds. If the obligations of the Corporation under the Loan Agreement are assumed in full by some other entity, such person shall be responsible for compliance with this Disclosure Agreement in the same manner as if it were the Corporation, and the original Corporation shall have no further responsibility hereunder.

SECTION 7. Dissemination Agent. The Corporation may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Agreement, and may discharge any such Dissemination Agent, with or without appointing a successor Dissemination Agent. In the event that the Corporation discharges the Dissemination Agent and does not appoint a successor Dissemination Agent, the Corporation shall perform the obligations of the Dissemination Agent under this Disclosure Agreement.

The Dissemination Agent may resign by providing thirty (30) days written notice to the Corporation and the Trustee. If at any time there is not any other designated Dissemination Agent, the Corporation shall perform the functions of the Dissemination Agent. Neither the Dissemination Agent nor the Trustee shall have any duty or obligation to review any information provided to the Dissemination Agent or Trustee hereunder and shall not be deemed to be acting in any fiduciary capacity under this Disclosure Agreement for the Corporation, any other Member of the Obligated Group or the Holders.

It is understood and agreed that any information that the Dissemination Agent may be instructed to file with the Repository shall be prepared and provided to it by the Corporation. The Dissemination Agent has undertaken no responsibility with respect to any reports, notices or disclosures provided to it under this Disclosure Agreement, and has no liability to any person, including any Holder of Bonds, with respect to any such reports, notices or disclosures. The fact that the Dissemination Agent or any affiliate thereof may have any

fiduciary or banking relationship with the Corporation shall not be construed to mean that the Dissemination Agent has actual knowledge of any event or condition except as may be provided by written notice from the Corporation.

SECTION 8. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Agreement, the Corporation and the Dissemination Agent may amend this Disclosure Agreement (and the Dissemination Agent shall agree to any amendment so requested by the Corporation, provided, the Dissemination Agent shall not be obligated to enter into any such amendment that modifies or increases its duties or obligations hereunder or modifies its rights hereunder), and any provision of this Disclosure Agreement may be waived, provided that the following conditions are satisfied:

(A) If the amendment or waiver relates to the provisions of Sections 3(A), 4, 5(A) or 5(B), such amendment or waiver may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature or status of an obligated person with respect to the Bonds, or the type of business conducted;

(B) This Disclosure Agreement, as amended or taking into account the waiver proposed, would, in the opinion of nationally recognized bond counsel, have complied with the requirements of the Rule at the time of the original issuance of the Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(C) The amendment or waiver either (i) is approved by the Holders of the Bonds in the same manner as provided in the Indenture with respect to amendments to the Indenture which require the consent of Holders, or (ii) does not, in the opinion of nationally recognized bond counsel, materially impair the interests of the Holders or Beneficial Owners of the Bonds.

In the event of any amendment or waiver of a provision of this Disclosure Agreement, the Corporation shall describe such amendment in the next Annual Report, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type (or in the case of a change of accounting principles, on the presentation) of financial information or operating data being presented by the Corporation. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements, (i) notice of such change shall be given in a filing with the Repository, and (ii) the Annual Report for the year in which the change is made should present a comparison (in narrative form and also, if feasible, in quantitative form) between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

SECTION 9. Additional Information. Nothing in this Disclosure Agreement shall be deemed to prevent the Corporation from disseminating any other information, using the means of dissemination set forth in this Disclosure Agreement or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Agreement. If the Corporation chooses to include any information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is specifically required by this Disclosure Agreement,

the Corporation shall have no obligation under this Disclosure Agreement to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event or any other event required to be reported.

SECTION 10. Default. In the event of a failure of the Corporation or the Dissemination Agent to comply with any provision of this Disclosure Agreement, the Trustee, at the written request of any Participating Underwriter or the Holders of at least 25% aggregate principal amount of Bonds Outstanding, shall (but only to the extent funds in an amount satisfactory to the Trustee have been provided to it or it has been otherwise indemnified to its satisfaction from any cost, liability, expense or additional charges of the Trustee whatsoever, including, without limitation, fees and expenses of its attorneys), or any Holder or Beneficial Owner of the Bonds may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the Corporation or the Dissemination Agent, as the case may be, to comply with its obligations under this Disclosure Agreement. A default under this Disclosure Agreement shall not be deemed an Event of Default under the Indenture or a Loan Default Event under the Loan Agreement, and the sole remedy under this Disclosure Agreement in the event of any failure of the Corporation or the Dissemination Agent to comply with this Disclosure Agreement shall be an action to compel performance.

SECTION 11. Duties, Immunities and Liabilities of Dissemination Agent. Article VIII of the Indenture, including, without limitation, Section 8.03 of the Indenture, is hereby made applicable to this Disclosure Agreement as if this Disclosure Agreement were (solely for this purpose) contained in the Indenture and the Dissemination Agent shall be entitled to the benefits afforded to the Trustee thereunder. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Agreement, and the Corporation agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents, harmless against any loss, expense and liabilities which the Dissemination Agent may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including attorneys fees and expenses) of defending against any claim of liability, but excluding liabilities due to the Dissemination Agent's negligence or willful misconduct. The Dissemination Agent shall be paid compensation by the Corporation for its services provided hereunder in accordance with its schedule of fees, as amended from time to time, and all expenses, legal fees and advances made or incurred by the Dissemination Agent in the performance of its duties hereunder. The obligations of the Corporation under this Section shall survive resignation or removal of the Dissemination Agent and payment of the Bonds.

SECTION 12. Beneficiaries. This Disclosure Agreement shall inure solely to the benefit of the Authority, the Corporation, the Trustee, the Dissemination Agent, the Participating Underwriters, the Holders and the Beneficial Owners from time to time of the Bonds, and shall create no rights in any other person or entity. No person shall have any right to commence any action against the Trustee or the Dissemination Agent seeking any remedy other than to compel specific performance of this Disclosure Agreement.

SECTION 13. Notices. All notices or communications herein required or permitted to be given shall be in writing mailed, sent by telecopy or other direct written

electronic means, including, without limitation, email, receipt of which shall be confirmed, or delivered as set forth below:

- (i) If to the Corporation:
Stanford Health Care
300 Pasteur Drive, M/C 5554
Stanford, California 94305
Attention: Director, Treasury Services
Telephone: (650) 721-1081
Telecopy: (650) 736-1534

- (ii) If to the Dissemination Agent and the Trustee:
The Bank of New York Mellon Trust Company, N.A.
400 South Hope Street, Suite 500
Los Angeles, California 90071
Attention: Corporate Trust
Telephone: (213) 553-4381
Telecopy: (213) 630-6215

- (iii) If to the Authority:
California Health Facilities Financing Authority
915 Capitol Mall, Room 435
Sacramento, California 95814
Attention: Executive Director
Telephone: (916) 653-2799
Telecopy: (916) 654-5362

With respect to any notice to be delivered to the Corporation by electronic means, including, without limitation, any notice to be delivered by email, such notice shall be addressed to the Chief Financial Officer of the Corporation at the email or other address provided by the Corporation to the Authority and the Trustee and the Dissemination Agent from time to time for delivery by email or other electronic means, with a copy to such other email address or addresses as may be designated from time to time by the Disclosure Representative. With respect to any notice to be delivered to the Trustee or the Dissemination Agent by electronic means, including, without limitation, any notice to be delivered by email, such notice shall be addressed to the representative of the Dissemination Agent or the Trustee, as applicable, at the email or other address provided by the Dissemination Agent or the Trustee to the Corporation and the Authority from time to time for delivery by email or other electronic means. With respect to any notice to be delivered to the Authority by electronic means, including, without limitation, any notice to be delivered by email, such notice shall be addressed to the Executive Director of the Authority at the email or other address provided by the Authority to the Corporation, the Dissemination Agent and the Trustee from time to time for delivery by email or other electronic means.

The Corporation, the Dissemination Agent, the Trustee, and the Authority may, by written notice hereunder, designate any further or different address to which subsequent notices, certificates or other communications shall be sent.

SECTION 14. **Format for Filings.** Any notice, report or filing with the Repository pursuant to this Disclosure Agreement must be submitted in electronic format, in word searchable pdf format, accompanied by such identifying information as is prescribed by the Repository. Until otherwise designated by the Repository or the SEC, filings with the Repository are to be made through the Electronic Municipal Market Access (EMMA) website of the MSRB, currently located at [http://emma.msrb/org](http://emma.msrb.org).

SECTION 15. **Governing Law.** This Disclosure Agreement shall be construed in accordance with and governed by the Constitution and laws of the State of California applicable to contracts made and performed in the State of California.

SECTION 16. **Counterparts.** This Disclosure Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

Second Amended and Restated Master Indenture of Trust

This **Second Amended and Restated Master Indenture of Trust**, dated as of ____ 1, 2020, between **Stanford Health Care**, formerly known as **Stanford Hospital and Clinics**, a nonprofit public benefit corporation duly organized and existing under the laws of the State of California (the "Corporation") and **The Bank of New York Mellon Trust Company, N.A.**, a national banking association duly organized and existing under the laws of the United States of America and being qualified to accept and administer the trusts hereby created, as master trustee, amends and restates the Amended and Restated Master Indenture of Trust, dated as of June 1, 2011 (as supplemented and amended to the date hereof, the "Existing Master Indenture"), between The Bank of New York Trust Company, N.A., as master trustee;

WITNESSETH:

WHEREAS, in order to provide for the issuance from time to time of obligations to provide for the financing or refinancing of the acquisition, construction, equipping or improvement of health care or other facilities, or for other lawful and proper corporate purposes, the Corporation entered into the Existing Master Indenture;

WHEREAS, in accordance with Section 6.02 of the Existing Master Indenture, the holders of not less than a majority in aggregate principal amount of obligations outstanding shall have the right to consent to and approve the execution by the Corporation, acting as obligated group representative (the Corporation acting in such capacity being hereinafter referred to as the "Obligated Group Representative") of such Related Supplements (as such term is defined in the Existing Master Indenture) as shall be deemed necessary and desirable for the purpose of modifying, altering, amending, adding to or rescinding, in any particular, any of the terms or provisions contained in the Existing Master Indenture, subject to such exceptions as are set forth in Section 6.02 of the Existing Master Indenture;

WHEREAS, in order to provide for changes to reflect current market standards, the Corporation, acting as Obligated Group Representative, has caused this Second Amended and Restated Master Indenture of Trust to be prepared;

WHEREAS, this Second Amended and Restated Master Indenture of Trust amends and restates the Existing Master Indenture in its entirety;

WHEREAS, this Second Amended and Restated Master Indenture of Trust constitutes a Related Supplement as such term is defined in the Existing Master Indenture;

WHEREAS, as required pursuant to Section 6.02 of the Existing Master Indenture, the Corporation has secured the consent of the holders of not less than a majority in aggregate principal amount of obligations outstanding to amendment and restatement of the Existing Master Indenture as set forth in this Second Amended and Restated Master Indenture of Trust;

WHEREAS, the Corporation hereby certifies that: (i) all acts and things necessary to constitute this Second Amended and Restated Master Indenture of Trust a valid indenture and agreement according to its terms having been done and performed; (ii) the Corporation has duly

authorized the execution and delivery of this Second Amended and Restated Master Indenture of Trust; and (iii) the Corporation proposes to enter into supplements hereto with The Bank of New York Mellon Trust Company, N.A., as master trustee (the "Master Trustee") to provide for the issuance from time to time of obligations to be secured hereunder to provide for the financing or refinancing of the acquisition, construction, equipping or improvement of health care or other facilities, or for other lawful and proper corporate purposes; and

WHEREAS, the Master Trustee agrees to accept and administer the trusts created hereby;

NOW, THEREFORE, in consideration of the premises, of the acceptance by the Master Trustee of the trusts hereby created, and of the giving of consideration for and acceptance of the obligations issued under the Existing Master Indenture, as amended and restated by this Second Amended and Restated Master Indenture of Trust, by the holders thereof, and for the purpose of fixing and declaring the terms and conditions upon which obligations are to be issued, authenticated, delivered and accepted by all persons who shall from time to time be or become holders thereof, the Corporation covenants and agrees with the Master Trustee for the equal and proportionate benefit of the respective holders from time to time of obligations issued under the Existing Master Indenture, as amended and restated by this Second Amended and Restated Master Indenture of Trust, as follows:

ARTICLE I

DEFINITIONS AND INTERPRETATION

Section 1.01. Definitions. Unless the context otherwise requires, the terms defined in this Section shall for all purposes of this Second Amended and Restated Master Indenture of Trust (as more fully defined in Section 1.01 hereof, this "Master Indenture") and of any Related Supplement issued hereafter and of any certificate, opinion or other document herein mentioned, have the meanings herein specified, equally applicable to both singular and plural forms of any of the terms herein defined.

Accountant means any independent certified public accountant or firm of independent certified public accountants selected by the Obligated Group Representative.

Affiliated Corporation means any corporation which, directly or indirectly through one or more intermediaries, controls, is controlled by or is under common control with, an Obligated Group Member.

Annual Debt Service means for each Fiscal Year the sum (without duplication) of the aggregate amount of principal and interest scheduled to become due and payable in such Fiscal Year on all Long-Term Indebtedness of the Obligated Group then Outstanding (by scheduled maturity, acceleration, mandatory redemption or otherwise, but not including purchase price coming due as a result of a mandatory or optional tender or put), less any amounts of such principal or interest to be paid during such Fiscal Year from (a) the proceeds of Indebtedness or (b) moneys or Government Obligations deposited in trust for the purpose of paying such principal or interest; provided that if a Financial Products Agreement is being entered into by any Obligated Group Member concurrently or substantially concurrently with the incurrence of Long-Term

Indebtedness and with respect to such Long-Term Indebtedness or if a Financial Products Agreement has been entered into by any Obligated Group Member with respect to Long-Term Indebtedness, interest on such Long-Term Indebtedness shall be included in the calculation of Annual Debt Service by including for each Fiscal Year an amount equal to the amount of interest payable on such Long-Term Indebtedness in such Fiscal Year at the rate or rates stated in such Long-Term Indebtedness plus any Financial Product Payments under a Financial Products Agreement payable in such Fiscal Year minus any Financial Product Receipts under a Financial Products Agreement receivable in such Fiscal Year; provided that in no event shall any calculation made pursuant to this clause result in a number less than zero being included in the calculation of Annual Debt Service. For purposes of computing Annual Debt Service, the following principles and assumptions shall be applied.

(a) with respect to a Guaranty, there shall be included in the calculation of Annual Debt Service the amount of the Annual Debt Service (calculated as if such Person were a Obligated Group Member) paid by the Obligated Group Members under the Guaranty until such time as either the default is cured, the indebtedness guaranteed is repaid or the Guaranty is terminated.

