<p>Name of Policy: Communicable Disease Screening for Medical Staff</p>	<p>Page 1 of 6</p>
<p>Departments Affected: All Medical Staff</p>	

I. PURPOSE

To ensure a safe hospital environment for patients, personnel, and visitors, and to reduce the rate of hospital-associated infections.

II. POLICY STATEMENT

Stanford Health Care (SHC), Stanford Health Care-Valley Care (SHC-VC) and Lucile Packard Children’s Hospital Stanford (LPCHS) support a strong infection control program. All Medical Staff must comply with the following communicable disease screening and/or immunization requirements. These requirements are regulated by hospital policy, by the Santa Clara County Health Department or Alameda County Department of Public Health, by the State of California Department of Health (title 22), and by The Joint Commission:

- Tuberculosis (TB) screening (annual requirement)
- Chest x-ray within the last 3 months for new staff if a history of positive TB test or if newly positive TB screening result
- Influenza (seasonal)
- Measles
- Mumps
- Rubella
- Varicella
- Hepatitis B
- Tdap
- N95 respirator fit testing (annual requirement)
- COVID 19 Vaccination (See Section IV)

Medical Staff are required to undergo annual TB screening and N95 respirator fit testing. TB screening includes an annual Symptom Review questionnaire and, if applicable, QuantiFERON testing. Skin testing from outside facilities is accepted. N95 respirator testing requires completion of a respiratory questionnaire, a fit test with the N95 respirator, and/or Controlled Air Purifying Respirator (CAPR) certificate of completion (excluding SHC-VC).

III. PROCESS

1. New Applicants:

This policy applies to: <input checked="" type="checkbox"/> <i>Stanford Health Care (SHC)</i> <input checked="" type="checkbox"/> <i>Lucile Packard Children’s Hospital/Stanford Children’s Health (LPCHS)</i> <input checked="" type="checkbox"/> <i>Stanford Health-Valley Care (SHC-VC)</i>	Last Revision: August 2021
Name of Policy: Communicable Disease Screening for Medical Staff	Page 2 of 6
Departments Affected: All Medical Staff	

- a. Tuberculosis
 - i. New applicants to the Medical Staff are required to complete tuberculin skin testing (TST) or QuantiFERON assay within 90 days of appointment date.
 - ii. Failure to submit documentation of current TST or QuantiFERON test will deem an application incomplete.
 - iii. Occupation Health Services (OHS) will provide, at no charge, TB testing to new applicants in order to complete their application.
 - iv. Applicants may provide documentation of TB testing if completed in past 90 days. (See 1.e.1. below for more detail.)
 - v. Medical Staff applicants with a positive TST or QuantiFERON test must either have a chest x-ray completed or provide valid documentation of a chest x-ray completed within 90 days of appointment date.
 - vi. A 2-step TST is required if prior TB testing is greater than 365 days old. At SHC-VC, one TB test can be within 1 year and one with 90-days.
 - b. Immunity to Communicable Diseases
 - i. New applicants must provide documentation of immunity or vaccination to Measles, Mumps, Rubella, Hepatitis B, Diphtheria, Pertussis, Tetanus and Varicella. SHC-VC offers the Tdap vaccine if the provider has not had it. The provider can also sign a declination form at SHC-VC. OHS will obtain titers on a new applicant if documentation is not available.
 - ii. SHC-VC: MMR (measles, mumps, rubella) requirement is 2 vaccines or positive titers, varicella requirement is 2 vaccines or positive titers, Hep B is three vaccines and a positive titer.
2. Current Medical Staff/Advanced Practice Provider Requirements:
- a. Immunity to communicable diseases is required for all Medical Staff and APPs. Proof of immunity with medical documentation of vaccination for Measles, Mumps, Rubella, Varicella, Hepatitis B, Diphtheria, Pertussis, Tetanus and COVID-19 is required to maintain active privileges.
 - b. If vaccine documentation or titers are not available, titers will be drawn by OHS (this does not include COVID-19 or Tdap). Non-immune individuals must be vaccinated.

<p>Departments Affected: All Medical Staff</p>	

IV. ANNUAL REQUIREMENTS

Tuberculosis:

