ADULT PROXY ACCESS REQUEST FORM

You must submit this form in person to a clinic at Stanford Health Care or University Health Care Alliance/Menlo Medical Clinic. Photo ID will be verified upon submission.

Authorization For Use Or Disclosure Of Health Information

Patient information is confidential and is protected by law. You have access to your own health information in MyHealth (Stanford Health Care patient portal that allows secure access to health information) and Bedside (Stanford Health Care patient portal that allows secure access to health information during hospital care), and if you choose, you may authorize a Proxy to have access also such as a family member or friend. If you authorize Proxy access, the Proxy will see all your health information available in MyHealth and Bedside, including details of your care, diagnoses, medications, lab results, caregivers' notes and observations, your emails with your caregivers and other personal information about you and your care available in MyHealth and Bedside.

Please print clearly and complete all blanks to ensure timely processing.

Request for Online Access to Medical Information for an Adult Patient (18+ yrs)

This authorization gives your Proxy access to your MyHealth and/or Bedside record. It does not allow your Proxy to (1) make health care decisions on your behalf, or (2) access your health information other than via MyHealth and Bedside. If you wish to permit other access or decision making authority, please contact the SHC Health Information Management Services (HIMS) department at (650) 723-5721.

Giving a Proxy access to your MyHealth and/or Bedside information is your voluntary choice. If you choose not to authorize a Proxy, it will not affect your ability to obtain treatment, payment or eligibility for benefits. If you prefer to give an individual only select health information about you instead of all your health information available in MyHealth or Bedside, then please contact the HIMS department for assistance at (650) 723-5721.