(b) if interest on Long-Term Indebtedness is payable pursuant to a variable interest rate formula (or if Financial Product Payments or Financial Product Receipts are determined by application of a variable interest rate), the interest rate on such Long-Term Indebtedness (or the applied variable rate for such Financial Product Payments or Financial Product Receipts) for periods when the actual interest rate cannot yet be determined shall be assumed to be equal to (i) if such Long-Term Indebtedness (or Financial Products Agreement) was Outstanding during the twelve (12) calendar months immediately preceding the date of calculation, an average of the interest rates per annum which were in effect for such period, and (ii) if such Long-Term Indebtedness (or Financial Products Agreement) was not Outstanding during the twelve (12) calendar months immediately preceding the date of calculation, at the election of the Obligated Group Representative, either (x) an average of the SIFMA Swap Index during the twelve (12) calendar months immediately preceding the date of calculation or (y) an average of the interest rates per annum which would have been in effect for any twelve (12) consecutive calendar months during the eighteen (18) calendar months immediately preceding the date of calculation, as specified in a Certificate of the Obligated Group Representative or, at the sole option of the Obligated Group Representative, such interest rate as shall be specified in a written statement from an investment banking or financial advisory firm selected by the Obligated Group Representative.

(c) debt service on Long-Term Indebtedness incurred to finance capital improvements shall be included in the calculation of Annual Debt Service only in proportion to the amount of interest on such Long-Term Indebtedness which is payable in the then-current Fiscal Year from sources other than proceeds of such Long-Term Indebtedness held by a trustee or escrow agent for such purpose (excluding any funds held on deposit in a debt service reserve fund established in connection with such Long-Term Indebtedness); and

(d) with respect to Balloon Indebtedness, such Balloon Indebtedness shall be treated, at the sole option of the Obligated Group Representative, as Long-Term Indebtedness bearing interest at an interest rate equal to either (i) a fixed rate equal to the Thirty-Year Revenue

Bond Index most recently published in *The Bond Buyer* prior to the date of calculation or (ii) such interest rate as shall be specified in a written statement from an investment banking or financial advisory firm selected by the Obligated Group Representative, and (x) with substantially level debt service over a period of up to the later of thirty (30) years or maturity of the Balloon Indebtedness (which period shall be designated by the Obligated Group Representative) from the date of calculation, or (y) with the debt service being interest only for a designated period of years and then substantially level debt service over a designated period of years (each of which periods shall be designated by the Obligated Group Representative), provided that such periods shall not aggregate in excess of thirty (30) years (by way of example, Annual Debt Service on Balloon Indebtedness could be designated by the Obligated Group Representative to be treated as interest only for twenty-five (25) years and as level payments of principal and interest for the next five (5) years).

Appraisal Institute means the global membership association of professional real estate appraisers designated by that name or any successor thereto.

Authorized Representative means with respect to each Obligated Group Member, the chair of its Governing Body, its president or chief executive officer, its chief financial officer or any other person designated as an Authorized Representative of such Obligated Group Member by a Certificate of that Obligated Group Member signed by the chair of its Governing Body, its president or chief executive officer, or its chief financial officer and filed with the Master Trustee.

Balloon Indebtedness means either (a) Long-Term Indebtedness or (b) Commercial Paper Indebtedness or Short-Term Indebtedness which is intended to be refinanced upon or prior to its maturity so that such Commercial Paper Indebtedness or Short-Term Indebtedness, as applicable, and the Indebtedness intended to be used to refinance such Commercial Paper Indebtedness or Short-Term Indebtedness, as applicable, will be scheduled to be outstanding for a total of more than three hundred sixty-five (365) days as certified in an Officer's Certificate, in either case twenty-five percent (25%) or more of the original principal of which matures (or is redeemable at the option of the holder) in the same Fiscal Year, if such twenty-five percent (25%) or more is not to be amortized below twenty-five percent (25%) by mandatory redemption prior to such Fiscal Year.

Book Value means, when used in connection with Property, Plant and Equipment or other Property of any Obligated Group Member, the value of such property, net of accumulated depreciation, as it is carried on the books of such Obligated Group Member and in conformity with GAAP, and when used in connection with Property, Plant and Equipment or other Property of the Obligated Group, means the aggregate of the values so determined with respect to such Property of each Obligated Group Member determined in such a way that no portion of such value of Property of any Obligated Group Member is included more than once.

Certificate, Statement, Request, Consent or Order of any Obligated Group Member or of the Master Trustee means, respectively, a written certificate, statement, request, consent or order signed in the name of such Obligated Group Member by an Authorized Representative or in the name of the Master Trustee by a Responsible Officer. Any such instrument and supporting opinions or certificates, if any, may, but need not, be combined in a single instrument with any

other instrument, opinion or certificate and the two or more so combined shall be read and construed as a single instrument. If and to the extent required by Section 1.04 hereof, each such instrument shall include the statements provided for in Section 1.04.

Commercial Paper Indebtedness means Indebtedness with a maturity not in excess of two hundred seventy (270) days), the proceeds of which are to be used: (i) to provide interim financing for capital improvements, (ii) to support current operations or (iii) for other corporate purposes. Commercial Paper Indebtedness shall not constitute Short-Term Indebtedness for any purpose under this Master Indenture.

Corporate Trust Office means the office of the Master Trustee at which its principal corporate trust business is conducted, which at the date hereof is located at 400 South Hope Street, Suite 500, Los Angeles, California 90071, or at such other or additional offices as shall be specified by the Master Trustee in a writing delivered to the Obligated Group Representative.

Corporation means Stanford Hospital and Clinics, a nonprofit corporation duly organized and existing under the laws of the State of California, and its successors.

Debt Service Coverage Ratio means, for any Fiscal Year, the ratio determined by dividing Income Available for Debt Service for such Fiscal Year by Annual Debt Service.

Default means an event that, with the passage of time or the giving of notice or both, would become an Event of Default.

ERISA means the Employee Retirement Income Security Act of 1974, as amended, or any successor statute.

Event of Default means any of the events specified in Section 4.01 hereof.

Excluded Property means the property described on Exhibit D hereto.

Existing Financial Products Agreements means the Financial Products Agreements listed on Exhibit A attached hereto.

Existing Master Indenture shall have the meaning assigned thereto in the recitals hereof.

Existing Parity Financial Product Extraordinary Payments means the Parity Financial Product Extraordinary Payments listed on Exhibit C attached hereto.

Existing Obligations means the Obligations listed on Exhibit B attached hereto.

Fair Market Value, when used in connection with Property, means the fair market value of such Property as determined by either:

(1) an appraisal of the portion of such Property which is real property made within five years of the date of determination by a member of the Appraisal Institute and by an appraisal of the portion of such Property which is not real property made within five years of the date of determination by any expert qualified in relation to the subject matter, provided that any such

appraisal shall be performed by an Independent Consultant, adjusted for the period, not in excess of five years, from the date of the last such appraisal for changes in the implicit price deflator for the gross national product as reported by the United States Department of Commerce or its successor agency, or if such index is no longer published, such other index certified to be comparable and appropriate in an Officer's Certificate delivered to the Master Trustee;

(2) a bona fide offer for the purchase of such Property made on an arm's-length basis within six months of the date of determination, as established by an Officer's Certificate; or

(3) an officer of the Obligated Group Representative (whose determination shall be made in good faith and set forth in an Officer's Certificate filed with the Master Trustee) if the fair market value of such Property is less than or equal to the greater of \$5,000,000 or 2.5% of cash and equivalents as shown on the most recent Financial Statements.

Financial Products Agreement means any interest rate exchange agreement, hedge or similar arrangement, including, without limitation, an interest rate swap, asset swap, a constant maturity swap, a forward or futures contract, cap, collar, option, floor, forward or other hedging agreement, arrangement or security, direct funding transaction or other derivative, however denominated and whether entered into on a current or forward basis, identified to the Master Trustee in an Officer's Certificate of the Obligated Group Representative as having been entered into by an Obligated Group Member with a Qualified Provider: (a) with respect to Indebtedness (which is either then-Outstanding or to be incurred after the date of such Certificate) identified in such Certificate for the purpose of (1) reducing or otherwise managing the Obligated Group Member's risk of interest rate changes or (2) effectively converting the Obligated Group Member's interest rate exposure, in whole or in part, from a fixed rate exposure to a variable rate exposure, or from a variable rate exposure to a fixed rate exposure; or (b) for any other interest rate, investment, asset or liability management purpose.

Financial Product Extraordinary Payments means any payments required to be paid to a counterparty by an Obligated Group Member pursuant to a Financial Product Agreement in connection with the termination thereof, tax gross-up payments, expenses, default interest, and any other payments or indemnification obligations to be paid to a counterparty by an Obligated Group Member under a Financial Product Agreement, which payments are not Financial Product Payments.

Financial Product Payments means regularly scheduled payments required to be paid to a counterparty by an Obligated Group Member pursuant to a Financial Products Agreement.

Financial Product Receipts means regularly scheduled payments required to be paid to an Obligated Group Member by a counterparty pursuant to a Financial Products Agreement.

Financial Statements means financial statements complying with the provisions set forth in Section 3.11(b)(1).

Fiscal Year means the period beginning on September 1 of each year and ending on the next succeeding August 31, or any other twelve-month period hereafter designated by the Obligated Group Representative as the fiscal year of the Obligated Group.

GAAP means accounting principles generally accepted in the United States of America, consistently applied.

Governing Body means, when used with respect to any Obligated Group Member, its board of directors, board of trustees or other board or group of individuals in which all of the powers of such Obligated Group Member are vested, except for those powers reserved to the corporate membership of such Obligated Group Member by the articles of incorporation or bylaws of such Obligated Group Member.

Government Issuer means any municipal corporation, political subdivision, state, territory or possession of the United States, or any constituted authority or agency or instrumentality of any of the foregoing empowered to issue obligations on behalf thereof, which obligations would constitute Related Bonds hereunder.

Government Obligations means: (1) direct obligations of the United States of America (including obligations issued or held in book-entry form on the books of the Department of the Treasury of the United States of America) or obligations the timely payment of the principal of and interest on which are fully guaranteed by the United States of America; (2) obligations issued or guaranteed by any agency, department or instrumentality of the United States of America if the obligations issued or guaranteed by such entity are rated in one of the two highest rating categories of a Rating Agency (without regard to any gradation of such rating category); (3) certificates which evidence ownership of the right to the payment of the principal of and interest on obligations described in clauses (1) and/or (2), provided that such obligations are held in the custody of a bank or trust company in a special account separate from the general assets of such custodian; and (4) obligations the interest on which is excluded from gross income for purposes of federal income taxation pursuant to Section 103 of the Internal Revenue Code of 1986, and the timely payment of the principal of and interest on which is fully provided for by the deposit in trust of cash and/or obligations described in clauses (1), (2) and/or (3).

Gross Receivables means all accounts and health-care-insurance receivables (as such terms are defined in the UCC), whether now existing or hereafter created or arising, and proceeds thereof.

Guaranty means all loan commitments and all obligations of any Obligated Group Member guaranteeing in any manner whatever, whether directly or indirectly, any obligation of any other Person, which would, if such other Person were an Obligated Group Member, constitute Indebtedness.

Holder means the registered owner of any Obligation in registered form or the bearer of any Obligation in coupon form which is not registered or is registered to bearer.

Immaterial Affiliates means Persons that are not Members of the Obligated Group and whose combined total revenues (calculated as if such Persons were Members of the Obligated Group), as shown on their financial statements for their most recently completed fiscal year, were less than ten percent (10%) of the Total Revenues of the Obligated Group (including the Total Revenues of such Persons) as shown on the Financial Statements for the most recently completed Fiscal Year of the Obligated Group.

Income Available for Debt Service means, unless the context provides otherwise, as to any period of time, net income, or excess of revenues over expenses (excluding income from all Irrevocable Deposits) before depreciation, amortization, and interest expense, as determined in accordance with GAAP and as shown on the Financial Statements; provided, that no determination thereof shall take into account:

(a) any revenue or expense of a Person which is not a Member of the Obligated Group;

(b) gifts, grants, bequests, donations or contributions, to the extent specifically restricted by the donor to a particular purpose inconsistent with their use for the payment of principal of, redemption premium and interest on Indebtedness or the payment of operating expenses;

(c) the net proceeds of insurance (other than business interruption insurance) and condemnation awards;

(d) any gain or loss resulting from the extinguishment of Indebtedness;

(e) any gain or loss resulting from the sale, exchange or other disposition of assets not in the ordinary course of business;

(f) any gain or loss resulting from any discontinued operations;

(g) any gain or loss resulting from pension terminations, settlements or curtailments;

(h) any unusual charges for employee severance;

(i) adjustments to the value of assets or liabilities resulting from changes in GAAP;

(j) unrealized gains or losses on investments, including "other than temporary" declines in Book Value;

(k) gains or losses resulting from changes in valuation of any hedging, derivative, interest rate exchange or similar contract, including, without limitation, any Financial Products Agreement;

(l) any Financial Product Extraordinary Payments or similar payments on any hedging, derivative, interest rate exchange or similar contract that does not constitute a Financial Products Agreement;

(m) unrealized gains or losses from the write-down, reappraisal or revaluation of assets;

(n) changes in the share value of investment pools held or managed by Stanford University; or

(o) other nonrecurring items of any extraordinary nature which do not involve the receipt, expenditure or transfer of assets.

Indebtedness means any Guaranty (other than any Guaranty by any Obligated Group Member of Indebtedness of any other Obligated Group Member) and any obligation of any Obligated Group Member (1) for repayment of borrowed money, (2) with respect to finance leases or (3) under installment sale agreements; provided, however, that if more than one Obligated Group Member shall have incurred or assumed a Guaranty of a Person other than an Obligated Group Member, or if more than one Obligated Group Member shall be obligated to pay any obligation, for purposes of any computations or calculations under this Master Indenture, such Guaranty or obligation shall be included only one time. Financial Products Agreements and physician income guaranties shall not constitute Indebtedness.

Independent Consultant means a firm (but not an individual) which (1) is in fact independent, (2) does not have any direct financial interest or any material indirect financial interest in any Obligated Group Member (other than the agreement pursuant to which such firm is retained), (3) is not connected with any Obligated Group Member as an officer, employee, promoter, trustee, partner, director or person performing similar functions and (4) is qualified to pass upon questions relating to the financial affairs of organizations similar to the Obligated Group or facilities of the type or types operated by the Obligated Group and having the skill and experience necessary to render the particular opinion or report required by the provision hereof in which such requirement appears.

Insurance Consultant means a Person or firm (which may be an insurance broker or agent of an Obligated Group Member) which (1) is in fact independent, (2) does not have any direct financial interest or any material indirect financial interest in any Obligated Group Member (other than the agreement pursuant to which such Person or firm is retained) and (3) is not connected with any Obligated Group Member as an officer, employee, promoter, underwriter, trustee, partner, director or Person performing similar functions, and designated by the Obligated Group Representative, qualified to survey risks and to recommend insurance coverage for hospitals, health-related facilities and services and organizations engaged in such operations.

Irrevocable Deposit means an irrevocable deposit in trust of cash in an amount, or Government Obligations, or other securities permitted for such purpose pursuant to the terms of the documents governing the payment of or discharge of Indebtedness, the principal of and interest on which will be in an amount sufficient to pay all or a portion of the principal of, premium, if any, and interest on, any such Indebtedness (which would otherwise be considered Outstanding) as the same shall become due. The trustee of such deposit may be the Master Trustee, a Related Bond Trustee or any other trustee or escrow agent authorized to act in such capacity.

Lease means that certain Restatement and Assignment of Lease (Hospital and Hoover Pavilion), dated November 1, 1997, as amended by Amendment of Lease, dated March 31, 2000, among Stanford University, as lessor, the Corporation, as lessee, and UCSF Stanford Health Care, as assignee, which amended and restated that certain Lease and License Agreement, dated as of April 20, 1984, between Stanford University, as lessor, and the Corporation, as lessee.

