

Parenting at a Challenging Time: Help for parents with cancer

Cancer Supportive Care Program

This talk will review children and teen's understanding of illness from a developmental perspective and address rationale and approaches for talking with kids about a parent's illness, treatment, and prognosis. The presentation will be based on the Parenting at A Challenging Time program developed in Boston by child development experts with the express goal of improving parent-child communication and promoting resilience when a parent is ill.

Registration required.
