Well Being Committee

Stanford Health Care(SHC) and Lucile Packard Children's Hospital (LPCH) Health and Well Being Committee focuses on the matter of the impaired physician and physician-in-training in the Hospital. The Medical Staff will establish and monitor the efforts of a Confidential Peer Review Body with responsibility for dealing directly and confidentially with patient safety and impaired physicians and physicians in training.

Well Being Review Process

- Review information from referral sources (self-referrals, colleague referrals, Supervisor/Medical Board referrals) that concerns the well-being of physicians and physicians-in-training.
- Meet with the individual whom the Committee is attempting to help.
- Determine if a problem exists and, if so, the nature of the problem.
- Develop a plan with the physician or physician-in-training to address the problem. This plan may include a number of treatment options.
- Formalize that plan into a contract between the Committee and the individual.
- Monitor the treatment progress of the individual.
- If the individual either refuses to follow the recommended plan or fails to comply with its terms, transmit that information to the Chief of Staff/President of the Medical Staff.