Lien means any mortgage or pledge of, or security interest in, or lien or encumbrance on, any Property, including Gross Receivables, of an Obligated Group Member (i) which secures any Indebtedness or any other obligation of such Obligated Group Member or (ii) which secures any obligation of any Person other than an Obligated Group Member, and excluding liens applicable to Property in which an Obligated Group Member has only a leasehold interest, unless the lien secures Indebtedness of that Obligated Group Member.

Long-Term Indebtedness means Indebtedness other than Short-Term Indebtedness.

Master Indenture means this Second Amended and Restated Master Indenture of Trust, as originally executed and as it may from time to time be supplemented, modified or amended in accordance with the terms hereof.

Master Trustee means The Bank of New York Mellon Trust Company, N.A., a national banking association organized under the laws of the United States of America, and, subject to the limitations contained in Section 5.07, any other corporation or association that may be co-trustee with the Master Trustee, and any successor or successors to said trustee or co-trustee in the trusts created hereunder.

Member means an Obligated Group Member.

Merger Transaction has the meaning set forth in Section 3.10.

Nonrecourse Indebtedness means any Indebtedness which is not a general obligation and which is secured by a Lien on Property, Plant and Equipment acquired or constructed with the proceeds of such Indebtedness, liability for which is effectively limited to the Property, Plant and Equipment subject to such Lien, with no recourse, directly or indirectly, to any other Property of any Obligated Group Member or to any Obligated Group Member.

Obligated Group means all Obligated Group Members.

Obligated Group Member means the Corporation and each other Person which is obligated hereunder to the extent and in accordance with the provisions of Sections 3.05 and 3.12 hereof, from and after the date upon which such Person joins the Obligated Group, but excluding any Person which withdraws from the Obligated Group to the extent and in accordance with the provisions of Section 3.13 hereof, from and after the date of such withdrawal.

Obligated Group Representative means the Corporation or such other Obligated Group Member (or Obligated Group Members acting jointly) as may have been designated pursuant to written notice to the Master Trustee executed by the Corporation.

Obligation means each of the Existing Obligations and any obligation of the Obligated Group issued pursuant to Section 2.02 hereunder, as a joint and several obligation of each Obligated Group Member, which may be in any form set forth in a Related Supplement, including, but not limited to, bonds, notes, obligations, debentures, reimbursement agreements, loan agreements, Financial Products Agreements or leases. Reference to a Series of Obligations or to

Obligations of a Series means Obligations or a Series of Obligations issued pursuant to a single Related Supplement.

Officer's Certificate means a certificate signed by an Authorized Representative of the Obligated Group Representative.

Opinion of Bond Counsel means a written opinion signed by an attorney or firm of attorneys experienced in the field of public finance whose opinions are generally accepted by purchasers of bonds issued by or on behalf of a Government Issuer.

Opinion of Counsel means a written opinion signed by a reputable and qualified attorney or firm of attorneys who may be counsel for the Obligated Group Representative.

Outstanding, when used with reference to Indebtedness or Obligations, means, as of any date of determination, all Indebtedness or Obligations theretofore issued or incurred and not paid and discharged other than (1) Obligations theretofore cancelled by the Master Trustee or delivered to the Master Trustee for cancellation or otherwise deemed paid in accordance with the terms hereof, including, without limitation, Obligations securing Related Bonds which have been defeased pursuant to their terms, (2) Obligations in lieu of which other Obligations have been authenticated and delivered or which have been paid pursuant to the provisions of a Related Supplement regarding mutilated, destroyed, lost or stolen Obligations unless proof satisfactory to the Master Trustee has been received that any such Obligation is held by a bona fide purchaser, (3) any Obligation held by any Obligated Group Member, (4) Indebtedness deemed paid and no longer outstanding pursuant to the terms thereof, and (5) Indebtedness for which there has been an Irrevocable Deposit, but only to the extent that payment of debt service on such Indebtedness is payable from such Irrevocable Deposit; provided, however, that if two or more obligations which constitute Indebtedness represent the same underlying obligation (as when an Obligation secures an issue of Related Bonds and another Obligation secures repayment obligations to a bank under a letter of credit which secures such Related Bonds) for purposes of calculating compliance with the various financial covenants contained herein, but only for such purposes, only one of such Obligations shall be deemed Outstanding and the Obligation so deemed to be Outstanding shall be that Obligation which produces the greatest amount of Annual Debt Service to be included in the calculation of such covenants.

Parity Financial Product Extraordinary Payments means Existing Parity Financial Product Extraordinary Payments and Financial Product Extraordinary Payments that: (i) are with respect to a Financial Products Agreement secured or evidenced by an Obligation; and (ii) have been specified to be payable on a parity with Financial Product Payments in the Related Supplement authorizing the issuance of such Obligation.

Permitted Liens means and includes:

(a) Any judgment lien or notice of pending action against any Obligated Group Member so long as the judgment or pending action is being contested and execution thereon is stayed or while the period for responsive pleading has not lapsed;

(b) (i) Rights reserved to or vested in any municipality or public authority by the terms of any right, power, franchise, grant, license, permit or provision of law, affecting any Property, to (A) terminate such right, power, franchise, grant, license or permit, provided that the exercise of such right would not materially impair the use of such Property or materially and adversely affect the Value thereof, or (B) purchase, condemn, appropriate or recapture, or designate a purchase of, such Property; (ii) any liens on any Property for taxes, assessments, levies, fees, water and sewer charges, and other governmental and similar charges and any liens of mechanics, materialmen, laborers, suppliers or vendors for work or services performed or materials furnished in connection with such Property, which are not due and payable or which are not delinquent, or the amount or validity of which are being contested and execution thereon is stayed or, with respect to liens of mechanics, materialmen and laborers, have been due and payable or which are not delinquent, or the amount or validity of which are being contested and execution thereon is stayed or, with respect to liens of mechanics, materialmen and laborers, have been due for less than sixty (60) days or for which a bond has been furnished; (iii) easements, rights-of-way, servitudes, restrictions and other minor defects, encumbrances, and irregularities in the title to any Property which do not materially impair the use of such Property or materially and adversely affect the Value thereof; and (iv) rights reserved to or vested in any municipality or public authority to control or regulate any Property or to use such Property in any manner, which rights do not materially impair the use of such Property in any manner, or materially and adversely affect the Value thereof;

(c) Any Lien in favor of the Master Trustee securing all Outstanding Obligations equally and ratably;

(d) Liens arising by reason of good faith deposits with any Obligated Group Member in connection with leases of real estate, bids or contracts (other than contracts for the payment of money), deposits by any Obligated Group Member to secure public or statutory obligations, or to secure, or in lieu of, surety, stay or appeal bonds, and deposits as security for the payment of taxes or assessments or other similar charges;

(e) Any Lien arising by reason of deposits with, or the giving of any form of security to, any governmental agency or any body created or approved by law or governmental regulation as a condition to the transaction of any business or the exercise of any privilege or license, or to enable any Obligated Group Member to maintain self-insurance or to participate in any funds established to cover any insurance risks or in connection with workers' compensation, unemployment insurance, pension or profit sharing plans or other similar social security plans, or to share in the privileges or benefits required for companies participating in such arrangements;

(f) Any Lien arising by reason of any escrow or reserve fund established to pay debt service with respect to Indebtedness;

(g) Any Lien in favor of a trustee on the proceeds of Indebtedness prior to the application of such proceeds;

(h) Liens on moneys deposited by patients or others with any Obligated Group Member as security for or as prepayment for the cost of patient care;

- (i) Liens on Property received by any Obligated Group Member through gifts, grants, bequests or research grants, such Liens being due to restrictions on such gifts, grants, bequests or research grants or the income thereon, up to the Fair Market Value of such Property;
- (j) Rights of the United States of America, including, without limitation, the Federal Emergency Management Agency ("FEMA"), or the State of California, including without limitation the California Emergency Management Agency, by reason of FEMA and other federal and State of California funds made available to any Member of the Obligated Group under federal or State of California statutes;
- (k) Liens on Property securing Indebtedness incurred to refinance Indebtedness previously secured by a Lien on such Property, provided that the aggregate principal amount of such new Indebtedness does not exceed the aggregate principal amount of such refinanced Indebtedness;
- (l) Liens granted by an Obligated Group Member to another Obligated Group Member;
- (m) Liens securing Nonrecourse Indebtedness incurred pursuant to the provisions hereof;
- (n) Liens consisting of purchase money security interests (as defined in the UCC) and lessors' interest in capitalized leases;
- (o) Liens on the Obligated Group Members' accounts receivable, provided that at the time of creation of such Lien, the Indebtedness secured by any such Lien shall not exceed thirty percent (30%) of the Obligated Group Members' net accounts receivable as shown on the most recent Financial Statements available at the time of incurrence of the Indebtedness to be secured by such Lien, and provided further that no more than thirty percent (30%) of the Obligated Group Members' net accounts receivable can be utilized for such securitization;
- (p) Liens on revenues constituting rentals in connection with any other Lien permitted hereunder on the Property from which such rentals are derived;
- (q) The lease or license of the use of a part of an Obligated Group Member's facilities for use in performing professional or other services necessary for the proper and economical operation of such facilities in accordance with customary business practices in the industry;
- (r) Liens on Property due to rights of third party payors for recoupment of excess reimbursement amounts paid to any Obligated Group Member;
- (s) Liens on real property constituting Property not necessary for the delivery of patient care by any Obligated Group Member;
- (t) Liens securing the interest of a vendor or lessor under any conditional sale agreement, capital lease or other title agreement;

(u) Liens in favor of banking or other depository institutions arising as a matter of law encumbering the deposits of any Obligated Group Member held in the ordinary course of business by such banking institution (including any right of setoff or statutory bankers' liens) so long as such deposit account is not established or maintained for the purpose of providing such Lien, right of setoff or bankers' lien;

(v) Rights of tenants under leases or rental agreements pertaining to Property, Plant and Equipment owned by any Obligated Group Member so long as the lease arrangement is in the ordinary course of business of such Obligated Group Member;

(w) Deposits of Property by any Obligated Group Member to meet regulatory requirements for a governmental workers' compensation, unemployment insurance or social security program, other than any Lien imposed by ERISA;

(x) Deposits to secure the performance of another party with respect to a bid, trade contract, statutory obligation, surety bond, appeal bond, performance bond or lease (other than a lease that is treated as Indebtedness under GAAP), and other similar obligations incurred in the ordinary course of business of an Obligated Group Member;

(y) Liens resulting from deposits to secure bids from or the performance of another party with respect to contracts incurred in the ordinary course of business of an Obligated Group Member (other than contracts creating or evidencing an extension of credit to the depositor or otherwise for the payment of Indebtedness);

(z) Present or future zoning laws, ordinances or other laws or regulations restricting the occupancy, use or enjoyment of Property, Plant and Equipment of any Obligated Group Member which, in the aggregate, are not substantial in amount, and which do not in any case materially impair the Fair Market Value or use of such Property, Plant and Equipment for the purposes for which it is used or could reasonably be expected to be held or used;

(aa) Liens junior to Liens in favor of the Master Trustee;

(bb) Liens created on amounts deposited by an Obligated Group Member pursuant to a security annex or similar document to collateralize obligations of such Obligated Group Member under a Financial Products Agreement;

(cc) Liens or encumbrances contemplated by or created in connection with or arising out of the Lease; and

(dd) Any other Lien on Property, provided that at the time of creation of such Lien the Value of all Property encumbered by all Liens permitted as described in this clause (dd) does not exceed thirty percent (30%) of the total Value of all Property of the Obligated Group Members as shown on the Financial Statements of the Obligated Group for the most recent Fiscal Year available at the time of creation of such Lien.

Person means an individual, association, corporation, firm, limited liability company, partnership, trust or other legal entity or group of entities, including a governmental entity or any agency or political subdivision thereof.

Property means any and all rights, titles and interests in and to any and all assets of any Obligated Group Member, whether real or personal, tangible or intangible and wherever situated.

Property, Plant and Equipment means all Property of any Obligated Group Member which is considered property, plant and equipment of such Obligated Group Member under GAAP.

Qualified Provider means any financial institution or insurance company or corporation which is a party to a Financial Products Agreement if (i) the unsecured long-term debt obligations of such provider (or of the parent or a subsidiary of such provider if such parent or subsidiary guarantees or otherwise assures the performance of such provider under such Financial Products Agreement), or (ii) obligations secured or supported by a letter of credit, contract, guarantee, agreement, insurance policy or surety bond issued by such provider (or such guarantor or assuring parent or subsidiary) are rated in one of the three highest rating categories of a Rating Agency (without regard to any gradation or such rating category) at the time of the execution and delivery of the Financial Products Agreement.

Rating Agency means Fitch Inc., Moody's Investors Service, Inc., Standard & Poor's, a division of The McGraw-Hill Companies, and any other national rating agency then rating Obligations or Related Bonds.

Rating Category means a generic securities rating category, without regard to any refinement or gradation of such rating category by a numerical modifier or otherwise.

Related Bonds means the revenue bonds or other obligations (including, without limitation, certificates of participation) issued by any Government Issuer, the proceeds of which are loaned or otherwise made available to an Obligated Group Member in consideration of the execution, authentication and delivery of an Obligation or Obligations to or for the order of such Government Issuer.

Related Bond Indenture means any indenture, bond resolution, trust agreement, or other comparable instrument pursuant to which a series of Related Bonds are issued.

Related Bond Issuer means the Government Issuer of any issue of Related Bonds.

Related Bond Trustee means the trustee and its successors in the trusts created under any Related Bond Indenture, and if there is no such trustee, means the Related Bond Issuer.

Related Supplement means an indenture supplemental to, and authorized and executed pursuant to the terms of, this Master Indenture.

Required Payment means any payment, whether at maturity, by acceleration, upon proceeding for redemption or otherwise, including without limitation, Financial Product Payments,

Financial Product Extraordinary Payments, now or hereafter required to be made by any Obligated Group Member under this Master Indenture or any Related Supplement or any Obligation.

Responsible Officer means, with respect to the Master Trustee, the president, any vice president, any assistant vice president, any assistant secretary, any assistant treasurer, any senior associate, any associate or any other officer of the Master Trustee customarily performing functions similar to those performed by the persons above designated or to whom any corporate trust matter is referred because of such person's knowledge of and familiarity with the particular subject.

Restricted Assets means any gifts, grants, bequests, donations and contributions to the extent specifically restricted by the donor to a particular purpose inconsistent with their use for the payment of Required Payments or the payment of operating expenses.

Short-Term Indebtedness means all (i) Indebtedness having an original maturity less than or equal to one year and not renewable at the option of an Obligated Group Member for a term greater than one year from the date of original incurrence or issuance or (ii) Indebtedness with a maturity or renewable at the option of a Obligated Group Member with a term greater than one year, if by the terms of such Indebtedness, no Indebtedness is permitted to be outstanding thereunder for a period of at least twenty (20) consecutive days during each calendar year. For purposes of this definition, (i) only the stated maturity of Indebtedness (and not any tender or put right of the holder of such Indebtedness) shall be taken into account in determining if such Indebtedness constitutes Short-Term Indebtedness hereunder and (ii) classification of Indebtedness as current or short-term under GAAP shall not be controlling. Commercial Paper Indebtedness shall not constitute Short-Term Indebtedness for any purpose under this Master Indenture.

