

Live Fully with MS

Neuroscience Supportive Care Program

This group discussion seeks to explore, learn, and grow from talking all about the “MS in the room”. You’re invited to come connect with others living with MS, in a friendly environment, where we share, discuss, and support each other’s efforts to manage our health and wellness. Guest speakers for some of the meetings include Stanford medical professionals and MS community resources. Join us, as we strategize how to live fully and live well with MS.

Walk-ins welcome.

-
