

Creating a Healing Environment: From Designing Space to Delivering Care

Keynote Speakers:

- Rafael Vinoly** MA, Fellow, AIA, Principal of Rafael Vinoly Architects; Lead Architect for the Stanford Health Care expansion.
- Robin Guenther** FAIA LEED Fellow, Principal, Perkins+Will; Project Director for the Lucile Packard Children's Hospital expansion.
- George Tingwald** MD, AIA, Director of Medical Planning, Stanford Health Care.
- Guest Speaker:**
Teri Oelrich RN, BSN, MBA, Partner, NBBJ, Health Care Planning.

CALL FOR ABSTRACTS

We cordially invite you to submit abstracts that explore how healthcare environments contribute to improved healing. This symposium provides an excellent opportunity to showcase your research, evidence-based practice project or quality improvement project that focuses on transforming the healthcare environment to optimize the patient care experience and improve health outcomes. Examples of work may include noise reduction, workflow redesign, clear way finding, collaborative meeting areas, soft lighting, stress reducing spaces, navigation systems, and the growth of transitional environments such as the home and community. As organizations strive to improve the patient care experience and health outcomes while reducing costs, an understanding of how hospital and home environments contribute to overall health, has never been more timely.

Key Dates

Abstract Submission Deadline	January 23, 2017
Notification to Presenters	February 23, 2017
Symposium	June 2, 2017

Abstract Submission Process

- Abstracts must be submitted no later than 5pm on January 23, 2017.
- References are not required but may be included.
- A maximum of 500 words excluding title will be accepted.
- Include one learning objective for your presentation.
- Include a copy of your updated curriculum vitae.

Clinical Research Report Abstract Format

Title	Typed in bold, upper and lower case. State clearly the nature of the study.
Author	Do not include author details in the abstract to allow for blind reviewing.
Background	Brief statement on significance and current state of the problem.
Aim	One sentence statement of the study's specific objective.
Methods	A brief statement of the methods used for this project.
Results	A summary of the results obtained.
Conclusion	A statement of the conclusions. Project must be in progress or completed. Preliminary results must be described in the Abstract.

Creating a Healing Environment: From Designing Space to Delivering Care

ABSTRACT SUBMISSION FORM

Abstracts must be submitted no later than 5pm on January 23, 2017. Podium and poster presenters will be notified by February 23, 2017.

abstract information

Abstract Title _____

Presenter (include credentials) _____

Other Authors _____

Organization (where you work) _____

Job Title _____

contact author or project representative: Name listed must be one of the presenter(s) listed above.

Name _____

Address _____

Email _____

Work Phone (____) ____ - ____ ext _____

Home Phone (____) ____ - ____ ext _____

Other Phone (____) ____ - ____ ext _____

type of abstract

- Research Study
 Quality Improvement Project
 Evidence Based Practice Project
 Other: _____

preferred method of presentation

- Podium
 Poster
 No Preference

Please send your abstracts by 5pm on January 23, 2017 electronically to:
nursingsymposium@stanfordchildrens.org

Your questions and requests for more information can also be addressed to the above email address. Please go to orpcs.org/nursing-research-symposium/ for more information.