SIFMA Swap Index means, on any date, a rate determined on the basis of the seven-day high grade market index of tax-exempt variable rate demand obligations, as produced by Municipal Market Data and published or made available by the Securities Industry & Financial Markets Association (formerly the Bond Market Association) ("SIFMA") or any Person acting in cooperation with or under the sponsorship of SIFMA or if such index is no longer available SIFMA Swap Index shall refer to an index selected by the Obligated Group Representative, with the advice of an investment banking or financial services firm knowledgeable in health care matters.

Stanford University means The Board of Trustees of The Leland Stanford Junior University, a body having corporate powers under the Constitution and laws of the State of California.

Subordinate Financial Product Extraordinary Payment means any Financial Product Extraordinary Payment other than a Parity Financial Product Extraordinary Payment.

Subordinated Indebtedness means Indebtedness specifically subordinated as to payment and security to the payment of all Required Payments and other obligations of the Obligated Group Members under this Master Indenture.

Surviving Entity has the meaning set forth in Section 3.10.

Total Revenues means, for the period of calculation in question, the sum of operating revenue (including net patient service revenue, capitation or premium revenue and other revenue) and nonoperating gains (losses), as shown on the Financial Statements of the Obligated Group for the most recent Fiscal Year.

UCC means the Uniform Commercial Code of the State of California, as amended from time to time.

Value, when used with respect to Property, means the aggregate value of all such Property, with each component of such Property valued, at the option of the Obligated Group Representative, at either its Fair Market Value or its Book Value.

Section 1.02. Interpretation.

(a) Any reference herein to any officer of an Obligated Group Member shall include those succeeding to the functions, duties or responsibilities of such officer pursuant to or by operation of law or who are lawfully performing the functions of such officer.

(b) Unless the context otherwise indicates, words of the masculine gender shall be deemed and construed to include correlative words of the feminine and neuter genders. The singular shall include the plural and vice versa.

(c) Headings of Articles and Sections herein and the table of contents hereto are solely for convenience of reference, and do not constitute a part hereof and shall not affect the meaning, construction or effect hereof.

Section 1.03. References to Master Indenture. The terms "hereby," "hereof," "hereto," "herein," "hereunder," and any similar terms, used in this Master Indenture refer to this Master Indenture.

Section 1.04. Contents of Certificates; Use of GAAP.

(a) Every Certificate provided for herein with respect to compliance with any provision hereof shall include: (a) a statement that the Person making or giving such certificate has read such provision and the definitions herein relating thereto; (b) a brief statement as to the nature and scope of the examination or investigation upon which the certificate is based; (c) a statement that, in the opinion of such Person, such Person has made, or caused to be made, such examination or investigation as is necessary to enable such Person to provide the certificate with respect to the subject matter referred to in the instrument to which such Person's signature is affixed; and (d) a statement as to whether, in the opinion of such Person, such provision has been satisfied.

(b) Any such Certificate made or given by an officer of an Obligated Group Member or the Master Trustee may be based, insofar as it relates to legal, accounting or health care matters, upon a Certificate or opinion or representation of counsel, an Accountant or Independent Consultant unless such officer knows, or in the exercise of reasonable care should have known, that the Certificate, opinion or representation with respect to the matters upon which such Certificate or opinion may be based, as aforesaid, is erroneous. Any such Certificate, opinion or

representation made or given by counsel, an Accountant or an Independent Consultant, may be based, insofar as it relates to factual matters (with respect to which information is in the possession of any Obligated Group Member) upon the Certificate or opinion of, or representation by an officer of any Obligated Group Member unless such counsel, Accountant or Independent Consultant knows, or in the exercise or reasonable care should have known, that the Certificate, opinion of or representation by such officer, with respect to the factual matters upon which such Person's Certificate or opinion may be based, is erroneous. The same officer of any Obligated Group Member or the same counsel or Accountant or Independent Consultant, as the case may be, need not certify as to all the matters required to be certified under any provision hereof, but different officers, counsel, Accountants or Independent Consultants may certify as to different matters.

(c) Where the character or amount of any asset or liability or item of income or expense is required to be determined or any consolidation, combination or other accounting computation is required to be made for the purposes of this Master Indenture or any agreement, document or certificate executed and delivered in connection with or pursuant to this Master Indenture, such determination or computation shall be done in accordance with GAAP in effect on, at the sole option of the Obligated Group Representative, (i) the date such determination or computation is made for any purpose of this Master Indenture or (ii) the date of execution and delivery of this Master Indenture if the Obligated Group Representative delivers an Officer's Certificate to the Master Trustee describing why then current GAAP is inconsistent with the intent of the parties on the date of execution and delivery of this Master Indenture; provided (i) that intercompany balances and liabilities among the Obligated Group Members shall be disregarded and (ii) that the requirements set forth herein shall prevail if inconsistent with GAAP.

ARTICLE II

AUTHORIZATION AND ISSUANCE OF OBLIGATIONS

Section 2.01. Authorization of Obligations. Each Obligated Group Member hereby authorizes to be issued from time to time Obligations or Series of Obligations, without limitation as to amount, except as provided herein or as may be limited by law, and subject to the terms, conditions and limitations established herein and in any Related Supplement.

Section 2.02. Issuance of Obligations. From time to time when authorized by this Master Indenture and subject to the terms, limitations and conditions established in this Master Indenture or in a Related Supplement, the Obligated Group Representative may authorize the issuance of an Obligation or a Series of Obligations by entering into a Related Supplement. The Obligation or the Obligations of any such Series may be issued and delivered to the Master Trustee for authentication upon compliance with the provisions hereof and of any Related Supplement.

Each Related Supplement authorizing the issuance of an Obligation or a Series of Obligations shall specify the purposes for which such Obligation or Series of Obligations are being issued; the form, title, designation, manner of numbering or denominations, if applicable, of such Obligations; the date or dates of maturity or other final expiration of the term of such Obligations, if applicable; the date of issuance of such Obligations; and any other provisions deemed advisable or necessary by the Obligated Group Representative. Each Related Supplement authorizing the

issuance of an Obligation shall also specify and determine the principal amount of such Obligation (if any) for purposes of calculating the percentage of Holders of Obligations required to take actions or give consents pursuant to this Master Indenture, which, if such Obligation does not evidence or secure Indebtedness, shall be equal to zero, except as is otherwise provided in Section 6.02(a). The designation of zero as a principal amount of an Obligation shall not in any manner affect the obligation of the Members to make Required Payments with respect to such Obligation.

Section 2.03. Appointment of Obligated Group Representative. Each Obligated Group Member, by becoming an Obligated Group Member, irrevocably appoints the Obligated Group Representative as its agent and attorney-in-fact and grants full power to the Obligated Group Representative to (a) execute Related Supplements authorizing the issuance of Obligations or Series of Obligations and (b) issue Obligations.

Section 2.04. Execution and Authentication of Obligations.

(a) All Obligations shall be executed by an Authorized Representative of the Obligated Group Representative for and on behalf of the Obligated Group as provided in the Related Supplement authorizing such Obligation. The signature of such Authorized Representative may be mechanically or photographically reproduced on the Obligations. If any Authorized Representative whose signature appears on any Obligation ceases to be such Authorized Representative before delivery thereof, such signature shall remain valid and sufficient for all purposes as if such Authorized Representative had remained in office until such delivery. Each Obligation shall be manually authenticated by an authorized signatory of the Master Trustee, and no Obligation shall be entitled to the benefits hereof without such authentication.

(b) The form of Certificate of Authentication to be printed on each Obligation and manually executed by an authorized signatory of the Master Trustee shall be as follows:

[FORM OF MASTER TRUSTEE'S CERTIFICATE OF AUTHENTICATION]

The undersigned Master Trustee hereby certifies that this Obligation No. ___ is one of the Obligations described in the within mentioned Master Indenture.

Dated: _____

[Name of Master Trustee]

By _____
Authorized Signatory

Section 2.05. Conditions to the Issuance of Obligations. The issuance, authentication and delivery of any Obligation or Series of Obligations shall be subject to the following specific conditions:

(a) The Obligated Group Representative and the Master Trustee shall have entered into a Related Supplement providing for the terms and conditions of such Obligations and the repayment thereof; and

(b) The Master Trustee receives an Officer's Certificate to the effect that:

(1) each Obligated Group Member is in full compliance with all warranties, covenants and agreements set forth in this Master Indenture and in any Related Supplement; and

(2) neither an Event of Default nor any Default has occurred and is continuing or would occur upon issuance of such Obligations under this Master Indenture or any Related Supplement; and

(3) all requirements and conditions, if any, to the issuance of such Obligations set forth in the Related Supplement have been satisfied; and

(c) The Master Trustee receives an Opinion of Counsel to the effect that: (i) such Obligations and Related Supplement have been duly authorized, executed and delivered by the Obligated Group Representative on behalf of the Obligated Group and constitute valid and binding obligations of the Obligated Group, enforceable in accordance with their terms; and (ii) such Obligations are not subject to registration under federal or state securities laws and such Related Supplement is not subject to registration under the Trust Indenture Act of 1939, as amended (or that such registration, if required has occurred); and

(d) The Obligated Group Representative shall have delivered or caused to be delivered to the Master Trustee such opinions, certificates, proceedings, instruments and other documents as the Master Trustee may reasonably request; and

(e) With respect to any Obligation or Obligations (other than Existing Obligations), if such Obligation constitutes or secures Indebtedness, the requirements of Section 3.05 are satisfied, as evidenced by an Officer's Certificate delivered to the Master Trustee.

ARTICLE III

PAYMENTS; OBLIGATED GROUP COVENANTS

Section 3.01. Payment of Required Payments. Each Obligated Group Member jointly and severally covenants, to pay or cause to be paid promptly, all Required Payments at the place, on the dates and in the manner provided herein, or in any Related Supplement or Obligation. Each Obligated Group Member acknowledges that the time of such payment and performance is of the essence of the Obligations hereunder. Each Obligated Group Member further covenants to faithfully observe and perform all of the conditions, covenants and requirements of this Master Indenture, any Related Supplement and any Obligation.

The obligation of each Obligated Group Member with respect to Required Payments shall not be abrogated, prejudiced or affected by:

(a) the granting of any extension, waiver or other concession given to any Obligated Group Member by the Master Trustee or any Holder or by any compromise, release, abandonment, variation, relinquishment or renewal of any of the rights of the Master Trustee or any Holder or

anything done or omitted or neglected to be done by the Master Trustee or any Holder in exercise of the authority, power and discretion vested in them by this Master Indenture, or by any other dealing or thing which, but for this provision, might operate to abrogate, prejudice or affect such obligation; or

(b) the liability of any other Obligated Group Member under this Master Indenture ceasing for any cause whatsoever, including the release of any other Obligated Group Member pursuant to the provisions of this Master Indenture or any Related Supplement; or

(c) any Obligated Group Member's failing to become liable as, or losing eligibility to become, an Obligated Group Member with respect to an Obligation.

Subject to the provisions of Section 3.13 hereof permitting withdrawal from the Obligated Group, the obligation of each Obligated Group Member to make Required Payments is a continuing one and is to remain in effect until all Required Payments have been paid or deemed paid in full in accordance with Article VII hereof. All moneys from time to time received by the Obligated Group Representative or the Master Trustee to reduce liability on Obligations, whether from or on account of the Obligated Group Members or otherwise, shall be regarded as payments in gross without any right on the part of any one or more of the Obligated Group Members to claim the benefit of any moneys so received until the whole of the amounts owing on Obligations has been paid or satisfied and so that in the event of any such Obligated Group Member's filing bankruptcy, the Obligated Group Representative or the Master Trustee shall be entitled to prove up the total indebtedness or other liability on Obligations Outstanding as to which the liability of such Obligated Group Member has become fixed.

Each Obligation shall be a primary obligation of the Obligated Group Members and shall not be treated as ancillary to or collateral with any other obligation and shall be independent of any other security so that the covenants and agreements of each Obligated Group Member hereunder shall be enforceable without first having recourse to any such security or source of payment and without first taking any steps or proceedings against any other Person. The Obligated Group Representative and the Master Trustee are each empowered to enforce each covenant and agreement of each Obligated Group Member hereunder and to enforce the making of Required Payments. Each Obligated Group Member hereby authorizes each of the Obligated Group Representative and the Master Trustee to enforce or refrain from enforcing any covenant or agreement of the Obligated Group Members hereunder and to make any arrangement or compromise with any Obligated Group Member or Obligated Group Members as the Obligated Group Representative or the Master Trustee may deem appropriate, consistent with this Master Indenture and any Related Supplement. Each Obligated Group Member hereby waives in favor of the Obligated Group Representative and the Master Trustee all rights against the Obligated Group Representative, the Master Trustee and any other Obligated Group Member, insofar as is necessary to give effect to any of the provisions of this Section.

Section 3.02. Maintenance of Properties; Payment of Indebtedness. Each Obligated Group Member hereby covenants to:

(a) maintain its Property, Plant and Equipment in accordance with all valid and applicable governmental laws, ordinances, approvals and regulations including, without limitation, such zoning, sanitary, pollution and safety ordinances and laws and such rules and regulations thereunder as may be binding upon it; provided, however, that no Obligated Group Member shall be required to comply with any law, ordinance, approval or regulation as long as it shall in good faith contest the validity thereof;

(b) maintain and operate its Property, Plant and Equipment in reasonably good working condition, and from time to time make or cause to be made all needful and proper replacements, repairs and improvements so that the operations of such Obligated Group Member will not be materially impaired;

(c) pay and discharge all applicable taxes, assessments, governmental charges of any kind whatsoever, water rates, meter charges and other utility charges which may be or have been assessed or which may have become Liens upon the Property, Plant and Equipment, and will make such payments or cause such payments to be made in due time to prevent any delinquency thereon or any forfeiture or sale of any part of the Property, Plant and Equipment, and, upon request, will furnish to the Master Trustee receipts for all such payments, or other evidences satisfactory to the Master Trustee; provided, however, that no Obligated Group Member shall be required to pay any tax, assessment, rate or charge as long as it shall in good faith contest the validity thereof as set out in the definition of Permitted Liens;

(d) pay or otherwise satisfy and discharge all of its obligations and Indebtedness and all demands and claims against it as and when the same become due and payable, other than obligations, Indebtedness, demands or claims (exclusive of the Obligations issued and Outstanding hereunder) the validity, amount or collectibility of which is being contested in good faith;

(e) at all times comply with all terms, covenants and provisions of any Liens at such time existing upon its Property or any part thereof or securing any of its Indebtedness noncompliance with which would have a material adverse effect on the operations of the Obligated Group or its Property;

(f) use its best efforts to maintain (as long as it is in its best interests and will not materially adversely affect the interests of the Holders) all permits, licenses and other governmental approvals necessary for the operation of its Property; and

(g) take no action or suffer any action to be taken by others which would result in the interest on any Related Bond issued as a tax exempt obligation becoming subject to federal income taxation.

