Defining Palliative Care and Dispelling Myths
Presenter: Christine Ritzo, RN, BSN
Clinical Outreach Nurse
Mission Hospice and Home Care

Palliative care is holistic symptom management for those faced with a life limiting illness. It focuses on treatment for the mind, body and soul. One of the most common myths is that when palliative support is suggested it means you will die soon. This is often far from actuality, especially if curative treatments are still an option.

Addressing Malnutrition During and Beyond Cancer Treatment
Presenter: Neha D. Shah MPH, RD, CNSC, CHES
Astrid Shapiro, MS, RD, CSO
Erika Connor, RD, CSO

Protein-calorie malnutrition can arise during cancer treatment when an individual is eating much less from the diet and has lost an excess amount of weight. Malnutrition can make an impact on how the individual may tolerate cancer treatment and how it can impact healing and recovery. This seminar will cover what malnutrition is, how it can arise during cancer treatment, the consequences, and treatment options to help reduce malnutrition.

Chair Reiki

Chair Reiki sessions help you relax, reduce stress or discomfort, and decrease pain. In this technique, while sitting in a chair, the Reiki practitioner either gently puts his/her hands on your shoulders, head and upper parts of the body, or holds their hands slightly above your body in various positions to help your energy flow more easily. Reiki is very relaxing and often promotes a sense of peace and well-being.

Every Monday and Wednesday

The Stanford Storybank

Created in Partnership with StoryCorps

Everyone has a story. Storytelling emphasizes our shared humanity and deepens one’s understanding of self and others. StoryCorps stories are a 40-minute conversation audio-recorded between two people. Stories can be archived in the US library of Congress in Washington, DC as part of the oral history project.

The Stanford Storybank creates space for patients, families, and staff at Stanford Health Care to share their experiences, providing an opportunity for all to learn, connect, heal and inspire.

To share your story or ask questions about this project, email cicare@stanfordhealthcare.org.
