NEW! The Stanford Storybank
Created in Partnership with StoryCorps

Everyone has a story. Storytelling emphasizes our shared humanity and deepens understanding of self and others. The Stanford Storybank creates space for patients, families and staff at Stanford Health Care to share their experiences, providing an opportunity for all to learn, connect, heal and inspire. StoryCorps story is an audio-recorded 40-minute conversation between two people. Stories can be archived in the US library of Congress in Washington, DC as part of the oral history project. Interested in sharing your story?