Nothing in this Section 3.02 shall be construed to require an Obligated Group Member to maintain any permit, license or other governmental approval, or to continue to operate or maintain any Property, Plant or Equipment, if, in the reasonable good faith judgment of the Obligated Group Member, such permit, license, governmental approval or Property, Plant or Equipment is, or within the next succeeding twelve (12) calendar months is reasonably expected to become, inadequate, obsolete, unsuitable, undesirable or unnecessary for the business of the Obligated Group and

failure to maintain or operate such permit, license, governmental approval or Property, Plant or Equipment will not materially adversely impair the operation of the Obligated Group.

Section 3.03. Insurance Required.

(a) Each Obligated Group Member, respectively, covenants and agrees that it will keep the Property, Plant and Equipment and all of its operations adequately insured at all times and carry and maintain such insurance in amounts which are customarily carried, subject to customary deductibles and alternative risk management programs and self-insurance, and against such risks as are customarily insured against by other health care institutions in connection with the ownership and operation of health facilities of similar character and size in the State of California.

(b) The Obligated Group Representative shall employ an Insurance Consultant at least once every two years to review the insurance requirements (including alternative risk management programs and self-insurance) of the Members. If the Insurance Consultant makes recommendations for a change in the insurance coverage required by subsection (a), the Obligated Group Members shall change such coverage in accordance with such recommendations, subject to a good faith determination of the Governing Body of the Obligated Group Representative that such recommendations, in whole or in part, are not in the best interests of the Obligated Group Members or that such coverage is not obtainable at commercially reasonable rates. In lieu of maintaining insurance coverage which the Governing Body of the Obligated Group Representative deems necessary, the Obligated Group Members shall have the right to adopt alternative risk management programs which the Governing Body of the Obligated Group Representative determines to be reasonable and which shall not have a material adverse impact on reimbursement from third-party payers, including, without limitation, to self-insure in whole or in part individually or in connection with other institutions, to participate in programs of captive insurance companies, to participate with other health care institutions in mutual or other cooperative insurance or other risk management programs, to participate in state or federal insurance programs, to take advantage of state or federal laws now or hereafter in existence limiting medical and malpractice liability, or to establish or participate in other alternative risk management programs; all as may be approved, in writing, as reasonable and appropriate risk management by the Insurance Consultant.

(c) Notwithstanding anything in this Section to the contrary, the Obligated Group Members shall have the right, without giving rise to an Event of Default hereunder solely on such account, (1) to maintain insurance coverage below that required by subsection (a) of this Section, if the Obligated Group Representative furnishes to the Master Trustee a certificate of the Insurance Consultant that the insurance so provided accords the greatest amount of coverage available for the risk being insured against at rates which in the judgment of the Insurance Consultant are reasonable in connection with reasonable and appropriate risk management, or (2) to adopt alternative risk management and self-insurance programs described in (b) above.

Section 3.04. Against Encumbrances. Each Obligated Group Member, respectively, covenants and agrees that it will not create, assume or suffer to exist any Lien upon the Property of the Obligated Group, except for Permitted Liens. Each Obligated Group Member, respectively, further covenants and agrees that if such a Lien (other than a Permitted Lien) is nonetheless created by someone other than an Obligated Group Member and is assumed by any Obligated Group

Member, it will make or cause to be made effective a provision whereby all Obligations will be secured prior to any such Indebtedness or other obligation secured by such Lien.

Section 3.05. Reserved.

Section 3.06. Gross Receivables Pledge.

(a) To secure its obligations to make Required Payments hereunder and its other obligations, agreements and covenants to be performed and observed hereunder, each Obligated Group Member hereby grants to the Master Trustee security interests under the UCC in all of its Gross Receivables. In order to further secure the Obligations and Required Payments, each Obligated Group Member pledges of the benefit of Holders all monies and securities held from time to time by the Master Trustee under this Master Indenture, including without limitation, monies and securities held in any fund or account established under this Master Indenture, subject to any requirement that such monies or securities be applied only to specific purposes or assigned particular preference or priority.

(b) This Master Indenture shall be deemed a “security agreement” for purposes of the UCC.

(c) The Master Trustee’s security interest in the Gross Receivables shall be perfected by the filing of financing statements that comply with the requirements of the UCC. Each Member (or the Obligated Group Representative on such Member’s behalf) shall cause to be filed, in accordance with the requirements of the UCC, financing statements; and, from time to time thereafter, shall execute and deliver such other documents (including, but not limited to, continuation statements as required by the UCC) as may be necessary or reasonably requested by the Master Trustee (which has no duty to make such request) in order to perfect or maintain perfected such security interests or give public notice thereof.

(d) Upon written request from the Obligated Group Representative, the Master Trustee shall take all procedural steps necessary as specified in writing by, and at the expense of, the Obligated Group Representative, to effect the subordination of its security interest in the Gross Receivables granted herein to security interests constituting Permitted Liens.

(e) Each Obligated Group Member shall notify the Master Trustee of any change of name, any change of its jurisdiction of organization, and any change of address of its chief executive office.

(f) Each Member of the Obligated Group represents and warrants that the Lien granted by this Section is and at all times will be a first Lien, subject only to (a) Permitted Liens and (b) non-consensual Liens arising by operation of law.

Section 3.07. Debt Coverage.

(a) Each Obligated Group Member, respectively, further covenants and agrees to manage its operations such that Income Available for Debt Service for the Obligated Group calculated at the end of each Fiscal Year will be not less than 1.10 times Annual Debt Service.

(b) Within five (5) months after the end of each Fiscal Year, the Obligated Group Representative shall compute the Debt Service Coverage Ratio for the Obligated Group for such Fiscal Year and furnish to the Master Trustee, an Officer's Certificate setting forth the results of such computation. The Obligated Group Representative covenants that if at the end of such Fiscal Year the Debt Service Coverage Ratio shall have been less than 1.1:1.0, it will promptly employ an Independent Consultant to make recommendations as to a revision of the rates, fees and charges of the Obligated Group or the methods of operation of the Obligated Group to increase the Debt Service Coverage Ratio to at least 1.1:1.0 for subsequent Fiscal Years (or, if in the opinion of the Independent Consultant, the attainment of such level is impracticable, to the highest practicable level). Copies of the recommendations of the Independent Consultant shall be filed with the Master Trustee within ninety (90) days of the retention of the Independent Consultant. Each Obligated Group Member shall, promptly upon its receipt of such recommendations, subject to applicable requirements or restrictions imposed by law and to a good faith determination by the Governing Body of the Obligated Group Representative that such recommendations are in the best interest of the Obligated Group, revise its rates, fees and charges or its methods of operation or collections and shall take such other action as shall be in conformity with such recommendations.

If either (i) the Obligated Group complies in all material respects with the reasonable recommendations of the Independent Consultant with respect to their rates, fees, charges and methods of operation or collection or (ii) the Obligated Group Representative determines that such recommendations are not in the best interests of the Obligated Group (and accordingly will not be followed) as evidenced by an Officer's Certificate filed with the Master Trustee, the Obligated Group will be deemed to have complied with the covenants set forth in this Section for such Fiscal Year, notwithstanding that the Debt Service Coverage Ratio shall be less than 1.1:1.0. Notwithstanding the foregoing, the Obligated Group Members shall not be excused from taking any action or performing any duty required under this Master Indenture and no other Event of Default shall be waived by the operation of the provisions of this subsection (b).

Section 3.08. Reserved.

Section 3.09. Reserved.

Section 3.10. Merger, Consolidation, Sale or Conveyance. Each Obligated Group Member covenants that it will not merge or consolidate with any other Person that is not an Obligated Group Member or sell or convey all or substantially all of its assets to any Person that is not an Obligated Group Member (a "Merger Transaction") unless:

- (a) After giving effect to the Merger Transaction,
 - (1) the successor or surviving entity (hereinafter, the "Surviving Entity") is an Obligated Group Member, or
 - (2) the Surviving Entity shall
 - (A) be a corporation or other entity organized and existing under the laws of the United States of America or any state thereof, and

(B) become an Obligated Group Member pursuant to Section 3.12 and, pursuant to the Related Supplement required by Section 3.12(b), shall expressly assume in writing the due and punctual payment of all Required Payments of the disappearing Obligated Group Member hereunder; and

(b) The Master Trustee receives an Officer's Certificate to the effect that no Event of Default then exists in connection with or will arise as a result of the Merger Transaction; and

(c) So long as any Related Bonds that are tax-exempt obligations are Outstanding, the Master Trustee receives an Opinion of Bond Counsel to the effect that, under then existing law, the consummation of the Merger Transaction, in and of itself, would not result in the inclusion of interest on such Related Bonds in gross income for purposes of federal income taxation; and

(d) The Master Trustee receives an Opinion of Counsel to the effect that: (i) all conditions in this Section 3.10 relating to the Merger Transaction have been complied with and the Master Trustee is authorized to join in the execution of any instrument required to be executed and delivered; (ii) the Surviving Entity meets the conditions set forth in this Section 3.10 and is liable on all Obligations then Outstanding; (iii) the Merger Transaction will not adversely affect the validity of any Obligations then Outstanding and such Obligations then Outstanding are enforceable against the Surviving Entity in accordance with their respective terms; and (iv) the Merger Transaction will not cause the Master Indenture or any Obligations to be subject to registration under federal or state securities laws or the Trust Indenture Act of 1939, as amended (or, that any such registration, if required, has occurred); and

(e) The Surviving Entity shall be substituted for its predecessor in interest in all Obligations and agreements then in effect which affect or relate to any Obligation, and the Surviving Entity shall execute and deliver to the Master Trustee appropriate documents in order to effect the substitution.

From and after the effective date of such substitution (as set forth in the above-mentioned documents), the Surviving Entity shall be treated as though it were an Obligated Group Member as of the date of the execution of this Master Indenture and shall thereafter have the right to participate in transactions hereunder relating to Obligations to the same extent as the other Obligated Group Members. All Obligations issued hereunder on behalf of a Surviving Entity shall have the same legal rank and benefit under this Master Indenture as Obligations issued on behalf of any other Obligated Group Member.

Section 3.11. Preparation and Filing of Financial Statements, Certificates and Other Information.

(a) Each Obligated Group Member covenants that it will keep adequate records and books of accounts in which complete and correct entries shall be made (said books shall be subject to the inspection by the Master Trustee (which inspection the Master Trustee is not required to make) during regular business hours after reasonable notice and under reasonable circumstances).

(b) The Obligated Group Representative covenants that it will furnish to the Master Trustee and any Related Bond Issuer that shall request the same in writing:

(1) As soon as practicable, but in no event more than five (5) months after the last day of each Fiscal Year, one or more financial statements which, in the aggregate, shall include the Obligated Group Members. Such financial statements:

(A) may consist of (i) consolidated or combined financial results including one or more Members of the Obligated Group and one or more other Persons required to be consolidated or combined with such Member(s) of the Obligated Group under GAAP or (ii) special purpose financial statements including only Members of the Obligated Group;

(B) shall be audited by an Accountant selected by the Obligated Group Representative and shall be prepared in accordance with GAAP (except, in the case of special purpose financial statements, for required consolidations);

(C) shall include a consolidated or combined balance sheet, statement of operations and changes in net assets; and

(D) if financial statements delivered to the Master Trustee pursuant to this subsection include financial information with respect to any Person who is not an Obligated Group Member or an Immaterial Affiliate as provided pursuant to clause (3) below or do not include financial information with respect to all Obligated Group Members, then the financial statements shall contain a consolidating or combining schedule from which financial information solely relating to the Obligated Group Members and Immaterial Affiliates may be derived.

(2) At the time of the delivery of financial statements complying with the provisions of Section 3.11(b)(1) (the "Financial Statements"), a certificate of the chief financial officer of the Obligated Group Representative, stating that the Obligated Group Representative has made a review of the activities of the Obligated Group Members during the preceding Fiscal Year for the purpose of determining whether or not the Obligated Group Members have complied with all of the terms, provisions and conditions of this Master Indenture and that each Obligated Group Member has kept, observed, performed and fulfilled each and every covenant, provision and condition of this Master Indenture on its part to be performed and none of such Obligated Group Members is in default in the performance or observance of any of the terms, covenants, provisions or conditions, or if any Obligated Group Member shall be in default, such certificate shall specify all such defaults and the nature thereof.

(3) Notwithstanding the foregoing, the results of operation and financial position of Immaterial Affiliates need not be excluded from Financial Statements delivered to the Master Trustee pursuant to this Section 3.11, and such results of operation and financial position may be considered as if they were a portion of the results of operation and financial position of the Obligated Group Members for all purposes of this Master Indenture notwithstanding the inclusion of the results of operation and financial position of such Immaterial Affiliates.

(c) The Master Trustee shall not be obligated to review, verify, or analyze any Financial Statements delivered to the Master Trustee hereunder, and shall only retain such Financial Statements as a repository for the Holders.

Section 3.12. Membership in Obligated Group. Additional Obligated Group Members may be added to the Obligated Group from time to time, provided that prior to such addition the Master Trustee receives:

(a) a copy of a resolution of the Governing Body of the proposed new Obligated Group Member which authorizes the execution and delivery of a Related Supplement and compliance with the terms of this Master Indenture;

(b) a Related Supplement executed by the Obligated Group Representative, the new Obligated Group Member and the Master Trustee pursuant to which the proposed new Obligated Group Member

(1) agrees to become an Obligated Group Member, and

(2) agrees to be bound by the terms of this Master Indenture, the Related Supplements and the Obligations, and

(3) irrevocably appoints the Obligated Group Representative as its agent and attorney-in-fact and grants to the Obligated Group Representative the requisite power and authority to execute Related Supplements authorizing the issuance of Obligations or Series of Obligations, to execute and deliver Obligations and to make payments on all Obligations;

(c) an Opinion of Counsel to the effect that: (i) the proposed new Obligated Group Member has taken all necessary action to become an Obligated Group Member, and upon execution of the Related Supplement, such proposed new Obligated Group Member will be bound by the terms of this Master Indenture; (ii) the addition of such Obligated Group Member would not adversely affect the validity of any Obligation then Outstanding; and (iii) the addition of such Obligated Group Member will not cause the Master Indenture or any Obligations to be subject to registration under federal or state securities laws or the Trust Indenture Act of 1939, as amended (or, that any such registration, if required, has occurred);

(d) an Officer's Certificate to the effect that immediately after the addition of the proposed new Obligated Group Member, no Event of Default will exist; and

(e) so long as any Related Bonds that are tax-exempt obligations are Outstanding, an Opinion of Bond Counsel to the effect that the addition of the proposed new Obligated Group Member will not, in and of itself, result in the inclusion of interest on any Related Bonds in gross income for purposes of federal income taxation.

Section 3.13. Withdrawal from Obligated Group. Any Obligated Group Member may withdraw from the Obligated Group and be released from further liability or obligation under the

provisions of this Master Indenture, provided that prior to such withdrawal the Master Trustee receives:

(a) the written consent of the Obligated Group Representative to the withdrawal of such Obligated Group Member;

(b) an Officer's Certificate to the effect that immediately following the withdrawal of such Obligated Group Member, no Event of Default will exist; and

(c) an Opinion of Counsel to the effect that: (i) the withdrawal of such Obligated Group Member would not adversely affect the validity of any Obligation then Outstanding; and (ii) the withdrawal of such Obligated Group Member will not cause the Master Indenture or any Obligations to be subject to registration under federal or state securities laws or the Trust Indenture Act of 1939, as amended (or, that any such registration, if required, has occurred).

