During January of 2021, unit K7 was re-opened as a mobile Acute Care for Elders (ACE) unit. Acute Care for Elders units are specialized inpatient centers that promote healing and prevent hospitalization complications in acutely ill older adults. Over the past year, K7 nurses and interprofessionals led by Ann Mitchell, RN, CNS, Nannette Storr-Street, RN, AGCNS-BC, Ankur Bharija, MD, Matthew Mesias, MD, Marina Martin, MD, and Sandy Chan, LCSW, APHSW-C, supported by the Stanford Geriatric Medicine Service, PCS Professional Practice, and SHC's membership in the Nurses Improving Care for Health-system Elders (NICHE) organization spent over 700 hours in education and training designed to optimize hospitalized older adults' care.
