I. PURPOSE

In accordance with the Medical Staff Bylaws and on authority of the Stanford Health Care and Lucile Packard Children’s Hospital Stanford Board of Directors, the Chief of Staff/Medical Staff President/VPMA, as designee of the President and CEO, may, with the written approval of the appropriate Service/Division Chief (who will designate proctors if appropriate), grant temporary privileges to a qualified practitioner under the circumstances and subject to the conditions stated below.

Pendency of Application:

There will be one (1) Application for Membership to Stanford Health Care (SHC) and Lucile Packard Children’s Hospital Stanford (LPCHS). Each application will indicate by the practitioner if the applicant is applying for membership at SHC, LPCHS or both. Only after the application is deemed 100% complete and there are no issues or actions relative to licensure or privileges found in the verifications, an applicant may be granted Temporary Privileges for an initial period of one hundred twenty days (120) days while his/her application is waiting for approval by the governing body. An applicant whose temporary privileges expire shall not, as a result, be entitled to the procedural rights under the Medical Staff Bylaws.

II. STIPULATIONS

- A. There is no right to temporary privileges by virtue of meeting the Medical Staff membership criteria, and temporary privileges shall not be granted unless the available information supports, with reasonable certainty, a favorable determination regarding the requesting practitioner’s qualifications, ability, and judgment to exercise the privileges requested. If the available information is inconsistent or casts doubts on the applicant’s qualifications, action on the request for temporary privileges may be deferred until the doubts have been satisfactorily resolved.
- B. A determination to grant temporary privileges shall not be binding or conclusive with respect to an applicant’s pending request for appointment to the Medical Staff.