Upon compliance with the conditions contained in this Section 3.13, the Master Trustee shall execute any documents reasonably requested by the withdrawing Obligated Group Member to evidence the termination of such Obligated Group Member's obligations hereunder, under all Related Supplements and under all Obligations.

Notwithstanding the foregoing, the Corporation may not withdraw from the Obligated Group unless prior to or concurrently with such withdrawal, the Corporation shall transfer all or substantially all of its assets to another Member of the Obligated Group.

ARTICLE IV

DEFAULTS

Section 4.01. Events of Default. Each of the following events shall be an Event of Default hereunder:

(a) Failure on the part of the Obligated Group Members to make due and punctual payment of the principal of, redemption premium, if any, interest on, or any other Required Payment on, any Obligation.

(b) Any Obligated Group Member shall fail to observe or perform any other covenant or agreement under this Master Indenture (including covenants or agreements contained in any Related Supplement or Obligation) and shall not have cured such failure within sixty (60) days after the date on which written notice of such failure, requiring the failure to be remedied, shall have been given to the Obligated Group Representative by the Master Trustee or to the Obligated Group Representative and the Master Trustee by the Holders of twenty-five percent (25%) in aggregate principal amount of Outstanding Obligations; provided that if such failure can be remedied but not within such sixty (60) day period, such failure shall not become an Event of Default for so long as the Obligated Group Representative shall diligently proceed to remedy the failure.

(c) A court having jurisdiction shall enter a decree or order for relief in respect of any Obligated Group Member in an involuntary case under any applicable federal or state bankruptcy, insolvency or other similar law, or appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator (or similar official) of any Obligated Group Member or for any substantial part of the Property of any Obligated Group Member, or ordering the winding up or liquidation of its affairs, and such decree or order shall remain unstayed and in effect for a period of sixty (60) consecutive days.

(d) Any Obligated Group Member shall commence a voluntary case under any applicable federal or state bankruptcy, insolvency or other similar law, or shall consent to the entry of an order for relief in an involuntary case under any such law, or shall consent to the appointment of or taking possession by a receiver, liquidator, assignee, trustee, custodian, sequestrator (or similar official) of any Obligated Group Member or for any substantial part of its Property, or shall make any general assignment for the benefit of creditors, or shall fail generally to pay its debts as they become due or shall take any corporate action in furtherance of the foregoing.

(e) An event of default shall exist under any Related Bond Indenture.

The Obligated Group Representative agrees that, as soon as practicable, and in any event within ten (10) days after such event, the Obligated Group Representative shall notify the Master Trustee of any event which is an Event of Default hereunder which has occurred and is continuing, which notice shall state the nature of such event and the action which the Obligated Group Members propose to take with respect thereto.

Section 4.02. Acceleration; Annulment of Acceleration.

(a) Upon the occurrence and during the continuation of an Event of Default hereunder, the Master Trustee may, and, upon (i) the written request of the Holders of not less than twenty-five percent (25%) in aggregate principal amount of Outstanding Obligations or of any Holder if an Event of Default under Section 4.01(a) hereof has occurred or (ii) the acceleration of any Obligation pursuant to the terms of the Related Supplement under which such Obligation was issued, the Master Trustee shall, by notice to the Members, declare all Outstanding Obligations immediately due and payable, whereupon such Obligations shall become and be immediately due and payable, anything in the Obligations or herein to the contrary notwithstanding; provided, however, that if the terms of any Related Supplement give a Person the right to consent to acceleration of the Obligations issued pursuant to such Related Supplement, the Obligations issued pursuant to such Related Supplement may not be accelerated by the Master Trustee unless such consent is properly obtained pursuant to the terms of such Related Supplement. In the event of acceleration, an amount equal to the aggregate principal amount of all Outstanding Obligations, plus all interest accrued thereon and, to the extent permitted by applicable law, which accrues on such principal and interest to the date of payment, shall be due and payable on the Obligations. Notwithstanding the foregoing, no Obligation shall be accelerated if the Event of Default is the result of the nonpayment of a Subordinate Financial Product Extraordinary Payment issued on or after the date of effectiveness of this Master Indenture set forth in Section 8.10.

(b) At any time after the Obligations have been declared to be due and payable, and before the entry of a final judgment or decree in any proceeding instituted with respect to the Event of Default that resulted in the declaration of acceleration, the Master Trustee may annul such declaration and its consequences if:

(1) the Obligated Group Members have paid (or caused to be paid or deposited with the Master Trustee moneys sufficient to pay) all payments then due on all Outstanding Obligations (other than payments then due only because of such declaration);

(2) the Obligated Group Members have paid (or caused to be paid or deposited with the Master Trustee moneys sufficient to pay) all fees and expenses of the Master Trustee then due;

(3) the Obligated Group Members have paid (or caused to be paid or deposited with the Master Trustee moneys sufficient to pay) all other amounts then payable by the Obligated Group hereunder; and

(4) every Event of Default (other than a default in the payment of the principal or other payments of such Obligations then due only because of such declaration) has been remedied.

No such annulment shall extend to or affect any subsequent Event of Default or impair any right with respect to any subsequent Event of Default.

Section 4.03. Additional Remedies and Enforcement of Remedies.

(a) Upon the occurrence and continuance of any Event of Default, the Master Trustee may, and upon the written request of the Holders of not less than twenty-five percent (25%) in aggregate principal amount of Outstanding Obligations (and upon indemnification of the Master Trustee to its satisfaction by the Obligated Group for any such request), shall, proceed to protect and enforce its rights and the rights of the Holders hereunder by such proceedings as the Master Trustee may deem expedient, including but not limited to:

(1) Enforcement of the right of the Holders to collect amounts due or becoming due under the Obligations;

(2) Civil action upon all or any part of the Obligations;

(3) Civil action to require any Person holding moneys, documents or other property pledged to secure payment of amounts due or to become due on the Obligations to account as if it were the trustee of an express trust for the Holders of Obligations;

(4) Civil action to enjoin any acts which may be unlawful or in violation of the rights of the Holders of Obligations; and

(5) Enforcement of any other right or remedy of the Holders conferred by law or hereby.

(b) Regardless of the occurrence of an Event of Default, if requested in writing by the Holders of not less than twenty-five percent (25%) in aggregate principal amount of the Outstanding Obligations (and upon indemnification of the Master Trustee to its satisfaction for such request), the Master Trustee shall institute and maintain such proceedings as it may be advised shall be necessary or expedient (1) to prevent any impairment of the security hereunder by any acts which may be unlawful or in violation hereof, or (2) to preserve or protect the interests of the Holders. However, the Master Trustee shall not comply with any such request or institute and maintain any such proceeding that is in conflict with any applicable law or the provisions hereof or (in the sole judgment of the Master Trustee) is unduly prejudicial to the interests of the Holders not making such request.

Section 4.04. Application of Moneys After Default. During the continuance of an Event of Default, all moneys received by the Master Trustee pursuant to any right given or action taken under the provisions of this Article (after payment of the costs of the proceedings resulting in the collection of such moneys and payment of all fees, expenses and other amounts owed to the Master Trustee) shall be applied as follows:

(a) Unless all Outstanding Obligations have become or have been declared due and payable (or if any such declaration is annulled in accordance with the terms of this Article):

First: To the payment of all installments of interest then due on the Obligations (including (i) Financial Product Payments to the extent made pursuant to a Financial Products Agreement secured or evidenced by an Obligation and (ii) Parity Financial Product Extraordinary Payments), in the order of their due dates, and, if the amount available is not sufficient to pay in full all installments of interest, Financial Product Payments to the extent made pursuant to a Financial Products Agreement secured or evidenced by an Obligation, and Parity Financial Product Extraordinary Payments due on the same date, then to the payment thereof ratably, according to the amounts of interest, Financial Product Payments to the extent made pursuant to a Financial Products Agreement secured or evidenced by an Obligation, and Parity Financial Product Extraordinary Payments due on such date, without any discrimination or preference;

Second: To the payment of all installments of principal then due on the Obligations (whether at maturity or by call for redemption) and other unpaid Required Payments in the order of their due dates, and, if the amount available is not sufficient to pay in full all installments of principal due on the same date, then to the payment thereof ratably, according to the amounts of principal due on such date, without any discrimination or preference;

Third: To the payment of all Subordinate Financial Product Extraordinary Payments in the order of their due dates, and, if the amount available is not sufficient to pay in full all Subordinate Financial Product Extraordinary Payments due on the same date, then to the payment thereof ratably, according to the amounts of Subordinate Financial Product Extraordinary Payments due on such date, then to the payment thereof ratably, according to the amounts of Subordinate Financial Product Extraordinary Payments due on such date, without any discrimination or preference.

(b) If all Outstanding Obligations have become or have been declared due and payable (and such declaration has not been annulled under the terms of this Article):

First: To the payment of the principal and interest and other Required Payments (including (i) Financial Product Payments to the extent made pursuant to a Financial Products Agreement secured or evidenced by an Obligation and (ii) Parity Financial Product Extraordinary Payments, but excluding Subordinate Financial Product Extraordinary Payments) then due and unpaid on the Obligations, and, if the amount available is not sufficient to pay in full the whole amount then due and unpaid, then to the payment thereof ratably, without preference or priority of principal over interest, of interest over principal, of any installment or payment over any other installment or payment or of any Obligation over any other Obligation, according to the amounts due respectively, without any discrimination or preference; and

Second: To the payment of all Subordinate Financial Product Extraordinary Payments in the order of their due dates, and, if the amount available is not sufficient to pay in full all Subordinate Financial Product Extraordinary Payments due on the same date, then to the payment thereof ratably, according to the amounts of Subordinate Financial Product Extraordinary Payments due on such date, without any discrimination or preference.

Such moneys shall be applied at such times as the Master Trustee shall determine, having due regard for the amount of moneys available and the likelihood of additional moneys becoming available in the future. Upon any date fixed by the Master Trustee for the application of such moneys to the payment of principal, interest on the amounts of principal to be paid on such date shall cease to accrue, provided such moneys are applied by the Master Trustee to the payment of such principal. The Master Trustee shall give such notices as it may deem appropriate of the deposit with it of such moneys or of the fixing of such dates. The Master Trustee shall not be required to make payment to the Holder of any unpaid Obligation until such Obligation is presented to the Master Trustee for appropriate endorsement of any partial payment or for cancellation if fully paid.

Whenever all Obligations have been paid under the terms of this Section and all fees and expenses of the Master Trustee have been paid, any balance remaining shall be paid to the Person entitled to receive such balance. If no other Person is entitled thereto, then the balance shall be paid to the Members of the Obligated Group or such Person as a court of competent jurisdiction may direct.

Section 4.05. Remedies Not Exclusive. No remedy granted by the terms of this Master Indenture is intended to be exclusive of any other remedy. Each remedy shall be cumulative and shall be in addition to every other remedy given hereunder or existing at law or in equity.

Section 4.06. Remedies Vested in the Master Trustee. All rights of action (including the right to file proof of claims) hereunder or under any of the Obligations may be enforced by the Master Trustee without the possession of any of the Obligations or the production thereof in any proceeding relating thereto. Any proceeding instituted by the Master Trustee may be brought in

its name as the Master Trustee without the necessity of joining any Holders as plaintiffs or defendants. Subject to the provisions of Section 4.04 hereof, any recovery or judgment shall be for the equal benefit of the Holders of the Outstanding Obligations.

Section 4.07. Master Trustee to Represent Holders. The Master Trustee is hereby irrevocably appointed as trustee and attorney in fact for the Holders for the purpose of exercising on their behalf the rights and remedies available to the Holders under the provisions of this Master Indenture, the Obligations, any Related Supplement and applicable provisions of law, in each case subject to the provisions of Section 4.08. The Holders, by taking and holding the Obligations, shall be conclusively deemed to have so appointed the Master Trustee.

Section 4.08. Holders' Control of Proceedings. If an Event of Default has occurred and is continuing, notwithstanding anything herein to the contrary, the Holders of at least a majority in aggregate principal amount of Outstanding Obligations shall have the right (upon the indemnification of the Master Trustee to its satisfaction) to direct the method and/or place of conducting any proceeding to be taken in connection with the enforcement of the terms hereof. Such direction must be in writing, signed by such Holders and delivered to the Master Trustee. However, the Master Trustee shall not follow any such direction that is in conflict with any applicable law or the provisions hereof or (in the sole judgment of the Master Trustee) is unduly prejudicial to the interests of the Holders not joining in such direction. Nothing in this Section shall impair the right of the Master Trustee to take any other action authorized by this Master Indenture which it may deem proper and which is not inconsistent with such direction by Holders.

Section 4.09. Termination of Proceedings. In case any proceeding instituted by the Master Trustee with respect to any Event of Default is discontinued or abandoned for any reason or is determined adversely to the Master Trustee or the Holders, then the Obligated Group Members, the Master Trustee and the Holders shall be restored to their former positions and rights hereunder. All rights, remedies and powers of the Master Trustee and the Holders shall continue as if no such proceeding had been taken.

Section 4.10. Waiver of Event of Default.

(a) No delay or omission of the Master Trustee or of any Holder to exercise any right with respect to any Event of Default shall impair such right or shall be construed to be a waiver of or acquiescence to such Event of Default. Every right and remedy given by this Article to the Master Trustee and the Holders may be exercised from time to time and as often as may be deemed expedient by them.

(b) The Master Trustee may waive any Event of Default which in its opinion has been remedied before the entry of a final judgment or decree in any proceeding instituted by it under the provisions hereof, or before the completion of the enforcement of any other remedy hereunder.

(c) Upon the written request of the Holders of at least a majority in aggregate principal amount of Outstanding Obligations, the Master Trustee shall waive any Event of Default hereunder and its consequences; provided, however, that, except under the circumstances set forth in subsection (b) of Section 4.02 hereof, the failure to pay the principal of, premium, if any, or interest

on any Obligation when due may not be waived without the written consent of the Holders of all Outstanding Obligations.

(d) In case of any waiver by the Master Trustee of an Event of Default, the Obligated Group Members, the Master Trustee and the Holders shall be restored to their former positions and rights. No waiver shall extend to, or impair any right with respect to, any other Event of Default.

Section 4.11. Appointment of Receiver. Upon the occurrence and continuance of any Event of Default, the Master Trustee shall be entitled (a) without declaring the Obligations to be due and payable, (b) after declaring the Obligations to be due and payable, or (c) upon the commencement of any proceeding to enforce any right of the Master Trustee or the Holders, to the appointment of a receiver or receivers of any or all of the Property of the Obligated Group Members (without the necessity of notice to any Obligated Group Member or any other Person), with such powers as the court making such appointment shall confer. Each Obligated Group Member consents, and will if requested by the Master Trustee, consent at the time of application by the Master Trustee for appointment of a receiver, to the appointment of such receiver and agrees that such receiver may be given the right, to the extent the right may lawfully be given, to take possession of, operate and deal with such Property and the revenues, profits and proceeds therefrom, with the same effect as the Obligated Group Member could, and to borrow money and issue evidences of indebtedness as such receiver.

