Our oculoplastic surgeons are leaders in their field of cosmetic surgery for the eyelids and face. After comprehensive training in ophthalmic microsurgery, our surgeons completed additional training in plastic surgery in order to provide patients with the best possible aesthetic outcomes for the eyelids, eyebrows, cheeks and face while preserving and often enhancing visual function.

COSMETIC PROCEDURES

- Cosmetic eyelid surgery
- Eyelid lift (blepharoplasty)
- Lower lid blepharoplasty (bag removal)
- Droopy eyelid surgery (ptosis repair)
- Double eyelid surgery
- Eyelid tightening
- Brow lift
- Forehead lift
- Midface lift (cheek lift)
- Cheek implant
- Facial and eyelid fat grafting/transfer
- Eyelid lesion removal
- Scar revision
- Injectable facial fillers (Voluma, Juvaderm, Restylane, Belotero, Radiesse)
- Lip augmentation
- Eyelid tear trough and dark circle treatment
- Wrinkle reducer (Botox, Xeomin)
- Latisse (eyelash growth stimulation)
- Kybella (neck and chin fat removal)
- Non-surgical cosmetic procedures around the eyes

Stanford Health Care has multiple clinics that offer patients access to elective cosmetic treatments performed by Stanford Health Care experts. From laser skin treatments and cosmetic fillers to breast augmentation, facelifts and mommy make-overs, our highly trained doctors listen to your cosmetic goals and discuss how we can achieve the best outcome for you.

Call us at one of our clinics to make an appointment for your first consultation.