1. Annual TB screening is required for all Medical Staff members and APPs based on appointment date. This includes both the questionnaire and TB testing.
 - a. This requirement can be completed in OHS. Medical Staff members and APPs who receive annual TB tests elsewhere may forward results to OHS for inclusion in their medical file.
 - b. Medical Staff members will be required to complete the TB questionnaire. Questionnaires from other institutions will be accepted.
 - c. Medical Staff members/APPs with a positive TST or QuantiFERON must have either a chest x-ray or provide valid documentation of chest x-ray completion within the past 90 days. SHC-VC requires anyone with a positive TB test to complete a questionnaire.
 - d. In cases where there is discordance between TST and QuantiFERON test results, the Medical Staff member will undergo a risk assessment by OHS staff.
 - e. Medical Staff members who receive annual TB tests elsewhere may forward results to OHS for inclusion in their medical file. The Medical Staff member will be required to complete the TB questionnaire. Questionnaires from other institutions will be accepted.
2. Suspension for Non-Compliance:
 - a. OHS will notify the Medical Staff member/APP one month prior to due date for TB test completion (except at SHC-VC). If non-compliant by due date, a suspension warning will be issued by OHS at SHC and LPCH stating the provider has one week to complete this requirement. If non-compliant one week after the due date, suspension will occur the following day.
 - b. OHS will notify the Medical Staff Office at suspension deadline to suspend privileges and when suspension can be lifted (except at SHC-VC).
 - c. Suspensions for up to 90 days will be considered voluntary resignation as per the Medical Staff Bylaws. (APPs reference Human Resource Policy.)

N95 Respirator Fit Testing:

1. Annual N95 respirator fit testing is required for all Medical Staff members and APPs.

<p>This policy applies to: <input checked="" type="checkbox"/> <i>Stanford Health Care (SHC)</i> <input checked="" type="checkbox"/> <i>Lucile Packard Children’s Hospital/Stanford Children’s Health (LPCHS)</i> <input checked="" type="checkbox"/> <i>Stanford Health-Valley Care (SHC-VC)</i></p>	<p>Last Revision: August 2021</p>
<p>Name of Policy: Communicable Disease Screening for Medical Staff</p>	<p>Page 4 of 6</p>
<p>Departments Affected: All Medical Staff</p>	

2. Annual respiratory questionnaire will be provided during the TB screening. Fit testing with an N95 respirator will be completed. Documentation of completion at an outside facility will be accepted.
3. Those who fail N95 respirator fit testing and those who need to perform high hazard procedures will be trained for CAPR (CAPR training is not offered at SHC-VC).
 - a. Healthstream training for CAPR must be completed prior to CAPR training.
4. Non-compliant providers will be suspended as outlined in 2.c. above (except at SHC-VC).

Influenza:

1. Seasonal influenza immunization is required for all Medical Staff and APPs.
2. Vaccination will be offered by OHS. Medical Staff members and APPs who receive influenza vaccine elsewhere may forward documentation to OHS for inclusion in their medical file.
3. Exemptions: It is the responsibility of the Medical Staff member or APP to notify OHS of a documented exemption to seasonal influenza vaccination or sign a declination form at SHC-VC. During the flu season, all unvaccinated Medical Staff must wear a mask in patient care areas in accordance with the Santa Clara County/Alameda County per policy mandate.
4. Suspension for Non-Compliance:
 - a. If a Medical Staff member or APP has not 1) received the influenza vaccine at OHS or 2) provided documentation of receipt elsewhere or 3) provided documentation of an exemption (or for SHC-VC a signed declination form) by the due date on notifications from OHS, privileges and EHR access will be suspended until requirements are completed.
 - b. OHS will notify the Medical Staff Office of non-compliant individuals on the suspension due date and when compliance has been completed to lift suspension (except at SHC-VC).

Covid Vaccinations

It is the policy of the SHC, LPCH, and SHC-VC Medical Staffs that all applicants, members, and APPs must be vaccinated against Covid 19. Specific requirements are:

<p>This policy applies to: <input checked="" type="checkbox"/> <i>Stanford Health Care (SHC)</i> <input checked="" type="checkbox"/> <i>Lucile Packard Children’s Hospital/Stanford Children’s Health (LPCHS)</i> <input checked="" type="checkbox"/> <i>Stanford Health-Valley Care (SHC-VC)</i></p>	<p>Last Revision: August 2021</p>
<p>Name of Policy: Communicable Disease Screening for Medical Staff</p>	<p>Page 5 of 6</p>
<p>Departments Affected: All Medical Staff</p>	

1. All applicants must provide proof of vaccination or an exemption under the SHC/LPCH/SHC-VC healthcare policies. Applications will not be processed until this condition is met.
2. Members and credentialed APPs must provide proof of vaccination or an exemption under SHC/LPCH/SHC-VC healthcare policies.
3. Members and APPs not meeting the requirements of 2, above, will, after reasonable advance notice, have all clinical privileges suspended in accordance with Section 6.7.L (SHC), 6.7 K. (LPCH), or 7.3.6(c) (SHC-VC) of the Medical Staff Bylaws.
4. Suspensions will be considered automatic and deemed a resignation after a period of time in accordance with each site’s by-laws – Section 6.7 (SHC), 6.7 (LPCH) and 7.3.9 (SHC-VC). Practitioners so resigned may reapply as new applicants after meeting these Covid 19 vaccination requirements.