Section 4.12. Remedies Subject to Provisions of Law. All rights, remedies and powers provided by this Article may be exercised only to the extent that the exercise thereof does not violate any applicable provision of law. All the provisions of this Article are intended to be subject to all applicable mandatory provisions of law that may be continuing and to be limited to the extent necessary so that they will not render any provision hereof invalid or unenforceable under the provisions of any applicable law.

Section 4.13. Notice of Default. Within ten (10) days after a Responsible Officer of the Master Trustee has actual knowledge or has received written notice of the occurrence of an Event of Default, the Master Trustee shall mail notice of such Event of Default to all Holders, unless such Event of Default has been cured before the giving of such notice (the term "Event of Default" for the purposes of this Section being limited to the events specified in subsections (a)-(f) of Section 4.01, not including any periods of grace provided for in subsections (b), (c) and (d), and regardless of the giving of written notice specified in subsection (b) of Section 4.01). Except in the case of default in the payment of the principal of or premium, if any, or interest on any of the Obligations and the Events of Default specified in subsections (d) and (e) of Section 4.01, the Master Trustee shall be protected in withholding such notice if and so long as the Master Trustee in good faith determines that the withholding of such notice is in the best interest of the Holders.

Section 4.14. Amendment of Percentages Specified in Events of Default; Acceleration; Annulment of Acceleration; and Additional Remedies and Enforcement of Remedies. Upon securing the consent of the Holders of 100% in aggregate principal amount of the Outstanding Obligations, references to twenty-five percent (25%) in aggregate principal amount of Outstanding

Obligations set forth in Section 4.01(b), Section 4.02(a) and 4.03(a) shall be revised to read as follows:

"a majority in aggregate principal amount of Outstanding Obligations"

ARTICLE V

THE MASTER TRUSTEE

Section 5.01. Certain Duties and Responsibilities; Liability of Master Trustee.

(a) Except during the continuance of an Event of Default:

(1) The Master Trustee undertakes to perform such duties and only such duties as are specifically set forth in this Master Indenture, and no implied covenant or obligation shall be read into this Master Indenture against the Master Trustee; and

(2) In the absence of bad faith on its part, the Master Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon Certificates or opinions furnished to the Master Trustee and conforming to the requirements of this Master Indenture; but in the case of any Certificate or opinion specifically required by the provisions hereof to be furnished to the Master Trustee, the Master Trustee shall be under a duty to examine such Certificate or opinion to determine whether or not it conforms to the requirements of this Master Indenture.

(b) In case an Event of Default has occurred and is continuing, the Master Trustee shall exercise such of the rights and powers vested in it by this Master Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of its own affairs.

(c) The Master Trustee shall not be liable in connection with the performance of its duties hereunder except for its own negligence or willful misconduct. No provision of this Master Indenture shall be construed to relieve the Master Trustee from liability for its own negligent action, its own negligent failure to act or its own willful misconduct, except that:

(1) this subsection shall not be construed to limit the effect of subsection (a) of this Section;

(2) the Master Trustee shall not be liable for any error of judgment made in good faith by a Responsible Officer, unless it is proved that the Master Trustee was negligent in ascertaining the pertinent facts;

(3) the Master Trustee shall not be liable with respect to any action taken or omitted to be taken by it in good faith in accordance with the direction of the Holders of a majority in principal amount of Obligations Outstanding relating to the timing, method and place of conducting any proceeding for any remedy available to the Master Trustee, or

exercising any trust or power conferred upon the Master Trustee under this Master Indenture;

(4) no provision of this Master Indenture shall require the Master Trustee to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers, if it shall have reasonable grounds for believing that repayment of such funds or adequate indemnity against such risk or liability is not reasonably assured to it; and

(5) the Master Trustee shall not be deemed to have knowledge of and shall not be required to take any action with respect to any Event of Default or any event which would, with the giving of notice or the passing of time or both, constitute an Event of Default, unless a Responsible Officer in the Corporate Trust Office of the Master Trustee shall have actual knowledge of such Event of Default or shall have been notified in writing of such event by any Obligated Group Member or by the Holder of an Obligation.

The Master Trustee will keep on file at its office a list of the names and addresses of the last known Holders of all Obligations. At reasonable times and under reasonable regulations established by the Master Trustee, said list may be inspected and copied by the Obligated Group Members, any Holder or the authorized representative thereof, provided that the ownership of such Holder and the authority of any such designated representative shall be evidenced to the satisfaction of the Master Trustee.

(d) Every provision of this Master Indenture relating to the conduct of, affecting the liability of or affording protection to the Master Trustee shall be subject to the provisions of this Section.

Section 5.02. Certain Rights of Master Trustee. Subject to Section 5.01:

(a) The Master Trustee may conclusively rely and shall be protected in acting or refraining from acting upon any document, including, without limitation, any opinion, request, written consent or certificate, believed by it to be genuine and to have been signed or presented by the proper party or parties.

(b) Any request or direction of the Obligated Group Representative mentioned herein shall be sufficiently evidenced by an Officer's Certificate. Any action of the Governing Body of any Obligated Group Member shall be sufficiently evidenced by a copy of a resolution certified by the secretary or an assistant secretary of the Obligated Group Member to have been duly adopted by the Governing Body and to be in full force and effect on the date of such certification and delivered to the Master Trustee.

(c) Whenever in the administration of this Master Indenture the Master Trustee shall deem it desirable that a matter be proved or established prior to taking, allowing or omitting any action hereunder, the Master Trustee may (in the absence of bad faith on its part and unless other evidence is specifically prescribed by this Master Indenture) request and conclusively rely upon an Officer's Certificate.

(d) The Master Trustee may consult with counsel of its selection, and any opinion of such counsel shall be full and complete authorization and protection with respect to any action taken, allowed or omitted by it hereunder in good faith and in reliance thereon.

(e) The Master Trustee shall be under no obligation to exercise any of the rights or powers vested in it by this Master Indenture at the request or direction of any of the Holders, unless such Holders shall have offered to the Master Trustee reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in compliance with such request or direction; provided, however, that no security or indemnity shall be required for the giving of notice of default pursuant to Section 4.13.

(f) The Master Trustee shall not be bound to make any investigation into the facts stated in any document delivered to it hereunder, but the Master Trustee, in its discretion, may make such further inquiry or investigation into such facts as it may see fit. If the Master Trustee determines to make such further inquiry or investigation, it shall be entitled to examine the books, records and premises of any Obligated Group Member (excluding specifically donor records, patient records and personnel records), personally or by agent or attorney, during regular business hours and after reasonable notice.

(g) The Master Trustee may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or through agents or attorneys. The Master Trustee shall not be responsible for any misconduct or negligence on the part of any agent or attorney appointed by it with due care.

(h) The Master Trustee shall not be liable for any action taken, suffered, or omitted to be taken by it in good faith and reasonably believed by it to be authorized or within the discretion or rights or powers conferred upon it by this Master Indenture.

(i) The Master Trustee shall not be deemed to have notice of any default or Event of Default unless a Responsible Officer of the Master Trustee has actual knowledge thereof or unless written notice of any event which is in fact such a default is received by the Master Trustee at the Corporate Trust Office of the Master Trustee, and such notice references this Master Indenture.

(j) The Master Trustee shall not be considered in breach of or in default in its obligations hereunder or progress in respect thereto in the event of enforced delay in the performance of such obligations due to unforeseeable causes arising out of or caused, directly or indirectly, by circumstances beyond its reasonable control and without its fault or negligence, including, but not limited to, acts of God, acts of the public enemy or terrorists, earthquakes, fires, floods, war, civil or military disturbances, sabotage, epidemics, quarantine restrictions, riots; interruptions, loss or malfunctions of utilities, computer (hardware or software) or communications service, accidents, labor disputes, acts of civil or military authority or governmental actions affecting the performance of its duties under this Master Indenture, it being understood that the Master Trustee shall use reasonable efforts which are consistent with accepted practices in the banking industry to resume performance as soon as practicable under the circumstances.

(k) The Master Trustee shall have no responsibility or liability with respect to any information, statements or recital in any offering memorandum or other disclosure material prepared or distributed with respect to the issuance of any Related Bonds.

Section 5.03. Right to Deal in Obligations and Related Bonds. The Master Trustee may buy, sell or hold and deal in any Obligations and Related Bonds with the same effect as if it were not the Master Trustee. The Master Trustee may commence or join in any action which a Holder or holder of a Related Bond is entitled to take with the same effect as if the Master Trustee were not the Master Trustee.

Section 5.04. Removal and Resignation of the Master Trustee.

(a) The Master Trustee may be removed at any time by an instrument or instruments in writing signed by (1) the Holders of not less than a majority of the principal amount of Outstanding Obligations or (2) (unless an Event of Default has occurred and is then continuing) the Obligated Group Representative.

(b) The Master Trustee may at any time resign by giving written notice of such resignation to the Obligated Group Representative.

(c) No such resignation or removal shall become effective unless and until a successor Master Trustee has been appointed and has assumed the trusts created hereby. Written notice of removal of the predecessor Master Trustee and/or appointment of the successor Master Trustee shall be given by the successor Master Trustee within ten (10) days of the successor's acceptance of appointment to the Obligated Group Members and to each Holder at the addresses shown on the books of the Master Trustee. A successor Master Trustee may be appointed at the direction of the Holders of not less than a majority in aggregate principal amount of Outstanding Obligations, or, if the Master Trustee has resigned or has been removed by the Obligated Group Representative, by the Obligated Group Representative. In the event a successor Master Trustee has not been appointed and qualified within sixty (60) days of the date notice of resignation or removal is given, the Master Trustee, any Obligated Group Member or any Holder may apply at the expense of the Obligated Group Members to any court of competent jurisdiction for the appointment of an interim successor Master Trustee to act until such time as a permanent successor is appointed.

(d) Unless otherwise ordered by a court or regulatory body having competent jurisdiction, or unless required by law, any successor Master Trustee shall be a national banking association in good standing under the laws of the United States of America or a trust company or bank having the powers of a trust company as to trusts, qualified to do and doing trust business in one or more states of the United States of America, and having an officially reported combined capital, surplus, undivided profits and reserves aggregating at least \$50,000,000, if there is such an institution willing, qualified and able to accept the trust upon reasonable or customary terms.

(e) Every successor Master Trustee shall execute and deliver to its predecessor and to each Obligated Group Member a written instrument accepting such appointment. Upon the delivery of such acceptance, the successor Master Trustee shall become fully vested with all the rights, immunities, powers, trusts, duties and obligations of its predecessor. The predecessor shall execute and deliver to the successor Master Trustee a written instrument transferring to the

successor Master Trustee all the rights, powers and trusts of the predecessor. The predecessor Master Trustee (upon payment of all amounts owed to it) shall execute any documents necessary or appropriate to convey all interest it may have to the successor Master Trustee. The predecessor Master Trustee shall promptly deliver all records relating to the trust or copies thereof and communicate all material information it may have obtained concerning the trust to the successor Master Trustee.

Section 5.05. Compensation and Reimbursement. Subject to the provisions of any specific agreement between the Obligated Group Representative and the Master Trustee relating to the compensation of the Master Trustee, each Obligated Group Member agrees:

(a) To pay the Master Trustee from time to time reasonable compensation for all services rendered by it hereunder (which compensation shall not be limited by any provision of law in regard to the compensation of a trustee of an express trust).

(b) Except as otherwise expressly provided herein, to reimburse the Master Trustee upon its request for all reasonable expenses, disbursements and advances incurred or made by the Master Trustee in accordance with any provision of this Master Indenture (including the reasonable compensation and the expenses and disbursements of its counsel and its agents), except any such expense, disbursement or advance as may be attributable to its negligence or willful misconduct.

(c) To indemnify each of the Master Trustee and any predecessor Master Trustee for, and to hold it harmless against, any and all loss, liability, damages, claim or expense, including legal fees and expenses and taxes (other than taxes based on the income of the Master Trustee), incurred without negligence or willful misconduct on its part, arising out of or in connection with the acceptance or administration of this trust or its duties hereunder, including the costs and expenses of defending itself against any claim or liability in connection with the exercise or performance of any of its powers or duties hereunder.

When the Master Trustee incurs expenses or renders services in connection with an Event of Default specified in Section 4.01(c) or Section 4.01(d), the expenses (including the reasonable charges and expenses of its counsel) and the compensation for the services are intended to constitute expenses of administration under any applicable federal or state bankruptcy, insolvency or other similar law.

The provisions of this Section shall survive the termination of this Master Indenture and the resignation or removal of the Master Trustee.

Section 5.06. Recitals and Representations. The recitals, statements and representations contained herein or in any Obligation (excluding the Master Trustee's authentication on the Obligations) shall be taken and construed as made by and on the part of the Obligated Group Members, and not by the Master Trustee. The Master Trustee assumes no responsibility for the correctness of such statements.

The Master Trustee makes no representation as to, and is not responsible for, the validity or sufficiency of this Master Indenture or of the Obligations. The Master Trustee shall not be concerned with or accountable to anyone for the use or application of any moneys which shall be

released or withdrawn in accordance with the provisions hereof. The Master Trustee shall have no duty of inquiry with respect to any Event of Default without actual knowledge of or receipt by the Master Trustee of written notice of an Event of Default from an Obligated Group Member or any Holder.

Section 5.07. Separate or Co-Master Trustee. At any time, for the purpose of meeting any legal requirements of any jurisdiction, the Master Trustee may appoint one or more Persons either to act as co-master trustee with the Master Trustee, or to act as separate master trustee, and to vest in such Persons or Persons, such rights, powers, duties, trusts or obligations as the Master Trustee may consider necessary or desirable, subject to the remaining provisions of this Section.

Every co-master trustee or separate master trustee shall, to the extent permitted by law, be appointed subject to the following terms:

- (a) The Obligations shall be authenticated and delivered solely by the Master Trustee.
- (b) All rights, powers, trusts, duties and obligations conferred or imposed upon the trustees shall be conferred or imposed upon and exercised or performed as shall be provided in the instrument appointing such co-master trustee or separate master trustee, except to the extent that, under the law of any jurisdiction in which any particular act or acts are to be performed, the Master Trustee is incompetent or unqualified to perform such act or acts, in which event such act or acts shall be performed by such co master trustee or separate master trustee.
- (c) Any request in writing by the Master Trustee to any co-master trustee or separate master trustee to take or to refrain from taking any action hereunder shall be sufficient for the taking, or the refraining from taking, of such action by such Person.
- (d) Any co-master trustee or separate master trustee may, to the extent permitted by law, delegate to the Master Trustee the exercise of any right, power, trust, duty or obligation, discretionary or otherwise.
- (e) The Master Trustee may at any time, by an instrument in writing, accept the resignation of or remove any co master trustee or separate master trustee appointed under this Section. Upon the request of the Master Trustee, the Obligated Group Members shall join with the Master Trustee in the execution, delivery and performance of all instruments and agreements necessary or proper to effectuate such resignation or removal.
- (f) No trustee hereunder shall be personally liable by reason of any act or omission of any other trustee hereunder, nor will the act or omission of any trustee hereunder be imputed to any other trustee.
- (g) Any demand, request, direction, appointment, removal, notice, consent, waiver or other action in writing delivered to the Master Trustee shall be deemed to have been delivered to each such co-master trustee or separate master trustee.

