

Healing Touch

Cancer Supportive Care Program

Healing Touch

Healing Touch is a holistic energy therapy that supports healing on physical, emotional, mental, and spiritual levels. Practitioners use light touch to balance, clear, and energize the human energy field so that an individual's immune system can better support self healing.

Healing Touch complements traditional cancer therapy and can support a reduction of anxiety, depression, fatigue and nausea, lymphedema and neuropathy.

Appointments are available at

- Hoover Pavilion
- Cancer Center South Bay

If you have never experienced a Healing Touch session and want to discover the benefits call 650-725-9456.

The Stanford Supportive Care Program provides free classes, workshops, fitness classes, services, and support to all neuroscience patients regardless of where they receive their care.

Current as of 3/2020