(h) Any moneys, papers, securities or other items of personal property received by any such co-master trustee or separate master trustee hereunder shall be turned over to the Master Trustee immediately.

Upon the acceptance in writing of such appointment by any co master trustee or separate master trustee, such Person shall be vested with such rights, powers, duties or obligations as are specified in the instrument of appointment jointly with the Master Trustee (except insofar as local law makes it necessary for any such co-master trustee or separate master trustee to act alone) subject to all the terms hereof. Every such acceptance shall be filed with the Master Trustee. To the extent permitted by law, any co-master trustee or separate master trustee may, at any time by an instrument in writing, constitute the Master Trustee its attorney-in-fact and agent, with full power and authority to do all acts and things and to exercise all discretion on its behalf and in its name.

In case any co-master trustee or separate master trustee shall become incapable of acting, resign or be removed, all rights, powers, trusts, duties and obligations of such Person shall, so far as permitted by law, vest in and be exercised by the Master Trustee unless and until a successor co-master trustee or separate master trustee shall be appointed in the manner herein provided.

Section 5.08. Merger or Consolidation. Any company into which the Master Trustee may be merged or converted, or with which it may be consolidated, or any company resulting from any merger, conversion or consolidation to which it is a party, or any company to which the Master Trustee may sell or transfer all or substantially all of its corporate trust business (provided such company is eligible under Section 5.04) shall be the successor to the Master Trustee without the execution or filing of any paper or any further act.

ARTICLE VI

SUPPLEMENTS AND AMENDMENTS

Section 6.01. Supplements Not Requiring Consent of Holders. The Obligated Group Representative (acting for itself and as agent for each Obligated Group Member) and the Master Trustee may, without the consent of or notice to any of the Holders, enter into one or more Related Supplements for any of the following purposes:

- (a) To correct any ambiguity or formal defect or omission in this Master Indenture;
- (b) To correct or supplement any provision which may be inconsistent with any other provision or to make any other provision with respect to matters or questions arising hereunder, which, in either case, does not materially and adversely affect the interests of the Holders;
- (c) To grant or confer ratably upon all of the Holders any additional benefits, rights, remedies, powers or authority, including, without limitation, the addition of provisions providing for the creation of a credit group which credit group shall consist of all Obligated Group Members and Persons designated as affiliates of Obligated Group Members, or to add to the covenants of and restrictions on the Obligated Group Members;

(d) To qualify this Master Indenture under the Trust Indenture Act of 1939, as amended, or corresponding provisions of federal law from time to time in effect;

(e) To create and provide for the issuance of an Obligation or Series of Obligations as permitted hereunder;

(f) To obligate a successor to any Obligated Group Member as provided in Section 3.10;

(g) To add a new Obligated Group Member as provided in Section 3.12; or

(h) To make any other change which does not materially and adversely affect the interests of the Holders.

Section 6.02. Supplements Requiring Consent of Holders.

(a) Other than Related Supplements referred to in Section 6.01 hereof and subject to the terms contained in this Article, the Holders of not less than a majority in aggregate principal amount of the Outstanding Obligations shall have the right to consent to and approve the execution by the Obligated Group Representative (acting for itself and as agent for each Obligated Group Member) and the Master Trustee of such Related Supplements as shall be deemed necessary or desirable for the purpose of modifying, altering, amending, adding to or rescinding any of the terms contained herein; provided, however, with respect to any Obligation issued on or after the date of effectiveness of this Master Indenture set forth in Section 8.10, registered in the name of a Related Bond Trustee and securing a Related Series of Bonds, payment of the principal of and interest on which is insured or otherwise guaranteed by a municipal bond insurance policy or is secured by a letter of credit, the provider of such municipal bond insurance or letter of credit shall be deemed to be the Holder of such Obligation for purposes of consenting to and approving the execution of Related Supplements for purposes of this Section 6.02, subject to the provisions set forth in Section 8.04 and as except as otherwise provided in the applicable Related Supplement or Obligation; and provided, further, however, that nothing in this Section shall permit or be construed as permitting a Related Supplement which would:

(i) extend the stated maturity of, or time for paying interest on, any Obligation or reduce the principal amount of or the redemption premium or rate of interest or change the method of calculating interest payable on, or reduce any other Required Payment on any Obligation without the consent of the Holder of such Obligation;

(ii) modify, alter, amend, add to or rescind any of the terms or provisions contained in Article IV hereof so as to affect the right of the Holders of any Obligations in default as to payment to compel the Master Trustee to declare the principal of all Obligations to be due and payable, without the consent of the Holders of all Obligations then Outstanding; or

(iii) reduce the aggregate principal amount of Obligations then Outstanding the consent of the Holders of which is required to authorize such Related Supplement, without the consent of the Holders of all Obligations then Outstanding.

(b) The Master Trustee may execute a Related Supplement (in substantially the form delivered to it as described below) without liability or responsibility to any Holder (whether or not such Holder has consented to the execution of such Related Supplement) if the Master Trustee receives: (i) a Request of the Obligated Group Representative to enter into such Related Supplement; (ii) a certified copy of the resolution of the Governing Body of the Obligated Group Representative approving the execution of such Related Supplement; (iii) the proposed Related Supplement; and (iv) an instrument or instruments executed by the Holders of not less than the aggregate principal amount or number of Obligations specified in subsection (a) for the Related Supplement in question which instrument or instruments shall refer to the proposed Related Supplement and shall specifically consent to and approve the execution thereof in substantially the form of the copy thereof as on file with the Master Trustee.

(c) Any such consent shall be binding upon the Holder of the Obligation giving such consent and upon any subsequent Holder of such Obligation and of any Obligation issued in exchange therefor (whether or not such subsequent Holder thereof has notice thereof), unless such consent is revoked in writing by the Holder of such Obligation giving such consent or by a subsequent Holder thereof by filing with the Master Trustee, prior to the execution by the Master Trustee of such Related Supplement, such revocation and, if such Obligation or Obligations are transferable by delivery, proof that such Obligations are held by the signer of such revocation. At any time after the Holders of the required principal amount or number of Obligations shall have filed their consents to the Related Supplement, the Master Trustee shall file a written statement to that effect with the Obligated Group Representative. Such written statement shall be conclusive evidence that such consents have been so filed.

(d) If the Holders of the required principal amount or number of the Outstanding Obligations have consented to the execution of such Related Supplement, no Holder shall have any right to object to the execution thereof, to object to any of the terms and provisions contained therein or the operation thereof, to question the propriety of the execution thereof or to enjoin or restrain the Master Trustee or the Obligated Group Representative from executing such Related Supplement or from taking any action pursuant to the provisions thereof.

Section 6.03. Execution and Effect of Supplements.

(a) In executing any Related Supplement permitted by this Article, the Master Trustee shall be entitled to receive and to rely upon an Opinion of Counsel stating that the execution of such Related Supplement is authorized or permitted hereby. The Master Trustee may (but shall not be obligated to) enter into any Related Supplement that materially and adversely affects the Master Trustee's own rights, duties or immunities.

(b) Upon the execution and delivery of any Related Supplement in accordance with this Article, the provisions of this Master Indenture shall be deemed modified in accordance therewith. Such Related Supplement shall form a part hereof for all purposes and every Holder shall be bound thereby.

(c) Any Obligation authenticated and delivered after the execution and delivery of any Related Supplement in accordance with this Article may, and, if required by the Obligated Group

Representative or the Master Trustee shall, bear a notation in form approved by the Master Trustee as to any matter provided for in such Related Supplement. If the Obligated Group Representative or the Master Trustee shall so determine, new Obligations so modified as to conform in the opinion of the Master Trustee and the Governing Body of the Obligated Group Representative to any such Related Supplement may be prepared and executed by the Obligated Group Representative and authenticated and delivered by the Master Trustee in exchange for and upon surrender of Obligations then Outstanding.

Section 6.04. Amendment of Related Supplements. Any Related Supplement may provide that the provisions thereof may be amended without the consent of or notice to any of the Holders, or pursuant to such terms and conditions as may be specified in such Related Supplement. If a Related Supplement does not contain provisions relating to the amendment thereof, the amendment of such Related Supplement shall be governed by the provisions of Section 6.01 and Section 6.02 hereof.

ARTICLE VII

SATISFACTION AND DISCHARGE

Section 7.01. Satisfaction and Discharge of Master Indenture. This Master Indenture shall cease to be of further effect if:

(a) all Obligations previously authenticated (other than any Obligations which have been mutilated, destroyed, lost or stolen and which have been replaced or paid as provided in any Related Supplement) and not cancelled are delivered to the Master Trustee for cancellation; or

(b) all Obligations not previously cancelled or delivered to the Master Trustee for cancellation are paid; or

(c) a deposit is made in trust with the Master Trustee (or with one or more national banking associations or trust companies acceptable to the Master Trustee pursuant to an agreement between an Obligated Group Member and such national banking associations or trust companies in form acceptable to the Master Trustee) in cash or Government Obligations or both, sufficient to pay at maturity or upon redemption all Obligations not previously cancelled or delivered to the Master Trustee for cancellation, including principal and interest or other payments (including Financial Product Payments and Financial Product Extraordinary Payments) due or to become due to such date of maturity, redemption date or payment date, as the case may be; and all other sums payable hereunder by the Obligated Group Members are also paid. The Master Trustee, on demand of the Obligated Group Representative and at the cost and expense of the Obligated Group Members, shall execute proper instruments acknowledging satisfaction of and discharging this Master Indenture and authorizing the Obligated Group Representative to file such terminations and releases as may be necessary to evidence the termination of the Master Trustee's security interest in the Gross Receivables. Unless the deposit pursuant to clause (c) above is made solely with cash, the Master Trustee may request that the Obligated Group Representative provide a report prepared by an accountant or other financial services firm regarding the sufficiency of the funds for such discharge and satisfaction provided pursuant to clause (c) above (such report being

hereinafter referred to as a "Verification Report"). If the Master Trustee shall have been provided with a Verification Report, the Master Trustee shall be entitled to rely upon such Verification Report.

The Obligated Group Members shall pay and indemnify the Master Trustee against any tax, fee or other charge imposed on or assessed against the Government Obligations deposited pursuant to this Section 7.01 or the principal and interest received in respect thereof other than any such tax, fee or other charge which by law is for the account of the Holders of Outstanding Obligations.

Notwithstanding the satisfaction and discharge of this Master Indenture, the obligations of the Obligated Group Members to the Master Trustee under Section 5.05 hereof shall survive.

Section 7.02. Payment of Obligations After Discharge of Lien. Notwithstanding the discharge of the lien of this Master Indenture as provided in this Article, the Master Trustee shall retain such rights, powers and duties as may be necessary and convenient for the payment of amounts due or to become due on the Obligations and for the registration, transfer, exchange and replacement of Obligations. Any moneys held by the Master Trustee for the payment of the principal of, premium, if any, or interest or other Required Payment on any Obligation remaining unclaimed for one year after the principal of all Obligations has become due and payable, whether at maturity, upon proceedings for redemption or by declaration as provided herein, shall then be paid to the Obligated Group Members. The Holders of any Obligations not previously presented for payment shall thereafter be entitled to look only to the Obligated Group Members for payment thereof as unsecured creditors and all liability of the Master Trustee with respect to such moneys shall thereupon cease.

ARTICLE VIII

MISCELLANEOUS PROVISIONS

Section 8.01. Limitation of Rights. With the exception of rights herein expressly conferred, nothing expressed or mentioned in or to be implied from this Master Indenture or the Obligations is intended or shall be construed to give to any Person other than each Obligated Group Member, the Master Trustee, the Related Bonds Issuers and the Holders any legal or equitable right, remedy or claim under or with respect to this Master Indenture. This Master Indenture and all of the covenants, conditions and provisions hereof are intended to be and are for the sole and exclusive benefit of the parties mentioned in this Section.

Section 8.02. Severability. If any part of this Master Indenture is for any reason held invalid or unenforceable, no other part shall be invalidated or deemed unenforceable.

Section 8.03. Holidays. Except to the extent a Related Supplement or an Obligation provides otherwise:

(a) Subject to subsection (b), when any action is provided herein to be done on a day or within a time period named, and the day or the last day of the period falls on a day on which banking institutions in the jurisdiction where the Corporate Trust Office is located are authorized

by law to remain closed, the action may be done on the next ensuing day that is not a day on which banking institutions in such jurisdiction are authorized by law to remain closed, with the same effect as if done on the day or within the time period named.

(b) When the date on which principal of or interest or premium on any Obligation is due and payable is a day on which banking institutions at the place of payment are authorized by law to remain closed, payment may be made on the next ensuing day on which banking institutions at such place are not authorized by law to remain closed with the same effect as if payment were made on the due date, and, if such payment is made, no interest shall accrue from and after such due date.

Section 8.04. Credit Enhancer Deemed Holder of Obligation. Except to the extent a Related Supplement or an Obligation provides otherwise, any credit enhancer of Related Bonds shall be deemed the Holder of the related Obligation for purposes of this Master Indenture for so long as the credit enhancement is in effect and the credit enhancer is not in default thereunder. If the credit enhancement is applicable to a portion of Related Bonds, such Related Obligation shall be treated as if such Related Obligation were two Obligations, one in the principal amount of the Related Bonds for which the credit enhancement is applicable and another in the principal amount of the remainder of the Related Bonds.

Section 8.05. Governing Law. This Master Indenture and the Obligations are contracts made under the laws of the State of California, and shall be governed by and construed in accordance with such laws applicable to contracts made and performed in said State.

Section 8.06. Counterparts. This Master Indenture may be executed in several counterparts, each of which shall be an original and all of which shall constitute one instrument.

Section 8.07. Immunity of Individuals. No recourse shall be had for the payment of the principal of, premium, if any, or interest on any of the Obligations issued hereunder or for any claim based thereon or upon any obligation, covenant or agreement herein against any past, present or future officer, director, trustee, member, employee or agent of any Obligated Group Member which is a corporation, whether directly or indirectly. All liability of any such individual is hereby expressly waived and released as a condition of and in consideration for the execution hereof and the issuance of the Obligations.

Section 8.08. Binding Effect. This instrument shall inure to the benefit of and shall be binding upon each Obligated Group Member, the Master Trustee and their respective successors and assigns, subject to the limitations contained herein.

Section 8.09. Notices.

(a) Unless otherwise expressly specified or permitted by the terms hereof, all notices, consents or other communications required or permitted hereunder shall be in writing and shall be deemed sufficiently given or served if given: (i) by facsimile or electronic mail with prompt telephonic confirmation of receipt; (ii) personally by hand; (iii) by overnight delivery service; or (iv) by first class mail, postage prepaid and addressed as follows:

(1) If to the Obligated Group Representative, addressed to it at 300 Pasteur Drive, M/C 5554, Stanford, California 94305, Attention: Chief Financial Officer;

(2) If to the Master Trustee, addressed to it at the Corporate Trust Office; or

(3) If to the registered Holder of an Obligation, addressed to such Holder at the address shown on the books of the Master Trustee.

(b) The Obligated Group Representative or the Master Trustee may from time to time designate a different address or addresses for notice by notice in writing to the others and to the Holders.

Section 8.10. Effectiveness. Amendment and Restatement of the Existing Master Indenture as set forth in this Master Indenture shall take effect on ____ __, ____.
